| 1  | Job role allows, employee must work from home (i.e. computer-based roles).  
For business-critical roles which cannot be done from home, site specific risk assessment must be completed to determine the most appropriate control measures to prevent exposure, considering the following (non-exhaustive):  
- Social Distancing (>2m) must be maintained at all times  
- Flexible work hours  
- Staggered start/finish and break/lunch times  
- Occupancy density requirements has been defined and must be adhered to  
- Only business critical visitors should attend the premises  
- Avoiding face-to-face seating  
- Occupation of every 2nd desk or row  
- Social distancing to be maintained on stairs and in lifts  
- Consideration of pedestrian flows, labelling of directions in stairs/aisles- One way system in place - Entrance Red Core - Exit Blue Core - Green Core should only be used in emergency.  
- For break rooms, kitchens, restrooms, meeting rooms, locker rooms, shower facilities and smoking areas, the maximum allowable number of simultaneous occupants will be clearly indicated on the doors  
- Shielding in reception areas (e.g. polycarbonate screens)  
- Marking/barriers of public areas/lobbies/reception etc to maintain social distancing  
- Consider changing toilets to single occupancy at point of entry (i.e. from corridor) if possible, to maintain social distancing.  
- Improved hygiene and cleaning routine to be employed by all staff and visitors  
Communication via Yammer, email, dedicated intranet page and printed media around office.  
Obtain posters and media from NHS, PHE, HSE etc on good hygiene to be deployed in the workplace in regard to Covid-19 | 4 3 12 Medium | 2 3 6 Medium |

Likelihood x Severity = Controlled Risk Factor / Rating
### Task: Corona Virus Risk Assessment (Phase 1 Recovery)

Coronavirus risk assessments will be subject to regular review based on UK Government updates/changes in regulations or advice.

**Location:** Croydon Office

#### No | Describe the Hazard | What is the Effect (Risk) from the hazard? | Who/what would be at risk | Likelihood x Severity - Uncontrolled Risk Factor / Rating | Control Measures | Likelihood x Severity - Controlled Risk Factor / Rating
---|---|---|---|---|---|---
2 | Transmission from surfaces (Offices) | Contraction of Covid-19 through droplets on surfaces > touched by employee > touches face/mouth/nose. | Employees, Public, Contractors | 5 3 15 High | Site specific risk assessment must be carried out in conjunction with SRE/landlord considering the following (non-exhaustive):  
- Increased cleaning regime by cleaning contractor using disinfectant, plus provision of additional protective equipment for cleaners. Focus on surfaces people touch - “hot spots” - desks, doors, counters, taps, switches, buttons etc.  
- Provision of hand sanitiser at strategic locations (e.g. access/egress points)  
- Same desk must not be used by different individuals in the same work day  
- Desk cleaning prior to use by the next person must be ensured  
- Clean desk policy to be employed at all times  
- Individuals to bring their own keyboard and mouse to site - only monitors and laptop docking stations to be left on desks each night.  
- Desk users to be provided with sanitising wipes to clean down monitor and docking station buttons before and after use.  
- Plan with FM regarding increased cleaning/sanitising/disinfecting regimes  
- Consideration of technical means for fire door holds (e.g. Dorguards) to prevent door surface transmission while maintaining fire compartmentation.  
- Minimum requirements for cleaning agents to be established: 10% bleach, hand sanitisers >60% ethanol  
- Good hand hygiene must be communicated and observed  
- Site management arrangements must be fully reviewed in conjunction with SRE/landlord and communicated  
- Review drinking water dispensing arrangements and equipment; consider other controls such as bottled water supply if necessary  
- Potentially COVID-19 infected waste/used PPE will be separated as a waste stream, double bagged, bags dated and stored for 72hrs before disposal.  
- Shared articles to be removed/restricted (e.g. biometric scanners, signing in/out books and pens). | 2 3 6 Medium

3 | Employee starts to show symptoms | Contraction of Covid-19 | Employees, Public, Contractors | 3 4 12 Medium | Communication to employees that anyone showing symptoms such as higher temperature (37.3c or more) or new continuous cough must self-isolate as per Government requirements and inform line manager.  
*Employee beginning to show symptoms whilst on site, they must immediately go to the designated site isolation room (Quiet Room) immediately without touching surfaces or breaking social distancing and inform management via mobile once in isolation room. They will be required to advise who they have been in contact with and the items they have touched. Personnel they have been in contact with will be required to self isolate for 7 days. A deep clean of the office will then be carried out.*  
Employee must arrange for COVID-19 test via Government online portal (if eligible) and inform Line Manager of results. | 2 4 8 Medium
