

SITRAIN

The choice is yours!

Choose the right training course for your student's better future

www.siemens.co.in/sitrain

Elevate your student's skills with SITRAIN Digital Industry Academy

Since 1980, Siemens has been providing training for customers in the field of Automation & Drives through SITRAIN. The training module encompasses a wide range of carefully crafted programs specifically directed towards bridging the college-industry gap. Our courses deploy the necessary skillset required for the industry enabling them to be future ready to attract a better career prospect.

SITRAIN Training Equipment

1. In-line with SITRAIN-Germany design & follow the German standards
2. All electronic modules are imported directly from Siemens Germany
3. Analog as well as Digital Input / Output ports to simulate different real industry applications.
4. Simulation of hardware / software troubleshooting and diagnostics
5. Hardware has communication capabilities hence kits can inter-communicate
6. Industry Grade Genuine software provided for simulation, real programming and diagnostics
7. Anti-rust, CNC finished kit enclosure

SITRAIN Training Program

1. Global training program designed and developed in Germany
2. Training provided by Subject matter experts trained in Germany
3. Practical Training directly from the original equipment manufacturer with updated features and technology
4. Balanced ratio between theoretical and hands-on training
5. Web Based Training (WBT) is provided as a part of the program to equip the faculty / students with fundamental knowledge
6. Timely seminars conducted for students

SITRAIN Hands-On Training

1. Complete product details and features are explained on real industrial applications with cloud connectivity and Industry 4.0
2. Establishing communication between SIEMENS products and other manufacturers' products
3. Selection and programming of products as per industry application
4. How to convert hardware program formats – Upgrade / Downgrade program
5. Hardware fault diagnostics
6. Access to a standard library of industrial processes for practical application simulation

SITRAIN Train the Trainer

1. Systematic & well-structured training program customized for the college teaching staff
2. 5-6 day rigorous courses with theory & practical knowledge imparted by Siemens SITRAIN Trainers (Trained & Certified by Siemens-Germany)
3. Siemens SITRAIN trainers also have industrial experience or background, which aids them in teaching the above topics with live examples
4. At the end of the trainings the teaching-staff (professors/lecturers) are evaluated through Siemens-Germany based test-papers, mock training sessions and successful participants are given SIEMENS-SITRAIN Certificates

Always buy SITRAIN equipments and trainings from the house of SIEMENS for ensuring originality & effective learning

SITRAIN Training Programs*

1. PLC
2. SCADA & HMI
3. Drives
4. Switchgear & Motors
5. Process Instrumentation

* Industry-specific application based project with every module

Summer Training

Winter Training

Value Added Training

Siemens Mechatronics System Certification Program SMSCP L1

Global Certification

SITRAIN Certification Programs (TIA Portal)

1. Service Technician Certification
2. Programmer Certification

SSTC

SPC

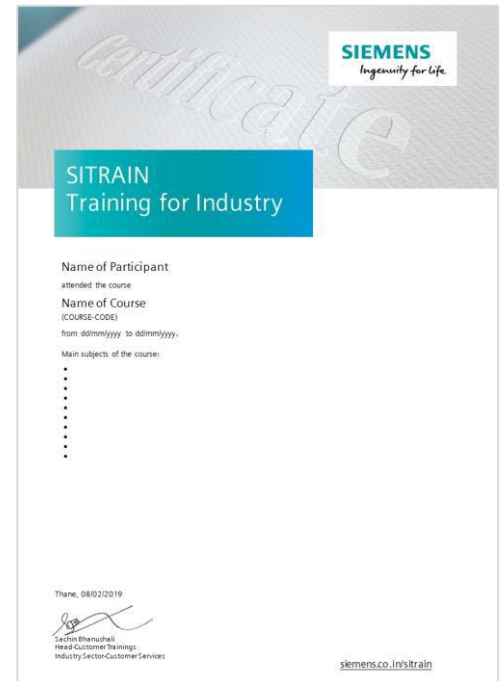

SITRAIN Modes of Association

1. **Direct Training:** directly register a batch of 20 or more students or training in-situ / ex-situ.
2. **MOU based Training:** Contractual agreement with colleges ensuring timely structured trainings
3. **COE based Training:** A Centre of Excellence with latest technologies and advanced trainings

To set up a Centre of Excellence or to establish a laboratory in Automation, Drive, Switchgear, Process Instrumentation and Mechatronics, kindly contact the number given below.

Certificate provided on successful course completion
