

Unlocking the potential with digitalization

**Dr. Roland Busch, CTO and Member of the
Managing Board of Siemens AG**

Digitalization opens up enormous potential for India...

Investing in our digital future – R&D spending

€1.2 bn R&D in digital business in FY 2017

20% R&D intensity for digital business

Currently 24,500 software engineers

*in billions of euros

Atellica: ultrafast and flexible diagnostics platform

SIEMENS
Ingenuity for life

Mireo: innovative platform for premium-class mass transit

1,100 kV: record-breaking HVDC

SIEMENS

Improving innovation speed and capital allocation with Siemens Company Core Technologies

Full innovation cycle:

university collaboration – applied research
– advanced applications and prototyping

Covering technological as well as **business model innovations**

Output-driven and market-oriented

Tapping **outside innovations** with partners/ecosystem and **next47**

~€500 million **focused investments**

The key to success in the digital age

Speed and scale

Digitalization is a key driver of innovation and growth

Revenue FY 2017				+20% nominal ¹⁾ / +11% excl. Mentor	Market growth CAGR FY18-22
Digitalization	Siemens software	~€4.0 bn	Digital services	~€1.2 bn	~+8%
	MindSphere				
Automation	Enhanced automation	~€19 bn	Classic services	~€17 bn	~+3%
Electrification	Enhanced electrification	~€43 bn			+1-3%

Revenue digital businesses: €5.2 bn

1) Total growth: +20% (+20% in software, +20% in digital services)

Growth excluding Mentor Graphics acquisition: +11% (+9% in software, +20% in digital services)

How we drive the digital transformation and create value for our customers

- Deep domain know-how in a broad range of markets and industries
- Strong installed base/connected fleet
- Powerful ecosystem
- Unmatched digital portfolio: MindSphere, Software, Services, Security
- Strong partnership and co-creation with customers

Recent acquisitions and partnerships

*minority equity investment

SIEMENS
Ingenuity for life

Siemens is among the top 10 of the biggest software companies worldwide

We've invested more than US\$10 billion in software acquisitions since 2007

Siemens ecosystem

Customers

Application developers

Integrators

Technology & Infrastructure partners

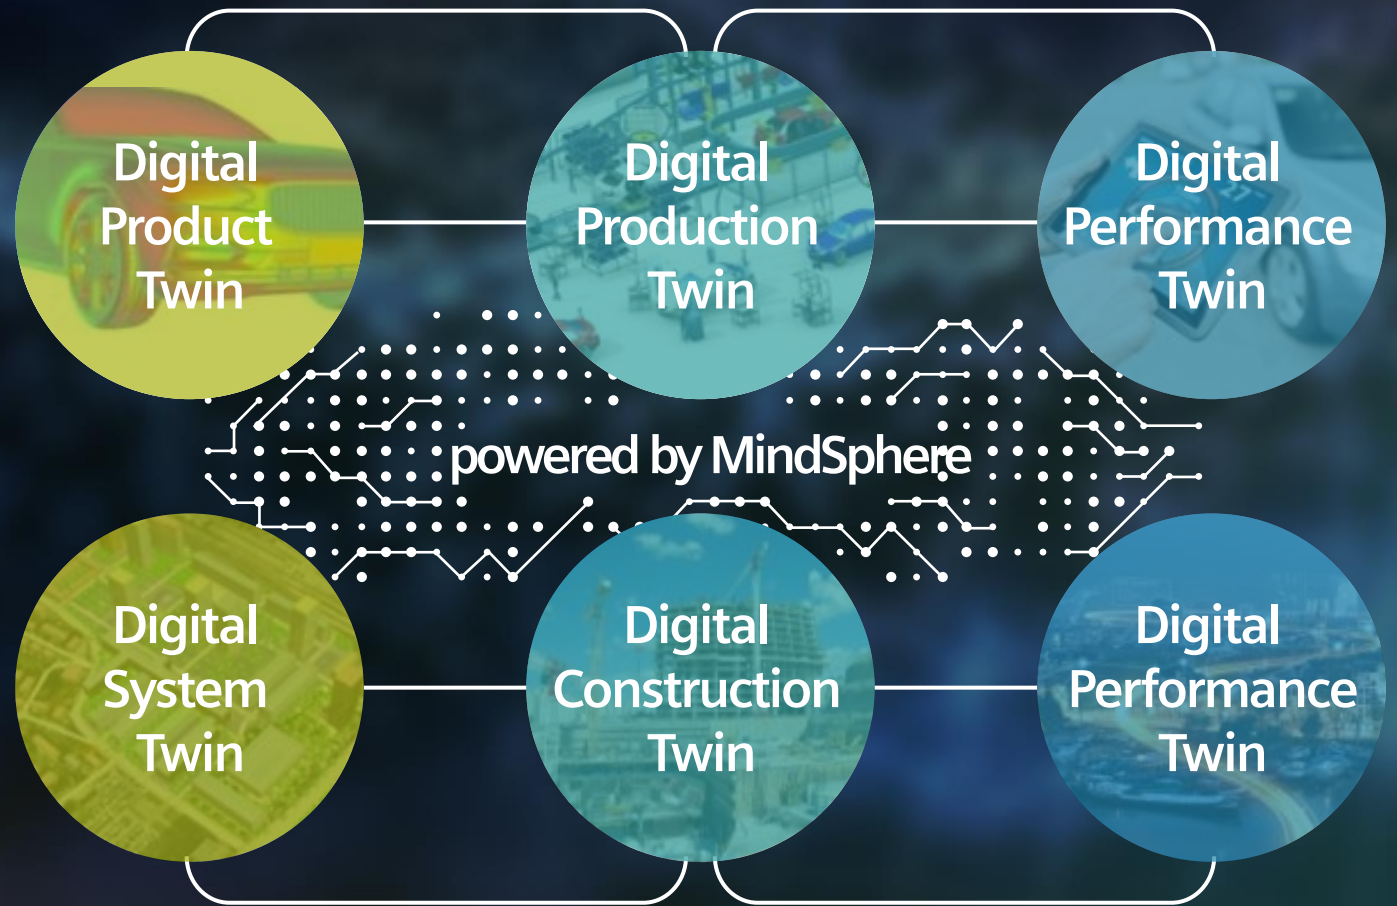

Closed loop innovation – the digital twin improves development, production and operation

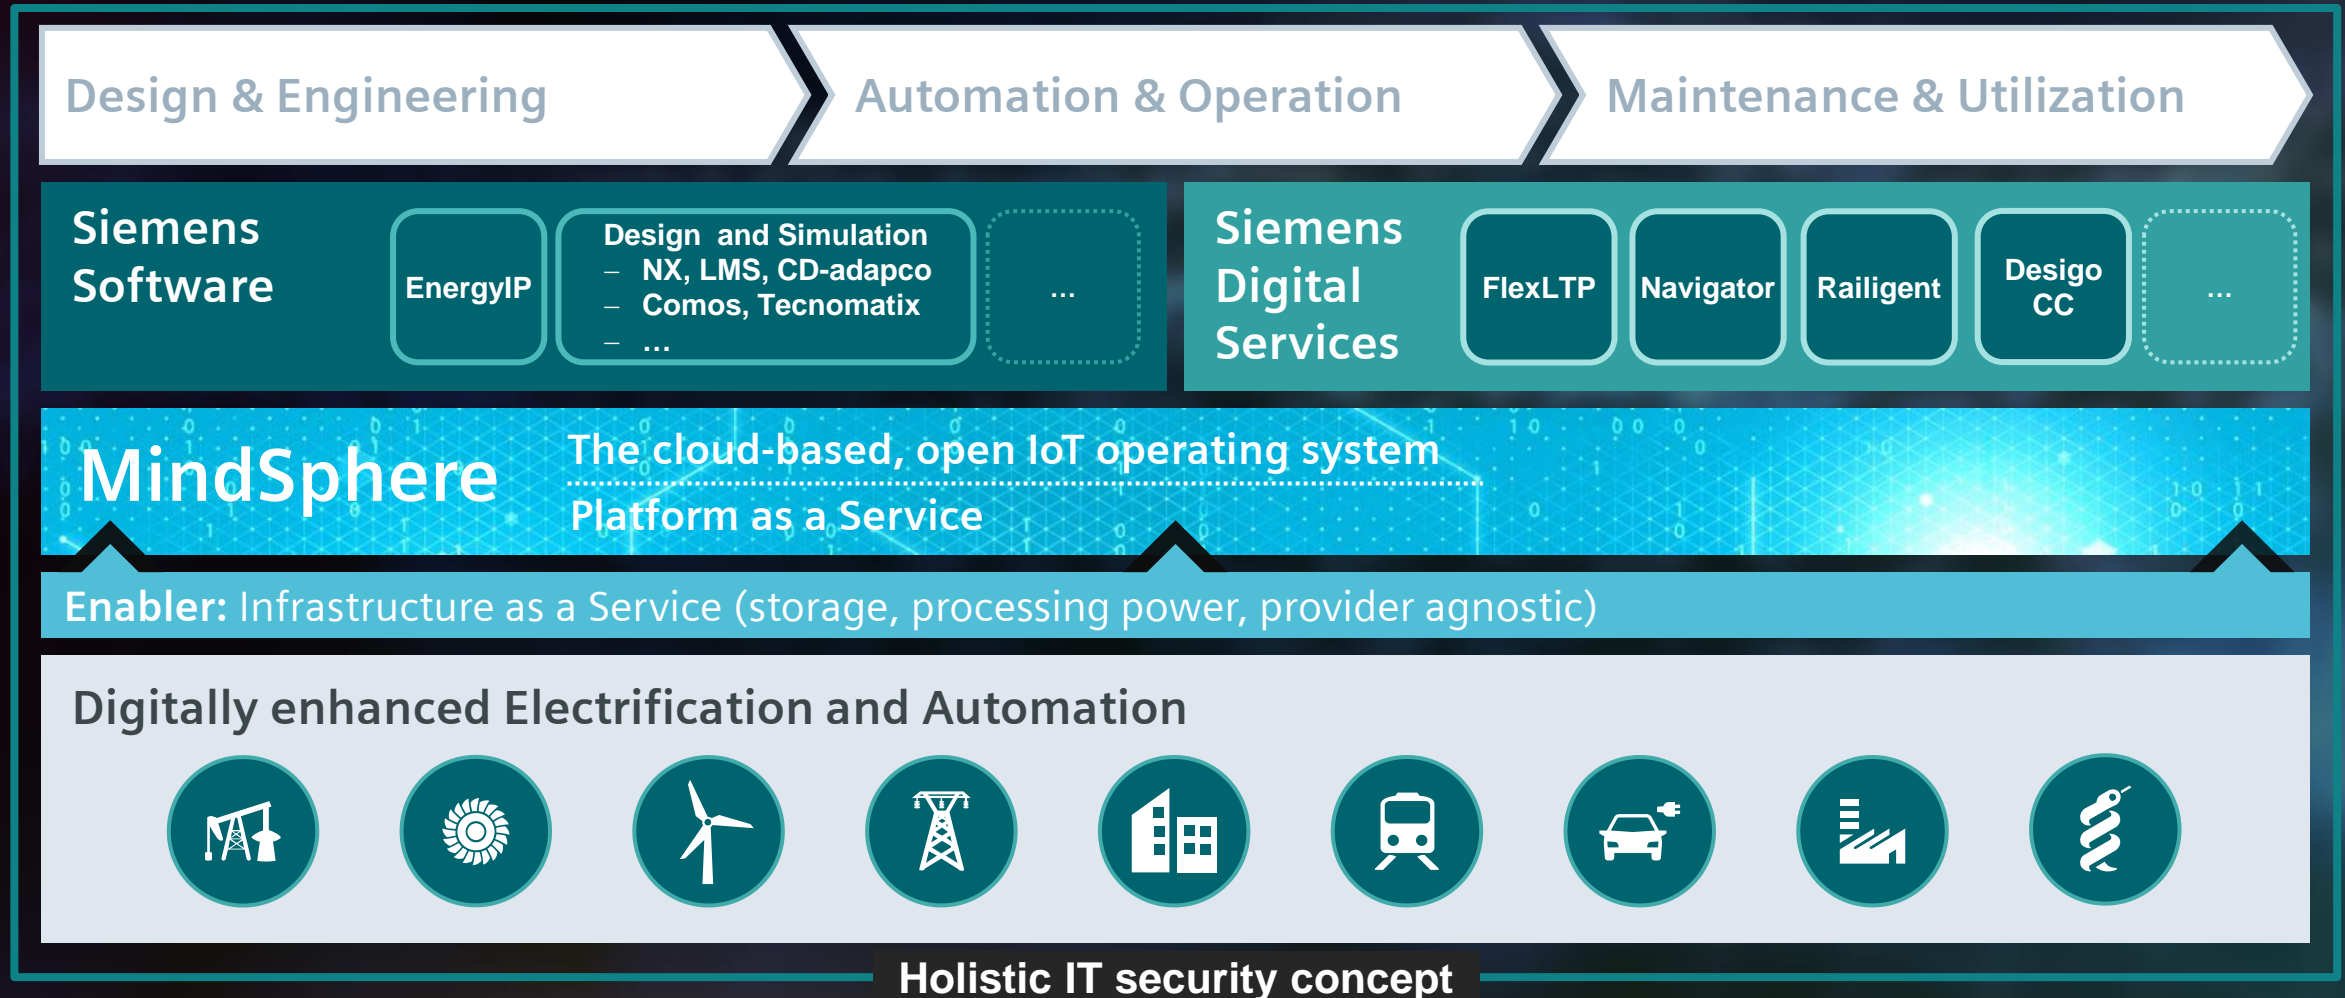

MindSphere connects the virtual with the real world – from factories to infrastructure

Manufacturing/
factories

Infrastructure/
buildings

Holistic approach to meet the needs of our customers

Developments of our digital offerings over a year

+25%

connected assets:

plus 2,900

4x

increase of digital
offerings:
more than 250

Jacksonville, USA

Smart power grids

Infrastructure upgrade with **Advanced Metering** (65,000 meters deployed¹)
EnergyIP: collects and validates data and outage events; automated workflow

Customer value:

- Improved timeliness and reliability of electricity usage data
- New prepaid offerings for customers
- Less maintenance thanks to remote connect-disconnect functionality:
130,000 truck rolls avoided
→ **US\$1.6 million** saved in 1 ½ years

Machine learning Longer service intervals

Use of **artificial intelligence** for maintenance of gas turbines

Algorithms analyze operation data, environmental conditions and component attributes **better than human experts**

Customer value:

- **30%** longer maintenance intervals
- **16%** lower costs

Capital One, USA

Improved energy efficiency

Residential and commercial buildings **account for 40%** of total U.S. energy consumption

Navigator: Bank company Capital One monitors >20 office buildings to improve energy efficiency

Customer value:

- 10% energy savings
- based on 14 million data records per week

Amtrak, USA

Availability of locomotives

Maximum availability of 70 Vectron locomotives for the North-East Corridor high-speed passenger service.

Optimized maintenance, smart monitoring and obsolescence management

Customer value:

- **33%** fewer delays thanks to predictive maintenance

Museum Victoria, Melbourne

Optimized building performance

Management platform **Designo CC**

Demand-oriented cooling regulation

Digital services for continuous optimization of building performance with **Navigator**

Customer value:

- Reduction of operating costs by **32%**
- CO₂ emissions lowered by **35%**
- Return of investment after **7 years** with **Energy Performance Contract**

The digitalization of industries
requires a different approach

How to turn
data into value?
How to create
digital offerings?
