

Operations Management Suite Manufacturing & Process Industries

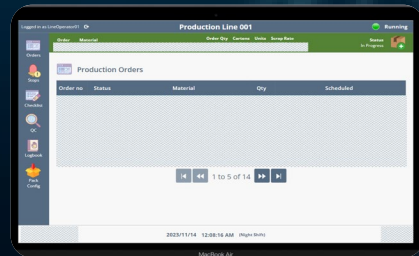

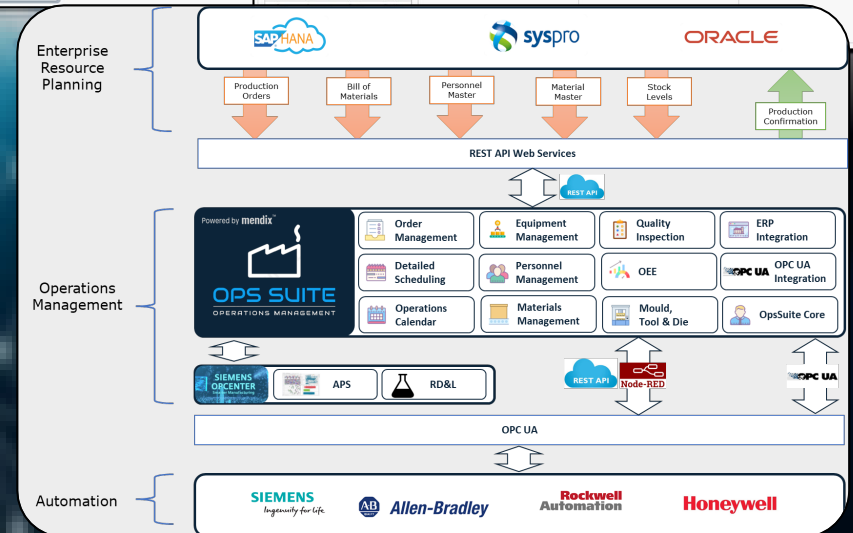

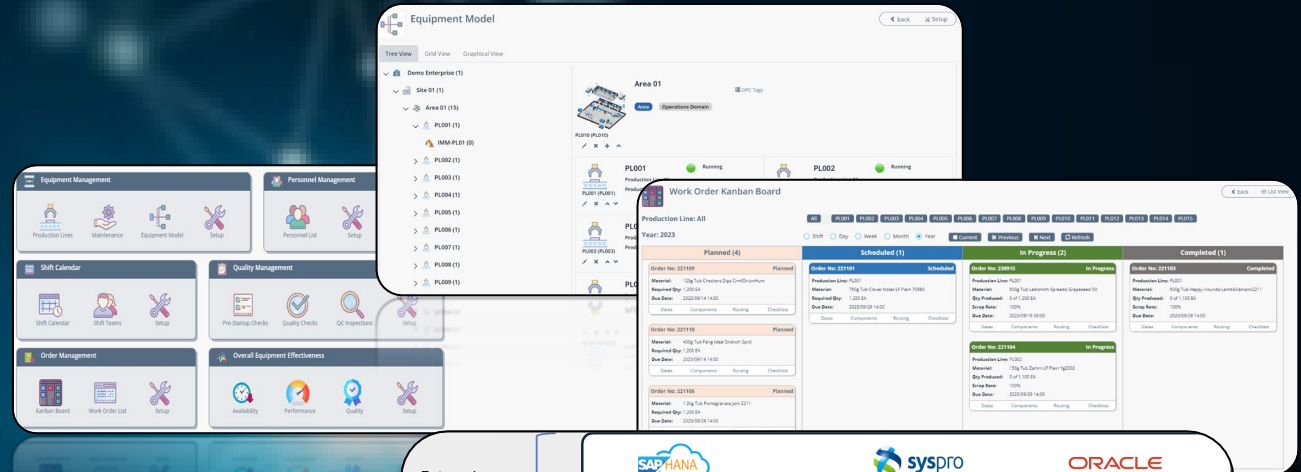

Operations Management Suite

<https://www.opssuite.co.za>

Operations Management Suite is a solution built with Mendix that implements the activities required for integrating enterprise with control as per the ISA95 Industry standard.

It includes modules such as Work Order Management, Resource Management, Product Tracking & Trace-ing, OEE and Quality.

Integration with ERP, control systems and others (ie Scheduling Systems and LIMS) are supported.
