One large screen in the center displays the text 'TIA Portal Openness' and lists various software components like 'PLC', 'Motion & technology', and 'Control devices'. Another screen on the right shows a project status 'Project: "Project2" was opened successfully.' and a list of steps including 'Devices & networks', 'PLC programming', 'Motion & technology', 'Control devices', and 'Visualization'. The overall theme is digitalization in manufacturing.

Enduring partnership since 1867

Siemens has partnered India – from setting up the Indo-European telegraph line in 1867

Siemens offers integrated, digital solutions for India's sustainable future - efficient manufacturing, integrated automation, intelligent infrastructure, complete mobility and sustainable energy.

Our customer-oriented Division setup

Corporate Core and Corporate Services

Executive Management

Digital Factory Division

offers software products and automation technologies for industrial applications covering the entire life cycle, from product design and production to after-sales service for discrete manufacturing industries such as automotive, F&B

Our products and solutions

- Automation systems
- Industrial control
- Industrial communication
- LV and MV Drives
- Geared motors
- Motion control
- CNC solutions
- Low voltage switchgear for switching, protection and control
- PLM software and services

Process Industries and Drives

offers a comprehensive portfolio for industrial application and solutions in the field of automation and drives for process industries such as cement and steel

Our products and solutions

- Process automation
- Integrated Drive Systems (IDS)
- Sensor systems
- Plant engineering software
- LV motors (upto frame size 560)
- MV motors (upto frame size 630)
- Traction motors
- Mechanical drives
- Windmill generators (≤ 1875 MW)
- Gear boxes

Building Technologies Division

provides solutions for safe, secure and energy-efficient infrastructure and buildings

Our products and solutions

- Building automation systems
- HVAC products
- Building control
- Security systems
- Fire safety systems
- Energy efficiency systems
- Total Building Solutions
- Integrated systems and solutions for specific markets and industries such as data centers, utilities, airports, hospitals and hotels

Power and Gas Division

offers products and solutions for reliable, efficient and clean power generation from fossil fuels and for oil & gas applications

Our products and solutions

- Gas turbines (≤ 400 MW)
- Steam turbines (≤ 1900 MW)
- Generators (≤ 2235 MVA)
- Condensers
- Turbo compressors
- Instrumentation and control
- Electrical balance of plant
- Integrated power plant solutions
- **Energy solutions** : Power block, Power island, complete lumpsum turnkey power plants on EPC basis

Energy Management Division

is a supplier of products, solutions and services for the transmission and distribution of electrical energy

Our products and solutions

- Power transformers (≤ 750 MVA)
- Shunt reactors (≤ 125 MVA)
- Protection relays and devices
- AIS upto 800 kV
- GIS upto 800 kV
- Circuit breakers (≤ 800 kV)
- Disconnectors (≤ 765 kV)
- Instrument transformers
- Control and relay panel (≤ 765 kV)
- LV /MV switchboards (≤ 40 kV)

Mobility Division

supplies solutions for passenger and freight transportation, including rail vehicles, rail automation and rail electrification systems

Our products and solutions

- Propulsion systems
- Inverters
- Rail Signaling
- Rail electrification
- Rail automation
- Intelligent Traffic Management
- Light Rail
- Metro Rail
- Passenger coaches

Making it Happen

Key projects and locations, Siemens Limited

We make real what matters, by setting the benchmarks in the way we electrify, automate, and digitalize the world around us. Ingenuity drives us and what we create is yours. Together we deliver.

- A** The first Low-voltage Switchgear factory at Kalwa Works has achieved end-to-end digitalization across its value chain.
- B** Phase II of Rapid Metro Gurgaon inaugurated by Hon'ble Chief Minister Manohar Lal Khattar.
- C** Northern Regional Load Dispatch Center (NRLDC) is one of the world's biggest transmission grids and encompasses nine states in North India.
- D** India's first HVDC link featuring state-of-the-art VSC technology at Pugalur.
- E** First-ever API-compliant single casing extraction-cum-condensing, mechanical drive steam turbine replaced IFFCO's existing twin-casing turbine, at Vadodara, Gujarat
- F** Siemens digitalization solutions to connect Vedanta's power plant fleet at Balco.
- G** Siemens to implement Primary Frequency Control Technology for NTPC Dadri steam power plant

- H** Design, supply, installation, testing and commissioning of complete power supply systems for Chennai Metro Rail Ltd.
- I** Implementing state-of-the-art machinery and equipment for Nagpur Metro
- J** Siemens builds India's first National High Power Transformer Test Laboratory, at Bina, Madhya Pradesh
- K** Modernizing the electrical network with SCADA/EMS implementation at UP State Load Dispatch Center
- L** Implementing a cyber security solution for power plant automation at the Paguthan (Gujarat) plant of CLP India Private Limited.
- M** Construction of new 33/11 kV Air Insulated Switchgear substations in Dhaka, Bangladesh

Digitalized low-voltage switchgear factory at Kalwa Works

First digital factory in India

Can produce 180 variants of low-voltage switchgear in 1 line

At a rate of one product every nine seconds

Annual capacity of up to five million overall products

Chairman's Statement

Dear Shareholders,

During the Financial Year 2016-17, the global economy showed signs of a pick-up in sentiment and investments due to favorable economic conditions in the developed markets. In India, two significant reform measures announced by the government – demonetization in November 2016 and the introduction of Goods and Services Tax in July 2017 did impact the capital goods industry, though the announcement of the bank recapitalization programme and insolvency rules should have a positive impact on the economy. These landmark reforms do entail structural adjustments and recalibration in the short-term, but over the medium and longer term will enable the country to attain its true growth potential.

Large orders during the Financial Year were mainly driven by government investments in infrastructure. Muted growth was witnessed from the private sector and industrial capacity utilization still needs to improve. Large capital expenditure plans have, however, been announced during the Financial Year and hopefully some of these should materialize in the coming year. The growth of Siemens Limited is closely linked to the capital expenditure spend in the economy. Keeping in view market conditions in 2017, the Company delivered a strong performance, with order backlog touching an all-time high during the financial year.

Performance

The Company received New Orders valued at ₹ 135,736 million for the Financial Year ended 30th September, 2017, a 12 percent increase over ₹ 121,199 million in the Financial Year ended 30th September 2016. The Order Backlog as of 30th September 2017 stood at ₹ 122,627 million – an increase of 23 percent compared with ₹ 99,463 million in the previous year. Sales (excluding Other Operating Revenues) were up by 1 percent to ₹ 110,602 million, compared with ₹ 109,642 million in the previous year.

On a continuing operations basis, for the Financial Year ended 30th September 2017, Siemens Limited reported a 26 percent increase in New Orders at ₹ 135,006 million compared to ₹ 106,770 million in the Financial Year ended 30th September 2016. Sales from continuing operations, which was based on a strong order backlog, was at ₹ 110,602 million, 14 percent higher than ₹ 97,083 million in the previous financial year. The Company's Profit before exceptional items and tax from continuing operations increased by 22 percent to ₹ 11,016 million in the Financial Year 2016-17 compared to ₹ 9,026 million in the Financial Year 2015-16. The Earning Per Share (EPS) before exceptional items from continuing operations stood at ₹ 19.80, a 19 percent increase over the EPS of ₹ 16.61 in the previous financial year.

Profits from Operations stood at ₹ 8,546 million compared to ₹ 7,939 million in the previous year.

For the Financial Year ended 30th September 2017, the Company's Profit before Tax stood at ₹ 16,691 million (including exceptional income of ₹ 5,675 million) compared to ₹ 39,416 million (including exceptional income of ₹ 29,923 million) in the previous year. The Profit after Tax for the year was ₹ 11,336 million, down by 61 percent compared with ₹ 29,171 million in the previous year.

The Board of Directors has recommended a dividend of ₹ 7/- per equity share of face value of ₹ 2/- each (350%) for the Financial Year ended 30th September 2017.

Performance Analysis

From an operational perspective, the Company continued to focus on profitable growth, introducing innovative solutions to the market, and operational excellence.

Among the key highlights during the financial year, the Energy Management Division won a large order from Power Grid Corporation of India Limited for India's first HVDC link featuring voltage-sourced converter technology. This was Siemens Limited's largest order during the year. The Power and Gas Division won an order from ONGC for zero hour overhauling of power turbines – the first to be implemented in India.

The low-voltage switchgear factory under the Digital Factory Division became Siemens' first truly digital factory in India. The globally-benchmarked factory can produce over 180 variants of products in one line, and one product every nine seconds. Process Industries and Drives Division won many orders from various government and private customers across cement, pharmaceuticals, defence, mining, industrial, shipping and ports, while also being recognized for leadership in energy-efficiency for its products. The Mobility Division too won contracts from Nagpur Metro, Diesel Locomotive Works and Indian Railways.

Business Responsibility

Siemens Limited significantly ramped up its Corporate Social Responsibility (CSR) activities during the Financial Year and now spends 2% of its average net profits of the last three years on various CSR projects. Project Asha, which focuses on enhancing living conditions through integrated rural development, has helped bring 1,065 acres of land under irrigation and made available 72 million litres of water to over 18,000 individuals. In line with Siemens Limited's focus on skill development, the Scholarship Program, which is into its fifth year, is now supporting 285 students from low income families through four years of engineering studies and has enabled 57 of them to get employment. The introduction of the Dual Vocational Educational System in collaboration with state governments and Industrial Training Institutes across the country will also bring employment to thousands of low income talent. Further, contributions were made to support 2,000 families affected by floods in three districts of Assam and Bihar.

People Excellence

During the financial year, the Company maintained its focus on its employees, implementing several initiatives to retain, develop and sustain its committed, talented workforce. Flexible working hours, a new open office concept, focus on working women's needs and on health of our employees such as healthy breaks and increased awareness of health management were some of the measures introduced during the year. The Company launched a sustained initiative to equip People Managers to create a great workplace experience within their work groups as well as driving an ownership culture within the organization. The Company also emphasized on identifying and grooming potential leaders through a structured framework as part of the potential development programme.

Outlook

The growth driver for the Company continues to be increased public sector investments in power generation, transmission and distribution as well as private sector capacity expansion.

The Company will also increase its focus on providing digital solutions to enable greater productivity and increase the competitiveness of our customers across all segments of our business. Siemens' digital MindSphere platform is already gaining interest from many customers and pilot projects are ongoing. The Company expects continued focus in this area in the year ahead.

In conclusion, I would like to sincerely thank our customers, the board, management, unions and most importantly, the dedicated employees for their constant support and commitment to Siemens Limited.

Deepak Parekh

Chairman

The Perquisites / Benefits shall be valued as per the Income Tax Rules, wherever applicable. In the absence of any such Rules, they shall be evaluated at actual cost.

Other Benefits / Allowances to him include Children's Education Expenses, Holiday passage for children studying outside India / family staying abroad, Reimbursement of expenses incurred on returning to home country after completion of tenure, Group Life Insurance Policy, participation in the equity based compensation programs of Siemens Aktiengesellschaft, Germany ("Siemens AG") / Siemens Limited, as applicable from time to time, Siemens Global guidelines on currency loss protection (if applicable), as per the Rules of the Company and such other Benefits / Allowances as may be approved by the Board of Directors and / or NRC from time to time.

He shall also be entitled to remuneration by way of Performance Linked Incentive based on the specific goals mutually set and approved by the Board of Directors and / or NRC, from time to time.

He shall also be entitled to remuneration by way of Commission, as may be decided by the Board of Directors and / or NRC from time to time. The net profits shall be computed in the manner as set out under Section 198 of the Companies Act, 2013 ("the Act") and the Rules framed there under.

Notice

Severance fees shall be payable to him as per the Rules of the Company.

Notwithstanding anything herein above, where in any financial year during the currency of his tenure as Executive Director and Chief Financial Officer, the Company has no profits or its profits are inadequate, the Company will pay Basic Salary, Overseas Allowance, Perquisites / Benefits / Allowances, Performance Linked Incentive, benefits under the Equity Based compensation programs of Siemens AG / Siemens Limited and Severance fees, as Minimum Remuneration to him.

No Sitting Fee shall be paid to him for attending the Meetings of the Board of Directors or any Committee thereof.

Mr. Rummel is the Key Managerial Personnel of the Company as per Section 203(1)(iii) of the Act.

Pursuant to the provisions of Sections 196, 197, 203 and other applicable provisions, if any, of the Act read with Schedule V to the Act and the Rules made there under, the approval of Members is sought on the resolution set out at Item No. 6 of this Notice.

In accordance with the said resolution, within the aforesaid limits, the amount of salary package, Perquisites / Benefits / Allowances, Performance Linked Incentive and commission payable to him (including the types and amount of each type of Perquisites / Benefits / Allowances) will be decided by the Board of Directors and / or NRC, at such time or times, as it may deem fit, in its sole and absolute discretion.

The Board of Directors recommends resolution set out at Item No. 6 of this Notice for your approval.

Mr. Rummel is not related to any of the Director of the Company.

None of the Directors, Key Managerial Personnel or their relatives except Mr. Christian Rummel and his relatives, are interested, financially or otherwise, in the Resolution set out at Item No. 6 of this Notice.

Item No. 7

The Board of Directors of the Company, on the recommendation of the Audit Committee, has approved the appointment of Messrs R. Nanabhoy & Co., Cost Accountants (having Firm Registration No. 000010), as the Cost Auditors to conduct the audit of the cost records of the Company for the Financial Year ending 30th September, 2018.

In accordance with the provisions of Section 148 of the Companies Act, 2013 read with the Companies (Audit and Auditors) Rules, 2014, the remuneration payable to the Cost Auditors has to be ratified by the Members of the Company. 15. Corporate Social Responsibility

At Siemens, we have an unrelenting drive and promise to sustainably improve living conditions. Our mission is to make real what matters in the way we electrify, automate and digitalize the world around us. Ingenuity drives us and what we create is for the society. Our company-wide Corporate Citizenship framework forms a part of the Sustainability & Citizenship priority areas in order to address the challenges and needs that communities face by leveraging the Company's competencies and solutions. The Company considers it as its economic, environmental and social responsibility to foster sustainable local development as well as add value to the local economy in which it operates.

In accordance with the provisions of Section 135 of the Act and Rules framed there under, the Company has a Corporate Social Responsibility (“CSR”) Committee of Directors comprising of Mr. Deepak Parekh (Chairman), Ms. Mariel von Schumann, Mr. Sunil Mathur and Mr. Christian Rummel. The Committee reviews and monitors the CSR projects and expenditure undertaken by the Company on a regular basis.

The Company focuses its efforts towards promotion of science and technical education, skill development, conservation of water and other natural resources, provision of healthcare and sanitation, integrated rural development and providing relief during disaster. The Company implements the CSR projects directly as well as through implementing partners. The details of such initiatives and its spend, CSR Policy etc., have been provided as **Annexure VI** to this Report, as required under the Companies (Corporate Social Responsibility Policy) Rules, 2014.

16. Remuneration Policy

The details of the Remuneration policy are mentioned in the report on the Corporate Governance.

A Statement of Disclosure of Remuneration pursuant to Section 197 of the Act read with Rule 5(1) of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014 (as amended), is provided as **Annexure VII** forming part of this Report.

17. Extracts of Annual Return

The extracts of Annual Return in Form MGT 9 as required under Section 92(3) of the Act read with Rule 12 of the Companies (Management and Administration) Rules, 2014 (as amended), forms part of this Report as Annexure VIII.

18. Particulars of contracts or arrangements with Related Parties

The particulars of contracts or arrangements with Related Parties referred to in Section 188(1) of the Act, in the prescribed Form AOC-2, is provided as **Annexure IX** forming part of this Report.

19. Particulars of Loans, Guarantees or Investments

A statement providing particulars of loans, guarantees or investments under Section 186 of the Act is provided as **Annexure X** forming part of this Report.

20. Vigil Mechanism

As per the provisions of Section 177(9) of the Act, the Company is required to establish a Vigil Mechanism for Directors and employees to report genuine concerns. The Company has a Policy for Prevention, Detection and Investigation of Frauds and Protection of Whistleblowers (“the Whistleblower Policy”) in place and the details of the Whistleblower Policy are provided in the Report on Corporate Governance forming part of this Report. The Company has disclosed information about the establishment of the Whistleblower Policy on its website <http://www.siemens.co.in/en/index/investor/business-ethics.htm>.

21. Risk Management Policy

Siemens Enterprise Risk Management (ERM) is a company-wide framework of methods and processes used to identify, assess, monitor and mitigate risks and seize opportunities related to achievement of Siemens business objectives. The Siemens ERM approach is based on the globally accepted “The Committee of Sponsoring Organizations of the Treadway Commission” (“COSO”) framework i.e. “ERM – Integrated Framework”. The COSO framework provides a generic concept which has been customized to reflect Company’s requirements.

Major risks identified by the Business Divisions and Corporate Departments are systematically addressed through mitigating actions on a continuing basis. The Company has a Risk Management Committee in accordance with the requirements of LODR to, inter alia, monitor the risks and their mitigating actions. The Board of Directors of the Company also reviews the Risk Assessment and Mitigation Report annually.

Details in respect of adequacy of internal financial controls with reference to the Financial Statements are given in the Management’s Discussion and Analysis, which forms part of this Report.

22. Directors’ Responsibility Statement

Pursuant to the provisions of Section 134(3)(c) read with Section 134(5) of the Act, the Directors confirm that, to the best of their knowledge and belief:

- a) that in the preparation of the Annual Financial Statements for the year ended 30th September, 2017, the applicable accounting standards have been followed along with proper explanation relating to material departures, if any;

Directors' Report

- b) that such accounting policies have been selected and applied consistently and judgment and estimates have been made that are reasonable and prudent so as to give a true and fair view of the state of affairs of the Company as at 30th September, 2017 and of the profit of the Company for the year ended on that date;
- c) that proper and sufficient care has been taken for the maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting fraud and other irregularities;
- d) that the annual Financial Statements have been prepared on a going concern basis;
- e) that proper internal financial controls are in place and that such internal financial controls were adequate and were operating effectively (See note below);
- f) that proper systems have been devised to ensure compliance with the provisions of all applicable laws and are adequate and operating effectively.

Note: On an internal investigation by the Company it was revealed that as a result of a collusion between certain employees and suppliers through the use of fraudulent purchase orders and related documentation and the failure of some other employees to adequately discharge their responsibilities under the internal financial control procedures laid down by the Company, a fraud spread over several years prior to 31st March, 2011 was perpetrated on the Company, the estimated impact of which was ₹ 190 million. The amount related to each of the years concerned is not material in the context of the financial results of those years. The investigation report has not revealed any material inadequacy in the internal financial controls but, in the light of the findings, some further steps have been taken to strengthen the procedures. There is no impact on the profit for the year ended 30th September, 2017 and 30th September, 2016. Appropriate disciplinary action, wherever possible, has been taken against the concerned employees.

23. Fixed Deposits

Your Company has not accepted any fixed deposits and, as such, no amount of principal or interest was outstanding as of the Balance Sheet date.

24. Amount, if any, proposed to transfer to reserves

The Company has made no transfers to reserves during FY 2016-17.

25. Employees

Your Directors place on record their deep appreciation for the contribution made by the employees of the Company at all levels.

The information on employees particulars as required under Section 197(12) of the Act read with Rule 5(2) and 5(3) of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014 (as amended), is provided in the Annexure forming part of the Report. In terms of Section 136 of the Act, the Report and Financial Statements are being sent to the Members and others entitled thereto, excluding aforesaid Annexure. The said information is available for inspection by the Members at the Registered Office of the Company as per the details mentioned in notice of the 60th Annual General Meeting on any working day of the Company up to the date of the 60th Annual General Meeting. Any Member interested in obtaining a copy of the same may write to the Company Secretary.

26. Policy on Prevention of Sexual Harassment at Workplace

The Company has in place a Policy on Prevention of Sexual Harassment at Workplace in line with the requirements of the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 and Rules framed thereunder and Internal Complaints Committee has also been set up to redress complaints received regarding sexual harassment. During the year, one complaint with allegations of sexual harassment was received by the Company and the same was investigated and resolved.

27. Auditors

- i) Pursuant to provisions of Section 139 of the Act read with the Companies (Audit and Auditors) Rules, 2014, Messrs S R B C & CO LLP, Chartered Accountants (Firm Registration No. 324982E/E300003) were appointed as Statutory Auditors of the Company for a term of four years, to hold office from the conclusion of 57th Annual General Meeting held on 30th January, 2015, until the conclusion of 61st Annual General Meeting, subject to ratification of their appointment at every subsequent Annual General Meeting.

A certificate from Statutory Auditors has been received to the effect that their appointment as Statutory Auditors of the Company, if ratified at ensuing Annual General Meeting, would be according to the terms and conditions prescribed under Section 139 of the Act and Rules framed there under.

A resolution seeking ratification of their appointment forms part of the Notice convening the 60th Annual General Meeting and the same is recommended for your consideration and approval.

The Auditors' Report FY 2016-17 does not contain any qualification, reservation, adverse remark or disclaimer.

- ii) Pursuant to provisions of Section 204 of the Act read with the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014 (as amended), the Secretarial Audit Report for FY 2016-17 issued by Secretarial Auditors i.e. Messrs Parikh Parekh & Associates, Practising Company Secretaries (CP No. 1228) is provided as **Annexure XI** to this Report. The Secretarial Audit Report FY 2016-17 does not contain any qualification, reservation, adverse remark or disclaimer.
- iii) The Board of Directors, on recommendation of the Audit Committee, has re-appointed Messrs R. Nanabhoy & Co., Cost Accountants (Firm Registration No. 000010), as Cost Auditors of the Company, for the Financial Year ending 30th September, 2018, at a remuneration as mentioned in the Notice convening the 60th Annual General Meeting and same is recommended for your consideration and ratification.

The Company had filed the Cost Audit Report for FY 2015-16 on 2nd March, 2017, which is within the time limit prescribed under the Companies (Cost Records and Audit) Rules, 2014.

- iv) There have been no instances of fraud reported by abovementioned Auditors under Section 143(12) of the Act and Rules framed thereunder either to the Company or to the Central Government during FY 2016-17.

28. Material changes and commitment, if any, affecting financial position of the Company from financial year end and till the date of this report

There have been no material changes and commitments, if any, affecting the financial position of the Company which have occurred between the end of the Financial Year of the Company to which the Financial Statements relate and the date of this Report.

29. Significant and Material Orders passed by the Regulators or Courts

There are no significant and material orders passed by the regulators or courts or tribunals impacting the going concern status and operations of the Company in future.

30. Acknowledgements

The Board of Directors takes this opportunity to thank Siemens AG - the Parent Company, customers, members, suppliers, bankers, business partners / associates and Central and State Governments for their consistent support and co-operation to the Company.

Conservation of Energy, Technology Absorption, Foreign Exchange Earnings and Outgo

(Pursuant to provisions of Section 134(3)(m) of the Companies Act, 2013 read with Rule 8(3) of the Companies (Accounts) Rules, 2014).

A. Conservation of Energy

I. Steps taken or impact on conservation of energy:

- i. Replacement of conventional office lighting and shopfloor lighting into LED lighting across locations resulting in annual energy savings of 808 MWh.
- ii. Replacement of air cooler chillers with water cooled chillers at Gurgaon office resulting in annual energy savings of 273 MWh.
- iii. Replacement of old compressor with new energy efficient compressor at Kalwa location resulted in annual energy savings of 256 MWh.
- iv. Optimization of Air conditioning system and replacement of old AC with new inverter technology energy efficient AC resulting in annual energy savings of 105 MWh.
- v. Replacement of dish washer machine at Nashik Factory resulting in annual energy savings of 60 MWh.
- vi. Replacement of centrifugal compressor by screw compressor at Nashik factory resulting in annual energy savings of 41 MWh.
- vii. Elimination of Preheating of motor winding in drying oven at Motor factory at Kalwa resulting in annual energy savings of 24 MWh.
- viii. Installation of day light harvesting product in Nashik and Aurangabad factory resulting in annual energy savings of 12 MWh.
- ix. Workplace optimization resulting in annual energy savings of 8 MWh.
- x. Energy saved by reducing the oven processing time at Transformer factory at Kalwa resulting in annual energy savings of 5.64 MWh.
- xi. Installation of vertical transparent sheet at Nashik factory resulting in annual energy savings of 4 MWh.
- xii. Shifting of control panel from outdoor to main machine panel resulting in annual energy savings of 0.60 MWh.

II. Steps taken by the Company for utilizing alternate sources of energy:

Utilization of natural daylight through day light harvesting product.

III. Capital investment on energy conservation equipments:

The Company made capital investments amounting to ₹ 89.5 million during the Financial Year 2016-17 on the energy conservations equipments.

B. Technology Absorption

I. Efforts made towards technology absorption:

- i. Developed Mechanical Run Test (MRT) for steam turbine.
- ii. Reverse engineering of Other Original Equipment Manufacturer (OOEM) steam turbine parts.
- iii. Developed Plasma thermal spray and Plasma transfer arc welding process for repairs of blower rotor.
- iv. Designed special base frame to suit the existing foundation of OOEM machine (without any modification in civil foundation) and Siemens machine.

Conservation of Energy, Technology Absorption, Foreign Exchange Earnings and Outgo

- v. Designed Balancing Pedestals to reduce lead time for OEM.
- vi. Initiated Order Pre Commitment Approval (OPCA) process to reduce lead time of repair process.
- vii. Localization initiative – Large Steam Turbines (LST) spares and Repairs for Utility steam turbine.
- viii. Monitoring of pressure using special sensors installed in mould cavities for ensuring improved and consistent quality of plastic parts.
- ix. Fully automated contact production set up installed with high frequency welding with pre desired AC cycle and closed loop control.
- x. New fully automated set up for riveting of laminated high precision magnets installed for new generation of products.
- xi. Automatic Magnet grinding line is for high precision surface quality for new generation of products with closed loop quality control.
- xii. Integration of threading operation within the progressive stamping die for coil terminals.
- xiii. Radio Frequency Identification (RFID) system based production control and monitoring.
- xiv. Vision system for controlling quality.
- xv. Sensor based humming testing for contactors.
- xvi. Laser based dynamic testing of contactors.
- xvii. Manufacturing Execution System (MES) solution based production control and monitoring.
- xviii. Permanent Magnetization of ferrite core for reducing copper content in DC coils.
- xix. Servo press based riveting system for ensuring air gap in DC Drive to compensation input variation.
- xx. Coil testing by digital signature testing.
- xxi. Automated welding of coil terminals instead of soldering.
- xxii. Data matrix code using laser marking for establishing traceability / genealogy for individualized product.
- xxiii. Replaced the guide ways and ball screw of Horizontal machining centre without support of overseas engineers.
- xxiv. Localization of Insulated Gate Bipolar Transistors (IGBT) power modules for Drives.
- xxv. Enhanced display card functionality.
- xxvi. Re-engineered / modified the product - DIM 6 PCB used for Building Management System (BMS) applications to avoid misplacement of connectors and also to avoid rework after wave soldering process.
- xxvii. The power supply products were re-engineered and new enclosure were developed.
- xxviii. Migrated to the new hardware version as per the global standard for energy management controllers.
- xxix. Technical customization and implementation of Automatic Generation Control module.
- xxx. Harmonization of best-in-class technology.

II. Benefits derived as a result of the above efforts:

- i. Cost optimization, reduced lead time of repair and competitiveness.
- ii. Restoration to original dimension of turbine rotor and ensuring interchangeability.
- iii. Low cost solution to customer
- iv. Customized solution
- v. Product improvement and cost reduction.

III. Imported Technology:

Details of Technology Imported	Year of Import	Whether the technology been fully absorbed	If not fully absorbed, areas where this has not taken place, reasons there for
Bureau of Indian Standard (BIS) marked high efficiency (IE2 + IE3) motors Platform DFIG's for wind turbine generators were localized for Indian Market from 2.1 to 3.3 MW/ 4 or 6 Pole	2017	Yes	Not applicable
Linear Taktomat with servo controlled conveyor for magnet production line Servo press for riveting in AC as well as DC Magnet production line Permanent magnetization set up for DC coil system DC inverter welding technology for Contact welding RFID & Vision inspection system Sensor based humming	2017	Yes	Not applicable
Enclosure assemblies for primary 36kV Gas Insulated Switchgear	2017	No	Technology absorption will be decided based on global footprint roadmap developed.
170kV Circuit Breaker	2016 and 2017	Yes	Not applicable
400kV, 145kV, 245kV – Gas Insulated Switchgear	2016 and 2017	Yes	Not applicable
Hydrogen gas sensor for Power Transformer to measure H2 content in oil	2017	No	Low volumes of the total product
Bushings sensor for Power Transformers to monitor healthiness of bushings	2017	No	Low volumes of the total product
Enhanced Platform (EP) technology steam turbines (SST600-EP)	2017	Yes	Not applicable

IV. Expenditure incurred on Research and Development: ₹ 66 million.

C. Foreign exchange earnings and outgo

Foreign Exchange Earnings and Outgo during the Financial Year 2016-17:

(₹ In million)

Foreign Exchange earned in terms of actual inflows	21,237.19
Foreign Exchange outgo in terms of actual outflows	35,833.09

Annexure III to the Directors' Report

Management's Discussion & Analysis

General Performance Review

During the financial year 2017, Siemens Limited operated in a mixed market environment, with large orders primarily being driven by government investments in transmission and distribution. Private sector capital expenditure continued to show muted growth.

In addition, the improving 'ease of doing business' boosted positive sentiment for foreign investment into India while large corporates across sectors such as oil and gas, steel and cement announced plans for capacity expansion. Continuing with the reforms of the previous years, the Government announced further reform measures such as Saubhagya scheme for complete electrification of India, bank recapitalization, insolvency rules, Goods and Services Tax and demonetization.

The retail inflation rate remained at a lower rate in financial year 2017 compared to the previous year prompting the Reserve Bank of India to reduce benchmark interest rates to a seven-year low. The Index of Industrial Production rose by 4.6% annually compared to 3.3% in 2016. However, capacity utilization, an indicator of manufacturing growth, remained stable at 71.2% compared to 71.7% in the same period last year.

During financial year 2017, New Orders were up by 12 percent at ₹ 135,736 million, compared with ₹ 121,199 million in financial year 2015-16. Sales (excluding Other Operating Revenues) were up by 1 percent to ₹ 110,602 million, compared with ₹ 109,642 million in financial year 2015-16, while Profit after Tax (PAT) was at ₹ 11,336 million compared with ₹ 29,171 million in financial year 2015-16. During financial year 2016-17 the exceptional items stood at ₹ 5,675 million, compared with ₹ 29,923 million in financial year 2015-16.

Operational Performance

The Company's business is aligned into Divisions: Power and Gas, Energy Management, Mobility, Building Technologies, Digital Factory and Process Industries & Drives.

POWER AND GAS

Power and Gas Division offers a broad spectrum of products and solutions for reliable, efficient and clean power for generation of electricity from fossil fuels and for the reliable generation of power for oil and gas as well as for industrial applications. Customers are Utilities, Independent Power producers and Engineering, Procurement and Construction (EPC) companies as well as businesses in industries such as oil and gas, sugar, cement, etc.

The Division continued to operate in challenging domestic market conditions. Order growth in the Division was mainly driven by industrial (small) steam turbines in both domestic and export markets and service-related projects.

The thermal-based power generation market (large gas and steam turbine) continues to face challenges due to various factors like subdued demand, lower industrial growth and lower plant load factor of installed thermal plants, inadequate

gas availability, measures to encourage renewable energy and a shift toward smaller-scale projects and localization. The power plants in India still operate with overcapacities.

Among the highlights, the Division won an order worth approximately ₹ 3660 million from Oil and Natural Gas Corporation Limited for overhauling of power turbines through zero-hour overhaul and time continued overhaul concepts.

For financial year 2016-17, the New Orders were up by 37 percent to ₹ 18,357 million, Sales up by 1 percent to ₹ 14,125 million, while Profit from Operations was ₹ 2,015 million compared to ₹ 1,373 million in the previous year.

Outlook

The Power and Gas Division expects energy demand to grow in the mid-term mirroring the GDP growth. Several policies and initiatives under implementation by the Government of India like new steel policy, increased nuclear power, and promotion of electric vehicles are expected to revive the overall Power Generation sector. Policies like Hydrocarbon Exploration and Licensing Policy (HELP) are expected to benefit the Oil and Gas sector in the future.

The Division continues to develop solutions to build on "Make in India" and "24/7 power for all" programs. It will use local capabilities to provide engineering for global projects and manufacture steam turbines for India and export.

ENERGY MANAGEMENT

Energy Management Division is a supplier of products, systems, solutions and services for Transmission & Distribution, Management & Control of electrical energy. Its electrification portfolio ranges from Low voltage Products for domestic electrification, through products, systems & solutions for electrification of Medium Voltage Distribution and Ultra high Voltage Transmission Grids. Portfolio also covers Automation & Digitalization products & solutions for all elements of power value chain. Its customers are Central & State Utilities, Private Transmission & Distribution System Operators and Industries.

During the financial year 2016-17, the market for Energy Management solutions remained highly competitive with large investment from Utilities and muted capex from Industrial Customers.

Among the key highlights in financial year 2016-17, a consortium of Siemens and Sumitomo Electric Industries Limited was awarded an order from Power Grid Corporation of India Limited to supply a high-voltage direct current (HVDC) transmission system. The total size of the order won by the consortium is US \$520 million, of which the share of Siemens Limited is approximately Rs 16.82 billion. The Division also won several other key orders. It won orders for Air Insulated Switchgear from Bangladesh Rural Electrification Board (BREB), Dhaka (worth approximately ₹ 1,874 million) and from Sterlite Power Grid Ventures Limited (worth approximately ₹ 1,190 million). In addition, it also won an order worth approximately ₹ 1,010 million from Delhi Transco Limited for Gas Insulated Switchgear substations.

For financial year 2016-17, the New Orders were up by 35 percent to ₹ 60,045 million, Sales up by 26 percent to ₹ 43,481 million, while Profit from Operations was ₹ 3,234 million compared to ₹ 2,541 million in the previous year.

Outlook

The Government's focus on Power for all until 2022, continued thrust on Renewables, "Make in India," and infrastructure upgrade programs, will result in investment in Regional & state level transmission network as also investments in Distribution system, after the till date success indicators of UDAY scheme. These drivers will continue to propel the market for electrification solutions as well as Smart Grid solutions to pare aggregate technical and commercial power losses. Government's vision of total E Mobility until 2030 has further potential to disrupt the Market.

BUILDING TECHNOLOGIES

Building Technologies Division provides solutions for safe, secure, energy-efficient and eco-friendly buildings and infrastructures. It has solutions for applications such as fire safety, security, building automation, heating, ventilation, air conditioning and energy management.

The Building Technologies Division continued to perform better than market rate while gaining market share. The growth in demand for solutions from Building Technologies during financial year 2016-17 was due to investments by Government and Corporates in technologies aimed at improving safety (fire and surveillance) and comfort (building management system and HVAC). Major contributors to new orders continued to be IT/ITeS, BFSI (Banking, Financial Services and Insurance) and Life Sciences sectors.

Among the highlights of the financial year, Building Technologies Division completed the installation of the Command and Control solution for one of India's largest oil and gas exploration and production companies. The Division also received the ACREX "Best Energy Saving" Award of Excellence for its Demand Flow™ solution.

For financial year 2016-17, the New Orders were up by 13 percent to ₹ 4,680 million, Sales up by 15 percent to ₹ 4,240 million, while Profit from Operations was ₹ 289 million compared to ₹ 254 million in the previous year.

Outlook

The demand for Building Technologies solutions is expected to pick up, driven by increase in private investment and Government-led infrastructure projects (metros, airports, ports, railways and smart cities), continued growth in BPOs, IT/ITeS and life sciences sectors. In addition, there has been an increasing demand in Digitalized offerings. Also, growth areas are seen in the emerging field of data analytics and for energy efficiency solutions.

MOBILITY

Mobility Division provides solutions for railways covering the entire gamut, from rail automation, electrification equipment and rolling stock solutions for mass transit regional and main line traffic along with comprehensive services and turnkey systems for rail transportation. During the financial year

2016-17, the Division benefited from Government initiatives to enhance rail capacity and improve rail transportation, which led to awarding of various projects in both mainline and in the metro segments.

The Mobility Division won multiple contracts from Nagpur Metro for Overhead Electrification, Signaling and Depot, the Propulsion equipment orders from Diesel Locomotive Works, the Hotel Load Converters from Chittaranjan Locomotive Works, Electronic Interlocking contracts for Indian Railways and annual maintenance contracts (AMCs) for Electric Multiple Units for Mumbai Central Railways.

For financial year 2016-17, New Orders were up by 11 percent to ₹ 12,452 million, Sales up by 9 percent to ₹ 11,855 million, while Profit from Operations was ₹ 903 million compared to ₹ 676 million in the previous year.

Outlook

The outlook for Mobility Division is dependent on Indian Railways initiatives towards modernization and electrification, which are on the right track. The Government is also increasing its focus on safety, infrastructure development, electrification and energy efficiency. Further, plans to award Public-Private Partnership projects for supply and manufacturing of EMUs, dedicated freight corridors, high-speed rail and metro projects are expected to boost the country's rail sector.

DIGITAL FACTORY

Digital Factory Division offers a comprehensive portfolio of software products and automation technologies for industrial applications covering the entire life cycle, from product design and production execution to after-sales services. Siemens helps its customers in the manufacturing sector enhance the flexibility and efficiency of their production processes, thereby boosting their competitiveness with comprehensive Digital Enterprise Suite. These solutions are supplied to customers in various discrete industries, General Engineering segments and Original Equipment Manufacturers (OEMs) engaged in machine tools, printing, packaging and electrical panel manufacturing.

During the financial year 2016-17, Digital Factory Division witnessed order pick-up in the automotive, tyre, food & beverage, pharmaceutical and infrastructure related segments amid an overall sluggish capital expenditure environment in the private sector. The Division maintained steady growth amid continued lower capital expenditure by customers. Among the highlights, the Division inaugurated its showcase digitalized low-voltage Switchgear factory at Kalwa. The globally-benchmarked factory is capable of producing more than 180 variants at the rate of one product every nine seconds.

For financial year 2016-17, the New Orders were up by 10 percent to 19,727 million, Sales up by 9 percent to 19,134 million, while Profit from Operations was 1,230 million compared to 1,246 million in the previous year.

Outlook

Manufacturing-led growth and greater adoption of Digitalization / Industry 4.0 is expected to boost demand

Annexure III to the Directors' Report

Management's Discussion & Analysis

for factory automation, software and data analytics (via MindSphere, open IoT cloud platform), especially in greenfield and brownfield projects in the automotive, food processing and Pharmaceuticals sectors. It foresees demand to pick up, driven by the increasing focus among customers on cost productivity, energy savings and regulatory compliance through retrofit and modernization of equipments. Private sector capital expenditure is muted and is expected to pick up only when existing capacities are utilized.

PROCESS INDUSTRIES & DRIVES

Process Industries and Drives Division offers a comprehensive portfolio for Industrial application and solutions in the field of Automation and Drives for process industries such as Chemical, Pharmaceuticals, Food and Beverages, Water and Waste Water, Cement, Mining, Oil & Gas, Paper and Marines. The business environment in which Process Industries and Drives Division operates is primarily driven by core sector industries. It continued to face a challenging business environment during the financial year, which saw government spending on infrastructure gradually increasing while greenfield private sector investments remained sluggish.

During the financial year, the Division announced the launch of its new range of energy efficient motor SIMOTICS 1LE7. The Division received recognition for its motors: India High and premium efficiency electric motors Enabling Technology Leadership Award from Frost & Sullivan and "Champion in Energy Efficiency" award from Tata Steel. The Division also won orders from various government and private customers across Cement, Pharmaceuticals, Defence, Mining, Industrial, Shipping and Ports. With customers seeking solutions for managing variability and enhancing productivity, improving quality controls and safety, the Division witnessed a demand for solutions that included process automation and instrumentation.

For financial year 2016-17, the New Orders were up by 29 percent to ₹ 19,650 million, Sales up by 8 percent to ₹ 17,668 million, while Profit from Operations was ₹ 545 million compared to ₹ 987 million in the previous year.

Outlook

The Division expects the market demand for automation and digitalization to pick up, driven by investments in integrated engineering and operations in process industries.

HUMAN RESOURCES

The Company enhanced its emphasis on the 'Customer First, People Always' motto, implementing several initiatives to nurture, care and sustain its dynamic workforce.

In line with the Customer First objectives of 2016 to make Siemens an Employer of Choice and improve the Company's Ownership Culture, the Company undertook a program called 'People Matter' in partnership with Great Place to Work Institute. The program aims at enabling People Managers to achieve organizational objectives by aligning efforts of their team members and encouraging them to give their personal best. Under this program, around 750 People Managers have been trained across two waves each consisting of around 375 Managers.

As part of the multi-city program to amplify the Employer Value Proposition, Human Resource department launched Employer Brand across over 40 offices and factories across India. India was chosen to pilot this initiative which was then replicated across other Siemens locations worldwide. All Siemens Limited employees were invited to experience the immersive 360° documentaries called 'We are future makers'. The initiative received encouraging responses and inputs from colleagues eager to share their stories.

The Company revamped many of the practices in its annual Performance Management Process (PMP) aimed at aligning it to future business realities and next-gen employee mindset. These steps were taken towards making Siemens India a Great Place to Work.

The CORE flagship talent development program aimed at developing young talent launched its second batch with 26 young talents. The first batch of CORE 1.0 successfully completed its two-year learning journey as per the program and around 60% of them have already taken up their next leadership role within their respective business.

In line with the business growth and constantly changing market demands, the Company invested significantly in various training and development activities to better equip employees by enhancing their competencies.

The Company continues to have a cordial relationship with its Unions. Harmonious and trust based employer-employee relationship prospers. To further strengthen this relationship and bring in more transparency, the Company has undertaken a major revamp of compensation from person to position. With all the above initiatives and programs, the Company continues with its endeavor to provide employees with an enabling atmosphere where they are motivated to deliver their best.

As of September 30, 2017, Siemens Limited had 9,551 employees compared to 9,590 as on September 30, 2016.

COMPLIANCE

Siemens, as an organization, completed a decade of the 'Compliance System,' the way in which Siemens as a Company conducts business. The Company continues its drive to create awareness about a "corruption" free environment, an effort that the corporate world acknowledges.

The Company has a 24/7 whistleblower hotline, "Tell Us" through which any compliance violations including potential cases can be notified. This is available for employees, Directors, as well as external stakeholders. It is operated by a provider that is independent of Siemens to enable receipt of anonymous as well as protected information to be passed on without any bias. The Company continues to exhibit "Zero Tolerance" towards any non-compliant behavior. (Details on compliance activities are included in the Business Responsibility Report available on www.siemens.co.in).

RISK & INTERNAL CONTROL

The Management of Siemens Limited is responsible for establishing and maintaining adequate internal control over financial reporting. The internal control over financial

reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with applicable accounting principles and includes those policies and procedures that:

- Pertain to the maintenance of records that in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and
- Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company's assets that could have a material effect on the financial statements.

Siemens Limited's Management assessed the effectiveness of the Company's internal control over financial reporting as of September 30, 2017. As a result of the evaluation, the Management has concluded that the Company's internal control over financial reporting was effective as of September 30, 2017 with no significant deficiency.

During the year, Siemens Limited actively participated in industry forums of Enterprise Risk Managers. Siemens Enterprise Risk Register captures key points related to the risks that could impact the businesses and ensures that adequate mitigation measures are put in place and monitored.

SAFETY AND ENVIRONMENT

Siemens is committed to a Zero Harm Culture (ZHC). During financial year 2016-17, the Company took various measures aimed at constantly improving EHS performance, including workshops for vendors & Franchisees, Knowledge Exchange sessions for Factory and Project teams and several communications activities across locations and project sites.

In its effort to ensure Zero Harm Culture is practiced within the Company, the Board of Directors reviews the progress of the safety measures being undertaken at Siemens Ltd. During the year, various measures were taken including workshops for vendors and best practice and knowledge exchange sessions for project teams.

During the year, the Company conducted 43,318 hours of training.

Among the key highlights, one of the Company's project sites at Palava received the Gold Award at the FICCI (Federation of Indian Chambers of Commerce and Industry) Safety Systems Excellence Award 2017 at the national level.

In the area of environment protection, the Company completed a few projects. It set up a new sewage treatment plant in its Kalwa Works Complex. The plant has a capacity of 350 cubic meter per day, equivalent to water consumption of 4,000 persons per day and is expandable to meet future

expansion needs. In addition, rooftop solar photovoltaic project was initiated in Kalwa to generate power for captive consumption. Some other initiatives to reduce energy consumption at different locations were introducing new energy efficient compressors, water cooled chillers, advanced technology energy efficient machines, and LED lighting across locations. To utilize alternate sources of energy, there was an installation of a day light harvesting (Noricool) product.

OUTLOOK

Continuing with the performance in financial year 2017, the Company's Management expects that it can maintain a growth faster than the market in financial year 2018 as well. However, achieving this growth depends to a large extent on the Government of India as well as State Governments investing in initiatives to improve rural and household electrification and infrastructure. The growth in private industrial activity can only happen when such government investments happen.

The focus of Siemens Limited continues to be on profitable growth and operational excellence.

The Company is strengthening its go-to-market considering the emergence of digitalization and its impact on the industry. The Company will also increase its focus on providing digital solutions to enable greater productivity and increase the competitiveness of our customers across all segments of our business. Siemens digital Mindsphere platform is already gaining interest from many customers and pilot projects are ongoing. The Company expects continued focus in this area in the year ahead.

The Chairman of the NRC was present at the 59th Annual General Meeting of the Company held on 8th February, 2017.

Remuneration Policy

The Remuneration Policy of the Company is performance driven and is structured to motivate employees, recognize their merits & achievements and promote excellence in their performance. The Board of Directors of the Company has, on the recommendation of the NRC, approved the policy for remuneration of whole-time Directors, Senior Management / Key Managerial Personnel and employees of the Company.

1. For Whole-time Directors

The Board of Directors / the NRC of Directors is authorised to decide the remuneration of the Whole-time Directors, subject to the approval of the Members and Central Government, if required. The remuneration structure comprises of Salary, Perquisites, Retirement benefits as per the law / rules, Performance Linked Incentive (PLI), Commission and entitlement to participate in the Equity based compensation programs of Siemens AG, Germany / Siemens Ltd., as applicable from time to time. Annual increments are decided by the NRC within the salary package approved by the Members.

In addition to the above remuneration, Expatriate Directors are paid Overseas Allowance / Special Allowance and certain other Perquisites as per the Rules of the Company. PLI, benefit under the Equity based compensation programs of Siemens AG / Siemens Ltd. and Commission constitute the variable component of remuneration.

PLI is computed on the basis of specific targets set for each Whole-time Director every year. The targets are also linked to the Company's targets. PLI is paid to the Whole-time Directors on achievement of the said targets. Commission is determined on the basis of the Net Profits of the Company in a particular Financial Year, subject to the overall ceiling as stipulated in Section 197 the Companies Act, 2013 ("Act").

Corporate Social Responsibility Report

1. Brief outline of Company's Corporate Social Responsibility Policy, overview of proposed projects or programs and a reference to the web-link to the CSR policy, projects and programs

At Siemens we have an unrelenting drive and promise to sustainably improve living conditions for as many people as possible, worldwide. We deliver on this promise by combining our innovation with our know-how – in the areas of electrification and automation, enhanced by digitalization and by acting as a reliable and responsible partner.

Our mission is to make real what matters in the way we electrify, automate and digitalize the world around us. Ingenuity drives us and what we create is for society. Our company-wide Corporate Citizenship framework forms a part of the Sustainability & Citizenship priority area. The Company considers it as its economic, environmental and social responsibility to foster sustainable local development as well as add value to the local economy in which it operates. The Company derives its sustainability initiatives from these challenges. These initiatives, generally known as Corporate Social Responsibility (CSR), are referred to as Corporate Citizenship at Siemens. The Corporate Citizenship strategy is in line with the Company's goal and focuses on: Education & Science, Social and Environment. The strategy aims to address the challenges and needs that communities face by leveraging the Company's competencies and solutions. It is oriented towards the National Development agenda, UN Sustainable Development Goals and UN Global Compact principles.

The focus topics for Corporate Citizenship are:

- a. Promotion of science and technical education and skill development
- b. Support to Universities
- c. Enhancing living conditions through provision of water, healthcare, sanitation, education, energy, livelihood, etc.
- d. Primary Healthcare and Health Education
- e. Combating Climate Change through:
 - Reduction of emission of green house gases
 - Reuse and recycle
- f. Disaster Relief

Sustainable Development Goals (SDGs)

Siemens supports the SDGs and regards them as a key framework for sustainable development globally. Siemens impacts all SDGs directly or indirectly. Together with local communities, industries, government, institutions, Siemens is working towards the endeavor to shape the local development along the lines of 'The 2030 Agenda for Sustainable Development'.

CSR initiatives undertaken by the Company during the year are as follows:

a. Support to Universities

● Siemens Scholarship Program

The Siemens Scholarship Program endeavours to support and promote technical education. Launched in 2013, it is a merit cum means scholarship to engineering students studying in Government Colleges hailing from lesser privileged background. The scholarship consists of tuition fees and holistic development of the students across the 4 years through soft skills workshops, technical and functional trainings. It is based on German Dual Education model so as to make them 'industry ready'.

From 2013-2017, the program coverage has reached to 285 students across 47 colleges and 29 States. The first batch of the Siemens Scholarship program graduated this year. They were offered placements in reputed companies. 50% of students of Batch II who are in final year have been already placed.

The program offers holistic development of the students over a period of 4 years during which they are exposed to advance technical training, internships for practical application of the classroom learnings, soft-skills and cross-functional skills. This year 110 Students completed their internships at Siemens Ltd. across its 13 locations. The students were introduced to hands on experience in technical skills in varied projects during the internships. In addition to technical skills, sessions on functional skills such as ethics, quality, manufacturing processes, EHS and finance were incorporated during the internships. The Batch I and Batch II students also successfully completed the Siemens Mechatronics System Certification Program. Soft skills workshops on communications skills, time management, presentation skills, goal setting, etc. were conducted to develop students holistically.

b. Promoting Science and Technical Education and Skill Development

● Dual Vocational Education & Training (VET) in Government Industrial Training Institutes (ITIs)

Currently, a huge gap exists between the need of the industry for an employable work force and the capacity of the skill development programs. In line with the focus area of "promotion of science and technical education" and to support the National Skills Development Policy of the Government of India, Siemens Ltd. with Tata Strive partnered to support the up-skilling of trainees in the government training institutes for skill development by implementing the Dual VET pedagogy.

The German Dual VET is based on learning interlocked with theory and workshop, augmented with soft skills like communication skills, presentation techniques, public speaking skills, cost planning, project management, team work, decision-making ability, handling responsibility, conflict resolving & business games and creative technique to develop future oriented capable workforce and personal thinking and learning geared to business and professional personal development.

The German Dual VET model focuses on the need of the Micro, Small and Medium Enterprises (MSMEs), industry practices and training of trainees. As compared to the traditional model of 2 years Craftsmen Training Scheme and 1 year Apprenticeship, the German Dual VET within the traditional model proposes 1 month of in-plant training in the first year, 2 months in the second year in addition with 9 months of paid apprenticeship in the third year for overall, holistic hands-on practical experience with theoretical knowledge.

MoU was signed with Directorate of Training and Technical Education (DTTE), Delhi state for all Govt. ITIs of Delhi State to roll out the Dual VET program. Currently, the Company is implementing Electrician Trade in 12 ITIs. A total 314 Students, 33 MSMEs and 50 Instructors were inducted in the program this year.

- **Upgrading Government Industrial Training Institutes (ITI)**

Under the aegis of promoting science & technical education and skill development, upgradation of Government Industrial Training Institutes (ITIs) initiative has been driven. The initiative aims to make Industry-ready technician. Siemens India's ITI Upgradation project involved providing technologies such as Programmable Logic Controller, Switchgear, Industrial Drives and Motors, Process Instrumentation kits, CAD/CAM software to the Government ITIs. Additionally, students are imparted specialized training to optimally use the hardware and software. Siemens Ltd. also supports the ITIs through technical expertise in the form of train-the-trainers, training material as well as maintenance of the equipment. The upgradation has benefited around 4000 students till date. The ITIs have been identified based on the proximity to Siemens major locations, trades in the ITIs and competencies available with Siemens.

Over the years, 14 Government ITIs in Maharashtra, Karnataka, Haryana, Gujarat, Delhi and Goa were have been upgraded. Several 'Train the Trainers' programs have been conducted and 100 Instructors have benefited out of it till date.

- **Machine Tool Operator Training**

In the endeavour to advance skill training and to support the provision of highly skilled technicians for the Manufacturing Sector, Siemens has tied up with several Government ITIs and Advance Training Institutes (ATIs) in the country. Currently 5 such Institutes are being piloted for the project.

The project covers the following:

- Retrofitting old Computerized Numerical Control (CNC) machines at the above mentioned Institutes with the latest SINUMERIK controllers and Drive Systems
- Installations of SINUTRAIN (Computer based CNC Simulation) softwares at the Institutes. The trainees of these Vocational Institutes first extensively test CNC programs on SINUTRAIN before working on the actual CNC machines.
- Provision of SINUMERIK demo kits to mimic real life CNC programming
- Extensive training of the Instructors on CNC Operation

- **Scholarships - Dual Education for Management Students**

Siemens launched a scholarship to support Dual Education amongst meritorious less privileged management students to make them Industry Ready. Under this initiative, Siemens supports 12 students annually with Scholarships, Awards and Internships to students pursuing Post Graduate Programme in Business Administration (PGPBA) at Indo German Training Centres at Mumbai and Bengaluru.

c. **Enhancing living conditions**

- **Project Asha**

Project Asha aims at improving living conditions using inclusive and sustainable technology through integrated rural development. The project focused on improving lives in 17 villages of Mokhada, Palghar and 15 villages in Aurangabad Division in Maharashtra through interventions in education, healthcare, sanitation, water conservation, energy, livelihood and governance. The Project is implemented by AROEHAN - field action project of Nirmala Niketan Institute, College of Social Work along-with CTARA-IITB as technology partner at Mokhada and Action Aid Association in Aurangabad Division.

- **Mokhada Block**

The project focused on watershed development for making drinking water available and water for irrigation. 38 million liters water is made available by Rain water harvesting benefiting livelihood in 17 villages till date,

Corporate Social Responsibility Report

5 villages are now tanker free. Installation of water filters in 11 villages have benefited in reduction water borne diseases by 80%. Earlier the community relied on Paddy and Ragi crops, which was for mere family consumption. With the availability of water, vegetable cultivation in Kharif season has been introduced. A total of 600 acres of arable land is bought under irrigation.

Curiosity based learning 'STEM' (Science, Technology, Engineering and Mathematics) has been introduced in six Ashram Schools of Mokhada from this academic year that caters around 4000 students from 28 Gram Panchayats.

Capacity building of farmers on improved farming techniques, consultation and agricultural support is done on a continuous basis. There has been 51% rise in income and 30% reduction in migration.

The initial needs assessments showed poor conditions of Primary Health Centres. To address this, Siemens has installed health care and other diagnostics equipments for upgrading the efficiency of the four Primary Health Centres which covers a population of 83,000. There has been 70% increase in accessing health delivery system and 73% of the adolescent girls are aware on health and its related schemes. Health awareness sessions amongst women and young adolescent girls have achieved successful passing of resolution against child marriage and alcoholism in the Gramsabhas.

- **Aurangabad Division**

Siemens has established a long term commitment with ActionAid Association to support severely drought affected areas since 2013 in Badnapur taluka, Aurangabad division. The project that was initiated as drought mitigation in 5 villages has now been scaled to 15 villages and aims to enhance living conditions of these villages through integrated development using sustainable & inclusive technology which is both scalable & replicable.

Watershed development activities have made 35 million liters of water storage made available, for drinking and agricultural purpose. Additionally, due to water availability approx. 465 acres of land is bought under cultivation. There is an increase in livelihood leading to 35% rise in income against previous year. Livelihoods are made available under National Rural Employment Guarantee Act-2005, through farming, as farm labors and selling vegetables. This has reduced migration by 10%. Capacity building of famers with improved and effective farming techniques has increased crop production. The entire interventions have helped the crops sustain even during severe drought.

Due to awareness campaigns on education, enrollment increased by 25% and a reduction in dropout rate by 20%. Additionally, trainings are conducted for the panchayats to increase the knowledge and awareness on governance, public distribution system, watershed program to facilitate the access to basic entitlements during drought conditions.

d. Primary Healthcare Support and Health Education

- **Sanjeevan Mobile Clinics**

Equitable access and coverage to health services is a concern for populations living in remote, inaccessible, un-served and underserved areas. In alignment with the National Health Mission (NHM), Siemens' Sanjeevan Mobile Clinics fitted with Siemens' healthcare equipment are intended to cater to the urban poor and vulnerable population through preventive, promotive and curative primary healthcare services in areas where there is no infrastructure. Siemens commissioned custom-built Sanjeevan Mobile Clinics in Madhepura, Bihar and in Kalyan-Dombivali region on the outskirts of Mumbai. The objective is two-fold: instilling health seeking behavior and improving health indicators of the community. The Clinics is working towards delivering the NHM's goal of a comprehensive package of Reproductive, Maternal, Newborn, Child Health and Adolescent (RMNCH + A) services, Communicable Disease Control and Non Communicable Diseases programmes.

Siemens along with its implementing partners NGOs Smile Foundation in Madhepura, Bihar and SNEHA (Society for Nutrition, Education and Health Action) in Kalyan-Dombivali, Maharashtra are conducting daily OPDs, pathological tests, X-rays, ECGs and specialized camps on gynecology, pediatrics, etc. Over 90,000 individuals in Madhepura and 112,000 citizens in Kalyan-Dombivali are covered under the project. Till date more than 119,000 patients have been treated of which more than 65% are women. Besides this, there are health education programs on health & hygiene and health systems at schools and communities on preventing diseases and improving health seeking behaviour. Sanjeevan Mobile Clinics have successfully reached out to pockets of the population (old people, women with young children, women with no spending power) who would have otherwise been deprived of primary care to a large extent. This has led to an increase in communities accessing of healthcare especially in Maternal and Child Health services by 63% and has achieved 100% immunization. The project also supported formation of statutory Village Health, Nutrition and Sanitation Committees (VHNSC) in 10 villages of Madhepura and Mahila Arogya Samiti (MAS) in Kalyan – Dombivali to strengthen community governance of health and sanitation in the communities.

e. Climate Change action

• Energy Efficiency Program at Government Medical Institution

With the aim of addressing the Climate Change action arising out of Sustainable Development Goals and the targets received for the country under Conference of the Parties 21 (Paris Agreement), Siemens aligned with the KEM Hospital, Mumbai to help reduce the Hospital's Energy Consumption by implementing Facility Improvement Measures.

KEM Hospital is the largest tertiary care Government Hospital in Mumbai. It is more than 150 years old and has 2250 bed capacity. A study was conducted to identify the challenges faced by the hospital. With mutual discussions with Hospital Authorities, Siemens identified, designed, developed and implemented the various facility improvement measures that includes:

- Chiller Plant & Air Side Optimization covering entire hospital
- LED Retrofits for over 5000 lights
- Fire Detection & Suppression System for MS New Building
- CCTV Security System for MS New Building

Facility Improvement Measures implemented by Siemens will help KEM Hospital to:

- Reduce its total electricity consumption by around 11% that translates into 1680 tons of annual carbon emission reduction
- Save INR 21'0 Million in electricity bills annually
- Improve building safety with Fire Alarm Systems
- Manage security controls with advanced CCTV systems
- Enhanced patient comfort with improved lighting and HVAC controls

A study of the largest Hospital at Chennai 'Government General Hospital' has been conducted on similar lines.

f. Disaster Relief

• Disaster Relief – Assam and Bihar Flood Relief

Siemens being a socially-responsible company has always reached out to communities affected by natural calamities. Siemens responded to the communities affected during the Assam and Bihar floods by providing immediate relief through Oxfam India with its Catastrophe fund. In Assam, Siemens supported the worst affected districts of Lakhimpur and Karimganj with water and sanitation and hygiene (WASH) and shelter kits. In Bihar, Siemens supported families in Katihar district, the worst affected district with water and sanitation and hygiene (WASH) and shelter kits to contribute towards improving the living conditions of the affected communities.

g. Greenhouse Gases

Social Forestry Programme was initiated under Project Asha in Mokhada, Palghar District. 13000 saplings planted under Social Forestry in 2 Gram Panchayat of Suryamal and Kevnale which has improved soil moisture. Eight different types of fruit bearing saplings including Mango, Cashewnuts, Guava, Jackfruit, Chikoo, Lemon, Drumsticks, Bamboo and Berry were planted.

Similar project was initiated in five villages of Aurangabad Division. A total of 4000 plants were planted across five villages in three Grampanchayats.

Business Responsibility Report - Abstract

“Ingenuity for life” describes our unrelenting drive and promise to create value for customers, employees and societies. “For life” relates to our role in society: to make real what matters. We deliver on this promise by combining our innovation with our knowhow – in the areas of electrification and automation, enhanced by digitalization – aiming at improving the lives of people today and creating lasting value for future generations.

Sustainability at Siemens is a key enabler of our strategy program. We are guided by responsible business practices in our interactions with external and internal stakeholders. We are convinced that sustainability is a business opportunity, especially in the sense of energy and resource efficiency, and a key element for our aim to be the employer of choice.

PEOPLE

- We contribute to the sustainable development of societies with our portfolio, local operations, and thought leadership.
- We foster long-term relationships with local societies through Corporate Citizenship projects jointly with partners.
- We live a zero-harm culture and promote the health of our employees.
- We live a culture of leadership based on common values, innovation mindset, people orientation and diversity.

PLANET

- We enable our customers to increase energy efficiency, save resources and reduce carbon emissions.
- We develop our products, solutions and services based on a life-cycle perspective and sound eco-design standards.
- We minimize the environmental impacts of our own operations by applying environmental management programs.

PROFIT

- We contribute to our customers' competitiveness with our products, solutions and services.
- We partner with our customers to identify and develop sustainability related business opportunities.
- We operate an efficient and resilient supply chain through supplier code of conduct, risk management, and capacity building.
- We proactively engage with our stakeholders to manage project and reputational risks and identify business relevant trends.
- We adhere to the highest compliance and anti-corruption standards and promote integrity via the Siemens Integrity Initiative.

Responsible business practices are an essential part of corporate world.

The Siemens Business Responsibility Reporting (BRR) is the practice of setting standards, measuring, disclosing, and being accountable for organizational performance while working towards the goal of responsible and sustainable development. Siemens India has been releasing its BRR since 2013. Siemens Limited is committed to acting responsibly to achieve economic, environmental and social progress and has policies against each principle which help achieve progress in business responsibility.

Our understanding of sustainability is fully based on our Company values – responsible, excellent and innovative. We define sustainable development as the means to achieve profitable and long-term growth. At Siemens we have a clear commitment to think and act in the interest of future generations, balancing People, Planet and Profit.

Ethics, Transparency and Accountability

Siemens holds the highest standards of integrity and behavior, ensuring compliance and adherence to the law and internal regulations through the Siemens Compliance System. Siemens has zero tolerance for corruption and violations of the principles of fair competition. Siemens has adopted the Business Conduct Guidelines (BCG), which details the minimum acceptable ethical and responsible business practices for employees, channel partners, suppliers, vendors, NGOs and contractors. The Company is committed to transparency and best practices which are also extended to suppliers through the Code of Conduct for suppliers. This code warrants compliance with laws prohibiting child labour, taking responsibility for the health and safety of their employees and ensuring that suppliers act in accordance with applicable statutory and international standards regarding environmental protection. Similarly, all channel partners are covered through Code of Conduct for Channel Partners. The communication of the code of conduct is done on a regular basis. TELL US, the whistleblower hotline, further demonstrates our commitment to compliance.

Sustainable Products and Services

Siemens' technical expertise, comprehensive portfolio and long-standing experience are helping to pioneer a sustainable future across the globe. Advanced algorithms, high-powered computing, better connectivity and cloud storage all facilitate the emergence of smart systems. Knowing how to leverage the respective opportunities, however, requires a unique set of skills. Siemens has the engineering, domain and digital know-how to generate performance improvements across the entire value

chain, from design to production and operations to maintenance. Siemens through efforts such as strict Code of Conduct, External Sustainability Audits (ESA) for Suppliers and an efficient Vendor Monitoring system, ensures sustainability throughout the value chain. 87% of materials are sourced from third party suppliers were procured within the boundary of India out of which 23% were sourced from MSMEs.

Digital Factory at Kalwa

Siemens India inaugurated its showcase digitalized Low-voltage Switchgear factory at Kalwa. The production methods deployed at the plant are expected to be a standard for small and medium-sized manufacturing units in India, achieving a visionary model for the future of manufacturing: end-to-end digitalization where the real and virtual worlds merge in “Digital Factory”.

The digitalized factory is proof of how adopting digitalization will help Indian industry, specially small and medium enterprises (SMEs), achieve manufacturing excellence. SMEs can utilize digitalization to address growing demands such as mastering increasing product and process complexity, reducing time to market, adapting to changing market requirements, deliver individualized products and secure continuous product improvement.

Wellbeing of Employees

Siemens being a responsible company is committed to wellbeing of its employees.

Siemens Health Management provides occupational health services at its centres at all offices & sites across India, along with emergency medical services. As part of the Healthy@Siemens program, a need based, targeted, quarterly program “Fit4Life” has been launched to ensure a healthy work life balance. There are sensitization programs for employee delegations both coming in and going out from the country about the possible health hazards in the host countries and ways to address them.

Siemens supports collective bargaining. Through continual dialogue with associations the Company strives to maintain cordial relationships with employees and work towards their welfare. Siemens has a governance structure in place to address complaints related to child labour, forced labour, involuntary labour and discrimination or harassment of any kind. There is a separate committee to handle sexual harassment cases with sensitivity and confidentiality.

Responsiveness to all Stakeholders

Siemens has mapped investors, employees, customers, suppliers, business partners and civil society organizations as stakeholders. The Company engages with permanent employees through engagement surveys and periodic worker settlement reviews. The external shareholders are engaged through defined activities such as customer events, supplier and channel partner meet and SME training.

The marginalized and disadvantaged communities whose welfare Siemens works towards include, tribal communities, less privileged youth, students from low-socio economic background, womens who are underserved from healthcare facilities and vulnerable children who need care and protection like children in conflict with law. Siemens’s CSR portfolio effectively addresses these issues through its various projects.

Protection of Human Rights

Siemens respects human rights. The Business Conduct Guidelines are in line with the U.N Human Rights Declaration, European Human Rights Convention as well as ILO Principles. All suppliers, vendors, channel partners and other business partners associated with the Company have to commit to the Siemens Code of Conduct which incorporates principles of Human Rights.

Protection of Environment

Siemens’ commitment towards clean technology and energy efficiency is not limited to the design of new products but extends to the manufacturing plants as well. During the year we installed rooftop Solar power plant of capacity 2.2 Mw at Kalwa factory, resulting in reduction of Carbon emission by 250 tonnes/year. In addition to this, 45 initiatives were identified in FY17 for Energy Conservation. This would result in a potential saving of 1553 Mwh/annum which is equivalent to CO2 reduction of 1274 tons.

Business Responsibility Report - Abstract

Public Policy Engagement

Siemens influences affirmative sustainability actions and enables technology through sharing of best practices. The Company is a member of various Technical Committees of BIS and is on the Executive/Subject Councils and is represented in trade and industry associations.

Inclusive Growth and Equitable Development

Siemens CSR policy is governed by the Corporate Citizenship Strategy which focuses on integrating community development issues with business strategies to leverage the Company's core competencies while addressing community needs. The policy has seven focus areas under three main pillars – Education, Environment and Social under which various initiatives are undertaken.

Customer Satisfaction

As per well established practice, Siemens measures customer satisfaction every year across all sectors based on uniform and harmonized Net Promoter Score (NPS) methodology. NPS is an internationally followed and recognized tool based on the commonly applied managerial performance indicator. Our NPS score, which has tripled over the past four years, has been an important measure of success of the Customer First Program launched in 2014. In addition to the Annual Corporate Survey, customer feedback is gathered at the end of key customer interactions, during project management as well as service delivery. The input is critically analyzed for bringing about continual improvements. Our sustained efforts to improve & strengthen customer centricity throughout the organization were recognized by CII under its award for customer obsession.

Roof-top solar panels spread over a total area of 12,500 square meters installed in Kalwa - almost equivalent to the area of two soccer fields

INDEPENDENT AUDITOR'S REPORT

To the Members of Siemens Limited

Report on the Standalone Ind AS Financial Statements

We have audited the accompanying standalone Ind AS financial statements of Siemens Limited ("the Company"), which comprise the Balance Sheet as at September 30, 2017, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act., read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial control that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone Ind AS financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder. We conducted our audit of the standalone Ind AS financial statements in accordance with the Standards on Auditing, issued by the Institute of Chartered Accountants of India, as specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material

misstatement of the standalone Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone Ind AS financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the standalone Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at September 30, 2017, its profit including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the Annexure 1 a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by section 143 (3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - (c) The Balance Sheet, Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;
 - (d) In our opinion, the aforesaid standalone Ind AS financial statements comply with the Accounting Standards specified under section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;

INDEPENDENT AUDITOR'S REPORT

To the Members of Siemens Limited

- (e) On the basis of written representations received from the directors as on September 30, 2017, and taken on record by the Board of Directors, none of the directors is disqualified as on September 30, 2017, from being appointed as a director in terms of section 164 (2) of the Act;
- (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure 2" to this report;
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its standalone Ind AS financial statements – Refer Note 37(b) to the standalone Ind AS financial statements;
 - ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts – Refer Note 39 and 48(a) to the standalone Ind AS financial statements;
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company;
 - iv. The Company has provided requisite disclosures in Note 55 to these standalone Ind AS financial statements as to the holding of Specified Bank Notes on November 8, 2016 and December 30, 2016 as well as dealings in Specified Bank Notes during the period from November 8, 2016 to December 30, 2016. Based on our audit procedures and relying on the management representation regarding the holding and nature of cash transactions, including Specified Bank Notes, we report that these disclosures are in accordance with the books of accounts maintained by the Company and as produced to us by the Management.

Re: Siemens Limited (“the Company”)

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
- (b) All fixed assets have not been physically verified by the management during the year but there is a regular programme of verification which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on such verification.
- (c) According to the information and explanations given by the management, the title deeds of immovable properties included in property, plant and equipment are held in the name of the Company.
- (ii) The management has conducted physical verification of inventory at reasonable intervals during the year and no material discrepancies were noticed on such physical verification.
- (iii) According to the information and explanations given to us, the Company has not granted any loans, secured or unsecured, to companies, firms or other parties covered in the register maintained under section 189 of the Companies Act, 2013 (“the Act”). Accordingly, the provisions of clause 3(iii) (a), (b) and (c) of the Order are not applicable to the Company and hence not commented upon.
- (iv) In our opinion and according to the information and explanations given to us, there are no loans to directors including entities in which they are interested in respect of which provisions of section 185 are applicable and hence not commented upon. Further, in our opinion and according to the information and explanations given to us, provisions of section 186 in respect of loans given and investments made have been complied with by the Company. There are no advances, guarantees and securities given in respect of which provisions of section 186 of the Act are applicable and hence not commented upon.
- (v) The Company has not accepted any deposits within the meaning of Sections 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, the provisions of clause 3(v) of the Order are not applicable.
- (vi) We have broadly reviewed the books of account maintained by the Company pursuant to the rules made by the Central Government for the maintenance of cost records under section 148(1) of the Act, for the period upto September 30, 2017 and are of the opinion that prima facie, the specified accounts and records have been made and maintained. We have not, however, made a detailed examination of the same.
- (vii) (a) Undisputed statutory dues including investor education and protection fund, employees’ state insurance, service tax, income tax, sales-tax, custom duty, excise duty, goods and service tax, value added tax, cess and other material statutory dues have generally been regularly deposited with the appropriate authorities.
- (b) According to the information and explanations given to us, no undisputed amounts payable in respect of provident fund, investor education and protection fund, employees’ state insurance, income-tax, service tax, sales-tax, customs duty, excise duty, goods and service tax, value added tax, cess and other material statutory dues were outstanding, at the year end, for a period of more than six months from the date they became payable.
- (c) According to the records of the Company, the dues outstanding of income-tax, sales-tax, service tax, customs duty, excise duty and cess on account of any dispute, are as follows:

Annexure 2 to the Independent Auditor's Report of even date on the Standalone Ind AS Financial Statements of Siemens Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Siemens Limited ("the Company") as of September 30, 2017 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at September 30, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the Institute of Chartered Accountants of India.

Corporate information

Siemens Limited ("The Company") is a public company domiciled in India with its registered office at Birla Aurora, Level 21, Plot No. 1080 Dr. Annie Besant Road, Worli Mumbai – 400030. The Company is listed on National Stock Exchange of India Limited (NSE) and Bombay Stock Exchange of India Limited (BSE).

The Company offers products integrated solutions for industrial applications for manufacturing industries, drives for process industries, intelligent infrastructure and buildings, efficient and clean power generation from fossil fuels and oil and gas applications, transmission and distribution of electrical energy and for passenger and freight transportation, including rail vehicles, rail automation and rail electrification systems.

1. Significant accounting policies

1.1 Basis of preparation of financial statements

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified pursuant to section 133 of the Companies Act 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

For all periods up to and including the year ended 30 September 2016, the Company prepared its financial statements in accordance with accounting standards notified under the section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (Indian GAAP). These financial statements for the year ended 30 September 2017 are the first such statements the Company has prepared in accordance with Ind AS. Refer to note 52 for information on first time adoption of Ind AS.

The financial statements have been prepared and presented under the historical cost convention, except for derivative instruments and certain other financial assets and liabilities which have been measured at fair value (refer accounting policy regarding financial instruments).

The accounting policies adopted in the preparation of financial statements are consistent for all the periods presented, including the preparation of the opening Ind AS Balance sheet as at 1 October 2015 being the beginning of the earliest period for which the Company has presented full comparative information under Ind AS.

The financial statements are presented in INR, which is the functional currency and all values are rounded to the nearest millions (INR 1,000,000), except when otherwise indicated.

The financial statements were authorised for issue in accordance with a resolution of Board of directors on 24 November 2017.

1.2 Current versus non-current classification

All assets and liabilities have been classified as current or non-current as per the Company's operating cycle. Based on the nature of business and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

1.3 Property, plant and equipment

Property, plant and equipment are stated at cost of acquisition less accumulated depreciation and impairment losses, if any. The cost includes taxes, duties, freight and other incidental expenses related to the acquisition and installation of the respective assets. Subsequent expenditure related to an item of property, plant and equipment is added to its book value only if it increases the future economic benefits from the existing assets beyond its previously assessed standard of performance.

Depreciation on property, plant and equipment is provided on a straight-line basis over the useful lives of assets estimated by the management, taking into account the nature of the asset on technical evaluation of the useful life, which may not necessarily be in alignment with the indicative useful lives prescribed by Schedule II to the Companies Act, 2013. The following useful lives are assumed:

1.3 Property, plant and equipment (Continued)

Assets	Estimated useful lives
Land	
- Freehold	-
- Leasehold	Over the lease period
Buildings	
- Factory buildings	30 years
- Other buildings	50 years
- Roads	10 years
- Leasehold improvements	Over the lease period
Plant and equipments	3 – 20 years
Furniture and fixtures	5 years
Office equipments	
- Computers	3 years
- Hardware, mainframes and servers	5 years
- Other office equipments	3 - 5 years
Vehicles	4 years

Items of property, plant and equipments that have been retired from active use and are held for disposal are stated at the lower of their carrying value and estimated net realizable value and are disclosed separately in the financial statements.

Capital work-in-progress includes the cost of property, plant and equipments that are not ready for intended use at the balance sheet date.

1.4 Intangible assets

Intangible assets comprises of software and technical know-how. Intangible assets are stated at cost of acquisition less accumulated amortisation and impairment losses, if any. These intangible assets are amortised on straight-line basis based on the following useful lives, which in management's estimate represents the period during which economic benefits will be derived from their use:

Assets	Estimated useful lives
Software	3 - 5 years
Technical know-how	5 - 10 years

1.5 Investment property

Investments in land or buildings (including property under construction) which are held to earn rentals and/or for capital appreciation are classified as investment property. Investment properties are initially measured at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any.

The cost comprises purchase price and borrowing costs, if capitalisation criteria are met and directly attributable cost of bringing the investment property to its working condition for the intended use.

Depreciation on investment property is provided on a straight-line basis over the useful lives of assets estimated by the management. Such classes of investment properties and their estimated useful lives are as under:

Assets	Estimated useful lives
Land	
- Freehold land	-
- Leasehold land	Over the lease period
Buildings	30 years

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. On disposal of an investment property, the difference between its carrying amount and net disposal proceeds is recognised in the Statement of Profit and Loss.

Notes to the financial statements (*Continued*) for the year ended 30 September 2017 (Currency: Indian rupees millions)

1.6 Revenue recognition

Revenue is recognised to the extent it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment. Revenue are stated exclusive of sales tax, value added tax, goods and service tax and net of trade and quantity discount. Revenue is inclusive of excise duty.

Revenue from sale of products is recognised on transfer of significant risk and rewards of ownership of the products to the customers, which is generally on dispatch of goods.

When the outcome of a construction contract can be estimated reliably, revenue from construction contracts are recognized under the percentage-of-completion method, based on the percentage of costs incurred to date compared to the total estimated contract costs. An expected loss on the construction contract is recognized as an expense immediately. Contract revenue earned in excess of billing has been reflected as "Project excess cost" under "Other financial assets" and "Billing in excess" of contract revenue has been reflected under "Other current liabilities" in the balance sheet.

Revenue from services represents service income other than from services which are incidental to sale of products and projects. Revenue from services is recognised as per the terms of the contract with the customer using the proportionate completion method.

Commission income is recognised when proof of shipment is received from the supplier.

Interest income is recognised using the effective interest rate method ('EIR').

Export incentives receivable are accrued for, when the right to receive the credit is established and there is no significant uncertainty regarding the ultimate collection of export proceeds.

Rental income arising from operating leases is accounted on a straight-line basis over the lease terms and is included in revenue in the Statement of Profit and Loss due to its operating nature.

1.7 Inventories

Inventories comprise all costs of purchase, conversion and other costs incurred in bringing the inventories to their present location and condition.

Raw materials, work-in-progress, finished goods and traded goods are carried at the lower of cost and net realisable value. Cost is determined on the basis of the weighted average method.

The net realisable value of work-in-progress is determined with reference to the estimated selling price less estimated cost of completion and estimated costs necessary to make the sale of related finished goods. Raw materials held for the production of finished goods are not written down below cost except in case where material prices have declined and it is estimated that the cost of the finished product will exceed its net realisable value.

1.8 Leases

Where the Company is the lessee:

Leases where the lessor effectively retains substantially all the risk and benefits of ownership of the leased items are classified as operating leases. Lease payments under an operating lease, are recognised as an expense in the Statement of Profit and Loss on a straight line basis over the lease term.

Where the Company is the lessor:

Assets subject to operating leases are included in property, plant and equipment and investment property. Lease income is recognised in the Statement of Profit and Loss on a straight-line basis over the lease term. Costs, including depreciation are recognised as an expense in the Statement of Profit and Loss. Initial direct costs such as legal costs, brokerage costs, etc. are recognised immediately in the Statement of Profit and Loss.

1.9 Employee benefits

(a) Short term employee benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages and short term compensated absences, etc. and the expected cost of ex-gratia are recognised in the period in which the employee renders the related service.

(b) Post-employment and other long-term benefits

(i) **Defined Contribution Plans:** The Company's approved superannuation scheme and employee state insurance scheme are defined contribution plans. The Company's contribution paid/payable under the schemes is recognised as expense in the Statement of Profit and Loss during the period in which the employee renders the related service.

1.9 Employee benefits (Continued)

(ii) **Defined Benefit Plans and other Long Term Benefits:** The Company's gratuity, pension and medical benefit schemes are defined benefit plans. Leave wages, retention bonus, silver jubilee and star awards are other long term benefits. The present value of the obligation under such defined benefit plans and other long term benefits are determined based on actuarial valuation using the Projected Unit Credit Method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. In case of funded plans, the fair value of the plan assets is reduced from the gross obligation under the defined benefit plans to recognize the obligation on a net basis.

In case of defined benefit plans, remeasurement comprising of actuarial gains and losses, the return on plan assets (excluding amounts included in net interest on the net defined benefit liability or asset) and any change in the effect of asset ceiling (wherever applicable) is recognized in other comprehensive income (OCI) and is reflected in retained earnings and is not eligible to be reclassified to profit or loss.

The Company recognises the following changes in the net defined benefit obligation as an expense in Statement of Profit and Loss:

- Service cost including current service cost, past service cost and gains and losses on curtailments and settlements; and
- Net interest expense or income.

Provision for leave wages, pension, medical benefit, retention bonus, silver jubilee and star awards which is expected to be utilized within the next 12 months is treated as short term employee benefits and beyond 12 months as long term employee benefits. For the purpose of presentation, the allocation between short and long term provisions has been made as determined by an actuary.

Provident fund has been considered as a defined benefit plan since any additional obligations on account of investment risk and interest rate risk are required to be met by the Company.

1.10 Share-based payments

Share-based payment of the Company is predominantly designed as cash-settled transactions. The fair value of the amount payable is remeasured at the end of each reporting period upto the settlement date, with the changes in the fair value recognised as employee benefits expenses with a corresponding increase in liabilities.

1.11 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit and loss, transaction costs that are attributable to the acquisition of the financial asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in the below categories:

- Financial assets at amortised cost
 - Financial assets including derivatives at fair value through profit or loss (FVTPL)
 - Financial assets at fair value through other comprehensive income (FVTOCI)
- (a) **Financial assets at amortised cost**

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business where the objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the EIR method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the Statement of Profit and Loss. The losses arising from impairment are recognised in the Statement of Profit and Loss. This category generally applies to trade and other receivables, loans and other financial assets.

1.11 Financial instruments *(Continued)*

(b) Financial Assets including derivatives at fair value through profit or loss (FVTPL)

Financial assets are measured at fair value through profit and loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets at fair value through profit and loss are immediately recognised in the Statement of Profit and Loss.

(c) Financial Assets at fair value through other comprehensive income (FVTOCI)

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Derivative instruments included in FVTOCI category are measured initially as well as at each reporting date at fair value. Movement in fair value is recognised in OCI.

Derecognition

A financial asset is primarily derecognised when:

- (a) the right to receive cash flows from the asset has expired, or
- (b) the Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a pass-through arrangement; and a) the Company has transferred substantially all the risks and rewards of the asset, or b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

On derecognition of a financial asset in its entirety, the differences between the carrying amounts measured at the date of derecognition and the consideration received is recognised in the Statement of Profit and Loss.

Impairment of financial assets

The Company applies the expected credit loss (ECL) model for measurement and recognition of impairment losses on the following financial assets and credit risk exposure:

- (a) Financial assets that are measured at amortised cost e.g. deposits
- (b) Trade receivables, project excess cost or any another financial asset that result from transactions that are within the scope of Ind AS 11 and Ind AS 18.

The Company follows the simplified approach for recognition of impairment loss allowance on trade receivables (net of billing in excess) and project excess cost. The application of the simplified approach does not require the Company to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, twelve-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on twelve-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The twelve-month ECL is a portion of the lifetime ECL which results from default events that are possible within twelve months after the reporting date.

ECL is the difference between net of all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR.

When estimating the cash flows, an entity is required to consider:

- All contractual terms of the financial instrument (including prepayment, extension, call and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

As a practical expedient, the Company uses a provision matrix to determine impairment loss allowance on trade receivables (net of billing in excess) and project excess cost.

1.11 Financial instruments (Continued)

The Company does not have any purchased or originated credit-impaired financial assets, i.e., financial assets which are credit impaired on purchase/origination.

ECL impairment loss allowance (or reversal) recognized during the period is recognized in the Statement of Profit and Loss. This amount is reflected under the head 'other expenses' in the Statement of Profit and Loss.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss (FVTPL), payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and in the case of payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables and derivative financial instruments.

Subsequent measurement

Financial liabilities, including derivatives and embedded derivatives, which are designated for measurement at FVTPL are subsequently measured at fair value. All other financial liabilities such as deposits are measured at amortised cost using EIR method.

For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value is used due to the short maturity of these instruments.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

1.12 Foreign currency transactions

The Company is exposed to currency fluctuations on foreign currency transactions. Transactions denominated in foreign currency are recorded at the exchange rate prevailing on the date of transactions.

Exchange differences arising on foreign exchange transactions settled during the year are recognized in the Statement of Profit and Loss of the year.

Translation

Monetary assets and liabilities in foreign currency, which are outstanding as at the year-end, are translated at the year-end at the closing exchange rate and the resultant exchange differences are recognized in the Statement of Profit and Loss. Non monetary items are stated in the balance sheet using the exchange rate at the date of the transaction.

Derivative instruments

The Company's exposure to foreign currency fluctuations relates to foreign currency assets, liabilities and forecasted cash flows. The Company limits the effects of foreign exchange rate fluctuations by following established risk management policies including the use of derivatives like forward contracts and options. The Company enters into forward exchange contracts and options, where the counterparty is a bank. The hedging strategy is used for mitigating the currency fluctuation risk and the Company does not use the forward exchange and options contracts for trading or speculative purpose.

The forward exchange and options contracts are re-measured at fair value at each reporting date with the resultant gains/ losses thereon being recorded in Statement of Profit and Loss.

Commodity risk is mitigated by entering into future contracts to hedge against fluctuation in commodity prices

1.12 *Foreign currency transactions (Continued)*

Cash flow hedges

The Company uses foreign currency forward contracts to hedge its risks associated with foreign currency fluctuations relating to highly probable forecast transactions. The Company designates some of the forward contracts in a cash flow hedging relationship by applying the hedge accounting principles.

These forward contracts are stated at fair value at each reporting date. Changes in the fair value of these forward contracts that are designated and effective as hedges of future cash flows are recognised directly in cash flow hedge reserve under OCI, net of applicable deferred income taxes and the ineffective portion is recognised immediately in the Statement of Profit and Loss.

Amounts accumulated in cash flow hedge reserve are reclassified to profit and loss in the same periods during which the forecasted transaction materialises.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. For forecasted transactions, any cumulative gain or loss on the hedging instrument recognised in cash flow hedge reserve is retained there until the forecasted transaction occurs.

If the forecasted transaction is no longer expected to occur, the net cumulative gain or loss recognised in cash flow hedge reserve is immediately transferred to the Statement of Profit and Loss for the period.

1.13 *Fair value measurement*

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value includes discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result from general approximation of value and the same may differ from the actual realised value.

1.14 *Taxation*

Income-tax expense comprises current tax (i.e. amount of tax for the year determined in accordance with the income-tax law) and deferred tax charge or credit (reflecting the tax effect of temporary differences between accounting income and taxable income for the year) computed in accordance with the relevant provisions of the Income Tax Act, 1961. Current tax and deferred tax are recognised in the Statement of Profit and Loss, except when they relate to items that are recognised in OCI or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively.

The current tax payable is based on taxable profit for the year. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted, by the end of the reporting period. Advance taxes and provisions for current income taxes are presented in the balance sheet after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction and where the relevant taxpaying units intend to settle the asset and liability on a net basis.

Deferred tax is provided using the balance sheet method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

1.14 Taxation (Continued)

Deferred tax is recognised for all taxable temporary differences, except:

When the deferred tax asset / liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

In respect of taxable temporary differences associated with investments in subsidiaries, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognised using the tax rates that have been enacted or substantively enacted by the balance sheet date. Deferred tax assets are generally recognised for all deductible temporary differences to the extent it is probable that taxable profits will be available against those deductible temporary differences can be realised. Deferred tax assets are reviewed as at each balance sheet date and written down to the extent it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the relevant entity intends to settle its current tax assets and liabilities on a net basis.

1.15 Earnings per share

Basic earnings per share are computed by dividing the net profit attributable to equity shareholders for the year, by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

1.16 Provisions and contingencies

Provisions are recognized when the Company recognises it has a present obligation (legal or constructive) as a result of past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect is material, provisions are recognised at present value by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money. When a contract becomes onerous, the present obligation under the contract is recognized as a provision. These are reviewed at each balance sheet date and adjusted to reflect current best estimates.

Disclosures for contingent liability are made when there is a possible and present obligation that arises from past events which is not recognised since it is not probable that there will be an outflow of resources. When there is a possible and present obligation in respect of which the likelihood of outflow of resources is remote, no disclosure is made.

Loss contingencies arising from claims, litigation, assessment, fines, penalties, etc. are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated.

Contingent assets are not recognized in the financial statements.

1.17 Cash and Cash equivalents

Cash and cash equivalents include cash, cheques in hand, cash at bank and deposits with banks having maturity of three months or less. The bank deposits with original maturity of up to three months are classified as cash and cash equivalents and bank deposits with original maturity of more than three months are classified as other bank balances.

1.18 Government grants and subsidies

Grants and subsidies from the government are recognized when there is reasonable assurance that (i) the company will comply with the conditions attached to them, and (ii) the grant/subsidy will be received.

When the grant or subsidy relates to revenue, it is recognized as income on a systematic basis in the Statement of Profit and Loss over the periods necessary to match them with the related costs for which they are intended to compensate. Where the grant relates to an asset, it is recognized as deferred income and transferred to income in equal amounts over the expected useful life of the related asset.

2. *Significant accounting judgments, estimates and assumptions*

The preparation of financial statements in conformity with Ind AS requires management to make estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities. Actual results could differ from those estimates. Any revision to accounting estimates is recognised prospectively.

The key assumptions concerning the future and other key sources of estimating uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company has based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

2.1 *Project revenue and costs*

The percentage-of-completion method places considerable importance on accurate estimates to the extent of progress towards completion and may involve estimates on the scope of deliveries and services required for fulfilling the contractually defined obligations. These significant estimates include total contract costs, total contract revenues, contract risks, including technical, political and regulatory risks, and other judgments. The Company re-assesses these estimates on periodic basis and makes appropriate revisions accordingly.

2.2 *Taxes*

Significant management judgment is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

2.3 *Property, plant and equipment and intangible assets*

The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of the Company's assets are determined by management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology.

2.4 *Impairment of non-financial assets*

The Company assesses at each balance sheet date whether there is any indication that an asset or a group of assets (cash generating unit) may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset or cash generating unit.

The recoverable amount is the greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to the present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used. If such recoverable amount of the asset or the recoverable amount of the cash-generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognized in the Statement of Profit and Loss. If at the balance sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciable historical cost, had no impairment been recognised.

2.5 *Employee benefits*

The Company's obligation for employee benefits is determined based on actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, these liabilities are highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

Refer note 44 for details of the key assumptions used in determining the accounting of these plans.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation.

2.5 Employee benefits (Continued)

The mortality rate is based on publicly available mortality tables for India. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates for the respective countries.

2.6 Impairment of financial assets

The Company assesses impairment on financial assets based on Expected Credit Loss (ECL) model. The provision matrix is based on its historically observed default rates over the expected life of the financial assets and is adjusted for forward looking estimates. At every reporting date, the historical observed default rates are updated and changes in forward looking estimates are analysed.

2.7 Provisions

Significant estimates are involved in the determination of provisions related to liquidated damages, onerous contracts, warranty costs, asset retirement obligations, legal and regulatory proceedings (Legal Proceedings). The Company records a provision for onerous sales contracts when current estimates of total contract costs exceed expected contract revenue. The provision for warranty, liquidated damages onerous contracts is based on the best estimate required to settle the present obligation at the end of reporting period.

Legal Proceedings often involve complex legal issues and are subject to substantial uncertainties. Accordingly, considerable judgment is part of determining whether it is probable that there is a present obligation as a result of a past event at the end of the reporting period, whether it is probable that such a Legal Proceeding will result in an outflow of resources and whether the amount of the obligation can be reliably estimated. Internal and external counsels are generally part of the determination process.

All the estimates are revised periodically.

Recent Accounting pronouncements

In March 2017, the Ministry of Corporate Affairs issued the Companies (Indian Accounting Standards) (Amendments) Rules, 2017, notifying amendments to Ind AS 7, 'Statement of cash flows' and Ind AS 102, 'Share-based payment. The amendments are applicable to the Company from 1 October 2017.

Amendment to Ind AS 7

The amendment to Ind AS 7 requires the entities to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes, suggesting inclusion of a reconciliation between the opening and closing balances in the balance sheet for liabilities arising from financing activities, to meet the disclosure requirement.

The Company is evaluating the requirements of the amendment and its impact on its cash flows, which is not expected to be material.

Amendment to Ind AS 102

The amendment to Ind AS 102 provides specific guidance to measurement of cash-settled awards, modification of cash-settled awards and awards that include a net settlement feature in respect of withholding taxes.

It clarifies that the fair value of cash-settled awards is determined on a basis consistent with that used for equity-settled awards. Market-based performance conditions and non-vesting conditions are reflected in the 'fair values', but non-market performance conditions and service vesting conditions are reflected in the estimate of the number of awards expected to vest. Also, the amendment clarifies that if the terms and conditions of a cash-settled share-based payment transaction are modified with the result that it becomes an equity-settled share-based payment transaction, the transaction is accounted for as such from the date of the modification. Further, the amendment requires the award that includes a net settlement feature in respect of withholding taxes to be treated as equity-settled in its entirety. The cash payment to the tax authority is treated as if it was part of an equity settlement. The Company is evaluating the requirements of the amendment and its impact.

21 Other equity

Nature and purpose of reserve

- Capital reserve was created on account of merger of group companies in earlier years.
- Amalgamation reserve was created on account of amalgamation of Siemens VDO Automotive Ltd. in 2006.
- Capital redemption reserve was created on account of business combination under common control.
- Securities premium account represents the surplus of proceeds received over the face value of shares, at the time of issue of shares.
- General reserve is created out of profits earned by the Company by way of transfer from surplus in the statement of profit and loss. The Company can use this reserve for payment of dividend and issue of fully paid-up shares. As General reserve is created by transfer on one component of equity to another and is not an item of other comprehensive income, items included in the General reserve will not be subsequently reclassified to statement of profit and loss.
- Cash flow hedge reserve represents mark-to-market valuation of effective hedges as required by Ind AS 109.
- Retained earnings are the profits that the Company has earned till date, less any transfers to General reserve and payment of dividend.

The above reserves will be utilised in accordance with the provision of the Companies Act, 2013.

39 Disclosure relating to Provisions

Provision for warranty

Warranty costs are provided based on a technical estimate of the costs required to be incurred for repairs, replacement, material cost, servicing and past experience in respect of warranty costs. It is expected that this expenditure will be incurred over the contractual warranty period.

Provision for liquidated damages

Liquidated damages are provided based on contractual terms when the delivery/ commissioning dates of an individual project have exceeded or are likely to exceed the delivery/ commissioning dates as per the respective contracts. This expenditure is expected to be incurred over the respective contractual terms upto closure of the contract (including warranty period).

Provision for loss orders

A provision for expected loss on construction contracts is recognised when it is probable that the contract costs will exceed total contract revenue. For all other contracts, loss order provisions are made when the unavoidable costs of meeting the obligation under the contract exceed the currently estimated economic benefits.

Provision for other matters

The Group has made provisions for known contractual risks, litigation cases and pending assessments in respect of taxes, duties and other levies, the outflow of which would depend on the cessation of the respective events.

42 (iii) Other disclosures :

- The Chief Operating Decision Maker ("CODM") evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by operating segments. The CODM reviews revenue and profit from operations as the performance indicator for all of the operating segments. The Chief Executive Officer, Chief Financial Officer and Division CEO & CFO's are the CODM of the Company.
- Inter-segment prices are normally negotiated amongst the segments with reference to the costs, market price and business risks/ Transfer prices between operating segments are on arm's length basis in a manner similar to the transactions with third parties.
- No operating segments have been aggregated to form the above reportable operating segments.
- Finance income and costs, and fair value gains and losses on financial assets are not allocated to individual segments as the underlying instruments are managed on a group basis.
- Current taxes, deferred taxes and certain financial assets and liabilities are not allocated to those segments as they are also managed on a group basis.
- Capital expenditure consists of additions of property, plant and equipment, intangible assets and investment properties including assets from the acquisition of subsidiaries.
- Profits / losses on inter segment transfers are eliminated at the Company level.
- During the year, there has been a reorganisation of certain businesses across segments and accordingly, the figures for the previous year have been regrouped to make them comparable.

(iv) Segment information :

Business Segments: The business of the Group is divided into eight segments. These segments are the basis for management control and hence, form the basis for reporting. The business of each segment comprises of :

- **Power and Gas** :- Provides products and solutions for generation of electricity from fossil and renewable fuels for utilities, independent power producers and engineering, procurement and construction (EPC) companies and the reliable transport of oil and natural gas.
- **Energy Management** :- Supplier of products, systems, solutions and services for transmission and distribution of electrical energy for power utilities and industrial companies. Portfolio ranges from systems for low-voltage grids and distribution grids to solutions for smart grids and energy automation systems to power supply systems for industrial plants and high-voltage transmission systems.
- **Building Technologies** :- Provider of safe, secure, energy-efficient and eco-friendly buildings and infrastructures. As a technology partner, consultant, service provider, systems integrator and product vendor, offerings range from fire safety, security, building automation, heating, ventilation, air conditioning and energy management.
- **Mobility** :- Supplier of solutions for passenger and freight transportation—including rail vehicles, rail automation systems, rail electrification systems, road traffic technology and IT solutions.
- **Digital Factory** :- Contains portfolio of leading edge software solutions and automation technologies covering the complete life cycle from product design and production execution to services for manufacturing companies.
- **Process Industries and Drives** :- Provides products, systems, solutions and services across entire life cycles for all industry sectors.
- **Others** :- Services provided to other group companies and lease rentals have been classified as "Others".

Geographical Segments: The business is organised in two geographical segments i.e. within India and outside India.

Allocation of common costs

Common allocable costs are allocated to each segment according to the relative contribution of each segment to the total common costs.

Unallocated corporate items

Unallocated items include general corporate items which are not allocated to any business segment.

- b) The sensitivity analysis above have been determined based on a method that extrapolates the impact on defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting year 2016-17 and the method of assumption used in preparing sensitivity analysis did not change compared to previous year.
- c) The fund formed by the Company manages the investments of the Gratuity fund. Expected rate of return on investments is determined based on the assessment made by the Company at the beginning of the year on the return expected on its existing portfolio, along with the estimated incremental investments to be made during the year. Yield on portfolio is calculated based on a suitable mark-up over the benchmark Government securities of similar maturities. The Company expects to contribute ₹ 208 (2016: ₹ 172) to gratuity fund in 2017-18.

The investment strategy in respect of its funded plans is implemented within the framework of the applicable statutory requirements. Each year, the Board of Trustees reviews the level of funding in the gratuity plan. Such a review includes the asset liability matching strategy and investment risk management policy. This includes employing the use of annuities and longevity swaps to manage the risks. The Board of Trustees decides its contribution based on the results of this annual review. Generally it aims to have a portfolio mix of equity instruments and debt instruments to minimise the risk exposed to investment.

- d) The estimates of future salary increases, considered in actuarial valuation, take in to account inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.
- e) The Company has contributed ₹ 475 (2016: ₹ 497) towards provident fund during the year ended 30 September 2017. The Guidance note issued by the Institute of Actuaries of India states that benefits involving employer established provident funds, which require interest shortfalls to be recompensed are to be considered as defined benefit plans. The Actuary has accordingly provided a valuation and based on the assumptions provided below there is no shortfall as at 30 September 2017.

The details of the fund and plan asset position as at 30 September are as follows:

	<u>Sept 2017</u>	<u>Sept 2016</u>	<u>1 Oct 2015</u>
Present value of benefit obligation at year end	9,785	9,555	8,893

Shortfall / (Surplus)	(621)	(509)	(27)
Effect due to Asset Ceiling	621	509	27

Assumptions used in determining the present value obligation of the interest rate guarantee under the Deterministic Approach:

	<u>Sept 2017</u>	<u>Sept 2016</u>
Government of India securities (GOI) bond yield	7.24%	7.00%
Remaining term of maturity (in years)	14.23	14.24
Expected guaranteed interest rate	8.65%	8.80%

(iii) General descriptions of significant defined plans

I Gratuity Plan

Gratuity is payable to all eligible employees of the Company on superannuation, death and permanent disablement, in terms of the provisions of the Payment of Gratuity Act, 1972 or as per the Company's Scheme whichever is more beneficial. Under the act, employee who has completed five years of service is entitled to the benefit. The level of benefits provided depends on the members length of service and salary at retirement age.

II Medical

Post retirement medical benefit is paid to the retired employees and their spouse till their survival and after their death, benefits are available to the employee's spouse. It consists of 3 components, which is health insurance, Domiciliary medical allowance and Company support in case the expenses incurred are more than the health insurance coverage subject to the ceiling limit as per the grades.

51 Financial Risk Management

The Company's principal financial liabilities comprise of trade payable, security deposits and other financial liabilities. The Company's principal financial assets include trade and other receivables, cash and cash equivalents and other financial assets that arise from its operations. The Company also enters into hedging transactions to cover foreign exchange exposure risk.

The Company's operating business is exposed to market risk, credit risk and liquidity risk. In order to optimize the allocation of the financial resources across the segments, as well as to achieve its aims, the Company identifies, analyzes and manages the associated market risks. The Company seeks to manage and control these risks primarily through its regular operating activities and uses derivative financial instruments when deemed appropriate. All derivative activities for risk management purposes are carried out by teams that have the appropriate skills, experience and supervision. The Company has a Risk Management Committee, which ensures that the Company's financial risk taking activities are governed by appropriate policies and procedures and that financial risks are identified, measured and mitigated in accordance with the Company's policies and overall risk appetite.

A Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises of currency rate risk and interest rate risk. Financial instrument affected by market risks includes deposits, derivative financial instruments, trade receivables, trade payables and other financials assets.

Foreign Currency risk

Foreign currency risk is the risk that the fair value or future cashflows of a financial instrument will fluctuate because of changes on foreign exchange rate. The Company operates internationally and transacts in several currencies and has foreign currency trade receivables and trade payables. Hence, the Company is exposed to foreign exchange risk. The Company holds derivative financial instruments such as foreign exchange forward and option contracts to mitigate the risk of changes in exchange rates on foreign currency exposures.

Foreign currency sensitivity

The following table demonstrate the sensitivity to a reasonably possible change in major currencies like US Dollar and Euro with all other variables held constant. The impact on the Company's profit before tax is due to changes in the fair value of monetary assets and liabilities including foreign currency derivatives. The Company's exposure to foreign currency changes for all other currencies is not material.

Euro + 5%	25	(85)	*	*	(2)
- 5%	(25)	85	*	*	2

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Consequently, could have unforeseen impact on Company's cost of borrowing or returns thus impacting the profit and loss.

The Company does not have any borrowings. Surplus funds are invested in deposits at fixed interest rates. The tenure of the deposits is managed to match with the liquidity profile of the Company.

* denotes figures less than a million

B Credit risk

Credit risk is defined as an unexpected loss in financial instruments if the contractual partner is failing to discharge its obligations in full and on time. The Company is exposed to credit risk from its operating and financing activities like trade receivables, deposits with banks, foreign exchange transactions and other financial instruments.

Receivables

The major exposure to credit risk at the reporting date is primarily from receivables comprising of trade and project unbilled receivables (net).

Credit risk on receivables is limited due to the Company's large and diverse customer base which includes public sector enterprises, state owned companies and private corporates. The effective monitoring and controlling of credit risk through credit evaluations and ratings is a core competency of the Company's risk management system.

For receivables, as a practical expedient, the Company computes expected credit loss allowance based on a provision matrix. The provision matrix is prepared based on historically observed default rates over the expected life of trade receivables and is adjusted for forward-looking estimates.

The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets. The ECL is calculated on rating and default probability percentage arrived from the historic default trend. In order to determine the default probability percentage, a simple average of customer wise specific allowances or actual bad debts incurred in succeeding year (derived rates) (whichever is higher) for the preceding three years is considered as a percentage of gross receivables positions for each grading i.e. rating and division of each customer as at reporting date.

The reconciliation of ECL is as follows:

Particulars	Sept 2017	Sept 2016
Balance at the beginning of the year	1,902	1,918
Loss allowance based on ECL	193	(16)
Balance at the year end	<u>2,095</u>	<u>1,902</u>

Other financial assets

Credit risk from cash and cash equivalents, term deposits and derivative financial instruments is managed by the Company's treasury department in accordance with the Company's policy. Investments of surplus funds, temporarily, are made only with approved counter parties and within credit limits assigned to each counterparty. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets.

52 First time adoption of Ind AS

These financial statements, for the year ended 30 September 2017, are the first the Company has prepared in accordance with Ind AS. For periods up to and including the year ended 30 September 2016, the Company prepared its financial statements in accordance with accounting standards notified under section 133 of the Companies Act, 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (Indian GAAP).

Accordingly, the Company has prepared financial statements which comply with Ind AS applicable for periods ending on 30 September 2017, together with the comparative period data as at and for the year ended 30 September 2016, as described in the summary of significant accounting policies. In preparing these financial statements, the Company's opening balance sheet was prepared as at 1 October 2015, the Company's date of transition to Ind AS. This note explains the principal adjustments made by the Company in restating its Indian GAAP financial statements, including the balance sheet as at 1 October 2015 and the financial statements as at and for the year ended 30 September 2016.

A) Exemptions availed

Ind AS 101 allows first-time adopters certain exemptions from the retrospective application of certain requirements under Ind AS. The Company has accordingly applied the following exemptions:

- i) The Company has elected to apply Ind AS 103 – "Business Combinations" prospectively from the date of transition. Hence, business combinations occurring prior to the transition date have not been restated.
- ii) The Company has elected to continue with the carrying value determined in accordance with Indian GAAP for all of its property, plant and equipment, intangible assets and investment property as deemed cost of such assets at the transition date.
- iii) The Company has elected to continue with the carrying value of the investment in subsidiary as deemed cost as on the date of transition.
- iv) The Company has applied the derecognition requirements of financial assets and financial liabilities prospectively for transactions occurring on or after the transition date.
- v) The Company has determined the classification of debt instruments in terms of whether they meet the amortised cost criteria or the FVTOCI criteria based on the facts and circumstances that existed as of the transition date.

Notes to the financial statements *(Continued)*

as at 30 September 2017

(Currency: Indian rupees millions)

52 First time adoption of Ind AS *(Continued)*

- vi) The Company has applied the impairment requirements of Ind AS 109 retrospectively based on facts and circumstances existing on transition date.
- vii) The estimates at 1 October 2015 and at 30 September 2016 are consistent with those made for the same dates in accordance with Indian GAAP (after adjustments to reflect any differences in accounting policies) apart from the following item where application of Indian GAAP did not require estimation.
 - Impairment of financial assets based on expected credit loss model.

B) Reconciliation between previously reported Indian GAAP (IGAAP) and Ind AS

Ind AS 101 requires an entity to reconcile equity, total comprehensive income and cash flows for prior periods. The following tables represent the reconciliation from erstwhile Indian GAAP to Ind AS.

i) Reconciliation of Equity between IGAAP and Ind AS

	Notes	Sept 2016	1 Oct 2015
Equity (shareholder's funds) under IGAAP		65,819	51,266
Impairment of financial assets (ECL)	1	(187)	(260)
Discounting on non-current financial assets and liabilities, net	2	(90)	(68)
Fair valuation for derivative assets/liabilities	3	(3)	(9)
Reversal of proposed dividend and tax thereon	4	2,572	4,286
Tax impact on above adjustment	5	97	117
Equity (shareholder's funds) under Ind AS		<u>68,208</u>	<u>55,332</u>

ii) Reconciliation of Net profit after tax as previously reported under IGAAP and the total comprehensive income as per Ind AS for the year ended 30 September 2016

	Notes	Year ended 30 September 2016
Net Profit after tax (IGAAP)		28,880
Impairment of financial assets (ECL)	1	73
Discounting on non-current financial assets and liabilities, net	2	(22)
Fair valuation for derivative assets/liabilities	3	5
Reclassification of net actuarial gain/loss on defined benefit obligations to other comprehensive income	6	389
Tax impact on above adjustments	5	(154)
Net Profit after tax as per Ind AS		29,171
Other comprehensive income (net of tax)	3	(253)
Total comprehensive income under Ind AS		<u>28,918</u>

iii) Reconciliation of cash flows for the year ended 30 September 2016

The transition from erstwhile Indian GAAP to Ind AS has not made a material impact on the statement of cash flows.

Notes:

- 1 Under Indian GAAP, the allowance for bad and doubtful debts were accounted based on incurred loss model. Whereas, under Ind AS this provision is created based on Expected Credit Loss Model (ECL). Consequently, ₹ 260 as at 1 October 2015 has been recognized as additional allowance with a charge to transition reserves. Further, ₹ 73 during the year ended 30 September 2016 has been recognized as a reversal of allowance.

52 First time adoption of Ind AS (Continued)

- 2 Under Indian GAAP, the Company had accounted for non-current financial assets and liabilities at the undiscounted amount. Whereas under Ind AS, such financial assets and liabilities are recognised at present value. Consequently, ₹ 68 as at 1 October 2015 has been recognised as a charge to transition reserves. Further, ₹ 22 during the year ended 30 September 2016 has been recognised in profit and loss.
- 3 The fair value gain/loss of foreign exchange forward contracts is recognised under Ind AS, which was not recognised under Indian GAAP. Impact of fair value changes as on 1 October 2015 of ₹ 9 is recognised in transition reserve and for the year ended 30 September 2016 of ₹ 5 is recognised in Statement of Profit and Loss, except for the fair value changes pertaining to effective portion of a cash flow hedge, which is recognised in other comprehensive income.
- 4 Under Indian GAAP, dividends proposed by the Board of Directors after the Balance Sheet date but before the approval of the financial statements were considered as adjusting events. Accordingly, provision for proposed dividend was recognised as a liability. Under Ind AS, such dividends are recognised when the same is approved by the shareholders in the Annual General Meeting. This has resulted in an increase in other equity by ₹ 4,286 as at 1 October 2015 and ₹ 2,572 as at 30 September 2016.
- 5 Tax adjustments include deferred tax impact on account of differences between previous Indian GAAP and Ind AS. On 1 October 2015 the net impact on deferred tax assets aggregating ₹ 117 has been adjusted to transition reserve. ₹ 20 has been recognised in the statement of profit and loss for the year ended 30 September 2016.
- 6 Under Indian GAAP, the entire cost, including actuarial gains and losses on post-employment defined benefit plan is charged to the statement of profit or loss. Under Ind AS remeasurements comprising of actuarial gains and losses are recognised through Other Comprehensive Income. ₹ 389 is reclassified from employee benefits to Other comprehensive income during the year ended 30 September 2016.

INDEPENDENT AUDITOR'S REPORT

To the Members of Siemens Limited

Report on the Consolidated Ind AS Financial Statements

We have audited the accompanying consolidated Ind AS financial statements of Siemens Limited (hereinafter referred to as "the Holding Company") and its subsidiary (the Holding Company and its subsidiary together referred to as "the Group") comprising of the consolidated Balance Sheet as at September 30, 2017, the consolidated Statement of Profit and Loss including other comprehensive income, the consolidated Cash Flow Statement, the consolidated Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated Ind AS financial statements").

Management's Responsibility for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation of these consolidated Ind AS financial statements in terms of the requirement of the Companies Act, 2013 ("the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated statement of changes in equity of the Group in accordance with accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with the Companies (Indian Accounting Standard) Rules, 2015, as amended. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated Ind AS financial statements by the Directors of the Holding Company, as aforesaid.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated Ind AS financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder. We conducted our audit in accordance with the Standards on Auditing, issued by the Institute of Chartered Accountants of India, as specified under Section 143(10) of

the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements. We believe that the audit evidence obtained by us, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the consolidated state of affairs of the Group as at September 30, 2017, their consolidated profit including other comprehensive income, their consolidated cash flows and consolidated statement of changes in equity for the year ended on that date.

Report on Other Legal and Regulatory Requirements

As required by section 143 (3) of the Act, based on our audit we report, to the extent applicable, that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the aforesaid consolidated Ind AS financial statements;
- (b) In our opinion proper books of account as required by law relating to preparation of the aforesaid consolidation of the financial statements have been kept so far as it appears from our examination of those books;
- (c) The consolidated Balance Sheet, consolidated Statement of Profit and Loss including the Statement of Other Comprehensive Income, the consolidated Cash Flow Statement and consolidated Statement of Changes in Equity dealt with by this Report are in

INDEPENDENT AUDITOR'S REPORT

To the Members of Siemens Limited

agreement with the books of account maintained for the purpose of preparation of the consolidated Ind AS financial statements;

- (d) In our opinion, the aforesaid consolidated Ind AS financial statements comply with the Accounting Standards specified under section 133 of the Act, read with Companies (Indian Accounting Standard) Rules, 2015, as amended;
- (e) On the basis of the written representations received from the directors of the Holding Company as on September 30, 2017 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors who are appointed under Section 139 of the Act, of its subsidiary company incorporated in India, none of the directors of the Group's company is disqualified as on September 30, 2017 from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) With respect to the adequacy and the operating effectiveness of the internal financial controls over financial reporting of the Holding Company and its subsidiary company, refer to our separate report in "Annexure 1" to this report;
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The consolidated Ind AS financial statements disclose the impact of pending litigations on its consolidated financial position of the Group—Refer Note 37(b) to the consolidated Ind AS financial statements;
 - ii. Provision has been made in the consolidated Ind AS financial statements, as required under the applicable law or accounting standards, for

material foreseeable losses, if any, on long-term contracts including derivative contracts – Refer Note 39 to the consolidated Ind AS financial statements in respect of such items as it relates to the Group.

- iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Holding Company during the year ended September 30, 2017.
- iv. The Holding Company and its subsidiary have provided requisite disclosures in Note 55 to these consolidated Ind AS financial statements as to the holding of Specified Bank Notes on November 8, 2016 and December 30, 2016 as well as dealings in Specified Bank Notes during the period from November 8, 2016 to December 30, 2016. Based on our audit procedures and relying on the management representation of the Holding Company regarding the holding and nature of cash transactions, including Specified Bank Notes, we report that these disclosures are in accordance with the books of accounts maintained by the Group and as produced to us by the Management of the Holding Company.

Annexure 1 to the Independent Auditor's Report of even date on the Consolidated Financial Statements of Siemens Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of Siemens Limited as of and for the year ended September 30, 2017, we have audited the internal financial controls over financial reporting of Siemens Limited (hereinafter referred to as the "Holding Company") and its subsidiary company, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company and its subsidiary company, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, both, issued by Institute of Chartered Accountants of India, and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit

opinion on the internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company and its subsidiary company have, maintained in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at September 30, 2017, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to the consolidated financial statements for the year ended 30 September 2017 (Currency: Indian rupees millions)

Corporate information

Siemens Limited ("The Company") is a public company domiciled in India with its registered office at Birla Aurora, Level 21, Plot No. 1080 Dr. Annie Besant Road, Worli Mumbai – 400030. The Company is listed on National Stock Exchange (NSE) and Bombay Stock Exchange (BSE).

The Group offers products integrated solutions for industrial applications for manufacturing industries, drives for process industries, intelligent infrastructure and buildings, efficient and clean power generation from fossil fuels and oil and gas applications, transmission and distribution of electrical energy and for passenger and freight transportation, including rail vehicles, rail automation and rail electrification systems.

1. Significant accounting policies

1.1 Basis of preparation of consolidated financial statements

The consolidated financial statements of the Group have been prepared in accordance with Indian Accounting Standards (Ind AS) notified pursuant to section 133 of the Companies Act 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

For all periods up to and including the year ended 30 September 2016, the Group prepared its consolidated financial statements in accordance with accounting standards notified under the section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (Indian GAAP). These consolidated financial statements for the year ended 30 September 2017 are the first such statements the Group has prepared in accordance with Ind AS. Refer to note 52 for information on first time adoption of Ind AS.

The consolidated financial statements have been prepared and presented under the historical cost convention, except for derivative instruments and certain other financial assets and liabilities which have been measured at fair value (refer accounting policy regarding financial instruments).

The accounting policies adopted in the preparation of consolidated financial statements are consistent for all the periods presented, including the preparation of the opening Ind AS Balance sheet as at 1 October 2015 being the beginning of the earliest period for which the Company has presented full comparative information under Ind AS.

The consolidated financial statements are presented in INR, which is the functional currency and all values are rounded to the nearest millions (INR 1,000,000), except when otherwise indicated.

The consolidated financial statements were authorised for issue in accordance with a resolution of Board of directors on 24 November 2017.

Principles of consolidation

The consolidated financial statements comprise the financial statements of Siemens Limited ('the Company') or ('the parent company') and its wholly owned subsidiary, Siemens Rail Automation Pvt. Ltd ('the subsidiary'). The Company and the subsidiary constitute the Siemens Group ('the Group').

The list of subsidiary is set out below:

Entity	Country of incorporation	% Holding 2017	% Holding 2016
Siemens Rail Automation Pvt. Ltd.	India	100%	100%

The consolidated financial statements comprise the financial statements of the Group and its subsidiaries as at September 30, 2017. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has :

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns.

Subsidiary is consolidated from the date on which effective control is transferred to the Company and is no longer consolidated from the date of disposal.

1.1 **Basis of preparation of consolidated financial statements (Continued)**

Minority interest's share of net profit is adjusted against the income to arrive at the net income attributable to owners of the parent. Minority interest's share of net assets is presented separately in the balance sheet.

Consolidated financial statements are prepared using uniform accounting policies for transactions and other events in similar circumstance.

The excess/deficit of cost to the parent company of its investment in the subsidiary over its portion of equity in the subsidiary at the respective dates on which investment in such subsidiary was made is recognised in the consolidated financial statements as goodwill/capital reserve. The parent company's portion of equity in such subsidiary is determined on the basis of book values of assets and liabilities as per the financial statements of the subsidiary as on the date of investment and if not available, the financial statements for the immediately preceding period adjusted for the effects of significant transactions. Goodwill is tested for impairment annually.

The consolidated financial statements have been prepared on the following basis:

Consolidation procedure:

- (a) Items of assets, liabilities, equity, income, expenses and cash flows of the parent are combined with those of its subsidiaries on a line basis. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the financial statements at the acquisition date.
- (b) The carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary are eliminated.
- (c) Intracompany assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the Group are eliminated in full (profits or losses resulting from intra Group transactions that are recognised in assets, such as inventory and fixed assets, are eliminated in full). Intra Group losses may indicate an impairment that requires recognition in the consolidated financial statements. Ind AS12 Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intracompany transactions.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- Derecognises the assets (including goodwill) and liabilities of the subsidiary
- Recognises the fair value of the consideration received
- Recognises the fair value of any investment retained
- Recognises any surplus or deficit in profit or loss
- Reclassifies the parent's share of components previously recognised in OCI to profit or loss or retained earnings, as appropriate, as would be required if the Group had directly disposed of the related assets or liabilities.

1.2 **Current versus non-current classification**

All assets and liabilities have been classified as current or non-current as per the Group's operating cycle. Based on the nature of business and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

1.3 **Property, plant and equipment**

Property, plant and equipment are stated at cost of acquisition less accumulated depreciation and impairment losses, if any. The cost includes taxes, duties, freight and other incidental expenses related to the acquisition and installation of the respective assets. Subsequent expenditure related to an item of property, plant and equipment is added to its book value only if it increases the future economic benefits from the existing assets beyond its previously assessed standard of performance.

Depreciation on property, plant and equipment is provided on a straight-line basis over the useful lives of assets estimated by the management, taking into account the nature of the asset on technical evaluation of the useful life, which may not necessarily be in alignment with the indicative useful lives prescribed by Schedule II to the Companies Act, 2013. The following useful lives are assumed:

Notes to the consolidated financial statements (*Continued*) for the year ended 30 September 2017 (Currency: Indian rupees millions)

1.3 Property, plant and equipment (*Continued*)

Assets	Estimated useful lives
Land	
- Freehold	-
- Leasehold	Over the lease period
Buildings	
- Factory buildings	30 years
- Other buildings	50 years
- Roads	10 years
- Leasehold improvements	Over the lease period
Plant and equipments	3 – 20 years
Furniture and fixtures	5 years
Office equipments	
- Computers	3 years
- Hardware, mainframes and servers	5 years
- Other office equipments	3 - 5 years
Vehicles	4 years

Items of property, plant and equipments that have been retired from active use and are held for disposal are stated at the lower of their carrying value and estimated net realizable value and are disclosed separately in the consolidated financial statements.

Capital work-in-progress includes the cost of property, plant and equipments that are not ready for intended use at the balance sheet date.

1.4 Intangible assets

Intangible assets comprises of software and technical know-how. Intangible assets are stated at cost of acquisition less accumulated amortisation and impairment losses, if any. These intangible assets are amortised on straight-line basis based on the following useful lives, which in management's estimate represents the period during which economic benefits will be derived from their use:

Assets	Estimated useful lives
Software	3 - 5 years
Technical know-how	5 - 10 years

1.5 Investment property

Investments in land or buildings (including property under construction) which are held to earn rentals and/or for capital appreciation are classified as investment property. Investment properties are initially measured at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any.

The cost comprises purchase price and borrowing costs, if capitalisation criteria are met and directly attributable cost of bringing the investment property to its working condition for the intended use.

Depreciation on investment property is provided on a straight-line basis over the useful lives of assets estimated by the management. Such classes of investment properties and their estimated useful lives are as under:

Assets	Estimated useful lives
Land	
- Freehold land	-
- Leasehold land	Over the lease period
Buildings	30 years

1.5 *Investment property (Continued)*

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. On disposal of an investment property, the difference between its carrying amount and net disposal proceeds is recognised in the Statement of Profit and Loss.

1.6 *Revenue recognition*

Revenue is recognised to the extent it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment. Revenue are stated exclusive of sales tax, value added tax, goods and service tax and net of trade and quantity discount. Revenue is inclusive of excise duty.

Revenue from sale of products is recognised on transfer of significant risk and rewards of ownership of the products to the customers, which is generally on dispatch of goods.

When the outcome of a construction contract can be estimated reliably, revenue from construction contracts are recognized under the percentage-of-completion method, based on the percentage of costs incurred to date compared to the total estimated contract costs. An expected loss on the construction contract is recognized as an expense immediately. Contract revenue earned in excess of billing has been reflected as "Project excess cost" under "Other financial assets" and "Billing in excess" of contract revenue has been reflected under "Other current liabilities" in the balance sheet.

Revenue from services represents service income other than from services which are incidental to sale of products and projects. Revenue from services is recognised as per the terms of the contract with the customer using the proportionate completion method.

Commission income is recognised when proof of shipment is received from the supplier.

Interest income is recognised using the effective interest rate method ("EIR").

Export incentives receivable are accrued for, when the right to receive the credit is established and there is no significant uncertainty regarding the ultimate collection of export proceeds.

Rental income arising from operating leases is accounted on a straight-line basis over the lease terms and is included in revenue in the Statement of Profit and Loss due to its operating nature.

1.7 *Inventories*

Inventories comprise all costs of purchase, conversion and other costs incurred in bringing the inventories to their present location and condition.

Raw materials, work-in-progress, finished goods and traded goods are carried at the lower of cost and net realisable value. Cost is determined on the basis of the weighted average method.

The net realisable value of work-in-progress is determined with reference to the estimated selling price less estimated cost of completion and estimated costs necessary to make the sale of related finished goods. Raw materials held for the production of finished goods are not written down below cost except in case where material prices have declined and it is estimated that the cost of the finished product will exceed its net realisable value.

1.8 *Leases*

Where the Group is the lessee:

Leases where the lessor effectively retains substantially all the risk and benefits of ownership of the leased items are classified as operating leases. Lease payments under an operating lease, are recognised as an expense in the Statement of Profit and Loss on a straight line basis over the lease term.

Where the Group is the lessor:

Assets subject to operating leases are included in property, plant and equipment and investment property. Lease income is recognised in the Statement of Profit and Loss on a straight-line basis over the lease term. Costs, including depreciation are recognised as an expense in the Statement of Profit and Loss. Initial direct costs such as legal costs, brokerage costs, etc. are recognised immediately in the Statement of Profit and Loss.

1.9 *Employee benefits*

(a) Short term employee benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages and short term compensated absences, etc. and the expected cost of ex-gratia are recognised in the period in which the employee renders the related service.

Notes to the consolidated financial statements (*Continued*) for the year ended 30 September 2017 (Currency: Indian rupees millions)

1.9 Employee benefits (*Continued*)

(b) Post-employment and other long-term benefits

- (i) **Defined Contribution Plans:** The Group's approved superannuation scheme and employee state insurance scheme are defined contribution plans. The Group's contribution paid/ payable under the schemes is recognised as expense in the Statement of Profit and Loss during the period in which the employee renders the related service.
- (ii) **Defined Benefit Plans and other Long Term Benefits:** The Group's gratuity, pension and medical benefit schemes are defined benefit plans. Leave wages, retention bonus, silver jubilee and star awards are other long term benefits. The present value of the obligation under such defined benefit plans and other long term benefits are determined based on actuarial valuation using the Projected Unit Credit Method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. In case of funded plans, the fair value of the plan assets is reduced from the gross obligation under the defined benefit plans to recognize the obligation on a net basis.

In case of defined benefit plans, remeasurement comprising of actuarial gains and losses, the return on plan assets (excluding amounts included in net interest on the net defined benefit liability or asset) and any change in the effect of asset ceiling (wherever applicable) is recognized in other comprehensive income (OCI) and is reflected in retained earnings and is not eligible to be reclassified to profit or loss.

The Group recognises the following changes in the net defined benefit obligation as an expense in Statement of Profit and Loss:

- Service cost including current service cost, past service cost and gains and losses on curtailments and settlements; and
- Net interest expense or income.

Provision for leave wages, pension, medical benefit, retention bonus, silver jubilee and star awards which is expected to be utilized within the next 12 months is treated as short term employee benefits and beyond 12 months as long term employee benefits. For the purpose of presentation, the allocation between short and long term provisions has been made as determined by an actuary.

Provident fund has been considered as defined benefit plan since any additional obligation on account of investment risk and interest rate risk are required to be met by the Company.

1.10 Share-based payments

Share-based payment schemes of the Group are predominantly designed as cash-settled transactions. The fair value of the amount payable is remeasured at the end of each reporting period upto the settlement date, with the changes in the fair value recognised as employee benefits expenses with a corresponding increase in liabilities.

1.11 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit and loss, transaction costs that are attributable to the acquisition of the financial asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in the below categories:

- (a) Financial assets at amortised cost
- (b) Financial assets including derivatives at fair value through profit or loss (FVTPL)
- (c) Financial assets at fair value through other comprehensive income (FVTOCI)

1.11 Financial instruments (Continued)

(a) Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business where the objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the EIR method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the Statement of Profit and Loss. The losses arising from impairment are recognised in the Statement of Profit and Loss. This category generally applies to trade and other receivables, loans and other financial assets.

(b) Financial Assets including derivatives at fair value through profit or loss (FVTPL)

Financial assets are measured at fair value through profit and loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets at fair value through profit and loss are immediately recognised in the Statement of Profit and Loss.

(c) Financial Assets at fair value through other comprehensive income (FVTOCI)

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Derivative instruments included in FVTOCI category are measured initially as well as at each reporting date at fair value. Movement in fair value is recognised in OCI.

Derecognition

A financial asset is primarily derecognised when:

- (a) the right to receive cash flows from the asset has expired, or
- (b) the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a pass-through arrangement; and a) the Group has transferred substantially all the risks and rewards of the asset, or b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

On derecognition of a financial asset in its entirety, the differences between the carrying amounts measured at the date of derecognition and the consideration received is recognised in the Statement of Profit and Loss.

Impairment of financial assets

The Group applies the expected credit loss (ECL) model for measurement and recognition of impairment losses on the following financial assets and credit risk exposure:

- (a) Financial assets that are measured at amortised cost e.g. deposits
- (b) Trade receivables, project excess cost or any another financial asset that result from transactions that are within the scope of Ind AS 11 and Ind AS 18.

The Group follows the simplified approach for recognition of impairment loss allowance on trade receivables (net of billing in excess) and project excess cost. The application of the simplified approach does not require the Group to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, twelve-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on twelve-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The twelve-month ECL is a portion of the lifetime ECL which results from default events that are possible within twelve months after the reporting date.

Notes to the consolidated financial statements (*Continued*) for the year ended 30 September 2017 (Currency: Indian rupees millions)

1.11 *Financial instruments (Continued)*

ECL is the difference between net of all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR.

When estimating the cash flows, an entity is required to consider:

- All contractual terms of the financial instrument (including prepayment, extension, call and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument.
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

As a practical expedient, the Group uses a provision matrix to determine impairment loss allowance on trade receivables (net of billing in excess) and project excess cost.

The Group does not have any purchased or originated credit-impaired financial assets, i.e., financial assets which are credit impaired on purchase/origination.

ECL impairment loss allowance (or reversal) recognized during the period is recognized in the Statement of Profit and Loss. This amount is reflected under the head 'other expenses' in the Statement of Profit and Loss.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss (FVTPL), payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and in the case of payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade and other payables and derivative financial instruments.

Subsequent measurement

Financial liabilities, including derivatives and embedded derivatives, which are designated for measurement at FVTPL are subsequently measured at fair value. All other financial liabilities such as deposits are measured at amortised cost using EIR method.

For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value is used due to the short maturity of these instruments.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

1.12 *Foreign currency transactions*

The Group is exposed to currency fluctuations on foreign currency transactions. Transactions denominated in foreign currency are recorded at the exchange rate prevailing on the date of transactions.

Exchange differences arising on foreign exchange transactions settled during the year are recognized in the Statement of Profit and Loss of the year.

Translation

Monetary assets and liabilities in foreign currency, which are outstanding as at the year-end, are translated at the year-end at the closing exchange rate and the resultant exchange differences are recognized in the Statement of Profit and Loss. Non monetary items are stated in the balance sheet using the exchange rate at the date of the transaction.

1.12 Foreign currency transactions (Continued)

Derivative instruments

The Group's exposure to foreign currency fluctuations relates to foreign currency assets, liabilities and forecasted cash flows. The Group limits the effects of foreign exchange rate fluctuations by following established risk management policies including the use of derivatives like forward contracts and options. The Group enters into forward exchange contracts and options, where the counterparty is a bank. The hedging strategy is used for mitigating the currency fluctuation risk and the Group does not use the forward exchange and options contracts for trading or speculative purpose.

The forward exchange and options contracts are re-measured at fair value at each reporting date with the resultant gains/losses thereon being recorded in Statement of Profit and Loss.

Commodity risk is mitigated by entering into future contracts to hedge against fluctuation in commodity prices.

Cash flow hedges

The Group uses foreign currency forward contracts to hedge its risks associated with foreign currency fluctuations relating to highly probable forecast transactions. The Group designates some of the forward contracts in a cash flow hedging relationship by applying the hedge accounting principles.

These forward contracts are stated at fair value at each reporting date. Changes in the fair value of these forward contracts that are designated and effective as hedges of future cash flows are recognised directly in cash flow hedge reserve under OCI, net of applicable deferred income taxes and the ineffective portion is recognised immediately in the Statement of Profit and Loss.

Amounts accumulated in cash flow hedge reserve are reclassified to profit and loss in the same periods during which the forecasted transaction materialises.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. For forecasted transactions, any cumulative gain or loss on the hedging instrument recognised in cash flow hedge reserve is retained there until the forecasted transaction occurs.

If the forecasted transaction is no longer expected to occur, the net cumulative gain or loss recognised in cash flow hedge reserve is immediately transferred to the Statement of Profit and Loss for the period.

1.13 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

In determining the fair value of its financial instruments, the Group uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value includes discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result from general approximation of value and the same may differ from the actual realised value.

Notes to the consolidated financial statements (*Continued*) for the year ended 30 September 2017 (Currency: Indian rupees millions)

1.14 Taxation

Income-tax expense comprises current tax (i.e. amount of tax for the year determined in accordance with the income-tax law) and deferred tax charge or credit (reflecting the tax effect of temporary differences between accounting income and taxable income for the year) computed in accordance with the relevant provisions of the Income Tax Act, 1961. Current tax and deferred tax are recognised in the Statement of Profit and Loss, except when they relate to items that are recognised in OCI or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively.

The current tax payable is based on taxable profit for the year. The Group's current tax is calculated using tax rates that have been enacted or substantively enacted, by the end of the reporting period. Advance taxes and provisions for current income taxes are presented in the balance sheet after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction and where the relevant taxpaying units intend to settle the asset and liability on a net basis.

Deferred tax is provided using the balance sheet method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax is recognised for all taxable temporary differences, except:

When the deferred tax asset/ liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

In respect of taxable temporary differences associated with investments in subsidiaries, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognised using the tax rates that have been enacted or substantively enacted by the balance sheet date. Deferred tax assets are generally recognised for all deductible temporary differences to the extent it is probable that taxable profits will be available against those deductible temporary differences can be realised. Deferred tax assets are reviewed as at each balance sheet date and written down to the extent it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the relevant entity intends to settle its current tax assets and liabilities on a net basis.

1.15 Earnings per share

Basic earnings per share are computed by dividing the net profit attributable to equity shareholders for the year, by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

1.16 Provisions and contingencies

Provisions are recognized when the Group recognises it has a present obligation (legal or constructive) as a result of past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect is material, provisions are recognised at present value by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money. When a contract becomes onerous, the present obligation under the contract is recognized as a provision. These are reviewed at each balance sheet date and adjusted to reflect current best estimates.

Disclosures for contingent liability are made when there is a possible and present obligation that arises from past events which is not recognised since it is not probable that there will be an outflow of resources. When there is a possible and present obligation in respect of which the likelihood of outflow of resources is remote, no disclosure is made.

Loss contingencies arising from claims, litigation, assessment, fines, penalties, etc. are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated.

Contingent assets are not recognised in the financial statements.

1.17 Cash and Cash equivalents

Cash and cash equivalents include cash, cheques in hand, cash at bank and deposits with banks having maturity of three months or less. The bank deposits with original maturity of up to three months are classified as cash and cash equivalents and bank deposits with original maturity of more than three months are classified as other bank balances.

1.18 Government grants and subsidies

Grants and subsidies from the government are recognized when there is reasonable assurance that (i) the Group will comply with the conditions attached to them, and (ii) the grant/subsidy will be received.

When the grant or subsidy relates to revenue, it is recognized as income on a systematic basis in the Statement of Profit and Loss over the periods necessary to match them with the related costs for which they are intended to compensate. Where the grant relates to an asset, it is recognized as deferred income and transferred to income in equal amounts over the expected useful life of the related asset.

2. Significant accounting judgments, estimates and assumptions

The preparation of consolidated financial statements in conformity with Ind AS requires management to make estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities. Actual results could differ from those estimates. Any revision to accounting estimates is recognised prospectively.

The key assumptions concerning the future and other key sources of estimating uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group has based its assumptions and estimates on parameters available when the consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

2.1 Project revenue and costs

The percentage-of-completion method places considerable importance on accurate estimates to the extent of progress towards completion and may involve estimates on the scope of deliveries and services required for fulfilling the contractually defined obligations. These significant estimates include total contract costs, total contract revenues, contract risks, including technical, political and regulatory risks, and other judgments. The Group re-assesses these estimates on periodic basis and makes appropriate revisions accordingly.

2.2 Taxes

Significant management judgment is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

2.3 Property, plant and equipment and intangible assets

The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of the Group's assets are determined by management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology.

2.4 Impairment of non-financial assets

The Group assesses at each balance sheet date whether there is any indication that an asset or a group of assets (cash generating unit) may be impaired. If any such indication exists, the Group estimates the recoverable amount of the asset or cash generating unit.

The recoverable amount is the greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to the present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used. If such recoverable amount of the asset or the recoverable amount of the cash-generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognized in the Statement of Profit and Loss. If at the balance sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciable historical cost, had no impairment been recognised.

2.5 *Employee benefits*

The Group's obligation for employee benefits is determined based on actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, these liabilities are highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

Refer note 44 for details of the key assumptions used in determining the accounting of these plans.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation.

The mortality rate is based on publicly available mortality tables for India. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates for the respective countries.

2.6 *Impairment of financial assets*

The Group assesses impairment on financial assets based on Expected Credit Loss (ECL) model. The provision matrix is based on its historically observed default rates over the expected life of the financial assets and is adjusted for forward looking estimates. At every reporting date, the historical observed default rates are updated and changes in forward looking estimates are analysed.

2.7 *Provisions*

Significant estimates are involved in the determination of provisions related to liquidated damages, onerous contracts, warranty costs, asset retirement obligations, legal and regulatory proceedings (Legal Proceedings). The Group records a provision for onerous sales contracts when current estimates of total contract costs exceed expected contract revenue. The provision for warranty, liquidated damages onerous contracts is based on the best estimate required to settle the present obligation at the end of reporting period.

Legal Proceedings often involve complex legal issues and are subject to substantial uncertainties. Accordingly, considerable judgment is part of determining whether it is probable that there is a present obligation as a result of a past event at the end of the reporting period, whether it is probable that such a Legal Proceeding will result in an outflow of resources and whether the amount of the obligation can be reliably estimated. Internal and external counsels are generally part of the determination process.

All the estimates are revised periodically.

Recent Accounting pronouncements

In March 2017, the Ministry of Corporate Affairs issued the Companies (Indian Accounting Standards) (Amendments) Rules, 2017, notifying amendments to Ind AS 7, 'Statement of cash flows' and Ind AS 102, 'Share-based payment. The amendments are applicable to the Group from 1 October 2017.

Amendment to Ind AS 7

The amendment to Ind AS 7 requires the entities to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes, suggesting inclusion of a reconciliation between the opening and closing balances in the balance sheet for liabilities arising from financing activities, to meet the disclosure requirement.

The Group is evaluating the requirements of the amendment and its impact on its cash flows, which is not expected to be material.

Amendment to Ind AS 102

The amendment to Ind AS 102 provides specific guidance to measurement of cash-settled awards, modification of cash-settled awards and awards that include a net settlement feature in respect of withholding taxes.

It clarifies that the fair value of cash-settled awards is determined on a basis consistent with that used for equity-settled awards. Market-based performance conditions and non-vesting conditions are reflected in the 'fair values', but non-market performance conditions and service vesting conditions are reflected in the estimate of the number of awards expected to vest. Also, the amendment clarifies that if the terms and conditions of a cash-settled share-based payment transaction are modified with the result that it becomes an equity-settled share-based payment transaction, the transaction is accounted for as such from the date of the modification. Further, the amendment requires the award that includes a net settlement feature in respect of withholding taxes to be treated as equity-settled in its entirety. The cash payment to the tax authority is treated as if it was part of an equity settlement. The Group is evaluating the requirements of the amendment and its impact.

e) Terms / rights attached to equity shares

The Parent Company has only one class of equity shares having a par value of ₹ 2 per share. Each holder of equity shares is entitled to one vote per share. The Parent Company declares and pays dividends in Indian rupees.

In the event of liquidation of the Company, the holder of equity shares will be entitled to receive remaining assets of the Company, after distribution of all preferential amounts (if any). The distribution will be in proportion to the number of equity shares held by the shareholders.

20 Other equity

- Capital reserve was created on account of merger of group companies in earlier years.
- Amalgamation reserve was created on account of amalgamation of Siemens VDO Automotive Ltd. in 2006.
- Capital redemption reserve was created on account of business combination under common control.
- Securities premium account represents the surplus of proceeds received over the face value of shares, at the time of issue of shares.
- General reserve is created out of profits earned by the Company by way of transfer from surplus in the statement of profit and loss. The Company can use this reserve for payment of dividend and issue of fully paid-up shares. As General reserve is created by transfer on one component of equity to another and is not an item of other comprehensive income, items included in the General reserve will not be subsequently reclassified to statement of profit and loss.
- Cash flow hedge reserve represents mark-to-market valuation of effective hedges as required by Ind AS 109.
- Retained earnings are the profits that the Group has earned till date, less any transfers to General reserve and payment of dividend.

The above reserves will be utilised in accordance with the provision of the Companies Act, 2013.

39 Disclosure relating to Provisions

Provision for warranty

Warranty costs are provided based on a technical estimate of the costs required to be incurred for repairs, replacement, material cost, servicing and past experience in respect of warranty costs. It is expected that this expenditure will be incurred over the contractual warranty period.

Provision for liquidated damages

Liquidated damages are provided based on contractual terms when the delivery/ commissioning dates of an individual project have exceeded or are likely to exceed the delivery / commissioning dates as per the respective contracts. This expenditure is expected to be incurred over the respective contractual terms upto closure of the contract (including warranty period).

Provision for loss orders

A provision for expected loss on construction contracts is recognised when it is probable that the contract costs will exceed total contract revenue. For all other contracts loss order provisions are made when the unavoidable costs of meeting the obligation under the contract exceed the currently estimated economic benefits.

Provision for other matters

The Group has made provisions for known contractual risks, litigation cases and pending assessments in respect of taxes, duties and other levies, the outflow of which would depend on the cessation of the respective events.

42 (iii) Other disclosures :

The Chief Operating Decision Maker ("CODM") evaluates the Group's performance and allocates resources based on an analysis of various performance indicators by operating segments. The CODM reviews revenue and profit from operations as the performance indicator for all of the operating segments. The Chief Executive Officer, Chief Financial Officer and Division CEO & CFO's are the CODM of the Company.

- Inter-segment prices are normally negotiated amongst the segments with reference to the costs, market price and business risks/ Transfer prices between operating segments are on arm's length basis in a manner similar to the transactions with third parties.
- No operating segments have been aggregated to form the above reportable operating segments.
- Finance income and costs, and fair value gains and losses on financial assets are not allocated to individual segments as the underlying instruments are managed on a group basis.

42 (iii) Other disclosures : (Continued)

- Current taxes, deferred taxes and certain financial assets and liabilities are not allocated to those segments as they are also managed on a group basis.
- Capital expenditure consists of additions of property, plant and equipment, intangible assets and investment properties including assets from the acquisition of subsidiaries.
- Profits / losses on inter segment transfers are eliminated at the Group level.
- During the year, there has been a reorganisation of certain businesses across segments and accordingly, the figures for the previous year have been regrouped to make them comparable.

(iv) Segment information :

Business Segments: The business of the Group is divided into eight segments. These segments are the basis for management control and hence, form the basis for reporting. The business of each segment comprises of :

- **Power and Gas** : - Provides products and solutions for generation of electricity from fossil and renewable fuels for utilities, independent power producers and engineering, procurement and construction (EPC) companies and the reliable transport of oil and natural gas.
- **Energy Management** : - Supplier of products, systems, solutions and services for transmission and distribution of electrical energy for power utilities and industrial companies. Portfolio ranges from systems for low-voltage grids and distribution grids to solutions for smart grids and energy automation systems to power supply systems for industrial plants and high-voltage transmission systems.
- **Building Technologies** : - Provider of safe, secure, energy-efficient and eco-friendly buildings and infrastructures. As a technology partner, consultant, service provider, systems integrator and product vendor, offerings range from fire safety, security, building automation, heating, ventilation, air conditioning and energy management.
- **Mobility** : - Supplier of solutions for passenger and freight transportation – including rail vehicles, rail automation systems, rail electrification systems, road traffic technology and IT solutions.
- **Digital Factory** : - Contains portfolio of leading edge software solutions and automation technologies covering the complete life cycle from product design and production execution to services for manufacturing companies.
- **Process Industries and Drives** : - Provides products, systems, solutions and services across entire life cycles for all industry sectors.
- **Others** :- Services provided to other group companies and lease rentals have been classified as "Others".

Geographical Segments: The business is organised in two geographical segments i.e. within India and outside India.

Allocation of common costs

Common allocable costs are allocated to each segment according to the relative contribution of each segment to the total common costs.

Unallocated corporate items

Unallocated items include general corporate items which are not allocated to any business segment.

- b) The sensitivity analysis above have been determined based on a method that extrapolates the impact on defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting year 2016-17 and the method of assumption used in preparing sensitivity analysis did not change compared to previous year.
- c) The fund formed by the Parent Group manages the investments of the Gratuity Fund. Expected rate of return on investments is determined based on the assessment made by the Group at the beginning of the year on the return expected on its existing portfolio, along with the estimated incremental investments to be made during the year. Yield on portfolio is calculated based on a suitable mark-up over the benchmark Government securities of similar maturities. The Group expects to contribute ₹ 208 (2016: ₹ 172) to gratuity fund in 2017-18.

The investment strategy in respect of its funded plans is implemented within the framework of the applicable statutory requirements. Each year, the Board of Trustees reviews the level of funding in the gratuity plan. Such a review includes the asset liability matching strategy and investment risk management policy. This includes employing the use of annuities and longevity swaps to manage the risks. The Board of Trustees decides its contribution based on the results of this annual review. Generally it aims to have a portfolio mix of equity instruments and debt instruments to minimise the risk exposed to investment.

- d) The estimates of future salary increases, considered in actuarial valuation, take in to account inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.
- e) The Parent Company has contributed ₹ 475 (2016: ₹ 497) towards provident fund during the year ended 30 September 2017. The Guidance note issued by the Institute of Actuaries of India states that benefits involving employer established provident funds, which require interest shortfalls to be recompensed are to be considered as defined benefit plans. The Actuary has accordingly provided a valuation and based on the assumptions provided below there is no shortfall as at 30 September 2017.

The details of the fund and plan asset position as at 30 September are as follows:

	<u>Sept 2017</u>	Sept 2016	1 Oct 2015

The Group enters into foreign exchange forward contracts, which are valued using valuation techniques that employs the use of market observable inputs.

There have been no transfers between Level 1 and Level 2 during the period.

51 Financial Risk Management

The Group's principal financial liabilities comprise of trade payable, security deposits and other financial liabilities. The Group's principal financial assets include trade and other receivables, cash and cash equivalents and other financial assets that arise from its operations. The Group also enters into hedging transactions to cover foreign exchange exposure risk. The Group's operating business is exposed to market risk, credit risk and liquidity risk. In order to optimize the allocation of the financial resources across the segments, as well as to achieve its aims, the Group identifies, analyzes and manages the associated market risks. The Group seeks to manage and control these risks primarily through its regular operating activities and uses derivative financial instruments when deemed appropriate. All derivative activities for risk management purposes are carried out by teams that have the appropriate skills, experience and supervision. The Group has a Risk Management Committee, which ensures that the Group's financial risk taking activities are governed by appropriate policies and procedures and that financial risks are identified, measured and mitigated in accordance with the Group's policies and overall risk appetite.

A Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises of currency rate risk and interest rate risk. Financial instrument affected by market risks includes deposits, derivative financial instruments, trade receivables, trade payables and other financials assets.

Foreign Currency risk

Foreign currency risk is the risk that the fair value or future cashflows of a financial instrument will fluctuate because of changes on foreign exchange rate. The Group operates internationally and transacts in several currencies and has foreign currency trade receivables and trade payables. Hence, the Group is exposed to foreign exchange risk. The Group holds derivative financial instruments such as foreign exchange forward and option contracts to mitigate the risk of changes in exchange rates on foreign currency exposures.

Foreign currency sensitivity

The following table demonstrate the sensitivity to a reasonably possible change in major currencies like US Dollar and Euro with all other variables held constant. The impact on the Group's profit before tax is due to changes in the fair value of monetary assets and liabilities including foreign currency derivatives. The Group's exposure to foreign currency changes for all other currencies is not material.

Particulars	Effect on profit before tax		Effect on equity (net of tax)			
	30 Sept 2017	30 Sept 2016	30 Sept 2017	30 Sept 2016	1 Oct 2015	
US Dollar	+ 5%	714	750	-	-	-
	- 5%	(714)	(750)	-	-	-
Euro	+ 5%	25	(85)	*	*	(2)
	- 5%	(25)	85	*	*	2

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Consequently, could have unforeseen impact on Group's cost of borrowing or returns thus impacting the profit and loss.

Surplus funds are invested in deposits at fixed interest rates. The tenure of the deposits is managed to match with the liquidity profile of the Group.

* denotes figures less than a million

B Credit risk

Credit risk is defined as an unexpected loss in financial instruments if the contractual partner is failing to discharge its obligations in full and on time. The Group is exposed to credit risk from its operating and financing activities like trade receivables, deposits with banks, foreign exchange transactions and other financial instruments.

51 Financial Risk Management *(Continued)*

Receivables

The major exposure to credit risk at the reporting date is primarily from receivables comprising of trade and project unbilled receivables (net).

Credit risk on receivables is limited due to the Group's large and diverse customer base which includes public sector enterprises, state owned companies and private corporates. The effective monitoring and controlling of credit risk through credit evaluations and ratings is a core competency of the Group's risk management system.

For receivables, as a practical expedient, the Group computes expected credit loss allowance based on a provision matrix. The provision matrix is prepared based on historically observed default rates over the expected life of trade receivables and is adjusted for forward-looking estimates.

The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets. The ECL is calculated on rating and default probability percentage arrived from the historic default trend. In order to determine the default probability percentage, a simple average of customer wise specific allowances or actual bad debts incurred in succeeding year (derived rates) (whichever is higher) for the preceding three years is considered as a percentage of gross receivables positions for each grading i.e. rating and division of each customer as at reporting date.

The reconciliation of ECL is as follows:

Particulars	Sept 2017	Sept 2016
Balance at the beginning of the year	(1,930)	(1,970)
Loss allowance based on ECL	(203)	40
Balance at the year end	<u>(2,133)</u>	<u>(1,930)</u>

Other financial assets

Credit risk from cash and cash equivalents, term deposits and derivative financial instruments is managed by the Group's treasury department in accordance with the Group's policy. Investments of surplus funds, temporarily, are made only with approved counter parties and within credit limits assigned to each counterparty. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets.

C Liquidity risk

The Group's principal sources of liquidity are cash and cash equivalents and the cash flow that is generated from operations. The Group regularly monitors the rolling forecasts and actual cashflows, to ensure it has sufficient funds to meet the operational needs.

The table below summarise the maturity profile of the Group's financial liabilities based on contractually agreed undiscounted cash flows :

52 First time adoption of Ind AS

These financial statements, for the year ended 30 September 2017, are the first the Group has prepared in accordance with Ind AS. For periods up to and including the year ended 30 September 2016, the Group prepared its financial statements in accordance with accounting standards notified under section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (Indian GAAP).

Accordingly, the Group has prepared financial statements which comply with Ind AS applicable for periods ending on 30 September 2017, together with the comparative period data as at and for the year ended 30 September 2016, as described in the summary of significant accounting policies. In preparing these financial statements, the Group's opening balance sheet was prepared as at 1 October 2015, the Group's date of transition to Ind AS. This note explains the principal adjustments made by the Group in restating its Indian GAAP financial statements, including the balance sheet as at 1 October 2015 and the financial statements as at and for the year ended 30 September 2016.

A) Exemptions availed

Ind AS 101 allows first-time adopters certain exemptions from the retrospective application of certain requirements under Ind AS. The Group has accordingly applied the following exemptions:

- i) The Group has elected to apply Ind AS 103 – "Business Combinations" prospectively from the date of transition. Hence, business combinations occurring prior to the transition date have not been restated.
- ii) The Group has elected to continue with the carrying value determined in accordance with Indian GAAP for all of its property, plant and equipment, intangible assets and investment property as deemed cost of such assets at the transition date.
- iii) The Group has applied the derecognition requirements of financial assets and financial liabilities prospectively for transactions occurring on or after the transition date.
- iv) The Group has determined the classification of debt instruments in terms of whether they meet the amortised cost criteria or the FVTOCI criteria based on the facts and circumstances that existed as of the transition date.
- v) The Group has applied the impairment requirements of Ind AS 109 retrospectively based on facts and circumstances existing on transition date.
- vi) The estimates at 1 October 2015 and at 30 September 2016 are consistent with those made for the same dates in accordance with Indian GAAP (after adjustments to reflect any differences in accounting policies) apart from the following item where application of Indian GAAP did not require estimation:- Impairment of financial assets based on expected credit loss model.

B) Reconciliation between previously reported Indian GAAP (IGAAP) and Ind AS

Ind AS 101 requires an entity to reconcile equity, total comprehensive income and cash flows for prior periods. The following tables represent the reconciliations from erstwhile Indian GAAP to Ind AS.

iii) Reconciliation of cash flows for the year ended 30 September 2016

The transition from erstwhile Indian GAAP to Ind AS has not made a material impact on the statement of cash flows.

Notes:

- Under Indian GAAP, the allowance for bad and doubtful debts were accounted based on incurred loss model. Whereas, under Ind AS, this provision is created based on Expected Credit Loss Model (ECL). Consequently, ₹ 303 as at 1 October 2015 has been recognized as additional allowance with a charge to transition reserves. Also, ₹ 100 during the year ended 30 September 2016 has been recognized as a reversal of allowance.
- Under Indian GAAP, the Group had accounted for non-current financial assets and liabilities at the undiscounted amount. Whereas under Ind AS, such financial assets and liabilities are recognised at present value. Consequently, ₹ 68 as at 1 October 2015 has been recognised as a charge to transition reserves. Further, ₹ 22 during the year ended 30 September 2016 has been recognised in profit and loss.
- The fair value gain/ loss of foreign exchange forward contracts is recognised under Ind AS, which was not recognised under Indian GAAP. Impact of fair value changes as on 1 October 2015 of ₹ 9 is recognised in transition reserve and for the year ended 30 September 2016 of ₹ 5 is recognised in Statement of Profit and Loss, except for the fair value changes pertaining to effective portion of a cash flow hedge, which is recognised in other comprehensive income.
- Under Indian GAAP, dividends proposed by the Board of Directors after the Balance Sheet date but before the approval of the financial statements were considered as adjusting events. Accordingly, provision for proposed dividend was recognised as a liability. Under Ind AS, such dividends are recognised when the same is approved by the shareholders in the Annual General Meeting. This has resulted in an increase in other equity by ₹ 4,286 as at 1 October 2015 and ₹ 2,572 as at 30 September 2016.
- Tax adjustments include deferred tax impact on account of differences between previous Indian GAAP and Ind AS. On 1 October 2015 the net impact on deferred tax assets aggregating ₹ 117 has been adjusted to transition reserve. ₹ 20 has been recognised in the statement of profit and loss for the year ended 30 September 2016.
- Under Indian GAAP, the entire cost, including actuarial gains and losses on post-employment defined benefit plan is charged to the statement of profit or loss. Under Ind AS remeasurements comprising of actuarial gains and losses are recognised through Other Comprehensive Income. ₹ 390 is reclassified from employee benefits to Other comprehensive income during the year ended 30 September 2016.
- Under Indian GAAP Goodwill on consolidation was amortised over a period of 5 years. Under Ind AS, Goodwill is tested for impairment. Accordingly the amortisation expenses of Goodwill under IGAAP has been reversed. This has resulted in increase in other equity as at 30 September 2016 and profit in the statement of profit and loss for the year ended 30 September 2017 by ₹ 71.

Dear Member(s),

Sub.: Green Initiative - Electronic mode of service of documents

The Ministry of Corporate Affairs (MCA) has allowed paperless compliances by companies through electronic mode by providing the same under the Companies Act, 2013 and rules framed there under. The Members can receive various notices and correspondences including Annual Reports i.e. Audited Financial Statements, Directors' Report, Auditors' Report, etc., through electronic mode (e-mail). The initiative taken by the MCA is a welcome move for the society at large, as this will reduce paper consumption to a great extent, ensure prompt receipt of communication and avoid loss of document in postal transit.

We are sure that you will whole-heartedly support this initiative for a greener environment and co-operate with the Company to make it a success. We therefore request you to fill up the E-communication Registration Form below, for registering your e-mail ID and send it:

- i) In respect of shares held in physical form, to the Registrar and Share Transfer Agent (RTA), TSR Darashaw Limited at csg-green@tsrdarashaw.com, or to the Company at Corporate-Secretariat.in@siemens.com; and
- ii) In respect of shares held in demat mode, to your respective Depository Participant(s).

Please note that the E-Communication Registration Form should be signed by the sole / first named Member as per the specimen signature recorded with the RTA. Even after registering for E-communication, the Members are entitled to receive such communication in physical form, upon request. These documents will also be available on the Company's website www.siemens.co.in for your ready reference under the Investor Relations section.

Let's be part of this 'Green Initiative'.

Thanking You,
Yours faithfully,

For **Siemens Limited**
