

Promising first quarter generates positive momentum

Roland Busch, CEO Siemens AG

Ralf P. Thomas, CFO Siemens AG

Notes and forward-looking statements

This document contains statements related to our future business and financial performance and future events or developments involving Siemens that may constitute forward-looking statements. These statements may be identified by words such as “expect,” “look forward to,” “anticipate,” “intend,” “plan,” “believe,” “seek,” “estimate,” “will,” “project” or words of similar meaning. We may also make forward-looking statements in other reports, in prospectuses, in presentations, in material delivered to shareholders and in press releases. In addition, our representatives may from time to time make oral forward-looking statements. Such statements are based on the current expectations and certain assumptions of Siemens’ management, of which many are beyond Siemens’ control. These are subject to a number of risks, uncertainties and factors, including, but not limited to those described in disclosures, in particular in the chapter Report on expected developments and associated material opportunities and risks in the Combined Management Report of the Siemens Report ([siemens.com/siemensreport](https://www.siemens.com/siemensreport)), and in the Interim Group Management Report of the Half-year Financial Report (provided that it is already available for the current reporting year), which should be read in conjunction with the Combined Management Report. Should one or more of these risks or uncertainties materialize, should decisions, assessments or requirements of regulatory authorities deviate from our expectations, should events of force majeure, such as pandemics, unrest or acts of war, occur or should underlying expectations including future events occur at a later date

or not at all or assumptions prove incorrect, actual results, performance or achievements of Siemens may (negatively or positively) vary materially from those described explicitly or implicitly in the relevant forward-looking statement. Siemens neither intends, nor assumes any obligation, to update or revise these forward-looking statements in light of developments which differ from those anticipated.

This document includes – in the applicable financial reporting framework not clearly defined – supplemental financial measures that are or may be alternative performance measures (non-GAAP-measures). These supplemental financial measures should not be viewed in isolation or as alternatives to measures of Siemens’ net assets and financial positions or results of operations as presented in accordance with the applicable financial reporting framework in its Consolidated Financial Statements. Other companies that report or describe similarly titled alternative performance measures may calculate them differently.

Due to rounding, numbers presented throughout this and other documents may not add up precisely to the totals provided and percentages may not precisely reflect the absolute figures.

Q1 Business highlights

SOLID TOPLINE

Healthy book-to-bill at 1.09

Orders down 8% to €20.1bn

- SHS, DI & SI up; MO tough comps
- Record backlog at €118bn

Revenue up 3% to €18.4bn

- MO, SI, SHS overcompensate DI Automation
- Electrification and DI SW grow DD

STRINGENT EXECUTION

IB margin at 14.1%

- IB profit of €2.5bn

EPS pre PPA of €2.22, excl. Innomotics gain

Strong Q1 free cash flow

- €1.7bn for IB
- €1.6bn for all-in

SHAPING THE FUTURE

Leading in sustainability

- 144 million tons customer avoided CO₂e emissions in FY 2024
- 60 percent less CO₂e emissions in own operations since 2019
- Fürth + Erlangen: WEF lighthouses

Altair acquisition

- Regulatory clearances progressing
- Altair shareholder approval obtained

ONE TECH COMPANY

- From vision to scale: Creating real impact through innovations in Industrial AI and digital twin technology
- Strategy update at company CMD on December 9

From vision to scale: Creating real impact through innovations in Industrial AI and digital twin technology

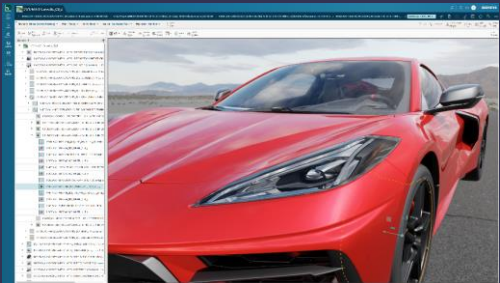

Industrial AI

- ~100 companies use Siemens Industrial Copilot for operations
- Converging data, AI and software-defined automation
- Rapid, real-time decision making on shop floor

Digital Twin

- Photorealism-enhanced digital twin
- Immersive design & engineering tools
- Secure, real-time & seamless collaboration

JetZero – Take a leap in air travel

- Fully digital born aircraft from design to production to maintenance supercharged by Industrial AI
- Greenfield factory tightly integrating automation hardware, software and services
- Sustainability goal: Improve fuel efficiency by 50%
- Entry into service by 2030

Siemens Xcelerator and vertical know-how building on long-term collaboration drive customer value

HIGH-TECH PARTNERSHIP
ORACLE RED BULL RACING

High-speed design and simulation

20-year long technical partnership using latest digital twin technology for design, engineering and manufacturing

COMPASS
DATACENTERS

Scaling data center construction

Multi-year capacity agreement for standardized medium-voltage power skid solution for up to 1,500 units for easy and faster deployment

HIGHER EDUCATION
UNIVERSITY OF KENT

Decarbonization of campus

Comprehensive carbon management plan to cut GHG emissions by 50% by 2030 through advanced technology and a flexible financing package

UK HIGH SPEED RAIL
HS2

Automatic train operation

Key infrastructure and long-term maintenance for signaling, engineering management, power supply, telecommunications and security systems for £560m

Combining the real and digital worlds

Continuing strong growth momentum with double digit ARR growth

DI SW – Annual Recurring Revenue (ARR)

€bn

■ Share of Cloud ARR

Cloud ARR:

- Up 1.5x y-o-y to €1.9bn
- Approaching Cloud ARR share of 50% by end of FY25

1 ARR: FX comparable

SaaS transition with high momentum

Customers (accumulated):

Therein 66% new customers

Customer transformation rate to SaaS:

Share of renewals based on total contract value (TCV)

Digital Industries (DI)

Automation orders recovering with destocking in final stages; strong Software performance

Orders

- Clear order growth y-o-y in Automation, up +6%, and in Software
- Book-to-bill at 1.04, all Automation Businesses >1
- Backlog €9.6bn, therein €5.7bn SW, €3.8bn AUT

Revenue

- Automation down -19%, most notably in Factory Automation on further destocking
- Software up +15% on easy comps in EDA
- PLM up 8%, EDA up >30%

Profit margin

- Robust conversion in Software business
- Reduced capacity utilization on lower revenue in Automation
- Impact from severance of -130bps

Free cash flow

- Solid cash conversion

¹ Comparable, excl. FX and portfolio

x.x x.x therein Software

x.x% Profit margin excl. severance

x.xxx Cash Conversion Rate

Digital Industries (DI)

Recovery of Automation orders gained some traction

Revenue still impacted by sluggish demand in previous quarters and destocking

Q1 FY 25 – Key regions Automation

China

+14%

-21%

Orders up y-o-y on very easy comps (PYQ -55%); Revenue still impacted by high distributor stock levels

Germany

-3%

-20%

Orders sequentially up; Weak macro weighed on revenue

Italy

-12%

-39%

Orders leaving trough; Strong revenue decline in Discrete continued

U.S.

+12%

-6%

Orders up on recovery in Discrete; Soft revenue in Discrete, Process moderately up

Q1 FY 25 – Software

Global

+15%

Americas and Asia/Australia with strong growth trajectory, Europe soft

Note: Growth rates comparable, excl. FX and portfolio

Smart Infrastructure (SI)

Strong growth and further operational margin expansion, free cash flow significantly improved

Orders

- Book-to-bill at 1.17
- Electrification up +10%, driven by large orders from data center, energy and industry customers
- Electrical Products up +2%
Buildings up +3%
- Strong backlog €19.8bn

Revenue

- Electrification with further excellent growth of +12%
Electrical Products up +9%
- Buildings up +5% driven by solutions and services
- Service business up +8%

Profit margin

- 17th consecutive quarter with operational margin expansion, up by 50bps
- Volume growth and economies of scale
- Net positive economic equation supported by ongoing productivity improvement

Free cash flow

- Seasonally exceptional start in cash conversion
- Supported by advance payments

Questions and Answers

Appendix

Digital Industries (DI)

Vertical end market trends

Still challenging macro environment, however, first green shoots emerging

¹ Y-o-Y industry revenue development for next 6 months based on industry production data from statistical office sources (e.g. NBoS, US Fed, Eurostat)

Smart Infrastructure (SI) Vertical end market trends

Key verticals with resilient market trends

Data Center and Power utilities continue as growth engines

1 Trend next 4 quarters, Y-o-Y vertical market development

Siemens Financial Services (SFS)

Solid start to fiscal year 2025

Earnings Before Taxes (EBT)

Total Assets

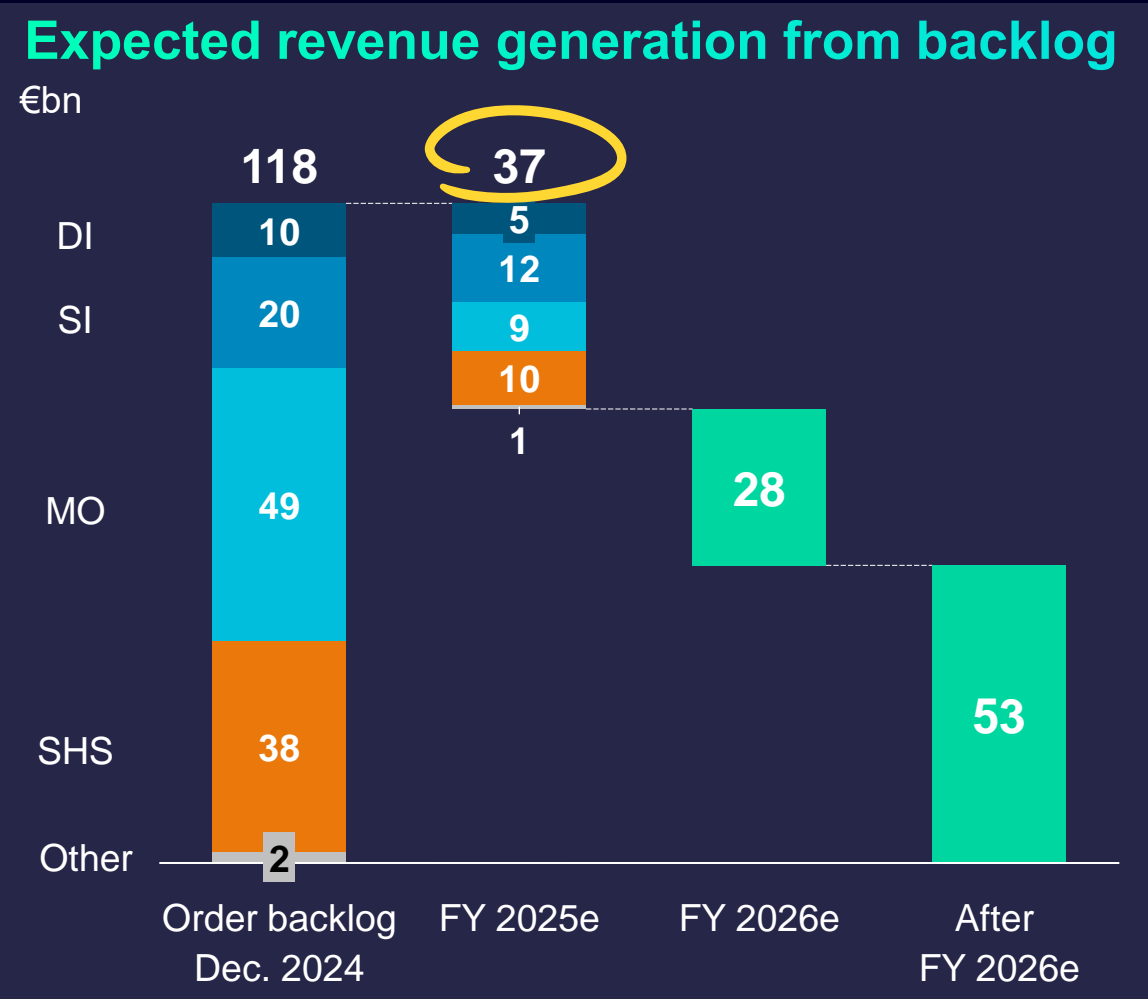

Q1 developments

- Solid result of the Debt business
- Previous year quarter result of the Equity business was particularly high due to a gain on sale of a stake in an equity investment of €131m
- Increase in Total Assets compared to September 30, 2024, driven by currency translation effects

therein Equity business therein Equity business

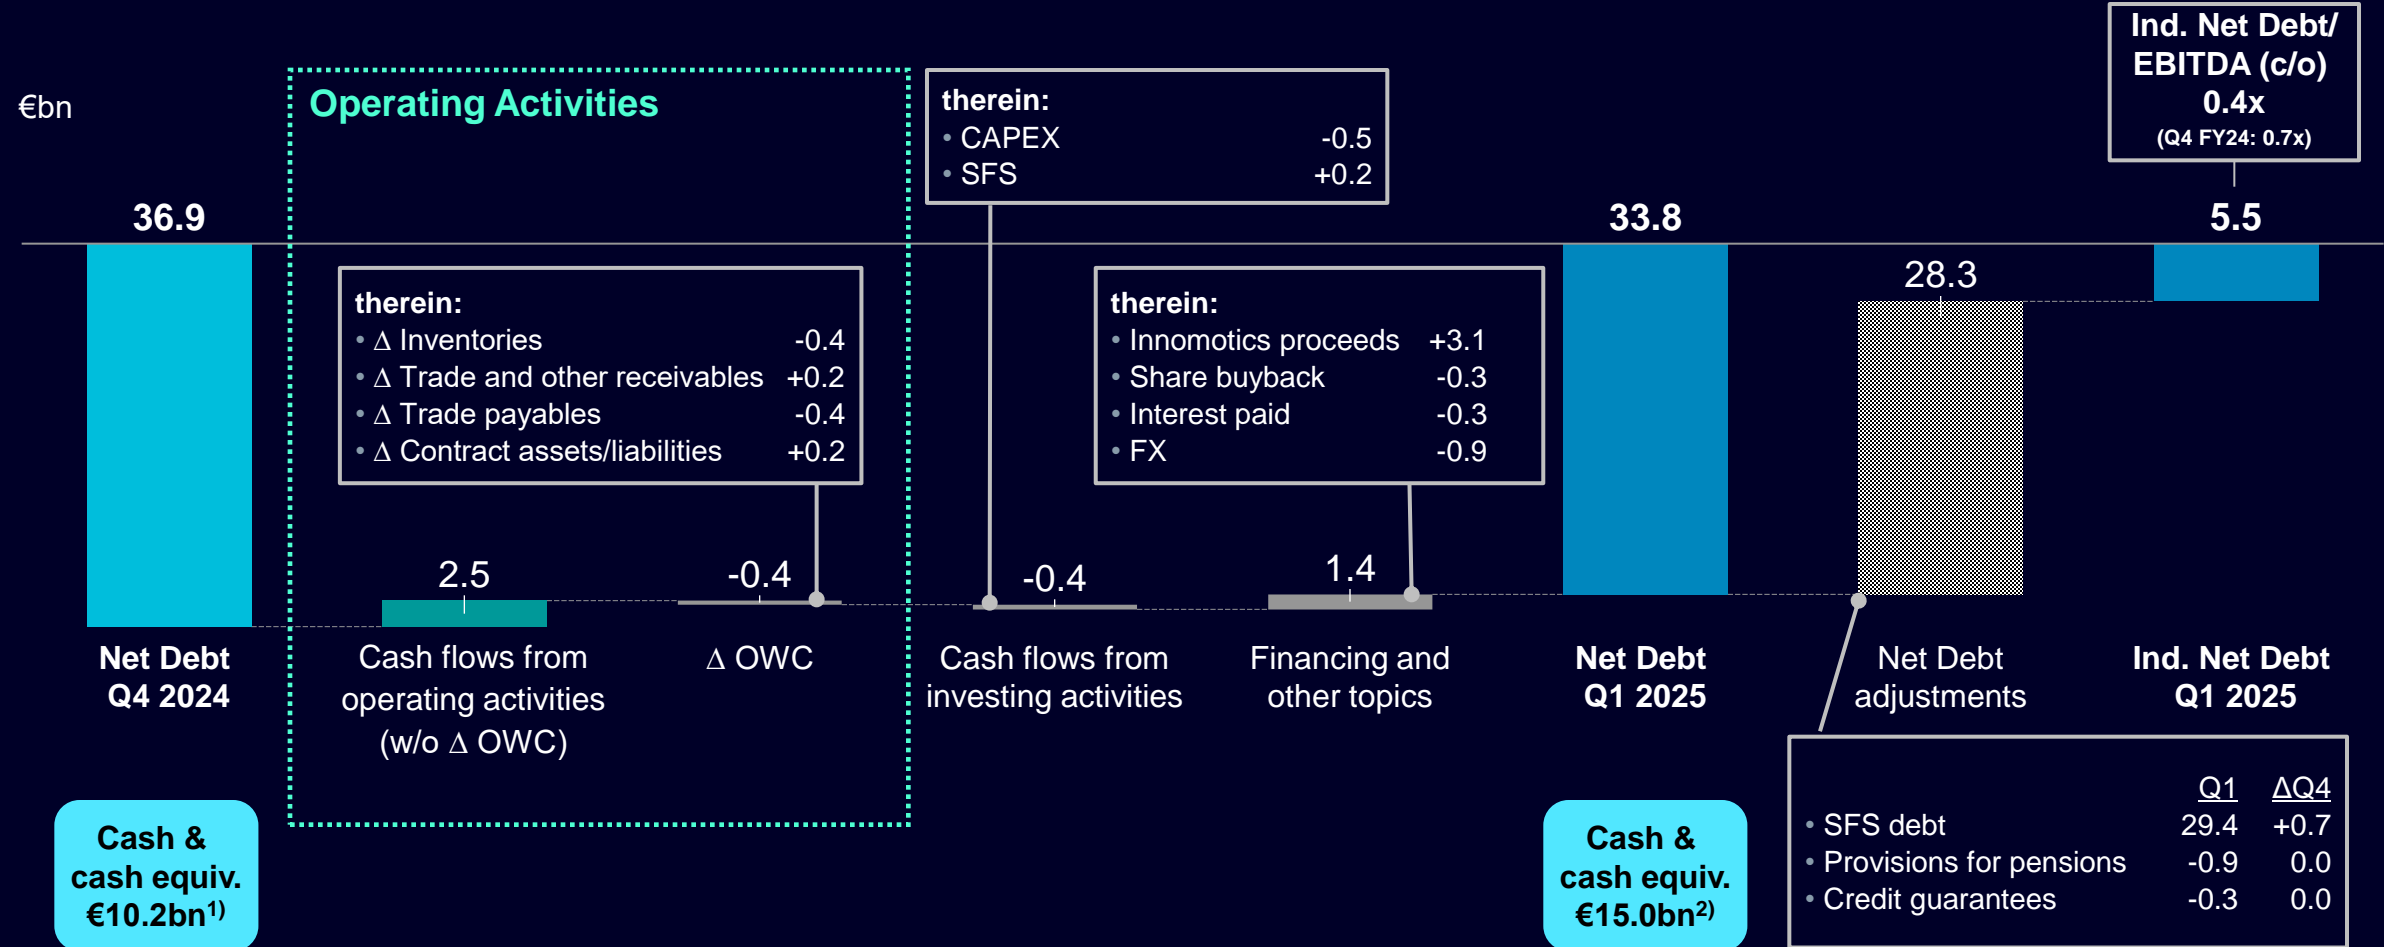

With backlog at record level, growth aspirations well underpinned for Siemens

Key developments

- **Sequential backlog increase** driven by **strong book-to-bill >1** and **currency translation effects**
- **Backlog in DI on normal levels, software gradually increasing**
- **Growing backlog level in systems, solution and service business of SI** providing strong basis for revenue growth trajectory
- **MO with high visibility; execution excellence** is key to deliver on improved backlog quality
- **Attractive long-term share in SHS backlog**

Net Debt bridge: Further improvement of Capital Structure driven by proceeds from sale of Innomotics and strong operating cash flow

1 Sum Cash & cash equivalents of €10.2bn incl. current interest bearing debt securities of €1.1bn
 2 Sum Cash & cash equivalents of €15.0bn incl. current interest bearing debt securities of €1.1bn

Very strong balance sheet

Basis for stringent capital allocation, balancing investments and shareholder returns

Capital structure

Industrial net debt/
EBITDA (c/o)

Target
Up to 1.5x

Financial strength

- Seasonally strong start for cash generation in Q1
- Pension deficit remained at historic low of €0.9bn
- Significant cash inflow from sale of Innomotics (€3.1bn in Q1)
- Excellent financial position recognized with industry leading credit ratings
- Continued commitment to progressive dividend policy and share buyback program
- Substantial financing potential from sale of shares in listed entities, sell down of SE ongoing
- Capital structure expected to remain in target corridor after closing of Altair acquisition

Provisions for pensions remain on historic low level

in €bn ¹	FY 2022	FY 2023	Q1 FY 2024	Q2 FY 2024	Q3 FY 2024	Q4 FY 2024	Q1 FY 2025
Defined benefit obligation (DBO) ²	-27.8	-26.6	-28.8	-28.3	-27.6	-28.4	-28.3
Fair value of plan assets ²	25.9	25.5	27.7	27.9	27.6	28.3	28.0
Provisions for pensions and similar obligations	-2.3	-1.4	-1.5	-1.4	-1.3	-0.9	-0.9
Discount rate	3.9%	4.6%	3.5%	3.7%	3.8%	3.5%	3.6%
