

# SICHARGE CC AC 22

Information on the backend connection configuration of the charging station prior to delivery

Dear valued customer,  
Thank you very much for choosing a SIEMENS EV charging product.

- 1.) To implement the backend-configuration of your SIEMENS SICHARGE CC AC22 charger(s) we kindly ask you to complete the form below parallel to your order. Please return the complete filled out form and any supplemental data files in advance to following e-mail address: [sicharge.de@siemens.com](mailto:sicharge.de@siemens.com)
- 2.) Please state at the second page of the document if and at what location the labels, required for the operation of the backend on your charging station, should be placed. If an attachment in the fabrication process is desired, please submit the labels together with the SIM-card(s), described in point 3.).
- 3.) In the subsequent step, we ask you to send the SIM-card(s), activated by your backend provider, together with a copy of this filled form-sheet at least 4 (four) weeks before the notified delivery date, to the below-mentioned mailbox. We request you to utilize a secured shipping method with included consignment tracking. A delayed receipt of the SIM-card(s) and / or the required information leads to a retarded delivery of your ordered charging station(s), at your expense.

We thank you in advance for your cooperation.

Project Name:		Order / Confirmation Number:
<b>Please specify the following information:</b>
