In collaboration with Siemens, AGD have completed technical changes to their Nearside Signals for ELV Controllers so that they are now also capable of direct current monitoring.

A unique set of part numbers have been generated by AGD for these new set of ELV products and are detailed in this bulletin.

Scope

To specify the correct part numbers associated with latest release of AGD ELV Nearside units.

Procedure

See below for the list of part numbers for the new AGD ELV nearside units along with a description of each.

AGD940:

Puffin Signal only, standard optics

New ELV Order Codes: AGD940-660-000

Puffin Signal only, NFOV optics

New ELV Order Codes: AGD940-661-000

AGD941:

Demand Unit, English

New ELV Order Codes: AGD941-660-000

Demand Unit, Welsh/English

New ELV Order Codes: AGD941-662-000

Demand Unit, English/Welsh

New ELV Order Codes: AGD941-663-000

AGD942:

Toucan Signal only, standard optics

New ELV Order Codes: AGD942-660-000

Toucan Signal only, NFOV optics

New ELV Order Codes: AGD942-661-000

AGD946:

Combined Puffin unit, standard optics

New ELV Order Codes: AGD946-660-000

Combined Puffin unit, standard optics, English/Welsh

New ELV Order Codes: AGD946-665-000

Combined Puffin unit, NFOV optics

New ELV Order Codes: AGD946-662-000

Combined Puffin unit, NFOV optics, English/Welsh

New ELV Order Codes: AGD946-666-000

AGD947:

Combined Toucan unit, standard optics

New ELV Order Codes: AGD947-660-000

Combined Toucan unit, standard optics, English/Welsh

New ELV Order Codes: AGD947-664-000

Combined Toucan unit, NFOV optics

New ELV Order Codes: AGD947-662-000

Combined Toucan unit, NFOV optics, English/Welsh

New ELV Order Codes: AGD947-666-000

It is important to ensure that when ordering AGD equipment for ELV sites that the correct part numbers are used. If a wrong type (e.g. standard) unit is fitted to an ELV site the controller is likely to shut down due to an over current being detected on the outputs driving the AGD units.

Note: For current STC units (marked with the ELV label) the same part number can be used for both ELV and standard sites as they are fully compatible with both.
