Project Summary

Develop anti-corruption guidelines for curriculum change in graduate business education.

The UN Global Compact and Principles for Responsible Management Education (PRME) will develop anti-corruption guidelines for management schools. The Guidelines will offer business schools academic modules to address transparency, ethics and anti-corruption. The Guidelines will address key topics, including corporate governance, business ethics, the business case for anti-corruption, corporate compliance, Collective Action, UN Convention against Corruption, Global Compact 10th Principle, public contracting/procurement, and supply chain management. The Guidelines will build upon existing resources and will incorporate input from the web-based and face-to-face meetings and seminars. After the Guidelines are developed, they will be disseminated to PRME-affiliated universities. A pilot phase will provide for follow up with participating institutions to evaluate the value and effectiveness of the Guidelines. Project success will be demonstrated in part by the business school graduates who can demonstrate better understanding of various anti-corruption and ethical decision-making strategies.
