Fiscal Year guidance achieved Execution of Vision 2020 begun

Q4 FY 2014, Press Conference
Berlin, November 6, 2014

Notes and Forward Looking Statement

This document contains statements related to our future business and financial performance and future events or developments involving Siemens that may constitute forward-looking statements. These statements may be identified by words such as “expect,” “look forward to,” “anticipate” “intend,” “plan,” “believe,” “seek,” “estimate,” “will,” “project” or words of similar meaning. We may also make forward-looking statements in other reports, in presentations, in material delivered to shareholders and in press releases. In addition, our representatives may from time to time make oral forward-looking statements. Such statements are based on the current expectations and certain assumptions of Siemens’ management, of which many are beyond Siemens’ control. These are subject to a number of risks, uncertainties and factors, including, but not limited to those described in disclosures, in particular in the chapter Risks in the Annual Report. Should one or more of these risks or uncertainties materialize, or should underlying expectations not occur or assumptions prove incorrect, actual results, performance or achievements of Siemens may (negatively or positively) vary materially from those described explicitly or implicitly in the relevant forward-looking statement. Siemens neither intends, nor assumes any obligation, to update or revise these forward-looking statements in light of developments which differ from those anticipated.

This document includes – in IFRS not clearly defined – supplemental financial measures that are or may be non-GAAP financial measures. These supplemental financial measures should not be viewed in isolation or as alternatives to measures of Siemens’ net assets and financial positions or results of operations as presented in accordance with IFRS in its Consolidated Financial Statements. Other companies that report or describe similarly titled financial measures may calculate them differently.

All underlying margins are calculated by adjusting margins for the effects reported for the respective businesses in the relevant period. These effects are provided to assist in the analysis of the businesses’ results year-over-year and may vary from period to period. Underlying margins are not necessarily indicative of future performance. Other companies may calculate similar measures differently.

Due to rounding, numbers presented throughout this and other documents may not add up precisely to the totals provided and percentages may not precisely reflect the absolute figures.

Revenue growth - Performance against competition (FY2014)

To illustrate management’s perspective on the Company’s performance against competition, Siemens compares its own revenue growth rate with the weighted average revenue growth rate of its Sectors’ most relevant competitors, including, among others, ABB, GE, Philips, Rockwell and Schneider. Revenue growth for Siemens and its competitors is calculated as the actual growth rate over a rolling four quarter period compared to the same period a year earlier. Siemens competitors revenue growth is derived as the weighted average growth rate of dedicated competitor baskets defined for each Siemens Sector. Each Sector basket’s growth rate is based upon the most recent reported competitor revenues publicly available at the time of calculation. The Sector competitor baskets revenue growth rates are weighted by the revenue of the respective Siemens Sector.

This measure may provide useful information to investors with respect to management’s view on Siemens’ growth compared to competitor growth. However, we caution investors, that this measure is subject to certain limitations, which include the following: The metric is defined by Siemens and, as such, is not based on a generally accepted framework that is also relevant for other companies; accordingly, other companies may define a similarly titled measure differently. In calculating this measure, Siemens relies on data published by its competitors for which Siemens assumes no responsibility. In addition, the data may not be directly comparable as a result of differing presentation currencies and reporting standards being used by our competitors in the data’s presentation. Furthermore, subject to limited exceptions, no adjustments are made for currency translation effects, portfolio changes and changes in reporting structure for either the Siemens or the competitor data. Because the public availability of relevant competitors’ data at the time of calculation may not coincide with the availability of Siemens’ data, some competitor data used may relate to a different time period than the Siemens data.

Our agenda for today

Delivering on targets – key financials Q4 Fiscal 2014

Driving value for shareholders

Execution of “Siemens – Vision 2020” started

Setting clear priorities to achieve targets in Fiscal 2015 and beyond

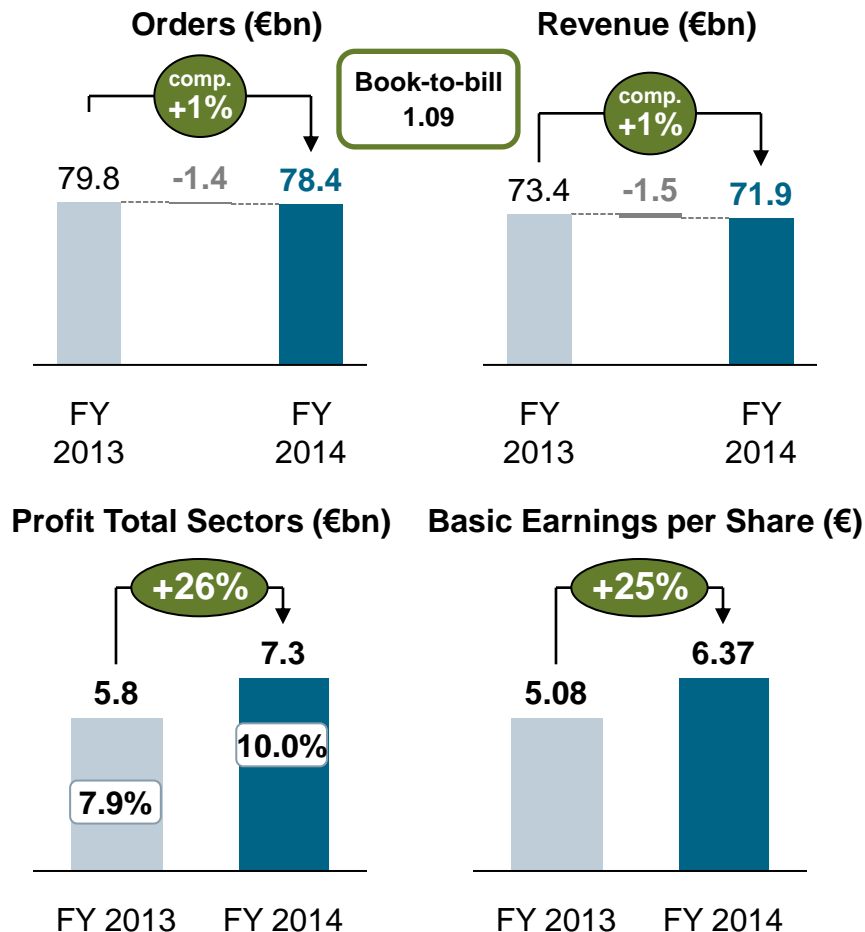

We delivered on our FY 2014 targets

FY 2014 Outlook

- We expect **revenue** on an **organic basis** to **remain level year-over-year**, and orders to exceed revenue for a **book-to-bill ratio above 1**. ✓
- Given these developments and financial results for the first nine months, we expect **basic earnings per share (Net Income)** for fiscal 2014 to **grow by at least 15% from €5.08** in fiscal 2013. ✓
- Annual Report 2013: We expect a substantial increase in Total Sectors profit year-over-year, and that **Total Sectors profit margin will rise to 9.5% to 10.5%**. ✓

This outlook is based on shares outstanding of 843 million as of September 30, 2013. Furthermore, it excludes impacts related to legal and regulatory matters.

1) As reported

Healthcare – Strong profit contribution continues

Key Figures Healthcare

Division	Orders y-o-y ¹⁾	Revenue y-o-y ¹⁾	Profit margin	Underl. profit margin
Diagnostics	2%	2%	10.6%	14.5%

Main developments in Q4

- **Order growth** in **Europe/CAME³⁾** and **Americas offset** softness in **China**
- **Slightly lower profit margin** on **tough comparables** and **continued currency effect**
- **Diagnostics** – Solid growth in China; on track with platform development
- **Hospital information system** business in discontinued operations as of Q4 FY 14

1) Comparable, i.e. adjusted for currency translation and portfolio effects

% Profit margin % Underlying Profit margin

2) for underlying margin calculation please refer to Flashlight document

3) Europe, Commonwealth of Independent States, Africa, Middle East

Industry – Better mix and effective growth conversion lift earnings and margins

Key Figures Industry

Main developments in Q4

- **Lower volume of large orders in long cycle business of Drive Technologies; broad based revenue growth**
- **Industry Automation** – Growth conversion drives underlying profit margin
- **Drive Technologies** – Productivity and higher margin Motion Control business boost profit

Division	Orders y-o-y ¹⁾	Revenue y-o-y ¹⁾	Profit margin	Underl. profit margin
Industry Automation	2%	4%	18.1%	18.9%
Drive Technologies	-9%	4%	10.7%	11.0%

1) Comparable, i.e. adjusted for currency translation and portfolio effects

% Profit margin % Underlying Profit margin

2) for underlying margin calculation please refer to Flashlight document

Infrastructure & Cities – Stringent execution drives excellent profit development

Key Figures Infrastructure & Cities

Division	Orders y-o-y ¹⁾	Revenue y-o-y ¹⁾	Profit margin	Underl. profit margin
Transportation & Logistics	54%	10%	4.9%	5.6%
Power Grid Solutions & Products	-2%	4%	11.6%	11.6%
Building Technologies	2%	-3%	12.4%	12.4%

1) Comparable, i.e. adjusted for currency translation and portfolio effects

Main developments in Q4

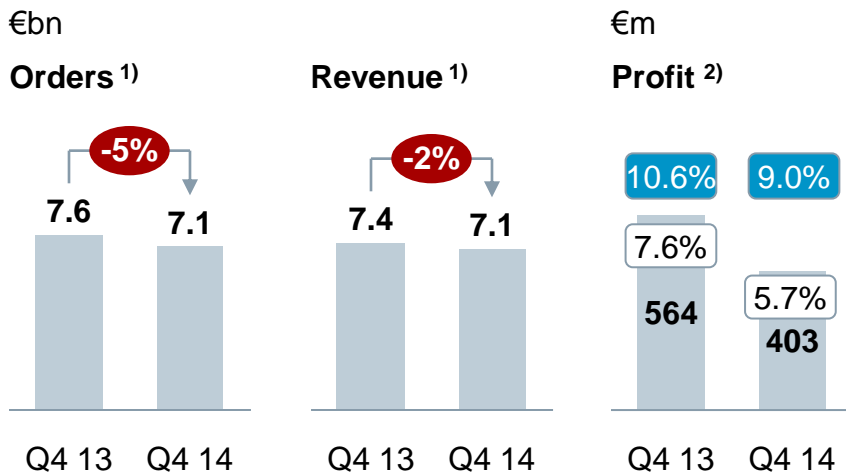

- **Major orders in Transportation & Logistics (U.S. and UK)** drive bookings
- **Transportation & Logistics** – Profit rises on higher revenues and stringent project execution
- **Power Grid Solutions & Products** – Higher productivity and revenue growth lift margins; Low Voltage products with double-digit margin, successful launch of new platform
- **Building Technologies** – Strong profit performance on lower revenues due to phase out of lower margin business

% Profit margin % Underlying Profit margin

2) for underlying margin calculation please refer to Flashlight document

Energy – Pressure on growth and profit

Key Figures Energy

Division	Orders y-o-y ¹⁾	Revenue y-o-y ¹⁾	Profit margin	Underl. profit margin
Power Generation	-10%	2%	13.0%	13.0%
Wind Power	17%	0%	-4.0%	6.7%
Power Transmission	-14%	-11%	-4.3%	-0.1%

Main developments in Q4

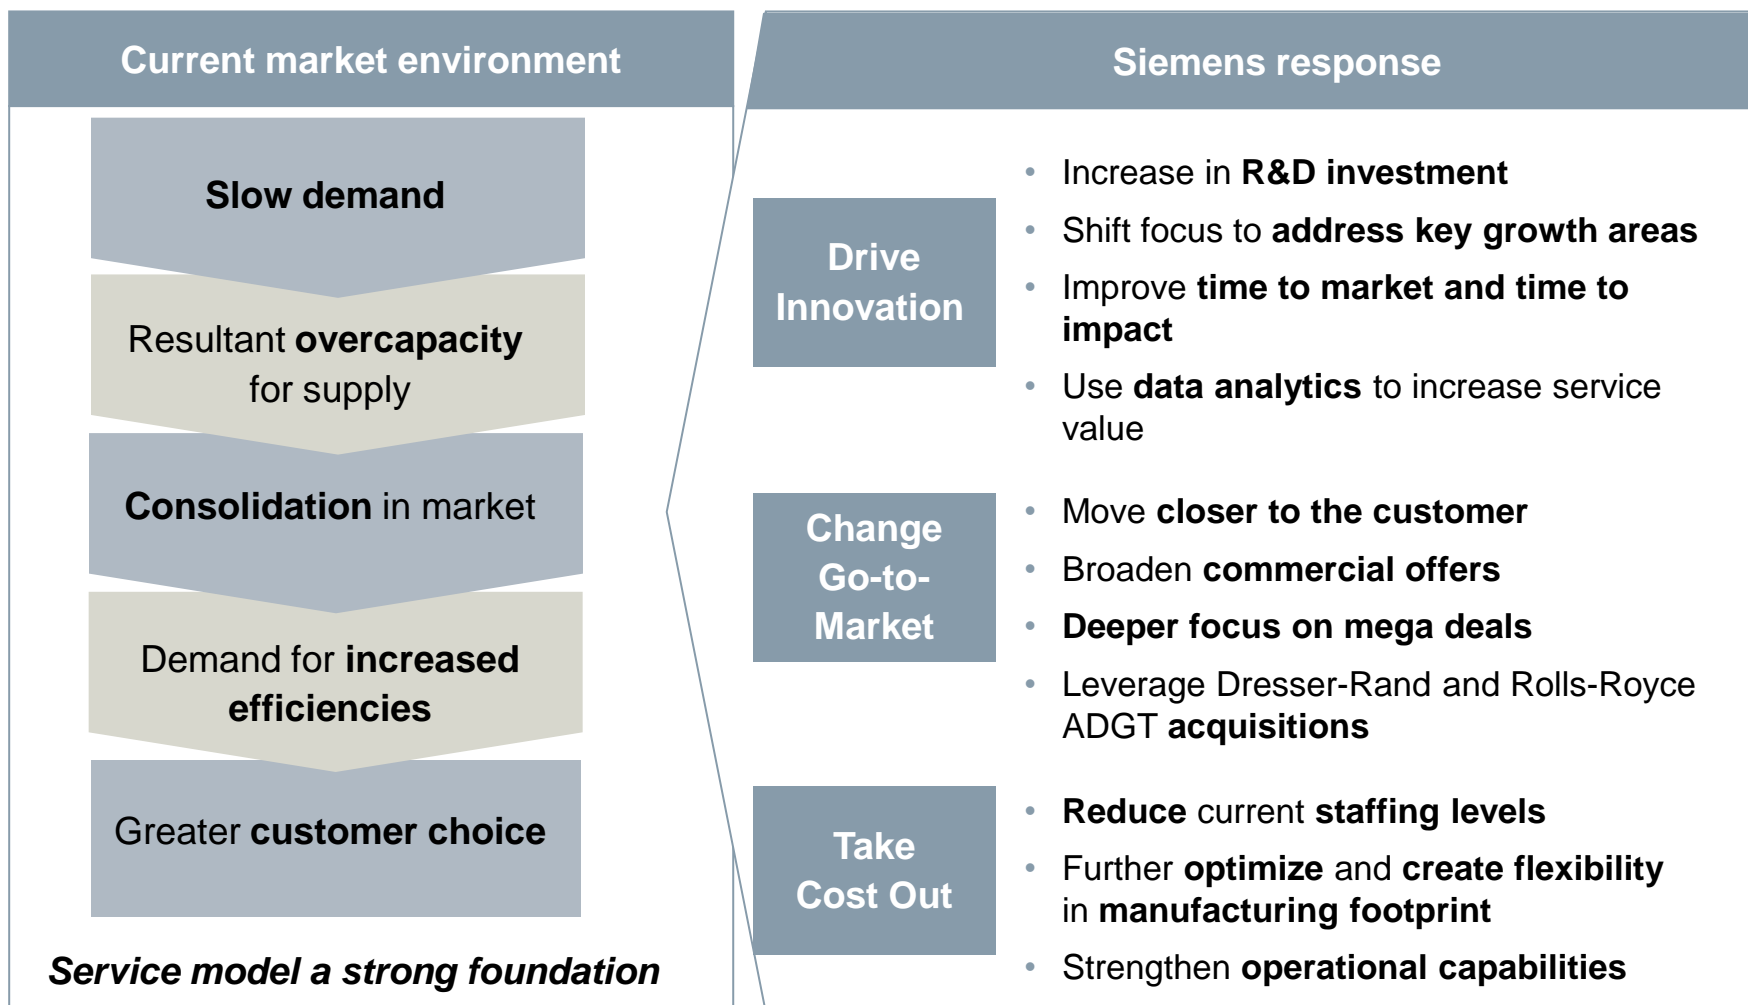

- **Market environment** remains **competitive in all areas**
- **Lower orders** driven by a **decline** in the **Americas**
- **Power Generation** – Strong profit contribution from service business; challenges in increasingly competitive large gas turbine markets
- **Wind** – €223m charges due to main bearing and blade erosion issues; €48m gain on equity investment
- **Transmission** – Continuing execution of low margin solution projects; project charges of €41m; North Sea offshore grid connection projects reach several milestones

1) Comparable, i.e. adjusted for currency translation and portfolio effects

% Profit margin % Underlying Profit margin

2) for underlying margin calculation please refer to Flashlight document

Power Generation: Ensuring competitiveness

Wind Power: Growth and operational excellence

Performance and challenges

- **Clear #1 in Offshore** – the strongest growing segment
- **Cost-out focus driving to grid parity in Onshore**
- **Continued positive view** on future wind market
- **Innovation leadership**

- **Q4 profit impacted by provisions** for bearing and blade repairs
- **Manufacturing process inefficiencies** result in underlying profitability below expectation

Current activities

Engineering Changes & Repairs

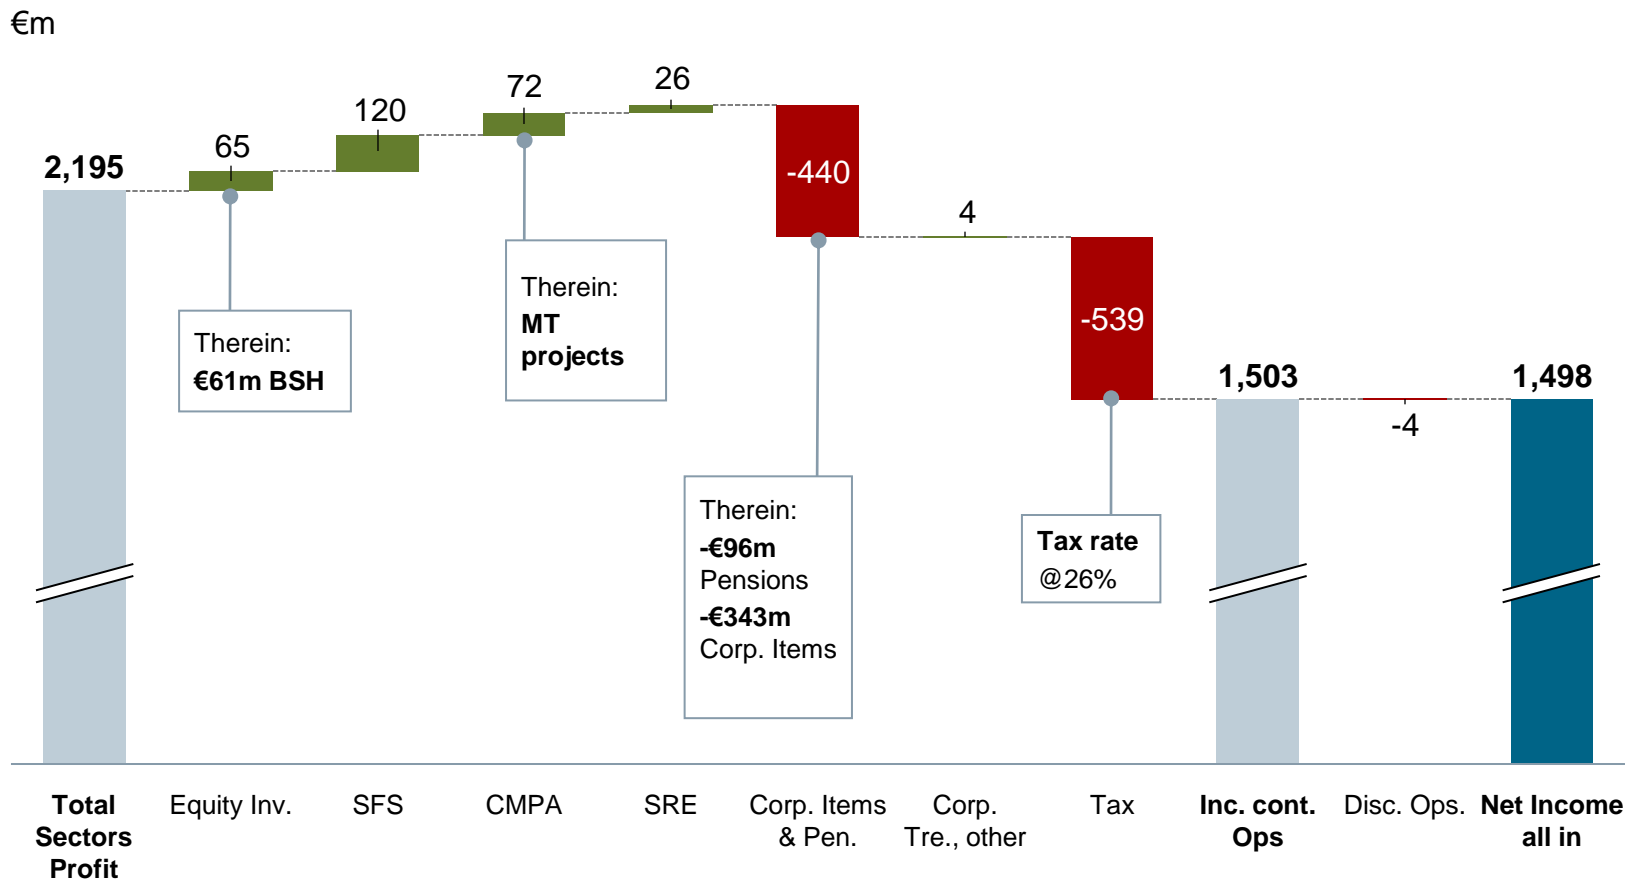

- **Focus on Engineering and SCM processes** to drive corrective and preventive actions
- **Utilize growing service business** to learn from existing fleet
- Implemented **Zero-Defect program** to ensure **quality mindset**

Underlying profitability

- Continue focus on **Industrialization** and **Cost Out**
- Program underway to reduce **LCoE¹⁾ of Offshore** to <10 €/kWh by 2020
- New product initiative with significantly **higher performing turbines** in market in 2016
- Continue **to grow installed base** with increasing share of **long-term service contracts**

Siemens – Vision 2020

Clear milestones until 2016

Until	Execution steps	
Q4 2014	Execution of 'Siemens 2014' measures	✓
	Implementation of new organization, start in new structure on Oct 1	✓
	Introduction of Incentive System 2015	✓
	Sharpening brand message starting in Oct 2014	✓
Q2 2015	Update on cost reduction (stringent governance, efficient support functions)	
	Progress update on portfolio optimization	
Q4 2015	Update on cost reduction (stringent governance, efficient support functions)	
	Update on performance in growth fields	
	Share buy-back executed (up to €4bn)	
Q4 2016	Update on portfolio optimization and cost reduction	

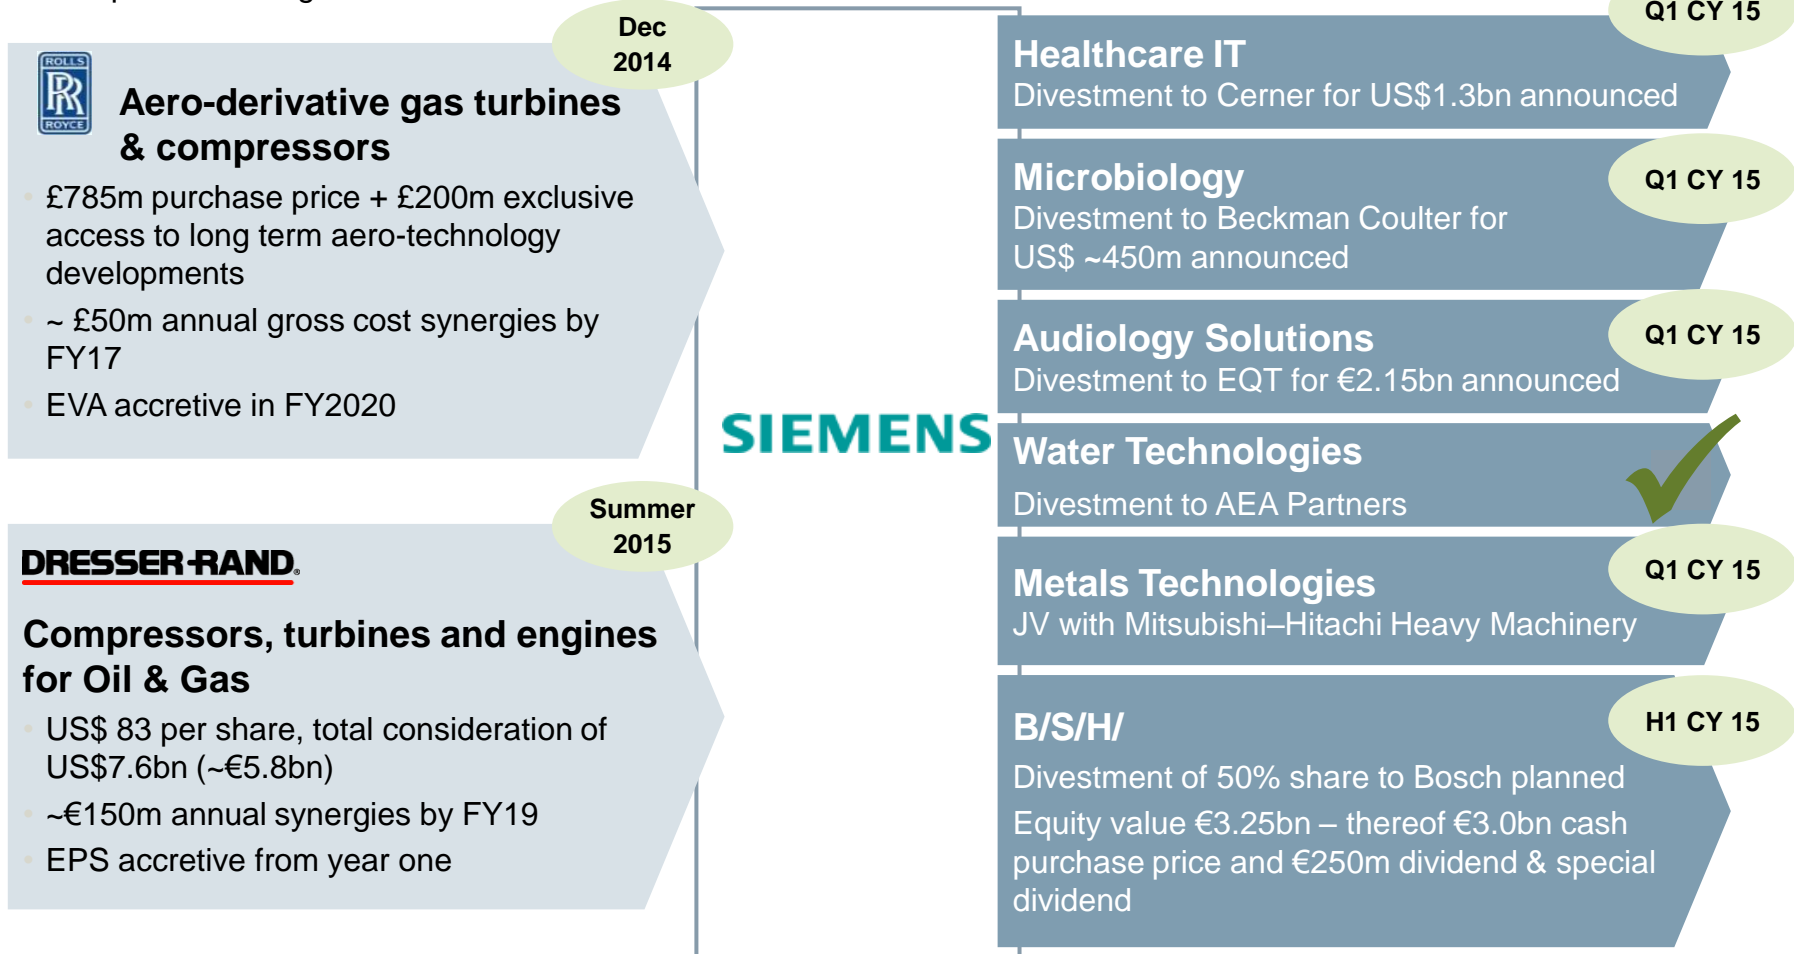

Siemens – Vision 2020

Value creation & Cultural change

Executing Siemens – Vision 2020 by strengthening the strategic core

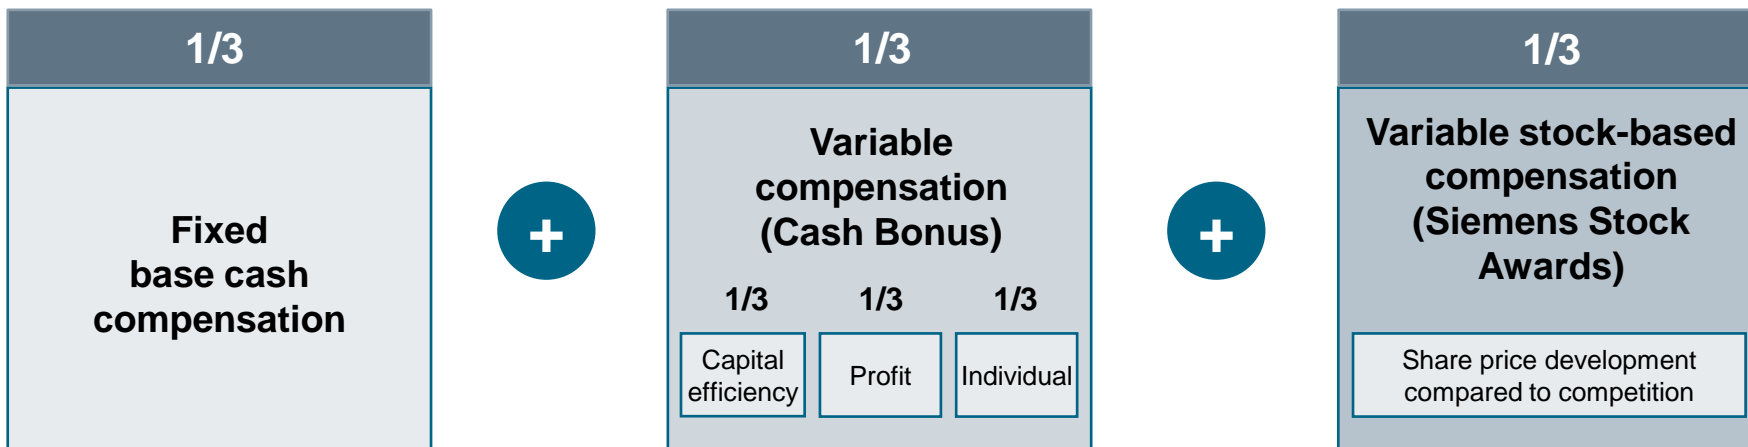

Expected closing

Executing Siemens – Vision 2020

Simplified and fully integrated compensation system

Compensation system for Managing Board as of FY 2015

Key imperatives for setting up the system

- **Transparency** through **simplicity**
- **Performance** related incentives based on **internal** and **external benchmarks**
- Emphasis on **sustainability** through **share ownership guidelines** and **long-term stock-based compensation** component
- **System** is **consistent** with next management levels

Leadership priorities 2015

Capture growth opportunities through market driven organization

Simplification of processes and rigorous implementation of business excellence & risk management

Successful execution of portfolio priorities and integration of acquisitions

Stringent capital allocation for businesses and investments

Foster ownership culture across all levels

Assumptions Fiscal 2015

Macroeconomic environment

- **Complex market conditions impacted by geopolitical developments**
- **Modest growth for short cycle businesses expected**

Volume and pricing

- **Book-to-bill >1 mainly driven by Energy Management and Power & Gas**
- **Pricing pressure around 2.5% of revenue**

Productivity

- **3 - 4% of cost base**

Investments

- **Investment in organic growth and go-to-market ~€400m (Selling & Marketing expenses) and innovation ~€400m (R&D expenses)**
- **Industrial Capex slightly above FY 2014 level**

Extraordinary items

- **Significant gains from portfolio divestments cover restructuring charges and drive EPS-growth**

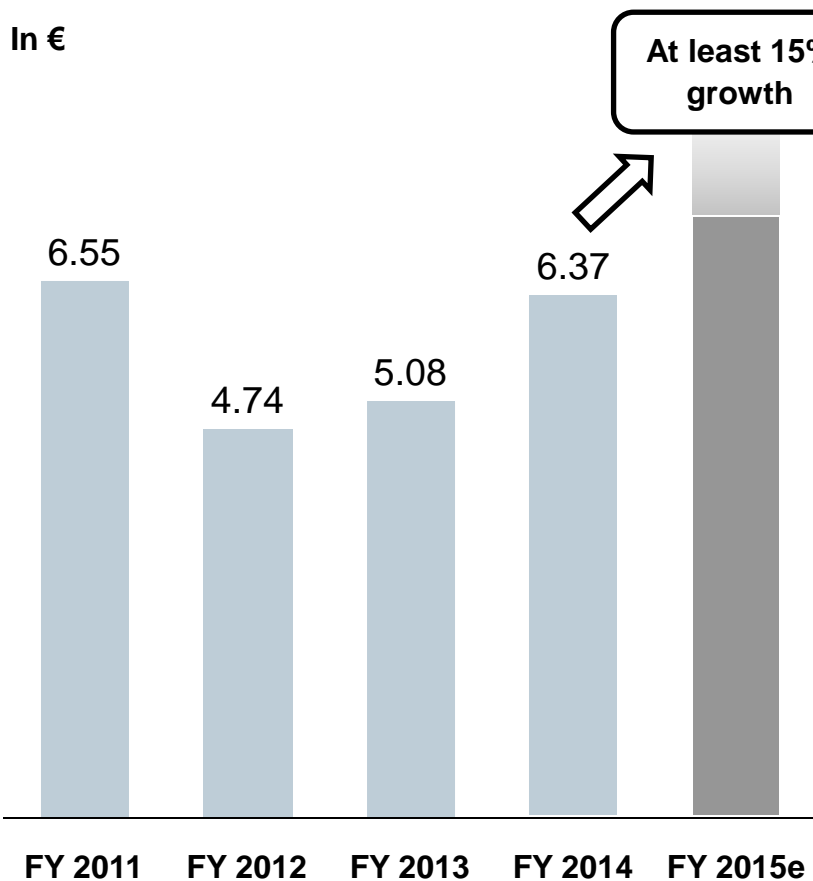

FX

- **Limited FX tailwind due to hedging policy**

Outlook Fiscal 2015

Basic earnings per share (Net income)

In €

- We believe that our business **environment will be complex in fiscal 2015**, among other things due to **geopolitical tensions**.
- We expect **revenue** on an **organic basis** to remain **flat year-over-year**, and orders to exceed revenue for a **book-to-bill ratio above 1**.
- Furthermore, we expect that **gains from divestments** will enable us to **increase basic earnings per share (EPS) from net income by at least 15% from €6.37 in fiscal 2014**.
- For our **Industrial Business**, we expect a profit **margin* of 10–11%**.
- This outlook excludes impacts from legal and regulatory matters.

**Effective with fiscal 2015, our enhanced profit definition excludes amortization of intangible assets acquired in business combinations.*

Appendix

Q4 FY 2014 – Key figures

Siemens (in €m)	Q4 FY 13	Q4 FY 14	Change
Orders	20,298	20,733	2% ¹⁾
Revenue	20,559	20,621	1% ¹⁾
Book-to-bill ratio	0.99x	1.01x	
Total Sectors profit	1,711	2,195	28%
Net income	1,068	1,498	40%
Basic earnings per share net income (in €)	1.19	1.72	44%
Free cash flow (continuing operations)	4,328	3,400	-21%

1) Change is adjusted for portfolio and currency translation effects

Large contract wins in the US Rail and European Wind Power business lift orders

Key developments

- Europe:**
- Large offshore wind orders; Export industry drives Germany orders
 - Slow recovery in low growth environment impacts revenues
- Americas:**
- Transportation & Logistics in U.S. compensates for lower power orders
 - Strong Power Generation and Wind, boost U.S. revs
- Asia /**
- China shows strength in Infrastructure orders, increasing softness in Healthcare
- Australia:**
- Strong Infrastructure revenues, growth in Industry and Healthcare in China

North Sea offshore grid connection projects reach average percentage of completion >80%
