

Siemens and Siemens Healthineers to donate €1 million to support relief for Morocco and Libya disasters

- **Humanitarian assistance for those impacted by the Morocco earthquake and Libya flooding**
- **Companies will match every euro donated by their people**
- **Siemens Caring Hands e.V. supports relief organizations on the ground**

Siemens AG and Siemens Healthineers have each provided €500,000 in immediate assistance to mitigate the suffering of earthquake and flood victims in Morocco and Libya and to support rescue efforts. In addition, both companies have called on the people they employ to make donations. Every euro contributed as part of this donation drive will be matched.

“Our thoughts are with the victims, with their families, with all those affected,” said Roland Busch, President and CEO of Siemens AG. “We want to help. And – together with Siemens Healthineers – we are making €1 million available as immediate assistance. Siemens Caring Hands, our charitable organization, will provide quick and unbureaucratic help.”

Through the non-profit organization Siemens Caring Hands e.V., donations are made available to selected relief organizations. These organizations then use the money to provide local aid measures in response to disasters. Measures range from tents, accommodations and technical support to food, drinking water and basic medical care.

Notes

The earthquake disaster neither injured people employed by Siemens and Siemens Healthineers nor damaged the companies' facilities. Siemens AG employs around 70 people in Morocco, Siemens Healthineers 110 people.
