

HIGH-SPEED RAIL

American Pioneer 220

High-Speed Rail in America
The Siemens Mobility American Pioneer 220 trainsets will transform the way Americans travel. At operational speeds of 220 mph, the trainset would be the first true high-speed train in America.

The innovative technology features include:
- Designed for operational speeds of up to 220 mph
- Effortlessly climbing the steepest grades due to distributed traction
- 30% more energy efficient than other high-speed trains
- Ultrawide carbody with wide aisles for end-to-end accessibility

A True American Pioneer
Made in America and meeting Buy America requirements, the American Pioneer 220 is the most modern high-speed train on the market, designed to meet the needs of a U.S. high-speed rail network. Siemens Mobility brings more than two billion miles of experience across its more than 1,000 high-speed trains, putting the needs of 21st century American travelers top-of-mind. The American Pioneer 220 adds next-generation digital technologies, unmatched passenger experience, and safety features to meet FRA requirements. It's a technology built to transform the everyday – the American Pioneer 220 will transform how Americans travel.

Fast Facts

Speeds of up to 220 mph
ADA compliant, wide aisles
30% more energy efficient
