## Project Summary

The International Anti-Corruption Academy (IACA) is an international centre of excellence for a new and holistic approach to fighting corruption.

International Anti-Corruption Summer School (IACSS): Within the overall project of IACA the project activity of IACSS aims to ensure the continuation of a well-established process which, inter alia, contributes to the fourth pillar of the Academy's programs and activities: acting as a platform for direct dialogue and networking. Further developing the "Practice meets Science" approach, it will again bring together national and international practitioners of various backgrounds from the private and public sectors, students, media and NGO representatives, and internationally distinguished professors and academics from different disciplines and institutions.

Grants for students and participants from least developed countries (LDCs)/emerging markets (EMs): In congruence with the inter-regional approach of IACA, students and participants from all parts of the world should have the possibility to study and work at the Academy. In order to keep tuition fees affordable and to be able to provide training grants to students and participants who would otherwise not be able to attend, grants to students and participants will be provided.
