Digital Enterprise Finance

Invest in digital transformation with tailored finance

siemens.com/finance

A smart approach to financing

Regular affordable payments

Specialist industrial expertise

Putting Industry 4.0 in reach

The adoption of digitalization in manufacturing – “Industry 4.0” – is accelerating as industry players demonstrate the substantial efficiency and competitive advantages that digital transformation offers. Digital Enterprise Finance from Siemens helps you realise your digital future with specialist finance solutions.

Choose best-fit solutions

Digital Enterprise Finance wraps hardware, software, installation and other costs into one comprehensive package. By removing the need for upfront capital investment, you can select the right solution based on your future business needs, rather than the limits of your existing budget.

The smarter way to finance Industry 4.0

With Digital Enterprise Finance, your payments can be structured around the expected outcomes that new technology will deliver. As a result, the improvements you’ll see from using the new technology – from increased production capacity to greater efficiency – will mean the installation can in effect pay for itself over time.

Enable your digital future with Digital Enterprise Finance

How Digital Enterprise Finance works

1. Discuss digitalization solutions

Based on your aims for the future and the solutions involved, we'll tailor a finance plan that aligns with expected benefits.

2. Technology installed

Implement your solution and start to see the benefits of use.

3. Make affordable payments

You make simple monthly or quarterly payments to Siemens over time.

4. Upgrade or add on

If your needs change, we can help you adapt your finance plan to fit.

"The budget-compliant payment plan motivated us to invest in this technology."

Helmut Gras, Managing Director, EiMa Maschinenbau GmbH, Germany

Enabling digitalization

We understand the importance of digital transformation and access to new technology while retaining working capital and cashflow. So we cover all the costs of rolling out your digitalization solution in one comprehensive package.

Ongoing partners

Digitalization is an ongoing process, so we'll help you finance your transformation for the long-term. Our built-in upgrade options are designed to help you keep pace in a world of shortening innovation cycles.

Smart yet simple finance

We combine financial expertise with a uniquely industrial perspective, and a focus on keeping things simple. That means straightforward paperwork and support to make things easier at every step of the way.

Getting started

Arranging your Digital Enterprise Finance is simple. Get in touch via your Siemens representative or speak direct with our Industry Finance team. We'll guide you through the process and how to apply – whether you're an existing Siemens customer or working with us for the first time.
