

# TIA Portal V18 Grace Period Offer

Exclusive SUS offer for V17 customers,  
valid until February 28, 2023

## TIA Portal V18 Grace Period Offer

SUS Download grace period offer – valid until February 28, 2023

We want to make it as easy as possible for our **TIA Portal V17 customers** to switch to TIA Portal V18 as well as keeping their engineering and runtime software up-to-date.

**That is why we are offering an attractive SUS grace period offer for these TIA Portal products as download for a limited time**

The offer is valid for about **12 weeks after delivery release of TIA Portal V18**.

The SUS grace period offer is available to all customers who order one of the listed SUS download products after delivery release of TIA Portal V18.

The offer is **only valid for the delivery type SUS download**.

You will receive a **new SUS initial delivery** (CoC, Certificate of Contract) and within 1 – 3 business days an **additional free SUS delivery** with the V18 upgrade as download.

### Requirement

You own the current basic product with SUS capability.

# How software maintenance contracts help you to always be up-to-date and also save money

## Why choose Software Update Service (SUS)?

**Up-to-date software is an essential precondition for efficient work and reliable results. That's why Siemens software is continually updated and improved.**

**Always up-to-date:** Based on the latest software version, a SUS ensures automatic shipments after the availability of the software (version, service pack).

**Three forms of delivery** to choose from: SUS Download, SUS Package and SUS Compact.

**SUS Download** is usually the most cost effective<sup>1</sup> and fastest way in receiving automation software.

<sup>1</sup> New "Package Deliveries" are typically ~10% more expensive than Download

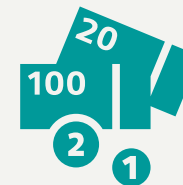

### Fast

Available immediately at the release date

### Transparent

Full overview of all licenses and contracts

### Predictable costs

Fixed annual fee at favorable conditions

# SUS – Types of delivery

What is the scope of delivery? Example with 3 contracts!

Download

SUS-Download

### Initial delivery

### Subsequent delivery (Upgrades)

1 email with information on downloading:

- Software, files
- 3 license keys
- 3 Certificates Of License (COL)

Data storage medium

SUS Package

SUS Compact

### Initial delivery

- 3 packaging units with 1 Certificate Of Contract (COC) each

### Subsequent delivery (Service Pack)

- 3 data storage media sets

### Subsequent delivery (Upgrades)

3 packaging units, each with:

- 1 data storage media set
- 1 memory stick with 1 license key
- 1 Certificate Of License (COL)

### Initial delivery

- 1 packaging unit with 3 Certificates Of Contract (COC)

### Subsequent delivery (Service Pack)

- 1 data storage media set

### Subsequent delivery (Upgrades)

1 packaging unit with:

- 1 data storage media set
- 1 memory stick with 3 license keys
- 3 Certificates Of License (COL)

# SUS Download & SUS Manager

## Your Benefits

### Fast

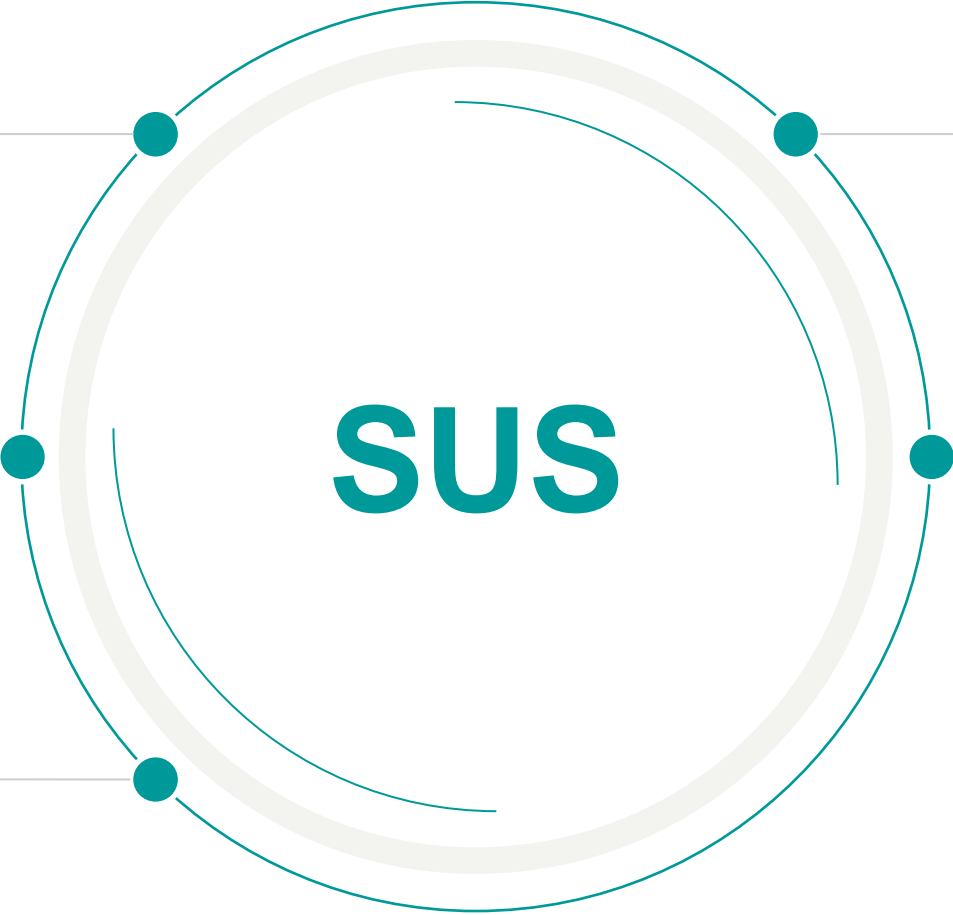

SUS Download Upgrades are available for download right from the release day.

### Pro active

You will be informed directly by email about available downloads.

### Cost-effective

SUS Download and the SUS Manager saves time, therefore reduces cost and effort.

### All at once

Upgrades of different SUS Download contracts (e.g., WinCC & STEP 7 Prof.) are provided for download at the same time.

### Transparent

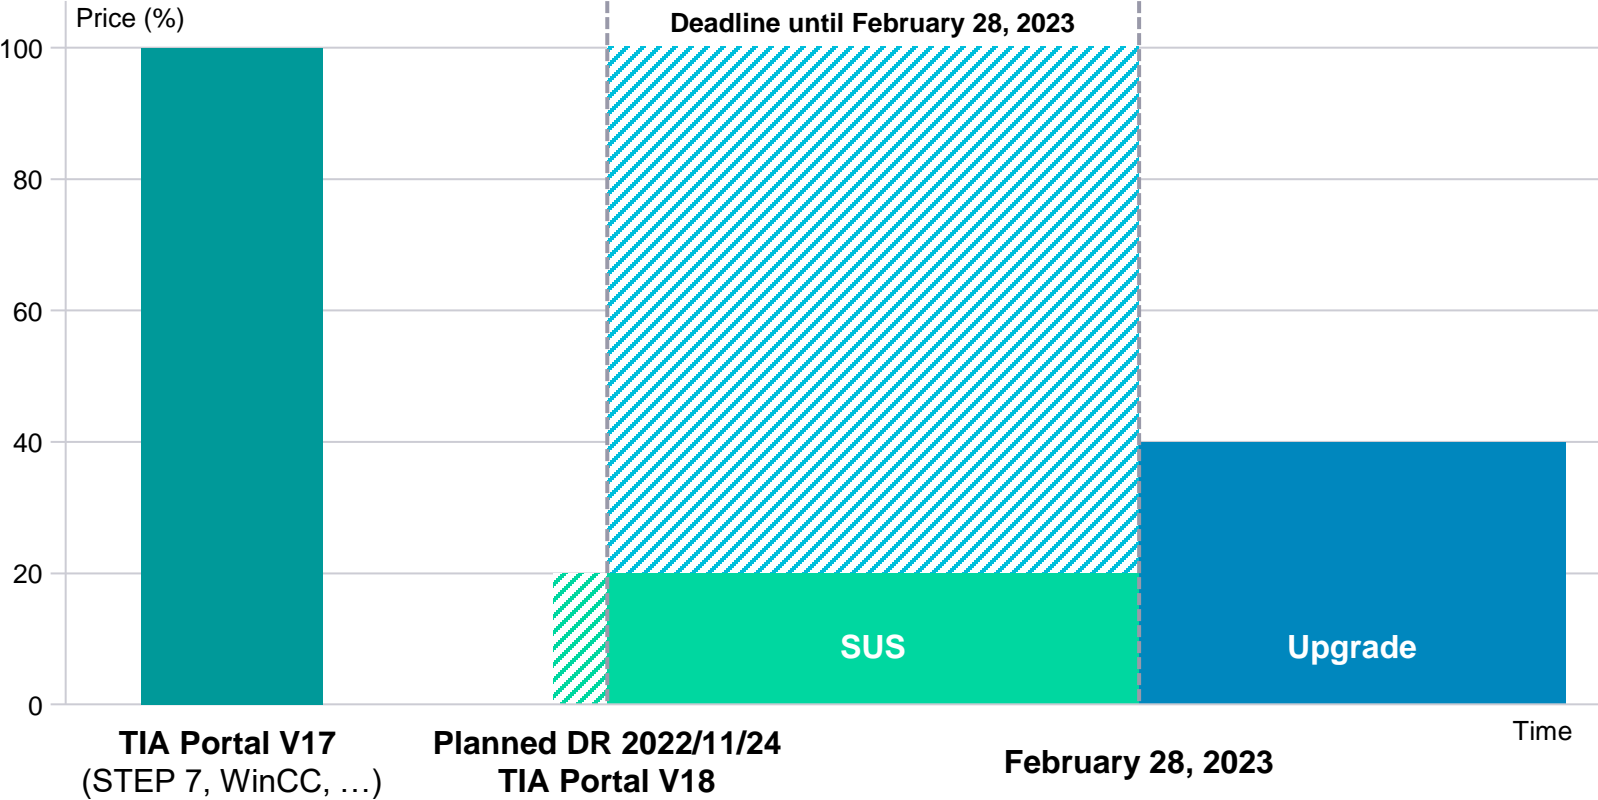

The SUS Manager online platform gives you transparency about your SUS contracts and allows you to modify your contracts on your own.

[The SUS Manager](#)

# SUS – When is the best point in time to start?

Now, straight with the delivery release of TIA Portal V18

## The grace period offer applies for:

- TIA Portal V17
- Delivery type Download

~40% of product price

~20% of product price

At one version/year SUS saves up to 50% compared to an Upgrade

... and best of all, all future service packs and upgrades within the contract period are included!

# TIA Portal V18 Grace Period Offer

Exclusive SUS offer for TIA Portal products valid until February 28, 2022

## TIA Portal Engineering

Offer only available as SUS download

# TIA Portal V18 Grace Period Offer

## FAQs

### What does the grace period offer? What needs to be ordered?

The SUS download product related to the licensed TIA Portal base product.  
Thus, the email address of the recipient is required!

### How is the order placed?

Like every other product via standard channels, e.g., Siemens contact, online mall, distributor

### What's the price for the grace period offer?

The grace period offer (only SUS as download) costs ~20% versus new.

### After the grace period, what's the price for staying current?

Without grace period offer an upgrade is required which costs ~40% versus new.  
With an additional SUS this totals to ~60% versus new.

### After the order. What's going to be delivered?

The delivery of the SUS download product is executed in multiple steps:

1. After Siemens' legal check one email with the new first delivery with the contract called CoC (Certificate of Contract) is received.
2. Within 1 – 3 business days follows an email with the real SUS delivery with the download link for the upgrade. This is only possible after delivery release.
3. While the SUS contract is active successor releases lead to further SUS deliveries via email.
