

eMobility Partner Program

Unlock your company's potential while electrifying mobility for a better tomorrow.

As the eMobility market continues to scale across Europe, Siemens is building a partner ecosystem designed to expand market reach, accelerate project delivery, and support customers locally. We offer you access to our established charging portfolio and the opportunity to get certified and offer commissioning and maintenance services to your customers.

Your benefits as an eMobility Partner

Local presence and support

We provide the localized support our partners need to thrive in target markets.

Established portfolio

Access our standardized portfolio designed for broader scale, low complexity, and predictable margins.

Service and maintenance

Get the support you need: in-house, via certified partners, or directly from Siemens.

Brand power

Benefit from the credibility and recognition of a global technology leader.

Two models. You decide.

Whether you focus on sales or take on the full project, both partnership models give you the commercial relationship and the Siemens backing.

Reseller

- You own the commercial relationship
- Work with installers or Siemens for delivery
- You have no commissioning or service responsibility

eMobility
Reseller

Solution Partner

- You own the commercial relationship
- Deliver installation and project execution including engineering
- Develop the skills to support customers throughout the charger lifecycle with our service certifications

Available products

Get access to our DC chargers SICHARGE D and Mobile. They cover every use case, from passenger cars to heavy-duty vehicles, in urban environments and depots.

SICHARGE D

High-power charger

- Delivers 240–400 kW of power and dynamic power allocation
- Standardized configurations across markets
- Low engineering overhead
- Double the charge points with a dispenser

Partner Program highlights

Expert training

Gain access to our eMobility Academy and become certified for installation, operation, and service of Siemens EV charging infrastructure.

Marketing materials

We supply you with marketing materials, for example product images and ready-to-use LinkedIn posts.

LinkedIn cross-promotion

We welcome all our partners with promotional posts on our LinkedIn profiles. That way, you benefit from our visibility and reach.

Partner Label

You receive your individual co-branded partner label to show you are an eMobility Partner and benefit from the Siemens brand power for your marketing.

Customer information

We make production information and data sheets available to you in a handy format so that they can easily be passed on to your customers.
