Notes and forward-looking statements

This document contains statements related to our future business and financial performance and future events or developments involving Siemens that may constitute forward-looking statements. These statements may be identified by words such as "expect," "look forward to," "anticipate," "intend," "plan," "believe," "seek," "estimate," "will," "project" or words of similar meaning. We may also make forward-looking statements in other reports, in prospectuses, in presentations, in material delivered to shareholders and in press releases. In addition, our representatives may from time to time make oral forward-looking statements. Such statements are based on the current expectations and certain assumptions of Siemens' management, of which many are beyond Siemens' control. These are subject to a number of risks, uncertainties and factors, including, but not limited to those described in disclosures, in particular in the chapter Report on expected developments and associated material opportunities and risks in the Combined Management Report of the Siemens Report (siemens.com/siemensreport), and in the Interim Group Management Report of the Half-year Financial Report (provided that it is already available for the current reporting year), which should be read in conjunction with the Combined Management Report. Should one or more of these risks or uncertainties materialize, should decisions, assessments or requirements of regulatory authorities deviate from our expectations, should events of force majeure, such as pandemics, unrest or acts of war, occur or should underlying expectations including future events occur at a later date

or not at all or assumptions prove incorrect, actual results, performance or achievements of Siemens may (negatively or positively) vary materially from those described explicitly or implicitly in the relevant forward-looking statement. Siemens neither intends, nor assumes any obligation, to update or revise these forward-looking statements in light of developments which differ from those anticipated.

This document includes – in the applicable financial reporting framework not clearly defined – supplemental financial measures that are or may be alternative performance measures (non-GAAP-measures). These supplemental financial measures should not be viewed in isolation or as alternatives to measures of Siemens' net assets and financial positions or results of operations as presented in accordance with the applicable financial reporting framework in its Consolidated Financial Statements. Other companies that report or describe similarly titled alternative performance measures may calculate them differently.

Due to rounding, numbers presented throughout this and other documents may not add up precisely to the totals provided and percentages may not precisely reflect the absolute figures.

Siemens well positioned to master rapid changes

Long-term demand intact

Secular growth drivers for electrification, automation, digitalization and sustainability

Accelerating innovation and disruption

Transformation of entire industries through Artificial Intelligence

Global (public) investment plans

German infrastructure fund and EU defence spending

Stimulus for high quality growth in China AI technology leadership in U.S. Infrastructure build-out in India

Managing challenges

Geopolitical shifts

Rapid changes in global relationships and higher risk of war and conflicts

Return of protectionism and tariffs

Highly volatile & uncertain macroeconomic situation with increased recession risk, higher inflation and currency fluctuation

Fragile and complex supply chains

Access and availability of products, components and resources

Benefits of global division of labor at risk, price increases for end customers

Successful Q2 Business highlights

ROBUST TOPLINE

Strong book-to-bill at 1.10

Orders up 9% to €21.6bn

- MO, SHS up DD, SI lower on tough comps
- DI on level y-o-y, sequentially up
- Backlog at €117bn

Revenue up 6% to €19.8bn

- MO, SI, SHS overcompensate DI
- Electrification up high teens

OUTLOOK CONFIRMED

- Increased uncertainty in the economic environment
- Effects related to the acquisition of Altair not yet included

Note: Growth rates are comparable, excl. FX and portfolio

STRONG EXECUTION

Excellent IB margin at 16.9%

- Up 290bps over prior year, incl.
 170bps divestment gain at SI
- B profit of €3.2bn

EPS pre PPA of €3.00

Incl. €0.32 SI divestment gain

Strong operational free cash flow

• €2.1bn for IB, €1.0bn for all-in

Shaping the future through rigorous execution of ONE Tech Company program

ONE Tech Company

Stronger customer focus Faster innovations Higher profitable growth

FOUNDATIONAL

- Rapid progress in Al-driven innovation at Hanover fair
- Expansion of powerful partner ecosystem
- Hermes award for Industrial Copilot
- China automation and digitalization portfolio launched

INVESTMENT

- Closing of Altair acquisition
- Signing of Dotmatics acquisition to expand Al-powered SWportfolio to Life Sciences
- Portfolio optimization ongoing
- Inauguration of two U.S.
 factories for electric equipment

PRODUCTIVITY

- Continuing efforts to further optimize global footprint
- Risk mitigation through localizing value chains
- Strengthen competitiveness in DI Automation business

Hanover Fair Accelerating path toward Al-driven industries through innovation and partnerships

SW DEFINED AUTOMATION

Audi – Next level of production

- First virtual PLC in operation for greater flexibility, higher speed and entry into AIsupported production
- Virtualized shop floor as key enabler for a flexible production

aws

SIEMENS XCELERATOR

Powerful partner ecosystem

- Development of first industrial foundation model – leapfrogging Industrial AI
- Creating immersive, photorealistic digital twins to optimize visualization & simulation
- Advancing smart and sustainable infrastructure with Building X

STRATEGIC ALLIANCE

Accenture Siemens Business Group

- Dedicated practice of 7,000 professionals
- Combining leading industrial technology with AI-powered engineering and manufacturing capabilities
- Jointly develop and market solutions

SIEMENS INDUSTRIAL COPILOT

Hermes Award recognition

- Generative AI powered assistant enables code generation through natural language
- Covering entire value chain from design, planning, engineering to operations/service
- Clear business impact less development time, higher quality and productivity

Earlier than expected closing of Altair acquisition – integration process started Creating most complete AI-powered portfolio of industrial software

Leadership in simulation and Industrial AI

Short-term integration priorities

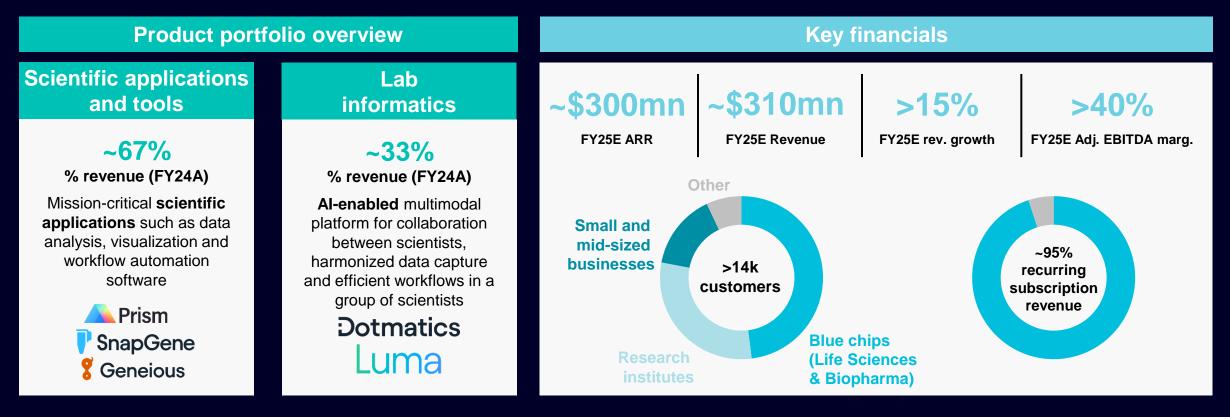

- ✓ Successful Day 1
- Initial joint activities at Hanover fair, excellent customer feedback
- Integration activities started
- Execution of **short-term cost savings** from simplified structure, delisting, procurement, etc.
- Setting up and implementation of **joint organization**
- Combination of highly complementary simulation
 and AI capabilities for joint offering

Dotmatics : A leader in Life Sciences R&D software - AI-powered SW-portfolio expanded

A market leading SaaS platform that unites best-in-class scientific applications with advanced lab informatics, driving next-gen, Al-powered collaboration, efficiency, and innovation in Life Sciences.

Key investment highlights

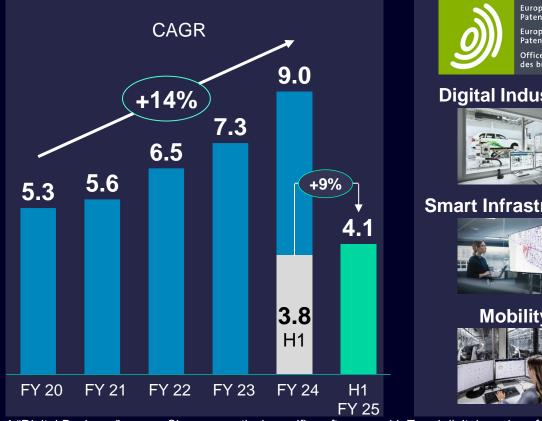

Page 9 Unrestricted | © Siemens 2025 | Investor Relations | Q2 Analyst Call | 2025-05-15

Continuing growth of Digital Business driven by expansion of Siemens Xcelerator offerings and targeted portfolio expansion through software acquisitions

Digital Business revenue¹ €bn

Strong progress in H1 across all businesses

Siemens Group

Digital Industries

Smart Infrastructure

Siemens is patent champion among European companies in 2024

- Share of patent applications in Machine Learning and AI at ~25%, up by 60% over the past five years
- Integration of Altair started to extend leadership in simulation and industrial Al
- Expansion of cloud-based applications, e.g. Solid Edge X
- Healthy growth of data driven digital building services, Building X Portfolio Manager as single pane of glass for multi-site assets
- Electrification X and Gridscale X gain further traction
- Mobility Software with strong DD growth driven by Sqills
- Railigent X drives IoT and digital services revenue

1 "Digital Business" means Siemens vertical specific software and IoT and digital services from Smart Infrastructure, Digital Industries, Mobility, Siemens Advanta; unconsolidated values

Combining the real and digital worlds Continuing strong growth momentum with double digit ARR growth

DI SW – Annual Recurring Revenue (ARR)

Share of Cloud ARR

Cloud ARR:

- Up 1.4x y-o-y to €2.0bn
- 50% Cloud ARR target by end of FY25 confirmed

1 ARR: FX comparable

SaaS transition with high momentum Therein 70% new customers # Customers (accumulated): SME customers

Customer transformation rate to SaaS:

Share of renewals based on total contract value (TCV)

With strong U.S. footprint well positioned to deal with uncertainties from a highly volatile tariff environment

Siemens Group with strong local-for-local footprint FY 2024

48k Employees

28 Factories

- ~80%¹ of U.S. cost base from within North America (NA), therein vast majority from within U.S.
- NA imports to the U.S. mostly covered by USMCA² eligible exemptions
- Minor direct imports/exports between U.S. and China
- Siemens portfolio well aligned with U.S. policy focus on advanced manufacturing and technology

1 Represents share of North America cost base for DI Automation, SI, and Mobility

Key actions in a volatile tariff environment

- Multi-tier supply chain transparency and management
- Mitigation through contractual clauses and pricing
- Further sourcing diversification across value chain
- Further regionalization and rebalancing of own footprint

- Based on current evaluation, direct impact from tariffs on profit limited in fiscal 2025 for DI, SI and MO
- SHS with net impact pre-tax of ~€200m to €300m
- Adverse secondary effects of economic uncertainty and potential changes in demand not predictable

2 U.S. Mexico Canada Agreement

Digital Industries (DI) Improving Automation trend continuing, Altair transaction cost included

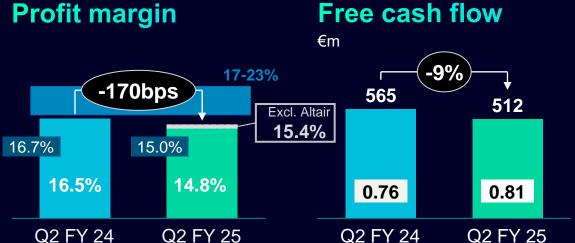

Revenue €bn

Clear order growth y-o-y in Automation, up +8%

- SW lower on soft EDA
- Book-to-bill at 1.00
- Backlog €9.4bn, therein €5.7bn SW, €3.6bn AUT
- Automation down -6%, driven • by soft Discrete, while Process flat
- SW down -2% due to EDA down high teens, PLM up +9%
- **Robust Automation margin** from stringent cost management
- SW softer on lower EDA revenue
- Impact from Altair related • transaction costs -60bps
- x.x% Profit margin excl. severance

therein 550bps

24.0%

18.5%

Q2 FY 25

24.3%

- Very strong operational cash conversion of 0.92, proceeds from WA-exit outside FCF
- Lower operating working capital

Smart Infrastructure (SI)

U.S. with lower level of large project wins, orders up in other regions

Broad-based revenue growth, driven by strong momentum in the U.S.

Q2 FY 25 – Key regions Orders Revenue

Orders down on very tough comps due to large data center contracts in prior year; Revenue fueled by backlog execution especially in Electrification

Orders driven by Electrification with large project wins across verticals; Revenue up in all businesses driven by

Orders up broad-based on low comps; Revenue up DD in Electrification and EP, Buildings soft

Order growth in Electrification, esp. power utilities, partially offset by Buildings; Backlog execution drives revenue in Electrification & Buildings, EP flat

℅ − Clear revenue growth driven by Europe

Note: Growth rates comparable, excl. FX and portfolio

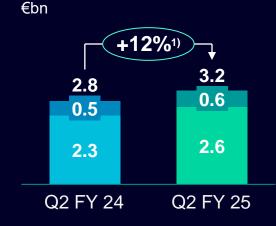

Mobility (MO) Broad-based order strength, double-digit revenue growth with industry leading profitability

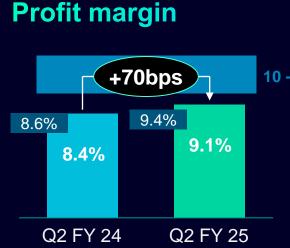

- Book-to-bill at 1.22
- Higher level of large and midsized orders in Rolling Stock and Rail Infrastructure
- Backlog at €49bn with further improved gross margin, therein €14bn Customer Services

Revenue

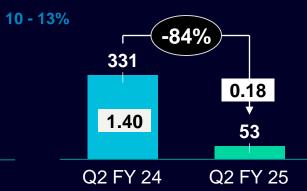

- Rolling Stock up 17%
- Rail Infrastructure up 3%
- Therein Customer Services up
 14%

- Strong contribution from Customer Services
- Stringent project execution

Free cash flow €m

Significant catch-up in H2
 expected

1 Comparable, excl. FX and portfolio

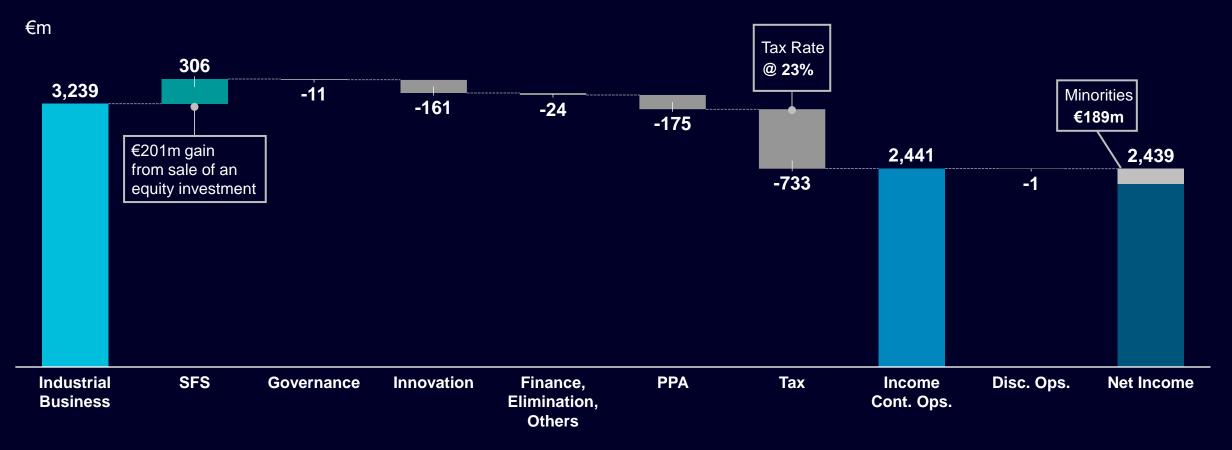

x.x x.x therein Customer Services

Below Industrial Business SFS driven by equity divestment gain

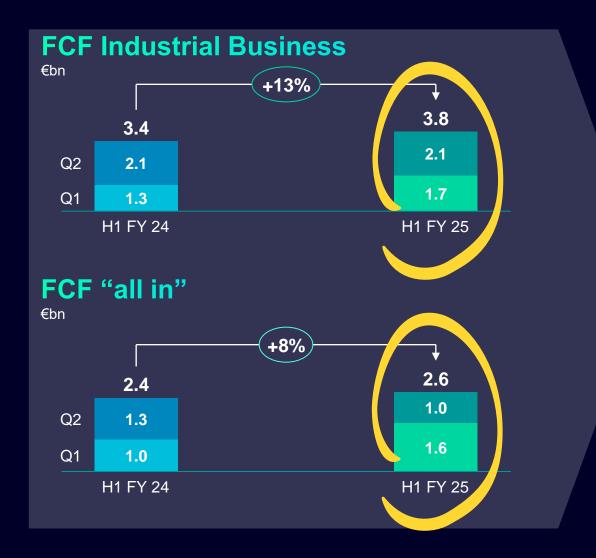

Q2 FY 25

Note: As of FY 25, "Financing, Elim., Other" contains following items as previously included: POC effects (mainly Siemens Energy India), GBS, Advanta, Treasury and other items. In addition, SRE, Pensions and Next47 are now included.

Strong operational free cash flow supported by all businesses

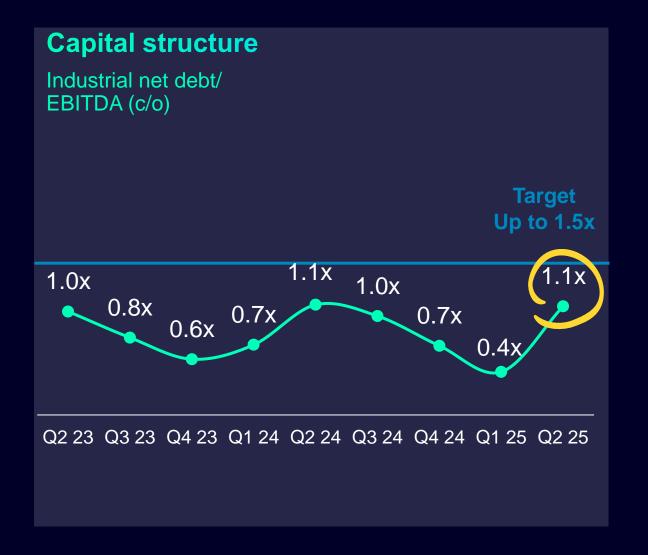

Q2 cash performance

- Solid contribution from businesses, SI outstanding
- Operating working capital up on higher receivables
- Substantially higher tax payments y-o-y

Capital allocation for shareholders

- Share buyback program very well on track (already €2.1bn since inception in Feb 2024)
- **Dividend payment** of **€4.1bn** to Siemens shareholders in Feb 2025

Very strong balance sheet after closing of Altair acquisition Sound basis for stringent capital allocation, balancing investments and shareholder returns

Financial strength

- Consistent strong cash generation in H1
- Pension deficit at historic low of €0.8bn
- Capital structure well in target corridor after closing of Altair acquisition
- Sell-down of SE-stake to 11% executed, share in SHS reduced to 73%, further steps as indicated
- Excellent financial position confirmed with industry leading credit ratings
- Continued commitment to progressive dividend policy and share buyback program

Assumptions for FY 2025 after H1

| Business environment | Increased uncertainty caused by volatility in the economic environment |
|-------------------------|--|
| OPEX | R&D intensity at least on FY 2024 level SG&A in % of revenue on similar level as in FY 2024 |
| CAPEX | Capex Ratio¹⁾ reflecting ongoing execution of capacity expansion in SI, MO, SHS & SRE, expected clearly above level of fiscal 2024 (153%) |
| Severance | Above FY 2024 level, in the range of €0.5bn - €0.6bn Advancing technological skills to next level, drive competitiveness in DI |
| Foreign Exchange | In H1 2025 modest tailwind In H2 2025, based on current rates may turn into a headwind |

1 Capex incl. Operating Leases divided by amortization & depreciation without PPA and depreciation on right-of-use assets from leases

Page 21 Unrestricted | © Siemens 2025 | Investor Relations | Q2 Analyst Call | 2025-05-15

| Siemens Group | | Siemens Businesses | Revenue growth Comparable | Profit margin |
|--|-------------------|-------------------------|-------------------------------------|---------------|
