

As a safe, experienced and reliable partner, we are on hand to support you at every stage of the logistics chain, from project sales through project execution and more.

### Your ambition made possible: Project Logistics Management

Logistical challenges require the right focus and often a not insignificant effort too. Keeping a meticulous overview of milestones, risks and transport concepts can be a decisive factor for success, especially during the planning of project logistics. Thanks to our Project Logistics Management Services, we can help here – and leave you free to keep an overview of just one thing: your core business.

We can support you with all the elements of project logistics management that you need in order to plan your project successfully, starting with project planning, including clarification of timeframes and conditions, and extending through risk management and freight forwarder selection

#### PLANNING & PROJECT MANAGEMENT

#### PROJECT PLANNING

including clarification of timeframes and conditions

### RISK MANAGEMEN<sup>-</sup>

### RISK MANAGEMENT

Risk analysis, assessment and monitoring with the aim of mitigating the likelihood of occurrence and severity of impact. Development of contingency plans for residual risk

#### SUPPLIER MANAGEMENT

### of logic shipping

of logistics contracts (e.g. shipping method, picking requirements, labeling, necessary documents) and special documents

#### TRANSPORT CONCEPT

Transport concept development including costing

#### DELIVERY DATE

Ensuring that scheduled delivery date and transit times are met

#### OBTAINING BIDS

from freight forwarders, bid comparison and evaluation

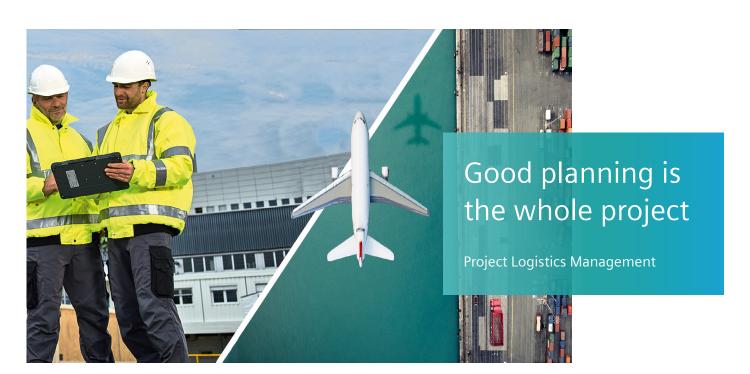

FREIGHT FORWARDER

#### COORDINATION

and implementation of logistics plan and transport concept

### Your ambition made possible: Operational Project Logistics

Transporting goods is a complex task, especially when it comes to operational implementation.

That's why our Operational Project Logistics Services include all the steps in the project logistics process that have to be carried out when executing a shipment, extending from preparing the project charter in the customer's system, for example, through ship-

ping and coordinating the consignments, right up to export and customs clearance on the customer's behalf.

#### TRANSPORT & SHIPPING MANAGEMENT

in customer systems

SHIPPING AND COORDINATION

of all consignments including release of transport orders

with international companies,

with international companies customers and factories

REPARATION OF RELEVANT EXPORT DOCUMENTS

e.g. invoices accompanying goods, packing lists and special documents

DOCUMENT LEGALIZATION

with the relevant authorities

ETTERS OF CREDIT

Preparing compliant documents, including dealing with the banks

EXPORT CUSTOMS CLEARANCE

on behalf of the customer

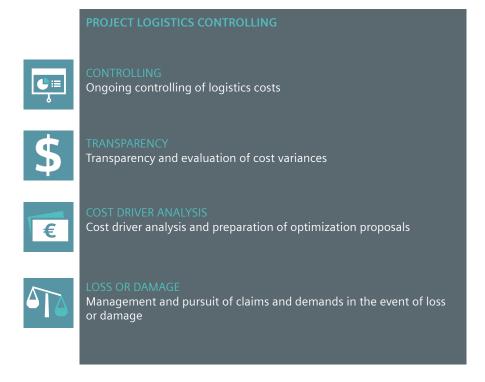

as regards export regulations

### Your ambition made possible: Project Logistics Controlling

Project Controlling is all about creating cost transparency and optimizations that ensure the financial success of your project.

In Project Logistics Controlling, we are on hand to support you with all the elements that you need in order to run your project successfully. Our portfolio begins with the ongoing controlling of logistics costs, includes cost driver analysis and preparation of optimization proposals, and extends all the way through to the management and pursuit of claims and demands in the event of loss or damage.

## A partner you can count on: Our goal – your benefits

As a professional logistics service provider with more than 40 years of experience in project logistics, you can rely on us. We can provide everything you need for your project. The benefits are clear:

- Better project predictability thanks to professional logistics planning
- High reliability based on more than 40 years of experience in project logistics
- Project risks minimized by avoiding mis-delivery or late delivery
- Compliance all along the logistics chain
- Cost efficiency from consolidation concepts and participation in economies of scale enjoyed by the Siemens Group
- Cross-border management of project logistics in more than 10 languages
- Stay up-to-date with the specific regulations in the destination countries
- Highest standards of quality, health, safety and environmental protection

# How we support you

End-to-end coverage of the entire logistics chain

Capabilities and market position of the Siemens Group

Highly capable network of logistics partners

More than 40 years of experience in project logistics

Global availability and sufficient resources to handle large-scale projects too

# Siemens Global Business Services Your ambitions made possible: Talk to us to find out

However great or small your need for logistical support may be, we can help to make it a reality. You can focus on what really matters: your core business. Just leave the rest to us. With more than 10,000 shipments a year, plus around 10 bulk shipments each with shipment weights in excess of 400t, our numbers speak for themselves: thanks to our ex-

perience and our expertise, we support the whole logistics chain for Siemens AG – and we could do the same for you, too! Talk to us – we look forward to meeting you in person:
