

DIGITAL INDUSTRIES SOFTWARE

Xcelerator Academy – On-Demand Training

Maximize your investment in your digital transformation journey with best-in-class Siemens learning

Benefits

- Reduce time needed to maximize software proficiency
- Fully utilize software capabilities
- Continuously grow knowledge while on the job
- Access the content anytime and anywhere
- Practice use of the software in guided labs
- Software provided in learning-specific virtual machine labs

Summary

Xcelerator Academy supports customers during their digital transformation journey through a rich portfolio of offerings. Access bite-sized videos, practice hands-on with virtual lab environments, and test your knowledge through assessments while gaining the skills you need to perform your job.

The material is designed to take you through a logical sequence of content to train your core team or advance your team's skill set to adopt the Xcelerator solutions.

Business value

Value from technology is realized when users adopt the business process, which accounts for 70% of the overall success of new software deployments. Successful adoption depends on developing the knowledge and skills needed to competently use the software as quickly as possible.

On-Demand Training

Features

- Content designed to help users achieve essential performance objectives
- On-demand videos explaining key concepts and demonstrate “how to”
- Practice labs built into virtual machines launched from desktop
- Knowledge checks to measure learning progress
- Alternative to the classroom

As an alternative to the classroom, On-demand training supports rapid technology adoption and allows learning to occur closer to the software implementation. It is free from location and time and supports practicing at the moment of need, which results in successful use of the software more quickly. Xcelerator Academy leverages knowledge and skills of the most experienced customer success organization to create On-demand training that supports the adoption of the comprehensive digital twin.

With Xcelerator Academy, you can prepare for the challenges of today and tomorrow.
