

# SIPROTEC Function Point Manager

## Maximum flexibility in managing your SIPROTEC functions

[siemens.com/siprotec-function-point-manager](https://siemens.com/siprotec-function-point-manager)

### What is it?

- Web-based application to manage function point budgets
- Additional functions can be added to SIPROTEC 5 devices anytime
- Add and activate functionality quickly and easily using ad-hoc generated license files (DAF)

### Key customer groups, decision makers and personas

- Protection Engineer
- Project Manager
- Service Manager
- Maintenance Manager

### Benefits

- Order and stock SIPROTEC universal protection devices independently from functions
- Functions can be assigned independent from SIPROTEC 5 device orders

### Key features

- Web-based application for desktop, tablet and smart phone
- DAF file is generated within seconds
- DAF file can be downloaded multiple times
- Role based access

### Value Proposition

#### Reliable

- Order now, pay later: Function Points will be invoiced only when you download license files
- Certified cybersecurity (ISO/IEC 27001, IEC 62443-4-1)

#### Efficient

- Specify SIPROTEC 5 and SIPROTEC 5 Compact functions late in the engineering process
- Use the SIPROTEC Function Point Manager to organize and share all generated license files in your organization
