SIEMENS

SITRANS IQ connect assures a secure connection from your process measurement to your information's final destination.

In House Network

Cloud Platform

IIoT Web Platform

LTE

SITRANS IQ connect

LAN

All standardized open industrial communication protocols supported

PROFI BUS®

Modbus

EtherNet/IP

ASHRAE BACnet™

Analog

HART COMMUNICATION PROTOCOL

PROFI NET

Other

Municipal Applications

Any Measurement Technology

Irrigation

Industrial Plants

Tank Farms

Signal can be sent to:
- Any cloud platform
- IIoT web platform
- In-house control system
- In house network

Configurable to your process output:
- Output via LTE, Wifi or LAN
- Powered, battery or solar

Any process output:
- Analog or digital signal
- Any open communication protocol

Full range of process information:
- Regardless of technology
- Regardless of manufacturer
- Measurement and/or diagnostic
