

A smiling man with a shaved head, wearing a white shirt with thin vertical stripes, is holding a large, glowing blue and green globe of the Earth. He is looking towards the right of the frame with a pleasant expression. The background is a blurred indoor setting, possibly a kitchen or office, with white cabinets and a decorative object on a shelf.

1 General Information

1.1 ¿What is IOL (Invoices On-Line)?

IOL is a tool that allows Siemens' Foreign Vendors to upload their invoices and check their processing status. Also the portal allows for Vendors to review the history of the documents that have been paid in the last 3 months.

1.2 ¿Who can use IOL to upload and submit invoices?

The invoice submission feature has been enabled in IOL for Foreign Vendors only (Vendors not located in Mexico), except for those that sell merchandise in consignment and Logistic carriers.

NOTE: If you are in doubt whether your company qualifies to submit its invoices via IOL please contact atencion_prov_gss.mx@siemens.com

1.3 ¿Why to use IOL?

- General view of physical and electronic invoices submitted to Siemens in the last 6 months.
- Document search by multiple criteria: Date range, invoice number, invoice amount, payment status and payment number.
- IOL shows the following information:
 - ✓ Once invoices have been approved, IOL shows the payment programming.
 - ✓ Payment details
- Submit invoice inquiries/ payment inquiries to a Siemens Vendor support representative via the portal directly.
- Download reports in Microsoft Excel

NOTE: The portal is available for invoice upload if you are billing to one of the following companies:
