

PROFINET IO – MODBUS TCP MODUL COM190

3WA air circuit breakers: a powerful communication module

Integration made easy

- Two protocols to choose from: PROFINET IO and Modbus TCP
- Two modules for simultaneous use
- Consistent, end-to-end communication: one system with 3VA molded case circuit breakers and measuring devices from the SENTRON portfolio
- COM190 meets the highest PROFINET IO requirements

Mounting made easy

- Flexible and easy installation
- Compact and space-saving device

Reliability made easy

- Integrated security functions
- Future-proof with signed firmware updates

PROFINET IO

Modbus TCP
