

InnoTrans 2018, September 18-21, 2018 in Berlin

Shaping connected mobility with Siemens Mobility at InnoTrans 2018

At InnoTrans 2018, Siemens Mobility will exemplify how it enables mobility operators worldwide, with digitalization, to make trains and infrastructure intelligent, increase value sustainably over the entire lifecycle, enhance passenger experience, and guarantee availability. Experience how Siemens Mobility is shaping connected mobility at key events throughout the fair.

For further information about the Siemens Mobility GmbH, please see: www.siemens.com/mobility

Siemens Mobility is a separately managed company of Siemens AG. As a leader in transport solutions for more than 160 years, Siemens Mobility is constantly innovating its portfolio in its core areas of rolling stock, rail automation and electrification, turnkey systems, intelligent traffic systems as well as related services. With digitalization, Siemens Mobility is enabling mobility operators worldwide to make infrastructure intelligent, increase value sustainably over the entire lifecycle, enhance passenger experience and guarantee availability. In fiscal year 2017, which ended on September 30, 2017, the former Siemens Mobility Division posted revenue of €8.1 billion and had around 28,400 employees worldwide.
