

Getting Started with Production Optimization Entitlements

The bundle will be provided to you with an individual yearly subscription offering. A subscription for this bundle will entitle you for Industrial Edge Apps as follows:

- **Industrial Edge Virtual Device**
A subscription for an Industrial Edge Virtual Device ("IEVD") entitles the customer to install, run and use the IEVD in a single virtual environment.
- **Common Configurator**
A subscription for this Industrial Edge App entitles to:
 - create one (1) single instance of this Industrial Edge App on an Industrial Edge Device.
- **IIH Essentials: Up to 100 Asset Attributes.**
- **IIH Asset Attributes Upgrade**
A subscription for this Industrial Edge App entitles to extend data structure by 1000 Asset Attributes per Industrial Edge Device
- **Ethernet IP Connector**
A subscription for this Industrial Edge App entitles to:
 - create one (1) single instance of this Industrial Edge App on an Industrial Edge Device
 - connect twenty (20) data sources with this Industrial Edge App via the Industrial Edge Device. An "data source" is the data exchange with one (1) physical or virtual device via Ethernet IP protocol.
- **Mendix on Edge Device License 8GB**
A subscription for a Mendix Device License entitles to develop, deploy and run an unlimited number of Mendix applications on one single Industrial Edge Device with a maximum of 10 named users per app instance and a maximum main memory of 8 GB (RAM).
- **Notifier**
Subscription per installed app instance including fifteen (15) notification rules.
- **Performance Insight**
A subscription for this Industrial Edge App entitles to:
 - create one (1) single instance of this Industrial Edge App on an Industrial Edge Device; and to:
 - connect three (3) Assets with this Industrial Edge App via the Industrial Edge Device. An "Asset" is the logical representation of a thing which for the purposes of this application is a machine.
- **Industrial Edge Quick Setup Usage**
