

PSS®SINCAL Platform User Area

Share your experiences and receive latest information on our software

What you can expect

In order to encourage and facilitate exchange of experience among our user community we have set up a PSS®SINCAL Platform User Area.

Join the group and benefit from:

- **Downloads** such as updates, scripts, demonstration videos and data sheets,
- **A Discussion Board** for discussions in topic-specific threads,
- **Announcements** of latest product information and upcoming events,
- **Surveys** which allow us to adapt our offering according to your needs.

Registration

Please register for the Siemens Global Energy Portal to request access to this PSS®SINCAL Platform User Area. You will be notified as soon as the registration process is completed.

Link to the registration form:
<https://www.extranet.energy.siemens.com/irj/portal/ee/public/en/registration>

This user area is provided free of charge to PSS®SINCAL Platform users.

The Download Area

Under "Documents" you will find a variety of documents and other files relevant to our software programs for download. Besides general product

information, such as brochures and videos, we offer program files including macros for Smart Grids or motors, as well as examples of Microsoft® Excel® imports.

Figure 3: In the download area we offer a wide range of different materials and program files for download

The Discussion Board

The discussion board is organized in different thematic groups and is moderated by Siemens. Since it is used by an international user group we recommend posting any questions or comments in English language.

Stay informed!

Use the alert function to receive an e-mail notification for newly published information in the Announcements section. Once you have access to the user area you can manage your personal alert settings here.

It is also possible to follow individual discussion threads in the discussion board by activating the "alert me" function.

We highly appreciate your feedback!

This user area has been launched to provide additional value to our user community. Your feedback will help us to adapt the contents and structure

according to your needs. Please send your improvement suggestions and comments to sincal.energy@siemens.com.

Thank you!
