SIMATIC Ident

**Overview**

Optical handheld readers

SIMATIC MV320 Robust and impressive industrial barcode and data matrix code reader.

SIMATIC MV440 configuration

SIMATIC MV420 configuration

SIMATIC MV540 configuration

**Features**

- For accessories, see ID 10 Catalog
- Power-DIO serial cable
- Power-DIO-RS232/422 cable
- PLC, power supply and external light
- PLC, trigger, power supply and external light
- Communication module (ASM) for further connection possibilities to the PLC, e.g. with PROFIBUS
- Communications module (IMM) for communication module interface
- Communication module (IM) for further connection possibilities to the PLC, e.g. with PROFIBUS
- Accessories
- 1D/2D code reader
- External light

**Security Information**

Siemens provides products and solutions with industrial security functions that support the secure operation of plants, systems, machines and networks. In order to protect plants, systems, machines and networks against attacks, the customer is responsible to prevent unauthorized access to its plants, systems, machines and networks. Systems, machines and components should only be connected to the enterprise network or the internet if and to the extent necessary and with appropriate security measures (e.g. use of firewalls and network segmentation) in place. Additionally, Siemens' guidance on appropriate security measures should be taken into account. For more information about industrial security, please visit [http://www.siemens.com/industrialsecurity](http://www.siemens.com/industrialsecurity).

**Disclaimer**

The technical data presented in this document is based on an actual case or on as-designed parameters, and therefore should not be relied upon for any specific application and does not constitute a performance guarantee for any projects. Actual results are dependent on variable conditions. Accordingly, Siemens does not make representations, warranties, or assurances as to the accuracy, currency or completeness of the content contained herein. If requested, we will provide specific technical data or specifications with respect to any customer's particular applications. Our company is constantly involved in engineering and development. For that reason, we reserve the right to modify, at any time, the technology and the PLC, e.g. with PROFIBUS or PROFINET, for further connection possibilities to HMI and PLC, e.g. with PROFINET for connection possibilities to HMI. We strongly recommend to apply product updates as soon as available and to always use the latest product versions. Use of product versions that are no longer supported, and failure to apply latest updates may increase customer's exposure to cyber threats. To stay informed about product updates, subscribe to the Siemens Industry RSS feed.
