

Desigo[®] CC

Precise, efficient safety and control at your fingertips
usa.siemens.com/desigo-cc

The open building management platform Desigo CC is designed to create comfortable, safe, secure, and efficient facilities. Desigo CC covers the complete scope from simple single-discipline systems to fully integrated buildings looking to integrate fire, access control, video surveillance, MNS, HVAC, and energy systems. By making it easy to operate, monitor, optimize, and manage your facility, Desigo CC sets the standard for the future while maintaining compatibility with legacy systems. With its future-oriented and discipline-independent approach, Desigo CC makes your place a perfect place for today and in the future.

Easy to Use and Operate

- Integrated workflow with one user interface
- Information sharing between fire, access control, video surveillance, MNS, HVAC, and energy systems
- Enhanced usability and situational awareness with the Node Map
- Simplified system maintenance with the Macro viewer
- Simplified event treatment in the event list

Connectivity and Scale

- Remote notification of events via e-mail, SMS and pagers
- Mobile app connectivity (fire read only)
- Remote access via web client (fire read only)
- Licensing and hardware options enable Desigo CC to grow as the site grows
- Increased system size, up to 60,000 addressable fire points on a single server or 160,000 addressable fire points on multiple servers

Key Benefits

- Desigo CC compact license available for installations up to 2,000 fire points with option to upgrade to the full version
- Full command and control capabilities for all Siemens Fire Panels: Desigo, Desigo Fire Safety Modular & Legacy Systems
- Cost-effective monitoring-only solution for Siemens fire panels
- Discounted software licenses and graphics migration utility for NCC, Apogee Insight Life Safety, and MM8000 to Desigo CC migrations
- Full video surveillance integration, including live video, recording, playback, and PTZ camera control; and cross discipline workflows such as video verification of fire events
- Video Surveillance integration compatible with Milestone XProtect and Siveillance VMS

SIEMENS
