The cost-effective way to stay competitive

In a fast-moving world, staying competitive means keeping up with the pace of change. With Retrofit Finance from Siemens, you can bring new improvements to your existing systems based on your evolving business needs and get the benefits of using them fast.

Avoid technology obsolescence

Outdated technology can be a barrier to efficiency and productivity – but complete replacement means high costs. Retrofit Finance gives you a way to maximize your existing investment in technology by bringing it up-to-date with new technology.

Let improvements pay for themselves

From faster production to streamlined processes, improving your systems can reduce your costs and improve your sales opportunities. We'll tailor your Retrofit Finance to match the expected future benefits – so the cost of your update is effectively paid for by the improvements it delivers over time.

Transform your systems with Retrofit Finance

How Retrofit Finance works

1. Discuss your retrofit needs

With an understanding of your technology and retrofit, we'll tailor an affordable financing plan with payments over time.

2. Have your update installed

Update your systems and start getting the benefits.

3. Make affordable payments

You make simple monthly or quarterly payments to Siemens Financial Services over time.

4. Upgrade or add on

If your needs change, we can continue to help you adapt your finance plan to fit.

“Special adjustment of the winding machine to meet our needs would not have been possible with a standard product. And the advantages of the financing are crystal clear.”

Bernd Burgwedel,
IBK Fibertec GmbH, Germany

Get the best from your technology

In complex industrial systems, one obsolete component or area can hold your business back. We'll give you a way to improve and extend the lifespan of your existing technology, through a retrofit arrangement and affordable monthly payments.

Expert in digitalization

Unlike traditional sources of finance, we understand the challenges of staying competitive in a digitalized world. We'll help you access the latest enhancements with built-in update options to keep you on a path of continuous improvement.

Making finance simple

We focus on keeping things simple. That means straightforward paperwork and support to make things easier at every step of the way.

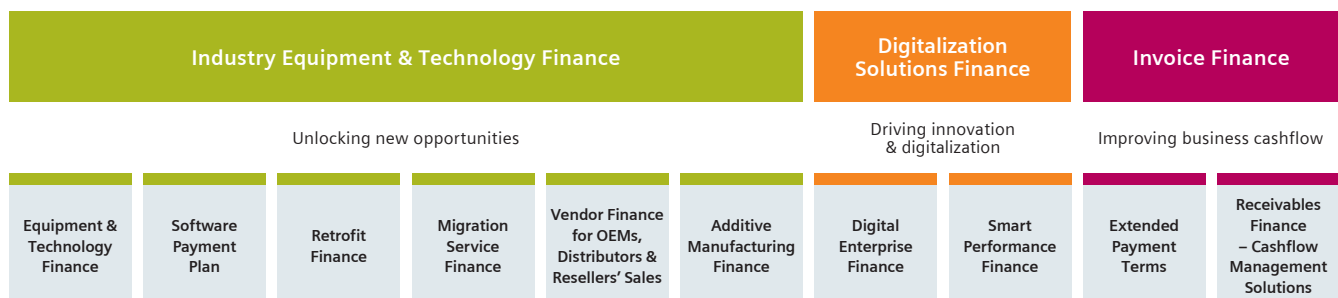

Getting started

Arranging your Retrofit Finance is simple. Get in touch via your Siemens representative or speak direct with our Industry Finance team. We'll guide you through the process and how to apply – whether you're an existing Siemens customer or working with us for the first time.

Siemens Financial Services GmbH
Otto-Hahn-Ring 6
81739 Munich, Germany

Industry finance solutions*

We offer a wide range of finance solutions for the manufacturing sector.
