

Thomas Brenner

Executive Vice President Siemens Ltd., China
General Manager, Smart Infrastructure, Siemens Greater China

Thomas Brenner firstly joined Siemens AG in Germany more than 30 years ago as an apprentice for telecommunication electronics.

After his military service in 1992, he studied electrical engineering and returned to Siemens in 1998.

Until 2010 he served in different headquarters functions in service, product management and sales for low-and medium-voltage power distribution systems with responsibilities for South-West Europe, South-East Asia and North-East Asia.

From 2010 to 2014 he was General Manager for Low Voltage Products at Siemens Ltd., China.

In September 2014, he returned to Siemens AG Germany being responsible for the global sales for low-and medium-voltage products.

From August 2019 he serves as Executive Vice President of Siemens Ltd., China and General Manager of Smart Infrastructure, Siemens Greater China.

Thomas Brenner holds an engineering degree in Electrical Engineering from the University of Applied Science in Nuremberg, Germany.
