

SIEMENS

PREMIER INFRASTRUCTURE DIGITALISATION PARTNER

Siemens Expo 2020 Premier Partnership for Infrastructure Digitalization

November 2021

Unrestricted | © Siemens 2021

SIEMENS

Under the theme “Connecting Minds, Creating the Future,” Expo 2020 Dubai will be the largest megaevent held in the world

Mobility

 4.38 sqkm site,
2x size of Monaco

 Designed for up to
300,000 visitors per
day

 80% of buildings
remain after event
in District 2020

Opportunity

 190+ international
participants and
pavilions

Sustainability

Digitalization shapes how we live and work, how we enjoy our surroundings and how we get around our cities

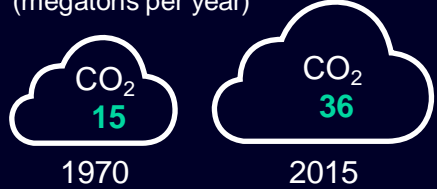

By 2050, over two thirds of the world's population will live in cities

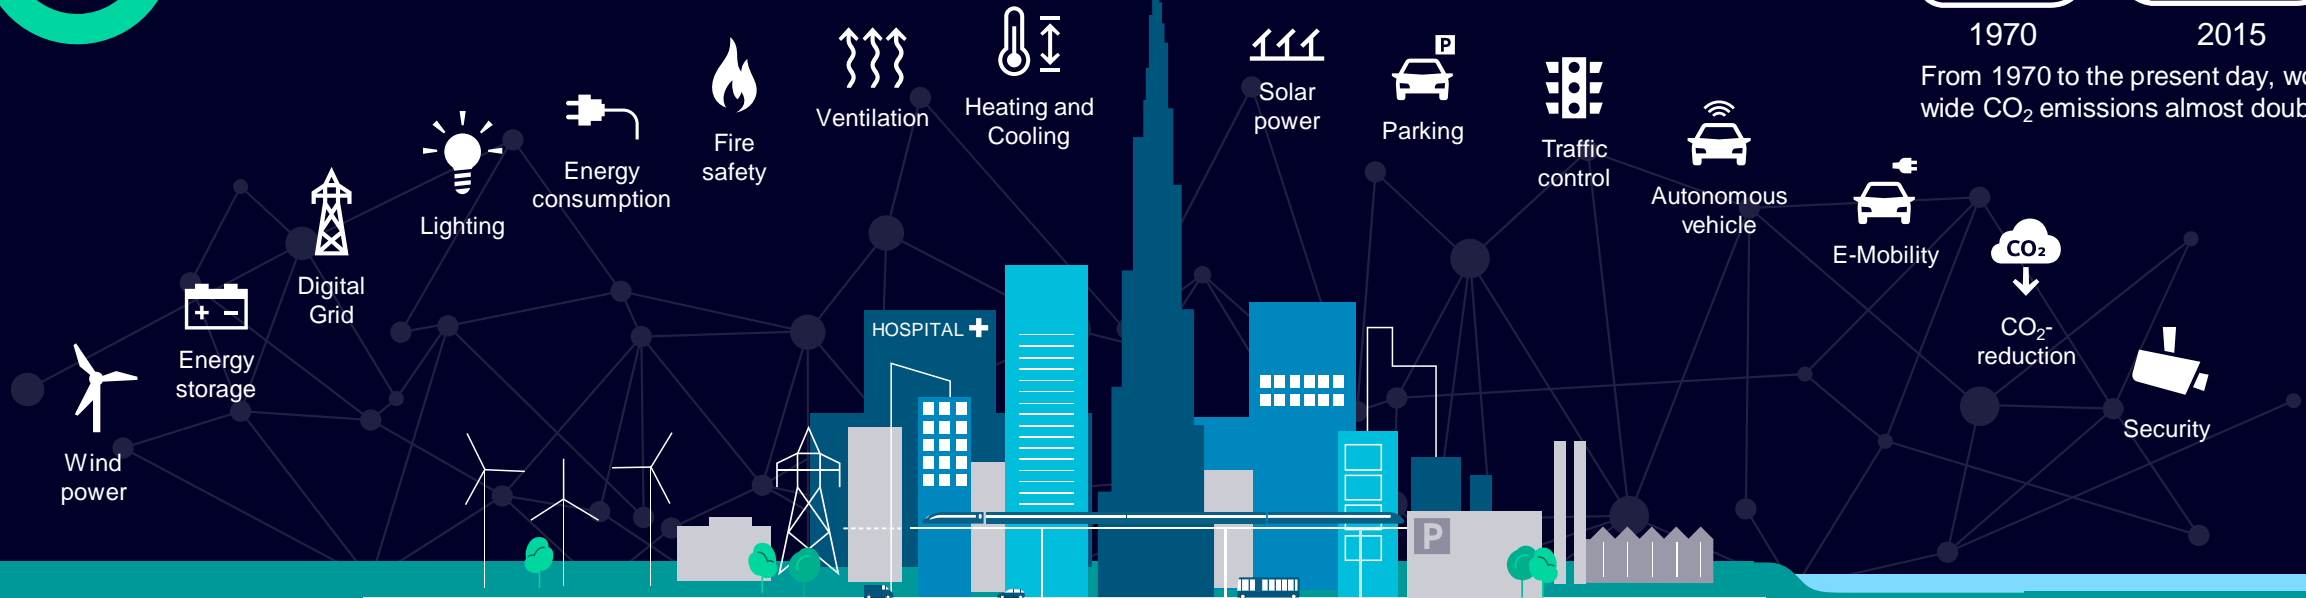

Transport volumes will double by 2050

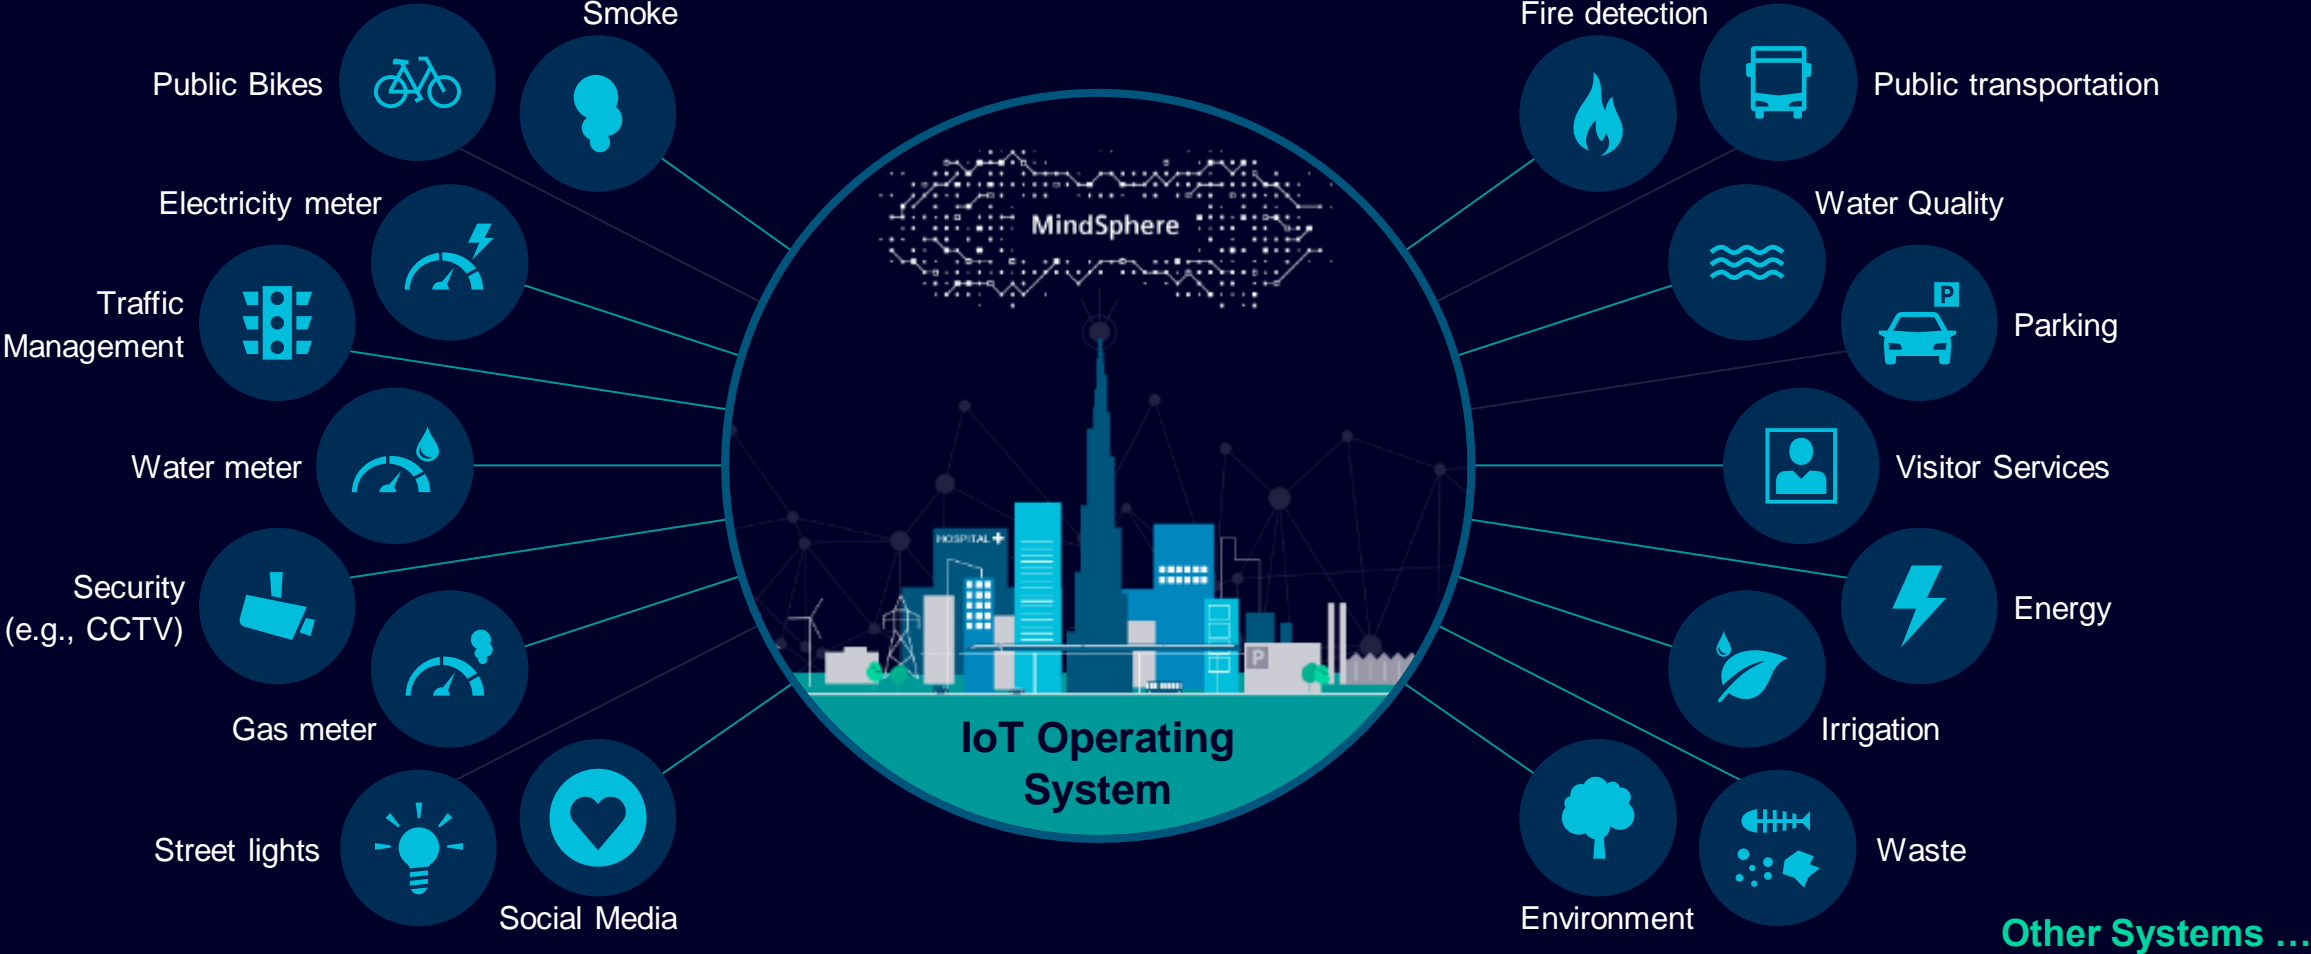

City air management (megatons per year)

From 1970 to the present day, worldwide CO₂ emissions almost doubled.

IoT operating systems can help cities become more competitive, safer, less congested, healthier, greener and more efficient places to live and work

Simulated data flow; single source of truth

We envision Expo 2020 as an ecosystem of digitalized infrastructure and centralized smart data, that will serve as a blueprint for future smart cities

Safety and Security

Ensure

Safe and healthy infrastructure

Quality of Life

Provide

Reliable, comfortable and convenient infrastructure

Sustainability

Drive

Reduce carbon emission and monitor air quality

Resilience

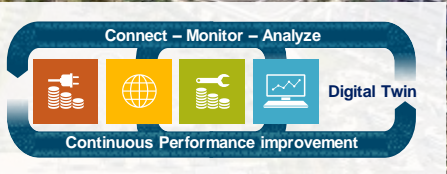

Develop

High adaptability to varying and changing demands

We envision Expo 2020 as an ecosystem of digitalized infrastructure and centralized smart data, that will serve as a blueprint for future smart cities

Open IOT Smart City Operating System with built-in Advanced Analytics and Data lake

 Siveillance Control Pro Site-wide Security Mgmt.

 Siveillance Video Mgmt. System

 SiPass Integrated Access Control

 Lighting, Thermostats, HVAC, and Controllers

 Desigo CC Site-Wide Building Mgmt.

 Green Hydrogen Production Facility

 Sicharge CC AC22 Electric Vehicle Chargers

 Navigator Powered by MindSphere

Technology-enabled operational and reputational resilience

The blueprint for future smart cities will live on in legacy in District 2020, Dubai's smart, sustainable innovation district

- The leadership of Dubai and Expo 2020 are committed to building a **sustainable and long-lasting legacy**
- 80% of the Expo site infrastructure will remain after the event as part of a **smart, sustainable urban district and ecosystem of emerging technologies**, known as District 2020
- With a focus on **IoT for cities and smart infrastructure**, our technology will live on throughout the site, supporting Expo's and District 2020's vision to "Create. Connect. Innovate."
- Siemens and Siemens Energy are proud to be **anchor tenants** of District 2020

District 2020's ecosystem will focus on driving progress in high growth sectors, advanced technologies and influential enablers - the ideal home for businesses looking for cross-industry collaboration & innovation

District 2020 Ecosystem

District 2020 Curated Ecosystem

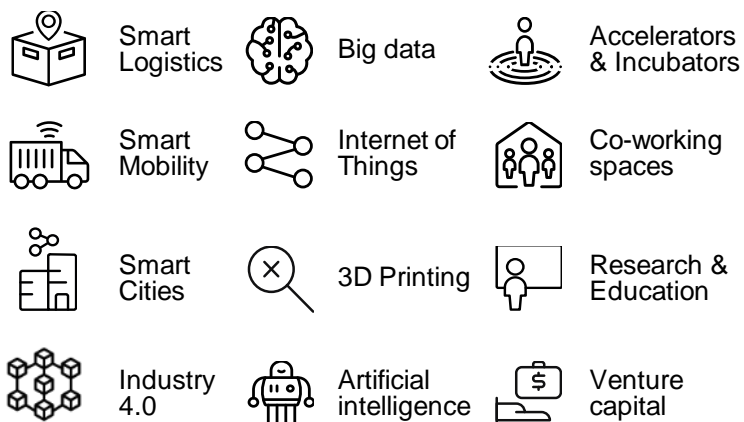

Triple Helix Innovation Model

District 2020's Living Lab

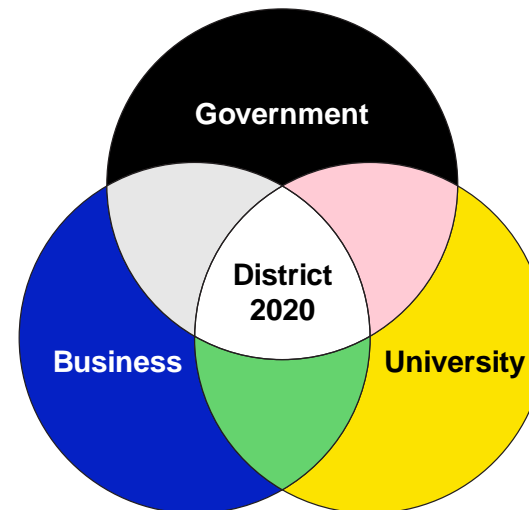

INDUSTRIES

TECHNOLOGIES

ENABLERS

Collaboration culture

will allow companies to:

- Test and pilot products, technologies
- Gather critical data specific to UAE market
- Collaborate on Government projects

District 2020 is the first community in the region to be registered under the **WELL Community Standard** pilot. All our buildings are **LEED Certified**. Eight projects across site received **CEEQUAL** certificates.

WELLNESS

COMFORT

A blueprint with the potential for additional Siemens solutions at District 2020 and smart cities globally

Additional Smart City Solutions	Scope to be implemented for Expo 2020						
	Open IOT Smart City Operating System with built-in Advanced Analytics and Data lake						
 Crisis Management Solutions	 Siveillance Control Pro Site-Wide Security management				 Green Hydrogen Production Facility	 Energy Efficiency and Sustainability	
 Fire Safety Technologies	 Siveillance Video Management System				 Sicharge CC AC22 electric vehicle chargers	 Digital Grid, Grid Edge, and EV Infrastructure	
 Healthcare digitalization	 SiPass Integrated Access Control				 Navigator powered by MindSphere	 Energy Distribution Systems	
 Smart Spaces via Comfy and Enlighted	 Lighting, Thermostats, HVAC, and Controllers				 Desigo CC Site-Wide Building Management		 Autonomous Shuttle Infrastructure
	 Digital twin for buildings and power				 Intelligent Traffic Systems		 S'hail Intermodal Mobility App
Technology-enabled operational and reputational resilience							

Thank you!
