Power Resource International

Smart financing advances transportation infrastructure project

www.usa.siemens.com/finance

New York,
New York

Power Resources International (PRI), a valued Siemens customer, is an industrial automation leader. As such, PRI was awarded a \$2.2 million contract to be the exclusive supplier of Siemens equipment for the Metropolitan Transportation Authority (MTA) East Side Access Project. It's one of the largest transportation infrastructure projects underway in the United States; this tunnel and pathway project will link commuters from Long Island and Queens to Manhattan.

The project required \$700,000 of Siemens equipment including automation and control systems technology. In order to optimize credit capacity, PRI looked to finance the entire project.

Siemens Financial Services (SFS) assessed PRI's financing needs and were able to support their project through its Extended Payment Terms Program. The program was developed to immediately alleviate cash flow issues for Siemens customers. Unlike traditional bank loans, this program provides immediate cash flow without affecting credit lines and allows payment terms of up to 180 days. The tailored solution was designed to provide financing to Siemens customer, like PRI, on a tight production schedule.

PRI was able to obtain immediate funding, purchase Siemens components and proceed with its project in a timely manner. Siemens was able to present a single provider solution to the customer that was simple, timely and dynamic. [Contact SFS](#) today to see how we can help drive your business success.

“The MTA East Side Access Project is one of the largest infrastructure projects underway in the United States. This was a milestone deal for PRI, and would not have been possible without SFS’ financing expertise. Thanks to their financial solution, we were able to have greater operational flexibility to execute the project flawlessly.” - *Joseph Diurno P.E., Owner, Power Resources International, Inc.*

Enhanced customer experience

Siemens industrial expertise paired with our financial know-how provides the customer with a true turnkey solution. The holistic approach is a key strategic advantage of doing business with Siemens.

Results & benefits

Smart financing enables organizations, like PRI, to drive business forward while managing their bottom line. Siemens Financial Services makes creating innovative solutions simpler. Whether a customer is looking to conserve cash or credit lines, accelerate business or increase operational flexibility, we can help you achieve your goals.
