SIEMENS

Simple and Secure Connectivity

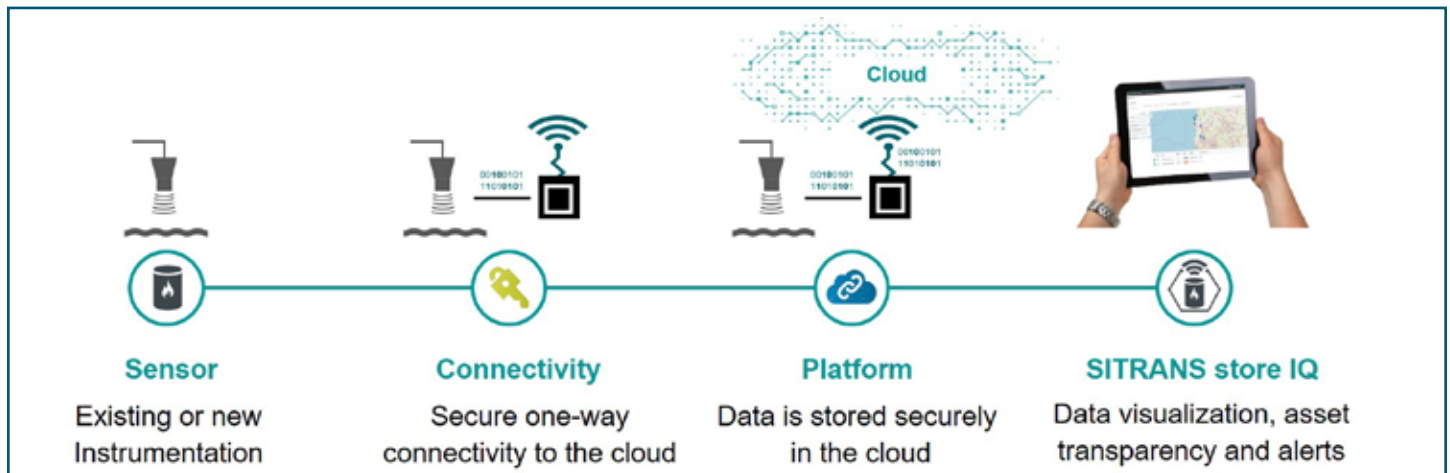

Boiler Monitoring Solution

Siemens Boiler Monitoring solution is designed to remotely monitor the important data from your boiler. By using the Siemens store IQ application, you can access boiler system data to monitor the efficiency, reliability, sustainability and safety of the system from any user's phone, tablet or PC of designated users. To get started contact the Engineered Instrument Solutions Team (EIS) by sending an email request to: eis.solutions.us@siemens.com

From your sensor to your finger tips

Keep an eye on any part of your operation

Typical Performance Measurement

- Steam Pressure and Flow
- Combustion Air Volume and Temperature
- Fuel Gas Temperature
- Feed water flow and temperature

Advantages & Benefits

- Accessibility to remote process variables
- Improved operator safety
- User configurable alarms and notifications
- Backup of all monitored data in cloud
