

The Siemens logo is positioned in the top right corner of the image. The background of the entire advertisement is a photograph of a modern industrial facility, likely a food or beverage processing plant, with large glass windows and complex piping. Overlaid on this background are numerous semi-transparent, glowing yellow and orange digital elements, including data tables, flowcharts, and technical diagrams, which represent the digital transformation of the industry.

affordable payments

Specialist expertise

Putting digitalization in reach

The adoption of digitalization in manufacturing is accelerating as food and beverage manufacturers demonstrate the substantial efficiency and competitive advantages that digital transformation offers. Digital Enterprise Finance from Siemens helps you realize your digital future with specialist finance solutions.

Choose best-fit solutions

Digital Enterprise Finance wraps hardware, software, installation and other costs into one comprehensive package. By removing the need for upfront capital investment, you can select the right Digital Enterprise solution based on your business needs, rather than the limits of your existing budget.

The smarter way to finance Industry 4.0

With Digital Enterprise Finance, your payments can be structured around the expected outcomes that digitalization will deliver. As a result, the improvements you'll see from using the new range of products, systems and solutions designed specifically for the food and beverage industry – from increased productivity to greater flexibility – will mean the installation can in effect pay for itself over time.

Enable your digital transformation with Digital Enterprise Finance

How Digital Enterprise Finance works

1. Discuss digitalization solutions

Based on your aims for the business and the solutions involved, we'll tailor a finance plan that aligns with expected benefits.

2. Technology installed

Implement your digital solutions and start to see the benefits of use.

3. Make affordable payments

You make simple monthly or quarterly payments to Siemens over time.

4. Upgrade or add on

If your needs change, we can help you adapt your finance plan to fit.

The budget-compliant payment plan motivated us to invest in this technology.

*Helmut Gras, Managing Director,
EiMa Maschinenbau GmbH, Germany*

Enabling digitalization

We understand the importance of digital transformation to remain competitive and access to new technology while retaining working capital and cash flow. So we cover all the costs of rolling out your digitalization solution in one comprehensive package.

Ongoing partners

Digitalization is an ongoing process, so we'll help you finance your transformation for the long-term. Our built-in upgrade options are designed to help you keep pace in a world of shortening innovation cycles.

Smart yet simple finance

We combine financial expertise with unique food and beverage industry knowledge, and a focus on keeping things simple. That means straightforward paperwork and support to make things easier at every step of the way.

Getting started

Arranging your Digital Enterprise Finance is simple. Get in touch via your Siemens representative or speak direct with our Food and Beverage Industry Finance team. We'll guide you through the process and how to apply – whether you're an existing Siemens customer or working with us for the first time.
