

A large, modular exhibition wall in a modern, brightly lit space. The wall is composed of various panels, some of which are digital screens displaying images and text. The Siemens logo and tagline are prominently displayed at the top left. The overall design is clean and professional, with a focus on showcasing technology and innovation.

SIEMENS

Ingenuity for life

The Ingenuity Center at Siemens

Where industry-leading expertise meets a
state-of-the-art customer experience.

usa.siemens.com/bt

Managing your building technologies infrastructure is a complex responsibility. Implementing new systems, or updating old ones, often brings with it a host of new questions. How will we integrate with existing systems? How intuitive is the user experience on our new software? How will this all work in the real world?

Get answers, get confidence

The Ingenuity Center at Siemens is your place for answers. Located at our headquarters campus in suburban Chicago, the Ingenuity Center brings together Siemens experts from across our entire portfolio and hands-on demonstrations of our newest and most popular technologies. It's the place where your questions are addressed face-to-face and through hands-on experience.

Each visit to the Ingenuity Center is tailored specifically to our customer's specific needs. You and your team will meet with Siemens representatives experienced in your specific industry to discuss how technologies are impacting your market. Product managers are available to discuss specific technical details or talk about how today's changes will affect tomorrow. Our 15-foot touchscreen wall and system displays provide the setting for detailed demos and interactive sessions. We'll show you how you can create the perfect place for your organization.

The Ingenuity Center offers an ideal setting
for expert presentations and demonstrations.

An immersive experience, tailored to your needs

Experience your solution today

There's no substitute for experience. At the Ingenuity Center, you'll view demos on our 15-foot touchscreen wall to learn about the integrated capabilities of Siemens Intelligent Infrastructure Solutions, including:

- Desigo® CC command and control
- APOGEE® building automation
- Siveillance™ Video Management System
- SiPass® Integrated System access control
- Desigo CC Mass Notification System
- Integrated Fire Management System
- Total Room Automation
- Comfy workplace app
- Enlighted IoT solutions

You'll also have access to interactive demonstrations of our Navigator energy management platform and our Fault Detection and Diagnostics (FDD) technology. Your sessions can be tailored to your organization's specific needs.

Create your perfect place

The Ingenuity Center is the perfect place to learn first-hand from industry thought leaders and practitioners. For your visit, we'll assemble Siemens subject matter experts with both technical knowledge and a deep understanding of your business and markets. They'll answer your questions, provide new insights, and help show you how you can create your perfect place.
