

The background of the advertisement is a high-angle, wide shot of a modern industrial control room. The room is filled with rows of computer workstations and large digital displays. Overlaid on this scene are various digital interface elements, including a central menu with options like 'Configure a device', 'Write PLC program', and 'Configure technology objects'. A large data visualization on the right shows a line graph with a prominent peak and the text '+321.089 kWh'. The overall aesthetic is futuristic and data-driven, with blue and white tones and glowing light effects.

SIEMENS

Ingenuity for life

Your gateway to automation in the Digital Enterprise

Totally Integrated Automation Portal

TIA Portal – more than an engineering framework

Totally Integrated Automation Portal (TIA Portal) gives you complete access to the entire digitalized automation system, from digital planning and integrated engineering to transparent operation.

“TIA Portal shortens your time to market with simulation tools, among other things, increases your plant productivity thanks to additional diagnostic and energy management functions, and gives you greater flexibility by connecting to the management level. System integrators and machine builders as well as plant operators benefit from the new possibilities. TIA Portal is thus the best way to access automation in the Digital Enterprise.”

Information

**TIA Portal
website**

The website is a good place to start in order to obtain more details about the TIA Portal.

[siemens.com/tia-portal](https://www.siemens.com/tia-portal)

**TIA Portal
brochure**

The brochure provides an overview of the added value and functions of the TIA Portal.

[siemens.com/tia-portal-brochure](https://www.siemens.com/tia-portal-brochure)

**TIA Portal
Information Center**

Here you will find all information, sample applications and documentation on the TIA Portal.

[siemens.com/tia-portal-information-center](https://www.siemens.com/tia-portal-information-center)

Software and sample applications

**TIA Portal
21-day trial**

Download a free trial version for the components of TIA Portal V15.

[siemens.com/tia-portal-trial](https://www.siemens.com/tia-portal-trial)

**TIA Portal
Tutorial Center**

This media system provides an overview of the TIA Portal's general functions and tools based on video tutorials.

[siemens.com/tia-portal-tutorial-center](https://www.siemens.com/tia-portal-tutorial-center)

**Configuration with
the TIA Selection Tool**

Intelligent configurators and selection assistants that require no expert knowledge for working with desktop and cloud variants across teams.

[siemens.com/tst](https://www.siemens.com/tst)

Knowledge building

**TIA Portal
Online Support**

Beginners and experienced TIA Portal users alike will find an introduction to the most important information they need to use the TIA Portal.

[siemens.com/onlinesupport/tia-portal](https://www.siemens.com/onlinesupport/tia-portal)

**Automation Task
Videos**

Based on specific tasks, our web tutorials demonstrate how to reduce your engineering time in your daily work with the TIA Portal.

[siemens.com/automation-tasks](https://www.siemens.com/automation-tasks)

**SITRAIN
training courses**

On the path to the Digital Enterprise – discover new possibilities with training courses for the TIA Portal.
