

# Industrial Security

Morten Kromann

# Nye Security funksjoner i TIA

- New engineering function rights
- Project lock when absent
- Single sign-on for central users
- Support of the SIMATIC Logon protocol for **UMC**
- Individually configurable protection of confidential PLC configuration data

# Nye Security funksjoner i S7-1500

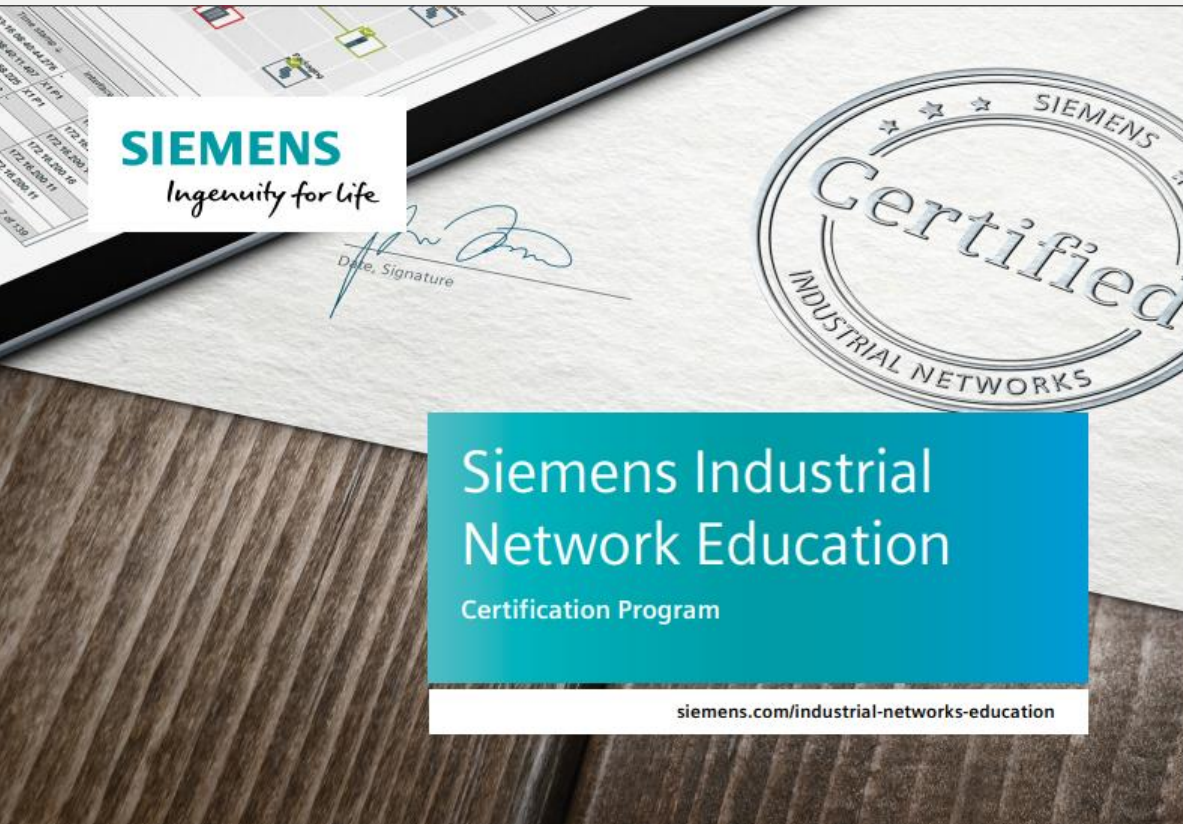

- S7-1500 with OPC UA GDS Support
- TLS-based protection of S7-Communication
- Security by default for Controller Access (protection levels and configuration data)

# Status på IEC62443

- De første projekter er leveret, hvor IEC62443 var en del af udbudet
- Store slutbrugere begynder at specificere IEC62443 i deres udbud
- De store OEM'er begynder at se muligheder i IEC62443
- IEC62443 Security assessments og andre Security services

# Hvordan kommer jeg igang

- [Siemens CEIN kursus](#)
- Starter kit Sinema RC S615
