## 25 min

### EASY SETUP

Simply register, provide company details and allow us to automatically create you a branded online store. Go from an online inquiry form to a fully featured online PCB/PCBA store in 25 mins.

## Zero

### ELIMINATE DESIGN ERRORS

Your customer's design files are automatically assigned to the correct layer and verified. Once an order is received you can confidently manufacture without any errors.

## 36

### PRICING CONFIGURATIONS

Using your own pricing configurations we will automatically calculate the correct price for your customers. If required you can also manually quote and process change orders.

## 30 s

### PART SOURCING

We check for price and availability for all components on the board. If any parts are unavailable we'll ask the customer what they would like to do. We will also share the source and price with you.

## 2.5 hr

### SAVED PER QUOTE

Most PCB suppliers spend 1-3 hours quoting each job with a close rate of 15-25%. By using our automated tooling you will reduce your time to 10 minutes per order and eliminate wasted effort on opportunities that do not close.

## 12%

### PROFIT INCREASE

Using our tools to automate the process of estimation, quoting, DFM, sourcing, project readiness and order management will decrease your overhead costs and increase profit.
