

An illustration depicting a medical MRI scan. A patient is lying on a table inside the large circular gantry of the MRI machine. A female medical professional in an orange lab coat and sunglasses is adjusting a control on the left. Another person in a purple shirt stands behind the patient. A third person in a yellow lab coat and cap is holding a handheld device, possibly a remote control for the machine. On the right, a person is seated at a desk with a laptop, looking at the screen. The Siemens logo is in the top left corner.

Siemens Education

Lesson 4

Hopes and aspirations

Hopes and aspirations

Learning objectives:

- To explore personal aspirations and career choices

Groundrules

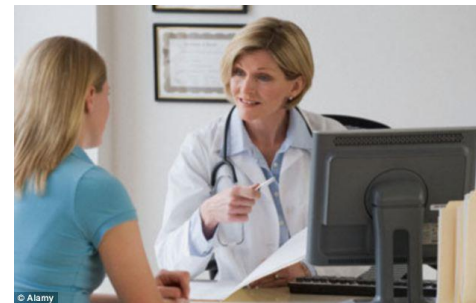

What should our groundrules be?

What did we learn before?

- How has it influenced or affected your thinking about your own future career?

Thinking about the future

- Talk about your role model(s)
- Examples images of role models:

Career aspirations

- What do they think your life journey will look like?
- What would you like to have achieved by the end of:
 - Year 6 / P7
 - Year 11 / S5
 - Year 13 / S6
 - the age of 30?
- Who or what will help you to achieve these goals?
- What do you need to do next?

Write and draw about each stage of your journey.

Presentations

What has made you think?

**What have you felt whilst listening to
other pupils' learning journeys?**

What advice would they give someone else who is the same age as them about a STEM career?
