New Year Resolutions for Utilities: 2021 and Beyond

SIEMENS

FOR MANY,
2020 was a 'challenging year',
defined by a global pandemic that turned our collective worlds upside down.

SIEMENS

2021 will undoubtedly bring new challenges, opportunities and resolutions for businesses globally.

SIEMENS

With the continued threat of cybersecurity attacks on the critical infrastructure, power utilities are prioritizing the health and security of their communication networks in 2021, by addressing **device visibility, access, and control.**

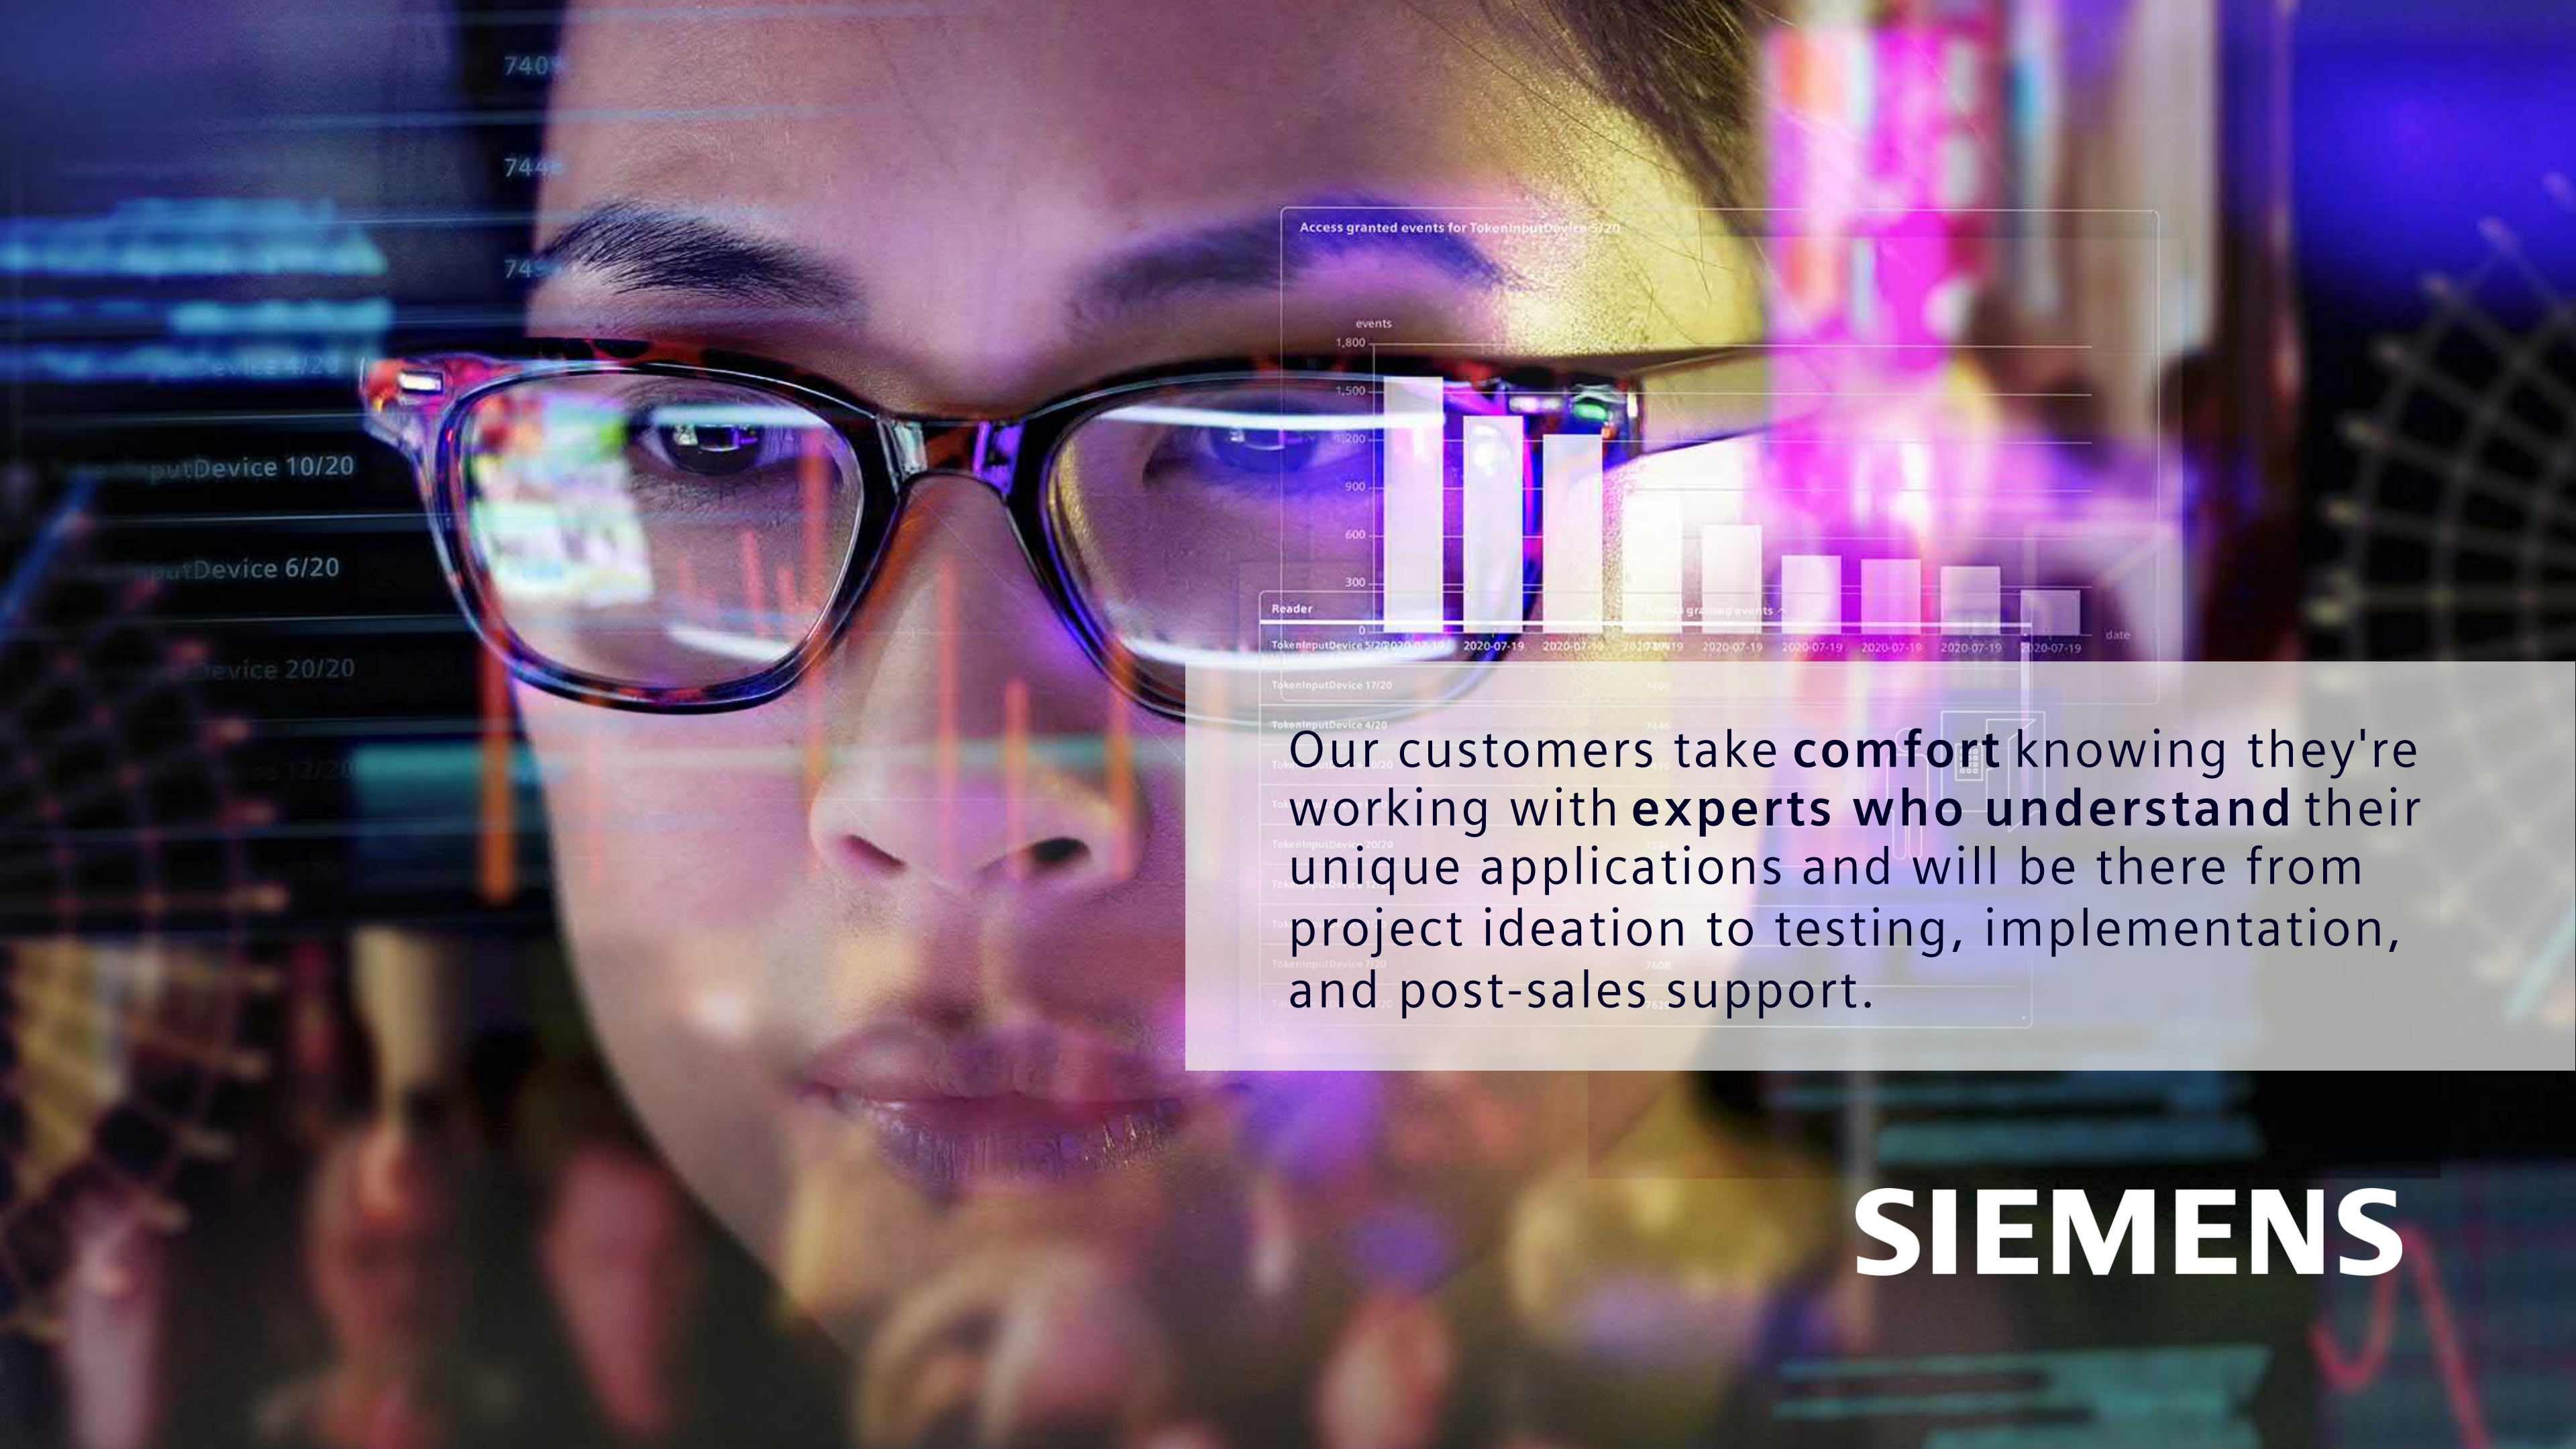

SIEMENS

Whatever your **resolutions are for 2021**

Siemens is the #1 trusted partner when it comes to mission critical communications and cybersecurity needs. For almost 20 years, our RUGGEDCOM solutions have been the preferred choice for public, private, and municipal utilities.

SIEMENS

Reader	TokenInputDevice	date
TokenInputDevice 5720	740	2020-07-19
TokenInputDevice 1720	744	2020-07-19
TokenInputDevice 4/20	745	2020-07-19
TokenInputDevice 20/20	760	2020-07-19
TokenInputDevice 720	762	2020-07-19

Our customers take **comfort** knowing they're working with **experts who understand** their unique applications and will be there from project ideation to testing, implementation, and post-sales support.

SIEMENS

RUGGEDCOM solutions have a track record of reliability, performing flawlessly under the harshest conditions.

They're engineered to perform as intended and exceed utility operational expectations.

SIEMENS

WE OFFER

Network Health Checks and Cybersecurity assessments

as key first steps to identify potential blind spots and vulnerabilities before they adversely impact system reliability.

SIEMENS

Our RUGGEDCOM CROSSBOW solution helps utilities address NERC CIP regulations and provides **role-based access control** and **secure remote access** to any connected device on the network. It can also serve as a source for documentation during NERC CIP audits.

SIEMENS

OUR CYBERSECURITY CORNERSTONE IS

"the right solution in the right place"

and through our expert consultation, we help utilities accurately design and implement a protection plan on all layers of their network.

SIEMENS

| In the coming year,

We will continue our commitment of helping utilities address the health and security of their critical communications networks through expert consultation and best-in-class RUGGEDCOM products and services.

The image shows the year '2021' in large, golden, 3D-style numerals. The numbers are positioned in the lower right quadrant of the frame. The background is a dark blue gradient with a dense field of out-of-focus, warm-toned bokeh lights, creating a festive and celebratory atmosphere. The lighting on the numbers is soft, highlighting their metallic texture and three-dimensional form.

2021

RUGGEDCOM

Because rugged is more than our name.
