Subject Phase-out Announcement – VL small frame and accessories

To Whom It May Concern,

This is a phase-out announcement for the Siemens **small frame VL UL** molded case circuit breaker (MCCB) portfolio, which includes the frame sizes DG [150A], FG [250A], JG [400A] and LG [600A] along with the associated internal and external accessories. Our target successor product line is the 3VA UL MCCB portfolio, specifically the 3VA5 thermal-magnetic and 3VA6 electronic trip breakers, which should be considered for your UL MCCB needs moving forward.

The phase-out process for the small frame VL UL MCCB's and accessories is planned as follows:

Frame Size	Phase-out Announcement: Product still available without restriction and can continue to be ordered via standard processes. (P.M400)	Product Cancellation: Product only available as a replacement or sparepart and cannot be ordered via standard processes (P.M410)	Product Discontinuation: Product is no longer available. (P.M490)
DG - 150A frame	1-Oct-2019	1-Oct-2022	1-Oct-2025
FG - 250A frame			
JG - 400A frame			
LG - 600A frame			
VL accessories (150 - 600A)			

Please note that our **large frame VL UL** MCCB's (800-1600A frame sizes) are not affected by this announcement. These products will continue to be manufactured and fully supported until further notice.

A complete list of the affected small frame VL UL materials can be found via the link below.
