

SIMATIC WinCC Unified V17 Architectures

WinCC Unified Architectures V17

Change Log

WinCC Unified technical slides cover the overall functionality of the WinCC Unified system.

News of WinCC Unified V17 within a slide are marked as  or 

Please note the WinCC Unified Architecture slides that show typical configurations and use cases in detail !

- Changing the order of different use cases
- correction in the Remote Functions slide 21

More slides about the Unified PI Options will follow after release !

Three steps to a successful project with WinCC Unified

Verification

In order to check if an application can be implemented without technical risk, a questionnaire is available. This helps to check if customer requirements fit the functional scope of WinCC Unified V17.

[Download Technical questionnaire](#)

Training

WinCC Unified is a new system, that uses different approaches and technologies in several cases. Make sure, that your customers are aware of all the materials that are available to get started.

- [Getting Started Website](#)
- [SIOS Topic Page for WinCC Unified](#)

Tools

Free supporting materials to lower the entry barrier for customers

SIMATIC WinCC Unified V17 – additional Ordering Information

The total number of Logging Tags can be increased (countable) upon demand.
Logging Tags are valid for file-based and databased (Database Option) logging.

The maximum number of concurrent Clients can be increased (countable) upon demand.

Each WinCC Unified PC Runtime includes 2 Clients for local HMI and remote access.
SIMATIC NET must be licensed separately for more than 10 x S7-connections.

Ordering Information ASIA : Hardware DONGLE

Required for SIMATIC WinCC Unified PC Runtime, if:

- An Asian language is configured for the Unified PC Runtime
- Asian language of the operating system

The Dongle can be ordered separately in case of need (6AV6 381-2EA07-2AV0 contact Ch. Haagen)

SIMATIC WinCC Unified V17 – PC Runtime – Activating ASIA licenses

USB
Hard lock

The license keys for WinCC Runtime Unified are available on the "License Key USB Hard lock" license storage medium. The licensed ASIA version is executable in parallel to the European version by switching to Unicode. The "License Key USB Hard lock" (dongle) checks the following conditions:

- WinCC GUI language
- Runtime language
- Asian characters are used in the WinCC project.
- Operating system settings

Note

It is not allowed to run WinCC in process mode without a valid license. Delete configuration languages If you do not have a license for an ASIA version and delete the Asian configuration languages, the WinCC project continues to run in demo mode. To disable Demo mode, close the WinCC project. When reopened it is recognized that the WinCC project no longer requires licenses for an ASIA version..

WinCC Unified V17 – Clients

Flexible web-based, remote Monitoring and Operation

Unified Comfort Panel   PC 

Clients for flexible remote access

- Simultaneous remote access offers parallel operation of many users
- Use **state-of-the-art web** to access the visualization
- **“Zero Installation” Clients** via state-of-the-art web browsers – **no need to install separate apps or plug-ins**
- **Configurable access control** via user management
- **Secure communication using web standards** (https, SSL, certificates,...)

HMI Unified Comfort Panels Remote Control

Unified Comfort Panel

Asynchronous access of up to 3 clients
for independent operation
(simultaneous access is licensed)

Remote access via Web Browser

- One Client “Operate” included

Synchronous access via app (VNC)

For parallel operation
(all users see the same screen)

WinCC Unified V17 – Unified PC systems Remote Control

PC ✓

Every WinCC Unified PC Runtime system includes:

- The local visualization Client (installed or via browser)
- **ONE “Operate” Client**
- **ONE “Monitor” Client**

The maximum number of clients can be extended (optional).

Client “Operate”

enables remote operation according to assigned user role

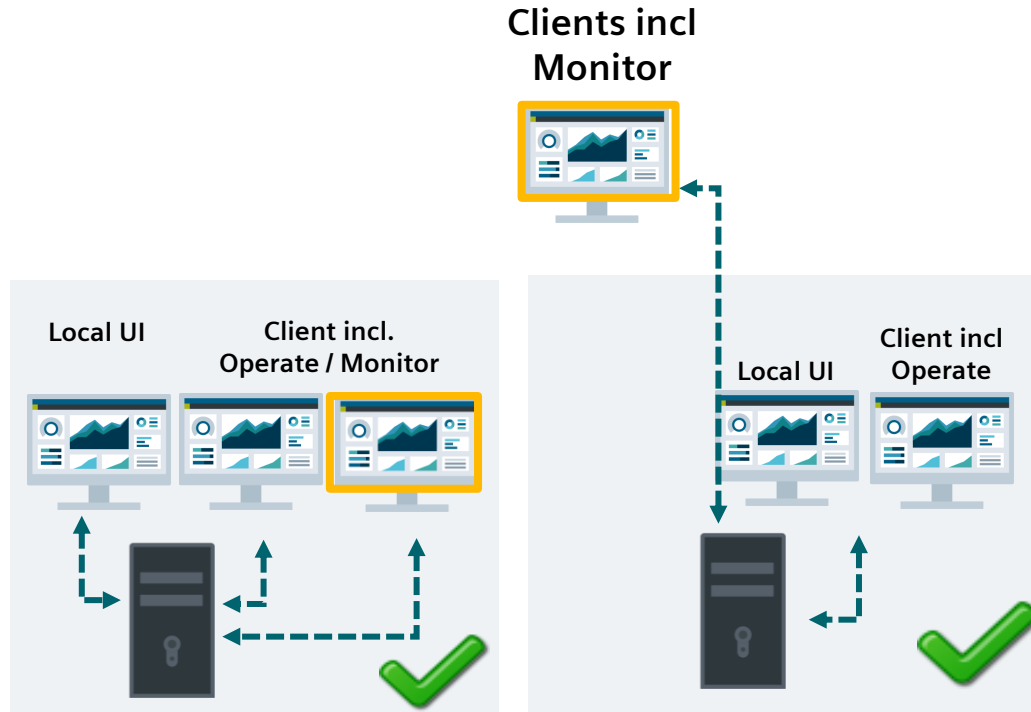

Clients “Monitor”

enables remote operation in view-only mode

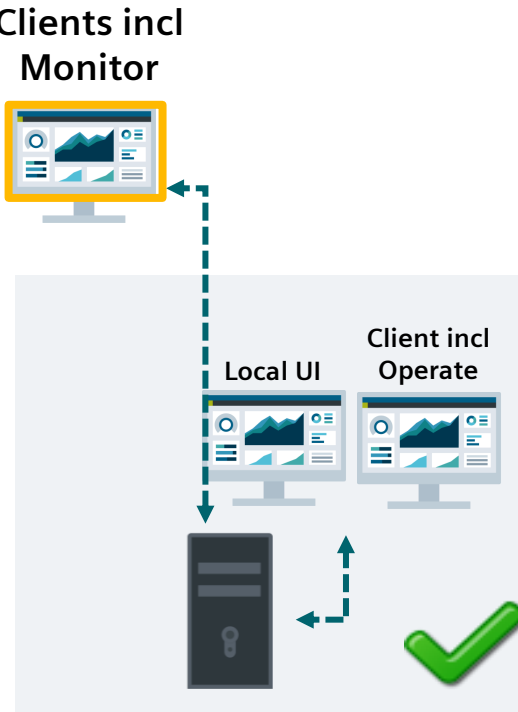

Asynchronous access of numerous users
(simultaneous access is licensed)

Windows 10 Server is mandatory
for more than 5 Clients !

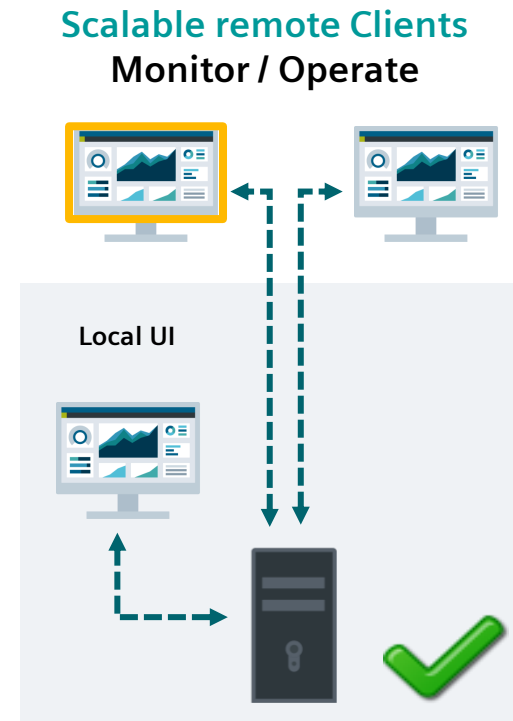

WinCC Unified V17 – PC Systems Remote Monitoring and Operation

WinCC Unified PC RT

WinCC Unified PC RT
Local User Interface
plus add. Client

WinCC Unified PC RT
local User Interface

WinCC Unified PC RT
NO local User Interface

Remote Functions

Remote PC access to UCP(Sm@rtServer)

- Sm@rt Client-exe (without certificates)
- Synchronized remote operation with the operation on-site => Accessible with third party VNC-applications

Remote access to UCP/UCP:

- via Sm@rtServer (in future) smart client in UCP is not possible Today
- via WebClient
- via Collaboration

Sm@rt Client app in app store supports only Basic 2nd Gen, and Comfort / Advanced Runtime panels.
(UCP are not supported)

<https://apps.apple.com/de/app/sm-rtclient/id874209707?l=en>

Use case : Customer has 2 UCPs and wants to display images of the respective other one

Solution1: Web Client in Browser Control
Solution2: Collaboration

Solution2: Collaboration

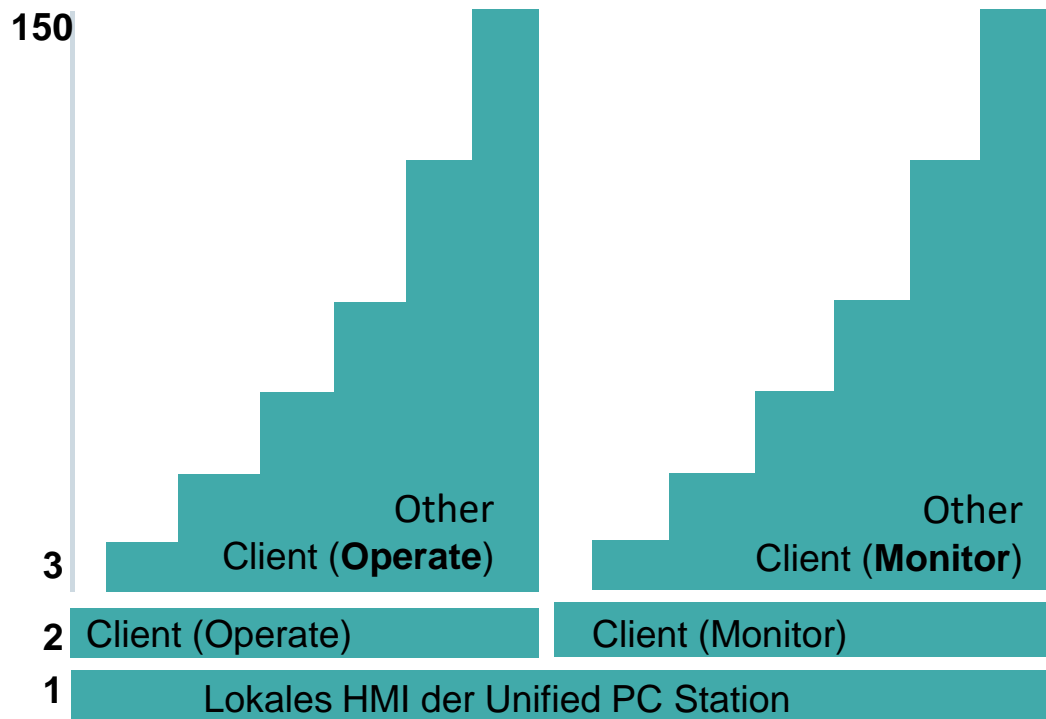

- 1 MTP1900 Unified Comfort**
MLFB: 6AV2128-3UB06-0AX0
- 2 MTP1200 Unified Comfort**

- 3 WinCC Unified Collaboration**
Collaboration
MLFB: 6AV2154-0BR01-7LB0

Flexible configuration
scenarios by sharing **only** screens

SIMATIC WinCC Unified – PC Systems

License concept – Clients (Operate / Monitor)

PC ✓

Client licenses (Operate / Monitor) are pooled at the RT station – and can be extended on demand at any time.

- Flexible remote access for any number of users (**concurrent access**)
- **Grow on demand** increase number of Clients by 1, 3, 10, 30, 100 (**countable**)

- **Each Unified PC RT includes:**

- One Client (local HMI)
- One Client (Operate)
- One Client (Monitor) ^{NEW}

- **Client (Operate) and Client (Monitor)** are independent of each other
- No up- or downgrade of licenses

WinCC Unified V17 – PC Systems

WinCC Unified Clients “Operate” & “Monitor”

PC ✓

Secure remote access using Web standards
Manual Certificate Manager [SIOS \(109779117_\)](#)

WinCC Unified PC Runtime

offering Clients for remote Monitoring or Operation

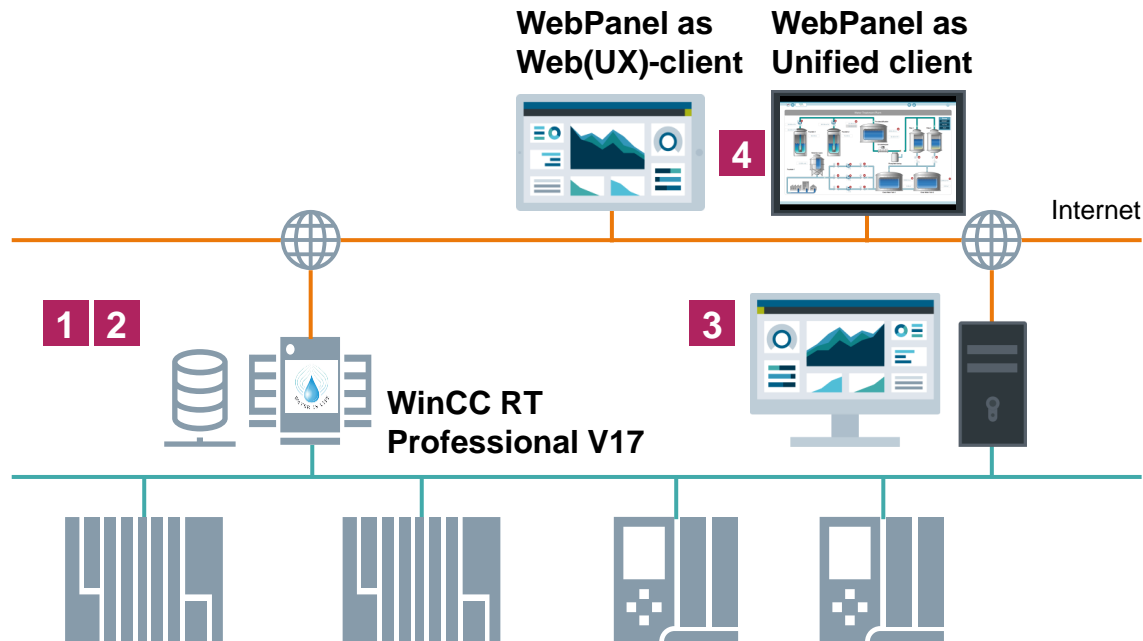

- 1 Client for remote Operation inclusive (steps: 1,3,10,30,100)
- 1 Client for remote **Monitoring** inclusive (steps: 1,3,10)

The total number of Monitoring or Operation Clients is expandable upon demand.

Please note

There are separate licenses for Client Operate and Client Monitor (independent from each other)

use case: Operator control and monitoring of different WinCC systems with SIMATIC WebPanel

1 SIMATIC WinCC Runtime Professional V17

4 WebPanel 15"

MLFB : 6AV6646-7BA00-0AA0

Attention: Standard ThinClient V3 uses a Mozilla Firefox browser that is not optimal for WinCC Unified / WebUX

New update planned for Standard ThinClient V3 in Q1 FY22 with new Browser update to latest Chromium Version

Additional Information

[SIOS \(109779205\)](#)

WebPanel (Linux based software) use HW from ITC but different Software!
Integrated current **Chromium Browser v66**
The IWP software supports different hardware architect (Basic Panels/ITC/IPC)

Background information

WebPanel / SIMATIC Industrial Thin Clients

- **SIMATIC HMI IWP700 / IWP900 / IWP1200**
- Based on SIMATIC HMI Basic Panels
- => **Not enough performance**

- **SIMATIC Industrial Thin Client V3: 15", 19", 22"**
- **SIMATIC Industrial Thin Client V3 PRO: 15", 19", 22"**

- Browser: based on **Firefox Version ESR 52**
→ **not supported**

Unrestricted © Siemens 2021

WebPanel 15"

(available with 19"/22" special order)

MLFB : 6AV6646-7BA00-0AA0

- Based on SIMATIC HMI
- ITC V3 Panels
- Size: 15"
- Display resolution: 1366x768
- Integrated current **Chromium Browser v66**

SIMATIC Industrial Thin Clients

Situation: Q4 2021

- More display sizes: 12" and 24"
- Update of SIMATIC Industrial Thin Client PRO: 12", 15", 19", 22", 24"
- Browser update to latest Chromium Version
→ **supported**

| Omron Ethernet/P | 8 | 8 |
| Standard Modbus TCP/IP | 8 | 8 |

WinCC Unified V17 – Connectivity

SIMATIC NET DVD V17

SIMATIC NET V17 license is required, if more than 10 S7-connections are established.

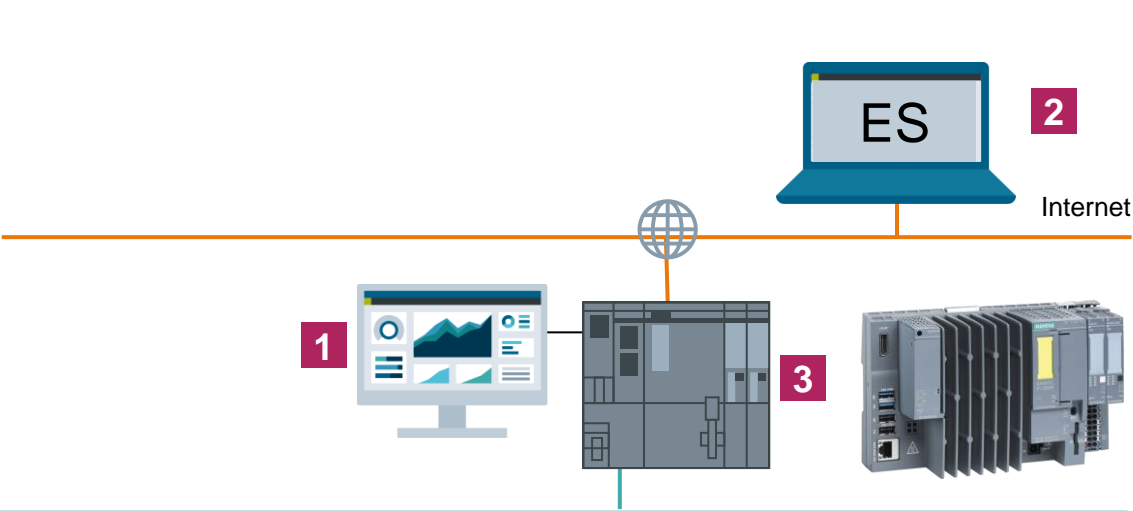

| Product | | Version | MLFB |
|---------------------|--|---------|--------------------|
| SOFTNET-IE S7 (OSD) | up to 64 connections floating license | V17 | 6GK1704-1CW17-0AK0 |
| HARDNET-IE S7 (OSD) | up to 120 connections floating license | V17 | 6GK1716-1CB17-0AK0 |

<https://support.industry.siemens.com/cs/de/en/view/109775589>

Trial version SIMATIC NET DVD V17

| Product | Version | MLFB |
|---------------------|---------|--------------------|
| SIMATIC NET DVD V17 | V17 | 6GK1700-0AA17-0AA0 |

use case – WinCC Unified V17 and OpenController

Additional Information :

- The recommended WinCC Unified project size with one OpenController corresponds approximately to a comparable WinCC RT Advanced project.
- Operating system Windows 10 LTSC 2019, then a maximum of **5 clients** are possible at the same time .
- Archiving : both archive databases (SQLite and SQL) are possible. Due to limited system resources, the file-based variant with SQLite should be chosen.
- IPC Software packages not provided with OC2

1 Base Packages WinCC Unified PC RT System

WinCC Unified PC (1k) RT (2 x Clients include)
MLFB: 6AV2154-2EB01-7LA0

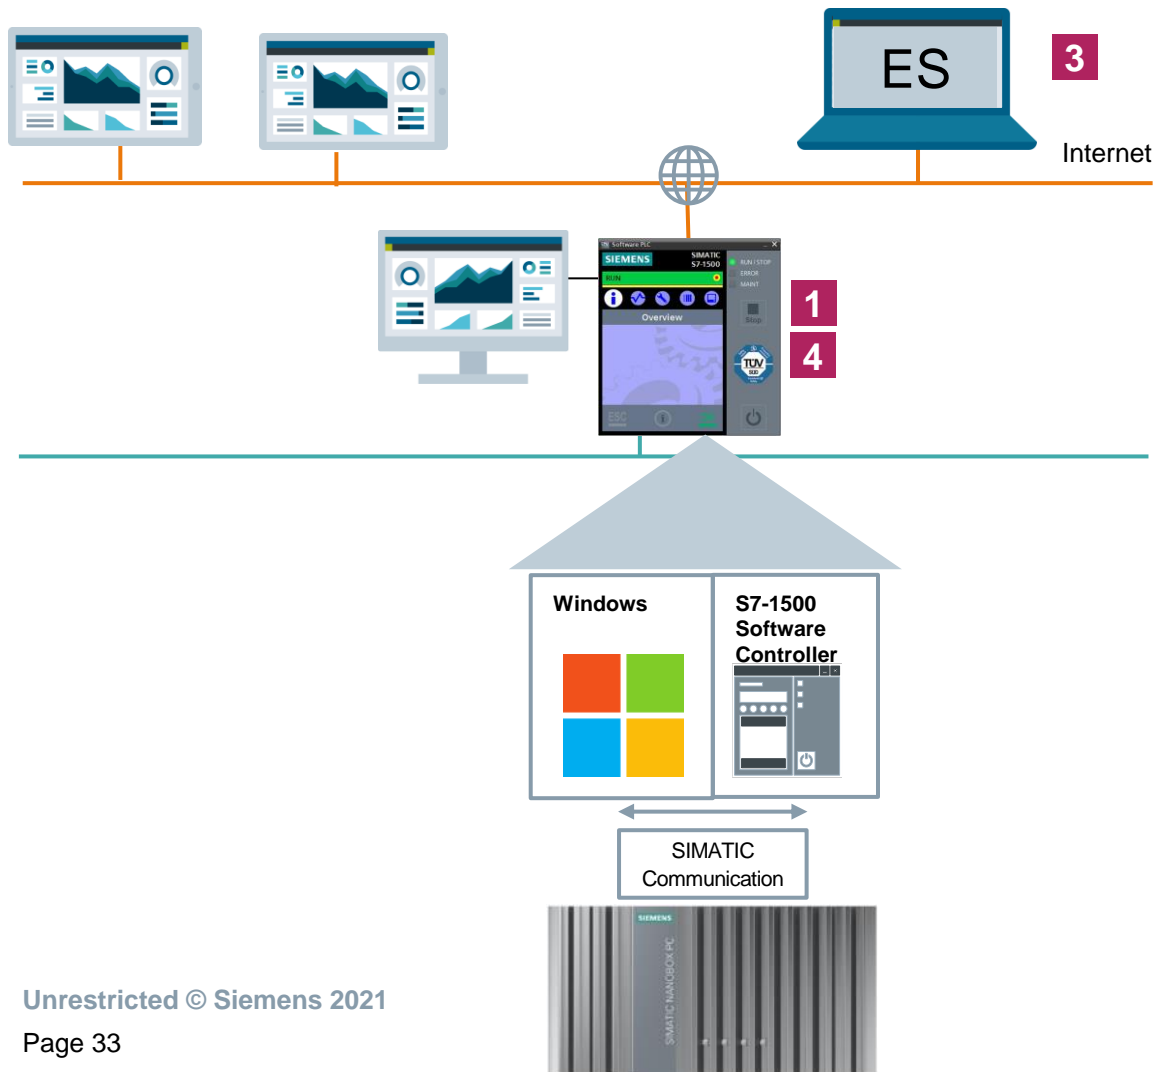

2 WinCC Unified PC Engineering System

- WinCC Unified PC (10k) ES
- MLFB: 6AV2153-2FB01-7LA5
- :

3 Open Controller (getestete HW) CPU 1515 SP PC 2 mit CPU 1505 SP (Firmware 21.9)

| | |
|---|--------------------|
| CPU 1515SP PC – hardware spare part | 6ES7677-2DB40-0AA0 |
| SIMATIC CFast card 30 GB (spare part) | 6ES7648-2BF10-0XK1 |
| Server module (spare part) | 6ES7193-6PA00-0AA0 |
| CM DP module | 6ES7545-5DA00-0AB0 |
| Connector, 24 V DC, 2x2-pin, 10 units (Spare parts) | 6ES7193-4JB00-0AA0 |

use case – WinCC Unified V17 and Software Controller

WinCC Unified PC (5k) RT (2 x Clients include)
MLFB: 6AV2154-1FB01-7LA0

3 WinCC Unified PC Engineering System

- WinCC Unified PC (10k) ES
- WinCC Unified PC (100k) ES

4 SIMATIC S7-1500 Software Controller – CPU 1507S (F) V2.6

Configuration, programming and diagnostics
via Windows Ethernet
Online access via PROFINET or PROFIBUS interface
possible after first configuration

Support of Windows 10 LTSC 2019

Supported on all current IPC Platforms:

- Nanobox IPC2x7E
- Microbox IPC4x7E
- IPC6x7/8x7E

Windows 10 => max 5 Clients

Use SQLite about Resource's

Packages with S7-1500 Software Controller CPU 1507 S (update 01/2021)

<https://support.industry.siemens.com/cs/ww/de/view/99860269>

These packages are only offered with following IPCs:

- IPC277E
- IPC227E

Ordering data

SIMATIC S7-1500 Software Controller CPU1507S (The latest version of the SW controller is always supplied)

| Designation | Article number |
|--|--------------------|
| Package: Software Controller CPU 1507S for IPC2x7E (DVD) | 6ES7672-7AC01-6YA0 |
| Package: Software Controller CPU 1507S F for IPC2x7E (DVD) | 6ES7672-7FC01-6YA0 |

These packages planned with following IPCs (Summer 2021):

- IPC227G
- IPC277G

Backup Info SIMATIC S7-1500 Software Controller – Supported SIMATIC IPC Platforms

Embedded Industrie-PCs

Highly rugged – Highly compact – Maintenance-free

Nanobox (Box and Panel PC)

IPC227E / IPC277E

Microbox (Box and Panel PC)

IPC427E / IPC477E

High-end Industrie-PCs

Very rugged – High performance – High functionality

Box and Panel PC

IPC627E / IPC677E

Rack PC

IPC647E / IPC847E

CPU 1507S (F)

CPU 1507S (F)
CPU 1508S (F)

CPU 1507S (F)
CPU 1508S (F)

CPU 1507S
CPU 1508S

1 Devices with NVRAM (e.g. buffered SRAM) required for operation of CPU 1507S F and CPU 1508S F

WinCC Unified – Native 3rd Party communication integrated into V17 or via Channel Support Package (CSP)

The following types of communication peers integrated into V17

Modicon

- Compact series
- Quantum series
- Momentum series
- Premium series
- Micro series
- M340 series

Allen-Bradley

- ControlLogix
- CompactLogix
- MicroLogix
- GuardLogix
- SLC

Mitsubishi

- MELSEC iQR PLCs
- MELSEC iQF PLCs
- MELSEC FX3 series
- MELSEC FX3 series with communication module FX3U-ENET
- MELSEC Q series with QJ71E71-100 communication module

The Channel Support Package (CSP)

enables you to configure the communication for HMI Unified Comfort Panels and WinCC Unified PC to PLCs that are not contained in the normal WinCC (TIA Portal) installation.

Various channel support packages are planned, which, depending on the completion, will be delivered independently of updates within this Business year.

SIMATIC WinCC Unified

Communication : Using standard interface Ethernet IP

WinCC Unified PC RT
as OPC UA Client¹

Communication

Over Ethernet IP

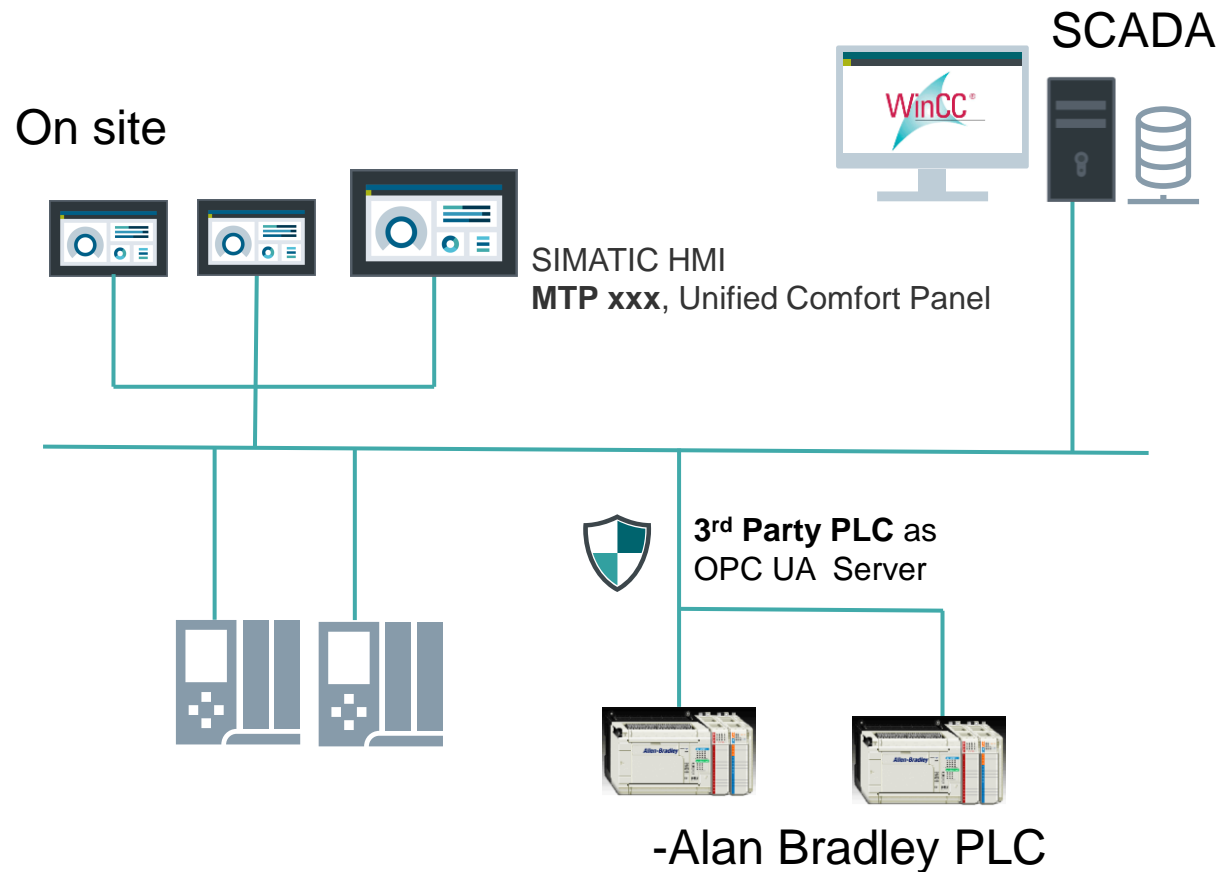

- Schneider PLC/
- Alan Bradley PLC

- Project F&B (Thailand)
- Project Infrastructure

¹ only local OPC UA server can be connected as OPC UA client

SIMATIC Unified Comfort Panel

Communication : Using standard interface with OPC UA client

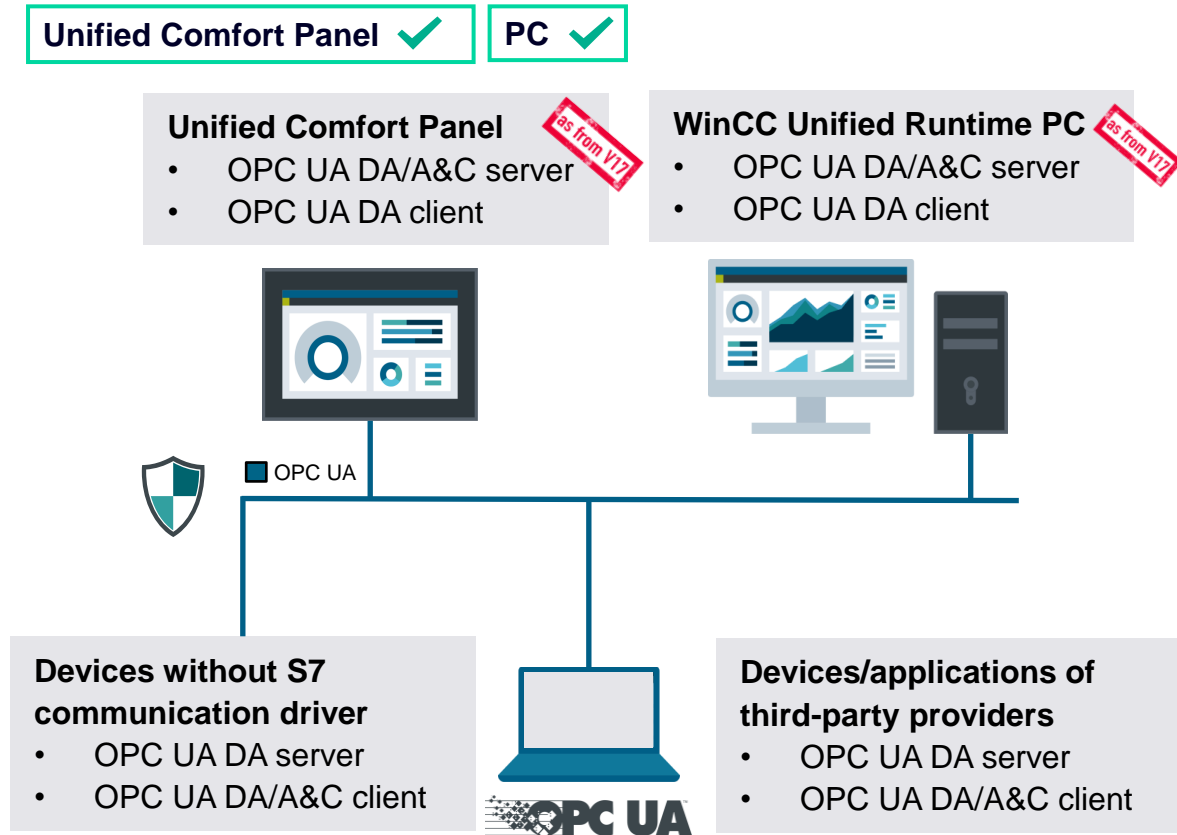

Communication

OPC UA Client

- Project Water

WinCC Unified V17 – Connectivity Using standard interface OPC UA

**OPC UA communication standard for connectivity
to OT/IT systems and other automation systems**

- **Unified Comfort Panel** and **WinCC Unified Runtime PC** can be configured as **OPC UA server** and as **OPC UA client**.
- The **OPC UA DA server provides** process **values from the WinCC data management** for one or more OPC UA DA clients.
- The **OPC UA A&C server provides** the **alarms from the WinCC alarm management** for one or more OPC UA A&C clients.
- **Industrial security policies** like **signed and encrypted communication** and **authentication of client** on the server

Overview

Using standard interface OPC UA : Performance Data

Connections

| | Unified Comfort Panel | WinCC Unified PC Runtime |
|-----------------------------------|-----------------------|--------------------------|
| Count of connected OPA UA clients | 3 | 10 |

Alarms

| | Unified Comfort Panel | WinCC Unified PC Runtime |
|----------------------------|-----------------------|--------------------------|
| Count of OPC UA A&C alarms | 20,000 | 20,000 |

SIMATIC WinCC Unified OPC UA client

Unified Comfort Panel ✓

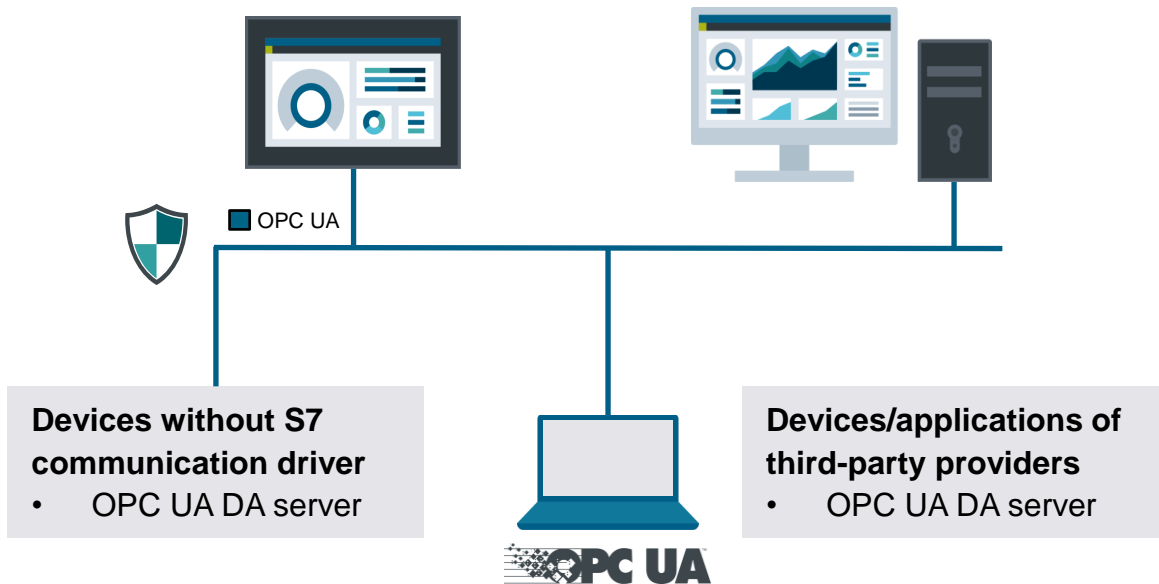

PC ✓

Unified Comfort Panel

- OPC UA DA

WinCC Unified Runtime PC

- OPC UA DA

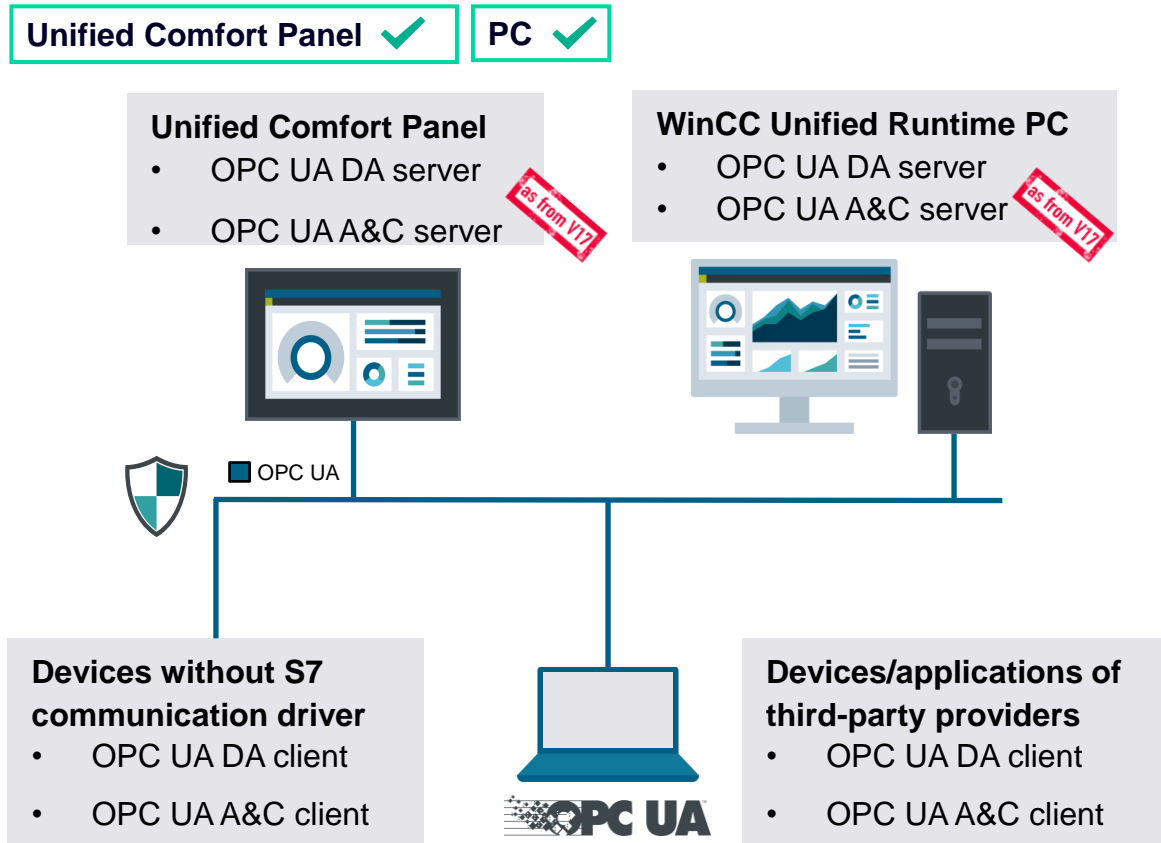

**OPC UA DA client to read and write tags from
OPC UA servers of other devices/applications.**

- **OPC UA DA client** for **communication with an OPC UA DA server** of devices without S7 communication driver or devices/applications of third-party providers
- **Read and write tags** from **OPC UA DA server**
- **No separate license needed**

The OPC UA DA client supports the following industrial security policies:

- **Signed and encrypted** communication
- **Authentication** with **user & password**

SIMATIC WinCC Unified OPC UA server

OPC UA DA/A&C server provides tags/alarms for other devices/applications.

- OPC UA **server** for **communication with devices without S7 communication driver or of third-party providers**
- **Read and write tags** from **OPC UA DA server** possible
- **Read and acknowledge alarms** with **OPC UA client** possible

The OPC UA server supports the following industrial security policies:

- **Signed and encrypted** communication
- **Authentication** with **user & password**

OpenController and SoftwareController the following system are tested

Software Controller

- SIMATIC IPC 427 E with CPU 1508S F V21.9

OpenController

- SIMATIC ET200 SP 1515SP PC 2 with CPU 1505SP F V20.8 (configured with V17)
- SIMATIC ET200 SP 1515 SP PC 2 with CPU 1505 SP V21.9

Additional Information :

**the Software Controller /OpenController is regarding performance
not suitable for bigger projects !!!**

PLC (S7-1500 & ET200SP) with
SIMATIC WinCC Unified View of Things.

Requirements

- Software: STEP 7 Professional V17 installation (includes VoT functions)
- PLCs: All SIMATIC S7-1500 standard systems (incl. ET200SP CPU, failsafe, T-CPU; SW-/Open-Controller still excluded for the time being)
- Firmware: Min. FW 2.9
- Sufficient load memory / transfer buffer on the memory card

Licensing

- WinCC Engineering license is required (minimum WinCC Unified Comfort ES)
- Runtime license: planned for extensions in V18 (10 Pictures / images should remain free of charge, but then be tested hard as a limit)

Performance

Performance and quantity scaffolds depend on the PLC and the resources of the client device.
(PLCs \leq S7-1513 have only 1 processor core).

Use case: Using System Diagnostics in SIMATIC WinCC Unified

Unified Comfort Panel ✓

PC ✓

WinCC Unified PC RT V17

Configuration V17 – PC Systems – WinCC Unified PC Runtime with 128 connections

- Each WinCC Unified PC Runtime includes 3 Clients – for locale HMI plus one Operate and one Monitor remote access.
- Simatic NET must be licensed separately for more than 10 x S7-connections S7-connections (up to 128)

1 Base Packages WinCC Unified PC RT System

WinCC Unified PC RT n

- WinCC Unified PC (150) RT
- WinCC Unified PC (500) RT
- WinCC Unified PC (1k) RT
- WinCC Unified PC (2.5k) RT
- WinCC Unified PC (5k) RT
- WinCC Unified PC (10k) RT
- WinCC Unified PC (50k) RT
- WinCC Unified PC (100k) RT
- WinCC Unified Max RT (max.)

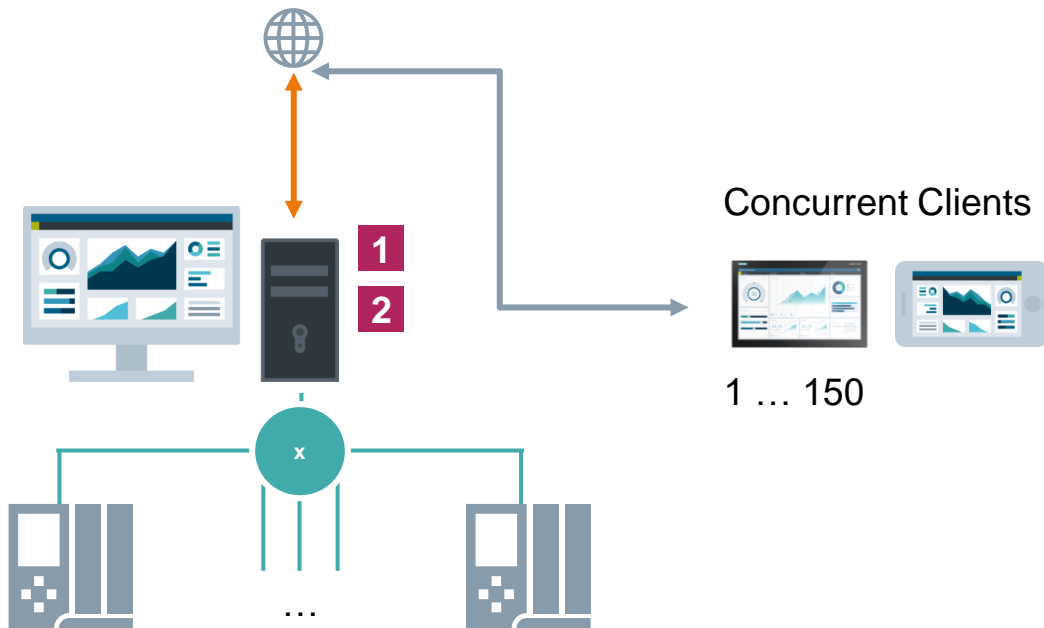

2 WinCC Unified PC Engineering System

- WinCC Unified PC (10k) ES
- WinCC Unified PC (100k) ES
- WinCC Unified PC (Max) ES

3 SIMATIC NET V17

MLFB: 6GK1704-1CW17-0AA0

Configuration V17 – PC Systems – WinCC Unified PC Runtime – 1 Unified Server and 150 Clients

- Concurrent Clients (150 system are tested), One for local HMI plus one for remote access
- In principle, more clients **are possible** (depending on the total system load) but cannot be guaranteed
- Windows operating system with **actual** HTML 5 Browser
- “Zero Installation” Clients via state-of-the-art web browsers – (no need to install separate apps or plug-ins)

1 Base Packages WinCC Unified PC RT System

WinCC Unified PC RT n

2 WinCC Unified Client

- WinCC Unified Clients Operate (1) MLFB: 6AV2157-1JW00-0LB0
- WinCC Unified Clients Operate (3) MLFB: 6AV2157-3JW00-0LB0
- WinCC Unified Clients Operate (10) MLFB: 6AV2157-2CW00-0LB0
- WinCC Unified Clients Operate (30) MLFB: 6AV2157-6CW00-0LB0
- WinCC Unified Clients Operate (100) MLFB: 6AV2157-2DW00-0LB0
- WinCC Unified Client Monitor (1) MLFB: 6AV2157-1JM00-0LB0
- WinCC Unified Client Monitor (3) MLFB: 6AV2157-3JM00-0LB0
- WinCC Unified Client Monitor (10) MLFB: 6AV2157-2CM00-0LB0

WinCC Logging – File-based Logging (4200 Logging Tags)

1 Base Packages SIMATIC HMI Unified Comfort Panels (7 – 22")

| Device name | MLFB Standard Design |
|-------------------------|----------------------|
| MTP2200 Unified Comfort | 6AV2128-3XB06-0AX0 |

2 Base Packages WinCC Unified PC RT System

Configuration V17 – PC Systems – Recipes – Unified PC Runtime with Parameter Control

1 Base Packages WinCC Unified PC RT System

WinCC Unified PC RT n:

- WinCC Unified PC (150) RT
- WinCC Unified PC (500) RT
- WinCC Unified PC (1k) RT
- WinCC Unified PC (2.5k) RT
- WinCC Unified PC (5k) RT
- WinCC Unified PC (10k) RT
- WinCC Unified PC (50k) RT
- WinCC Unified PC (100k) RT
- WinCC Unified Max RT (max.)

2 WinCC Unified Parameter Control (PC)

MLFB: 6AV2154-0BP01-7LB0

Recipe station – Additional clients can be added upon demand

WinCC Unified System – Technical information – Content

- 1** Preconditions
- 2** Overview / Ordering Information
- 3** Connectivity : Configurations/use case
- 4** HMI Unified Comfort Panels
- 5** WinCC Unified PC RT V17
- 6** mixed configurations (Data transfer, Collaboration, Reporting, technological Hierarchy)
- 7** Use cases with WinCC AddOns
- 8** Positioning Focus + IPC Packages / Additional Infos

mixed configurations

- Data transfer
 - Collaboration V17
 - Reporting
 - Technological Hierarchy
-

Configuration V17 – use case : Data transfer Use Unified RT Configurations in other station/Devices

Concerns

- Parameter Control
- Calendar data
- Reports (& Report Configurations)
- Rest RT Data

Configuration V17 –

Use case: Change from test mode (commissioning) to operation.

Goal:

Resetting / deleting the current data

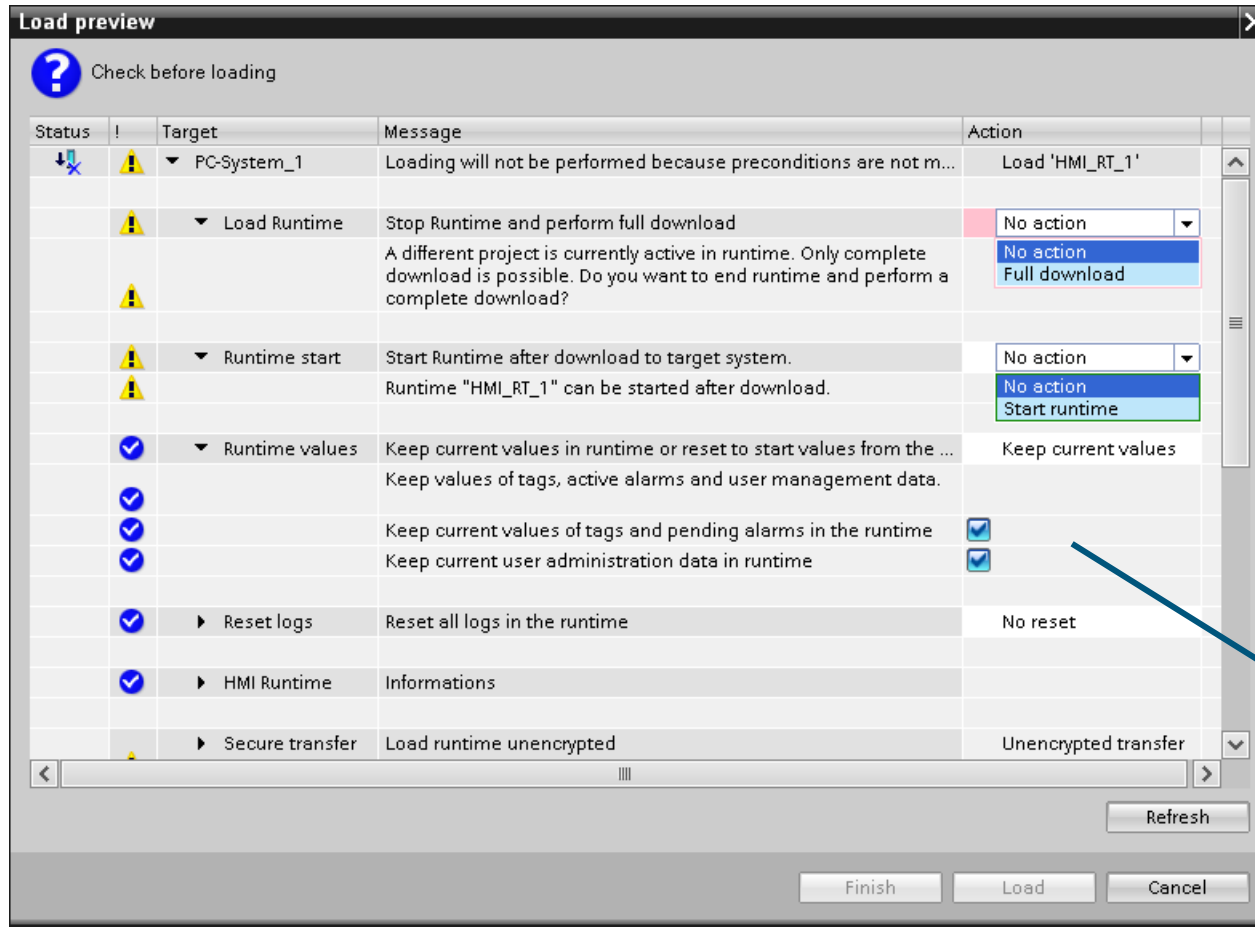

- a. Is selectable via TIA Portal download (except incl. PI options)
- b. Is possible via RT Manager via options for tags/alarms
- c. Plant Intelligence Options

PFI : Not possible in V17 (Tom)

SES / LCS / CAL : "Clear all" possible at runtime (in RT)

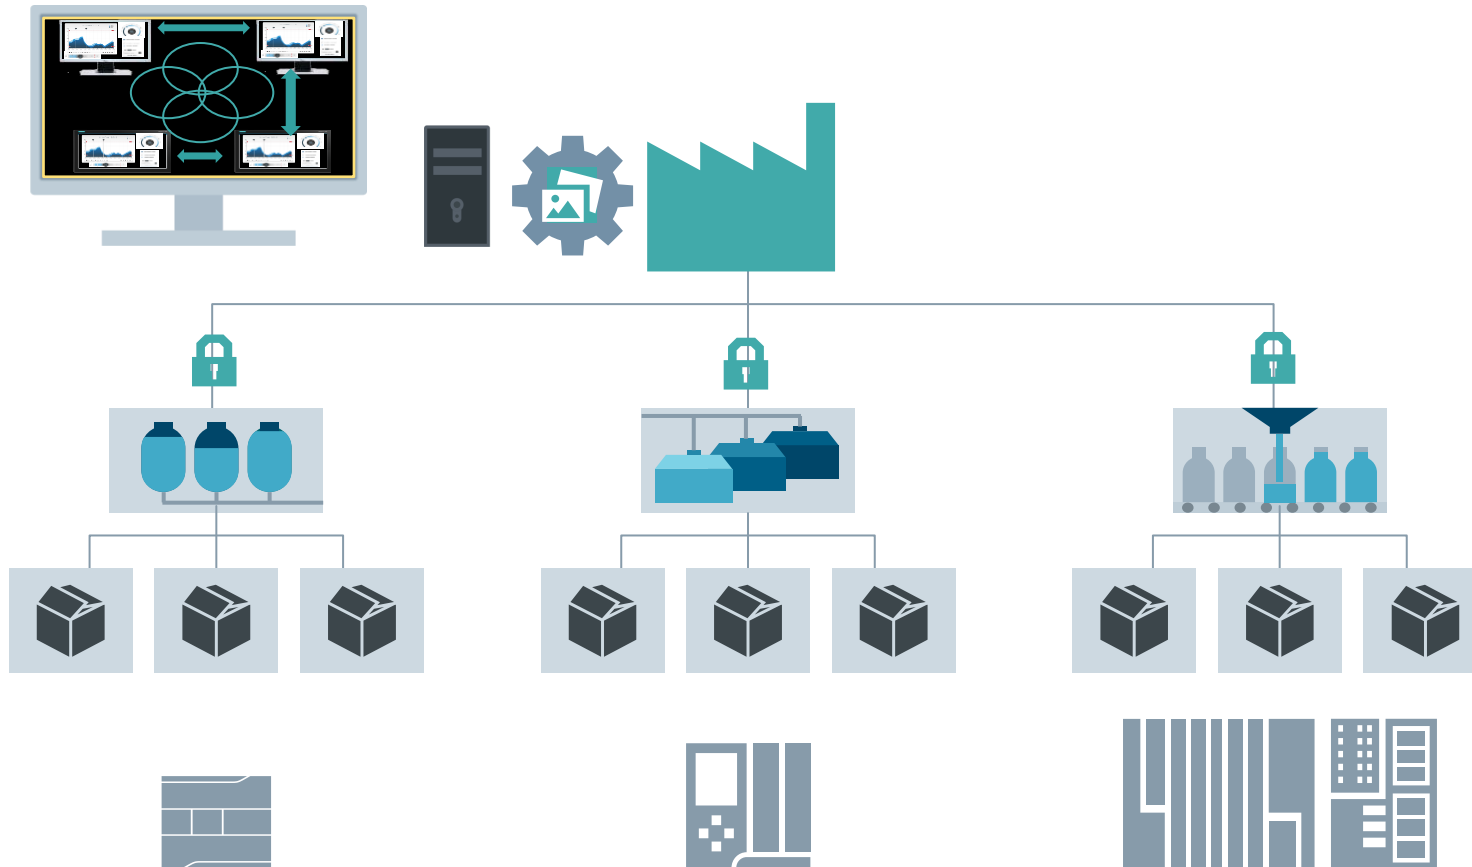

Device handling – Downloading project data

SIMATIC WinCC Unified V17

Select to keep or overwrite
RT values.

Use case – Central operation/monitoring of various systems with WinCC Unified Collaboration

You can use **Unified Collaboration** to exchange certain Run-time objects between several SIMATIC Unified Runtimes.

You can display and operate a split screen of another device in a screen window.

Flexible configuration scenarios by **sharing screens**.

The HMI devices can be used as follows:

- All HMI devices in the **same project**
- HMI devices in **diff. projects**

Use case – Line Visualization with WinCC Unified Collaboration

Flexible configuration
scenarios by sharing screens

Note: Logging on the respective station is only possible. **Central Logging for different stations isn't available in V17.**

1 Base Packages WinCC Unified PC RT System

WinCC Unified PC (**50k**) RT
MLFB: 6AV2154-1GB01-7LA0
SIMATIC NET must be licensed separately for more than 10 S7-connections

2 Database Storage

MLFB: 6AV2154-0BS01-7LA0

3 WinCC Unified Collaboration ¹

Collaboration for PC
MLFB: 6AV2154-0BR01-7LB0

4 WinCC Unified Logging Tags (1000)

MLFB: 6AV2157-2EA00-0LB0

5 MTP1900 Unified Comfort

MLFB: 6AV2128-3UB06-0AX0

WinCC Unified – Use case – Exchange data between different stations with collaboration

Unified Comfort Panel ✓

PC ✓

¹Collaboration for HMI Unified Comfort Panels is available as of Unified Comfort Panel Images V16 Update 5.

1 Base Packages WinCC Unified PC RT System

WinCC Unified PC (5k) RT
MLFB: 6AV2154-1FB01-7LA0

2 WinCC Unified Collaboration

Collaboration for PC
MLFB: 6AV2154-0BR01-7LB0

Note: Enable for distributed system architectures for WinCC Unified systems. Modular and decentralized production units work together by exchanging information between unified stations: Direct access to images of different units e.g. for line monitoring

Note:

Consider SSL certificate handling!

Application example for certificate handling

WinCC Unified PC RT V17

Reporting

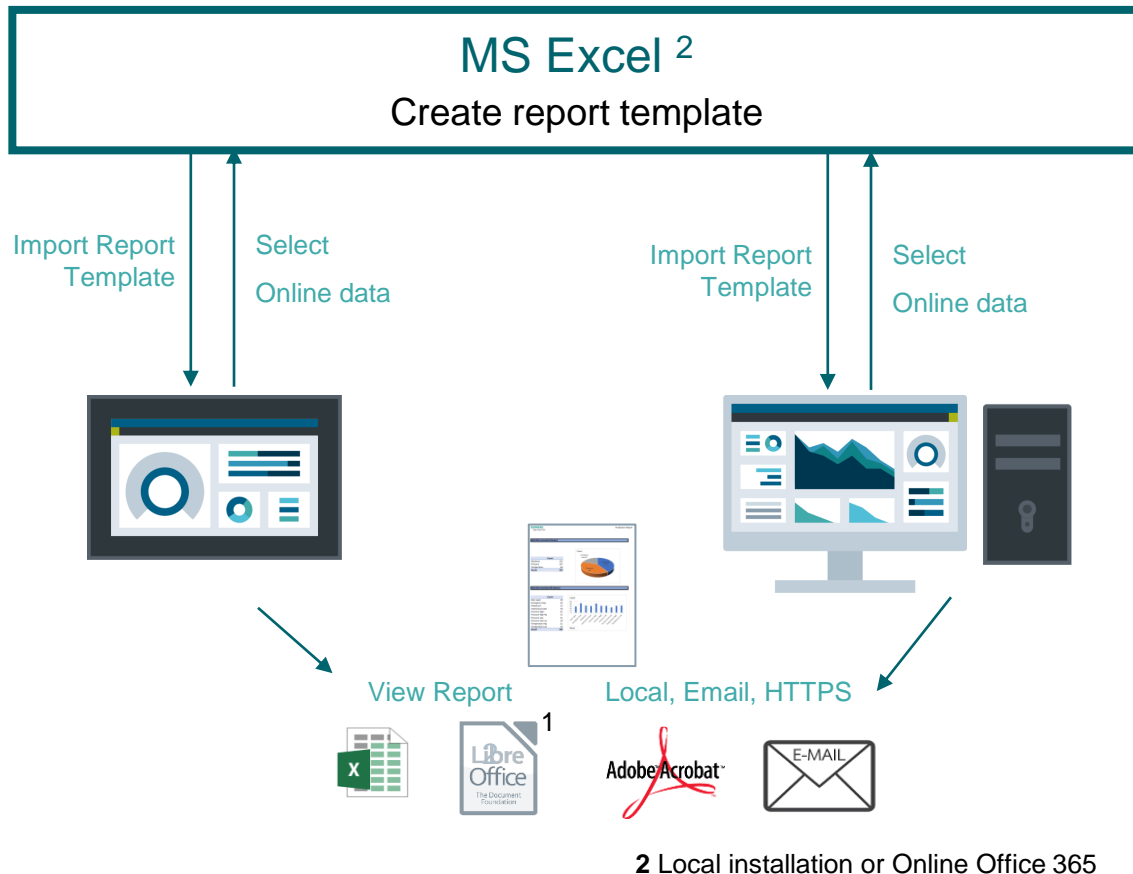

WinCC Unified – Reporting – Installation and usage

Unified Comfort Panel ✓

PC ✓

1 UCP: Libre Office is used to generate pdf

WinCC Unified ES

- Engineer WinCC Unified Screen with Report Control
- Download Project to WinCC Unified PC Station or HMI Unified Comfort Panel

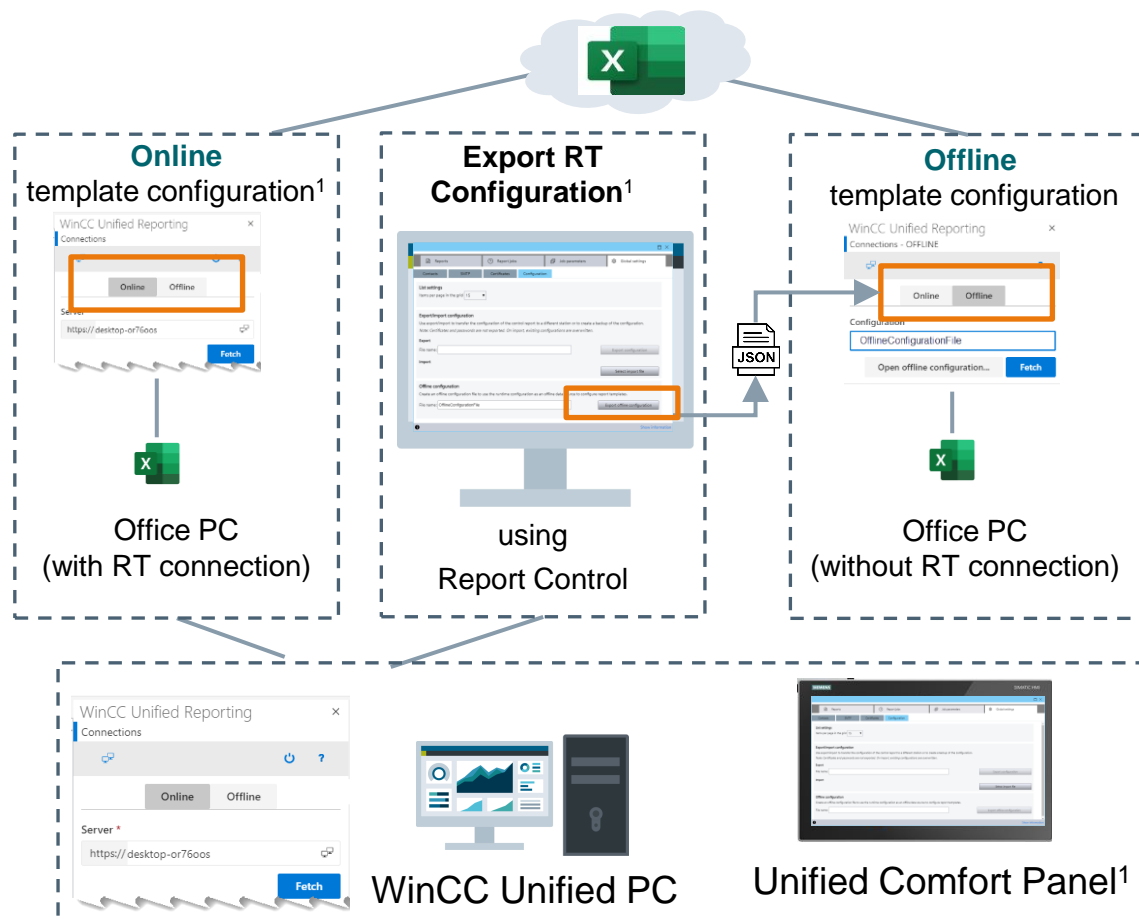

MS Excel (WinCC Unified Report Excel Addin)

- Create Report Excel Template
- Select data (tags, ...) from WinCC Unified PC RT or HMI Unified Comfort Panels (one data source per report)
- View Report using manual trigger function in Excel

WinCC Unified V17 – Reporting Configure Report Template – Online / Offline

Unified Comfort Panel ✓

PC ✓

Create templates online (RT connection) ¹

Use online connection of Excel Report Add-in

Export ¹ „RT configuration“ (Report Control)

- Export RT configurations as data source for offline templates
- Load offline configuration via Excel report Add-in

Create templates offline (no RT connection)

- Load configuration of “offline configuration file” as data source of Excel Report Add-in

¹Unified Comfort Panel: online/offline configuration only via WinCC Unified Client!

WinCC Unified V17 – Report Control – Global settings

Export & Import of RT configuration to setup a new station

  </ReportContact>
</ExportConfiguration>
```

Reuse „Report control“ configurations

- Configure Reporting at runtime via “report control”
- Export “report control” configuration to a zip-file

The Configuration file includes all:

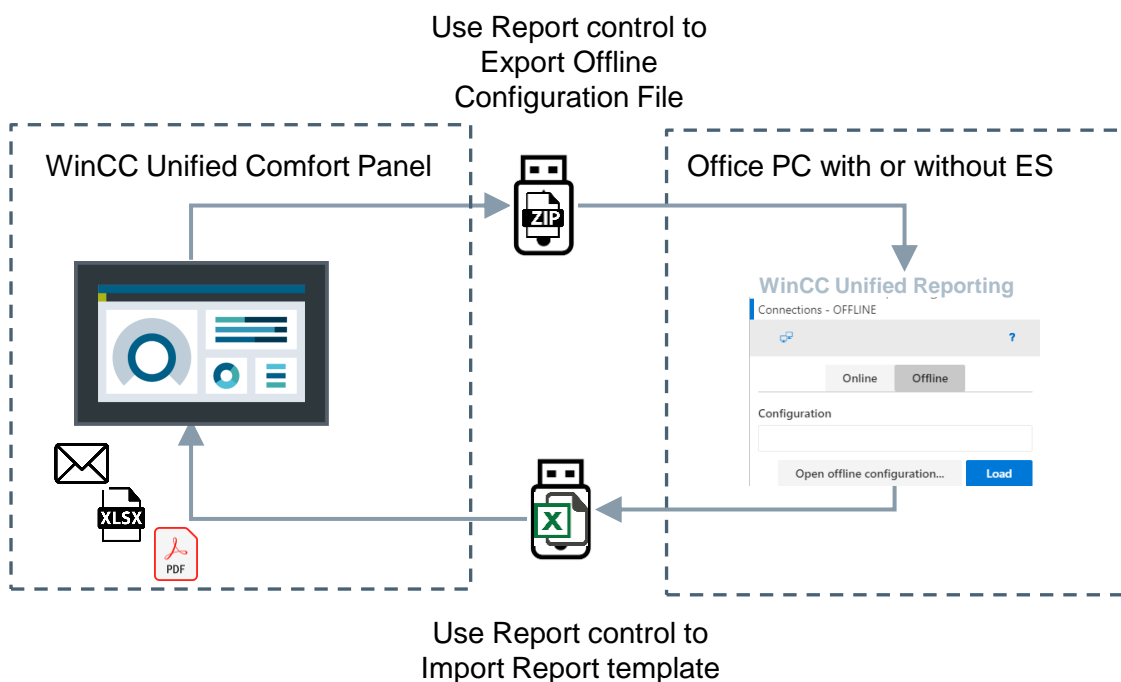

- Configured Report jobs, Job Parameters, Templates, Triggers, Targets,..
- Global Settings: e.g. Contacts, SMTP configurations, Certificates for email Server,...

Import Report settings to a new station

- Includes all global settings as well as configured report jobs and their parameters

WinCC Unified V17– Reporting – Unified Comfort Panel Configure Report Template – Offline

Unified Comfort Panel ✓

Preparation

- Report is contained in the Unified Panel Image
- Configure Screen containing Report control to manage Reports

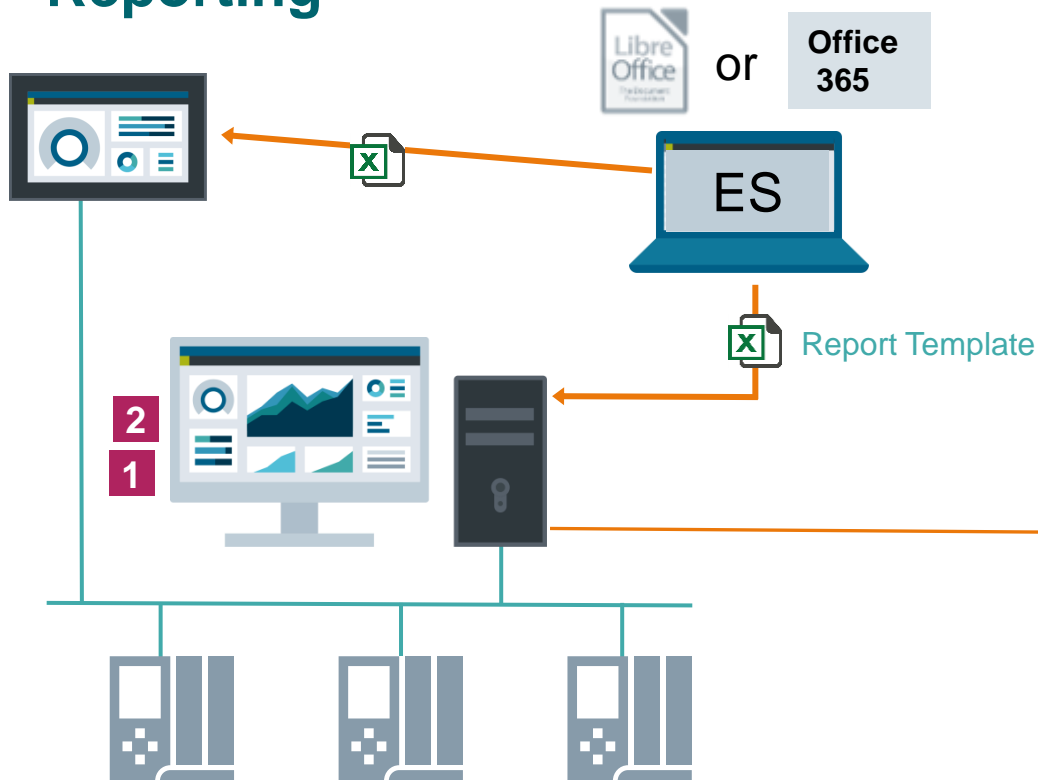

Offline File

- Use external storage media to transfer offline configuration file

Create Report offline using WinCC Unified Comfort Panel

- Export offline configuration file to industrial download
- Transfer to Office PC
- Select offline and load Configuration file into Excel Add-in
- Create Report template
- Transfer report template to Panel and Import into WinCC Unified RT

WinCC Unified – Reporting

4 WinCC Unified Logging Tags (1000)

MLFB: 6AV2157-2EA00-0LB0

Use case: Central user management (UMC)

Overview of new functions (from UMC V2.9 SP3)

SIMATIC Logon support

- The UMC server supports the SIMATIC Logon protocol
- This enables central user management for WinCC Runtime Advanced and Comfort Panels via UMC

Benefits

Integration of the SIMATIC Logon protocol enables use of an existing HMI Runtime system within a UMC domain.

Single sign-on (SSO)

- TIA Portal and HMI Runtimes support the connection to single sign-on

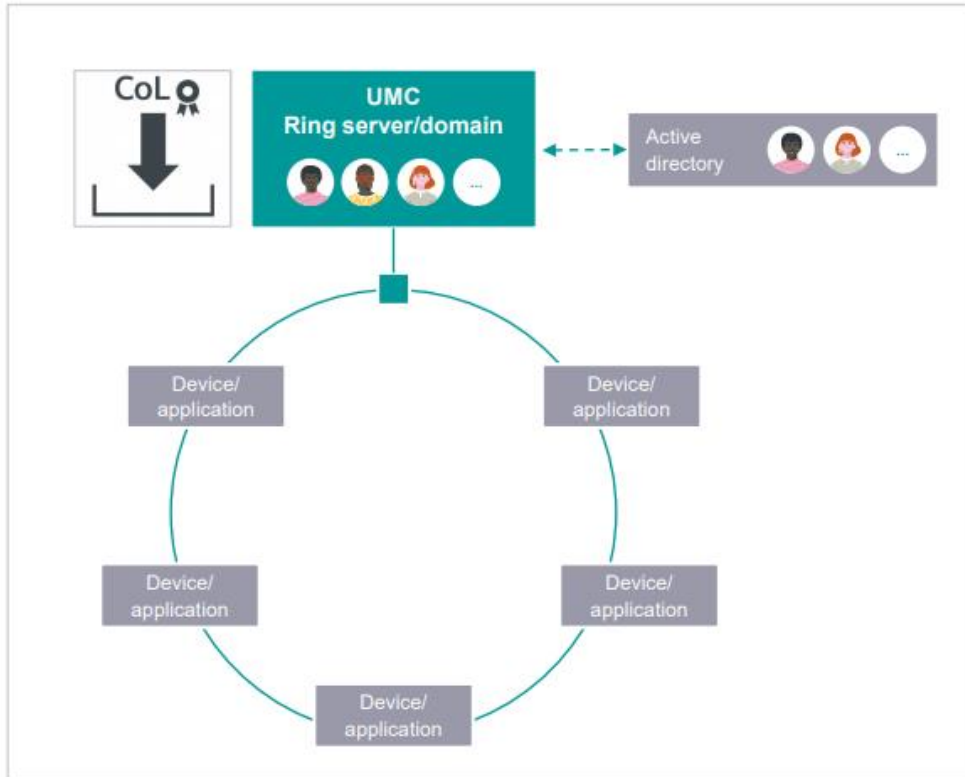

Benefits

Single sign-on enables seamless authentication

between a protected TIA Portal project and an HMI Runtime on the same operator station. Once authenticated, the application can take over the existing single sign-on user session.

Info from: Richard Witte
Product Portfolio Manager
User Management & Access Control TIA Portal OPENNESS

Central user management (UMC) Licensing

License model

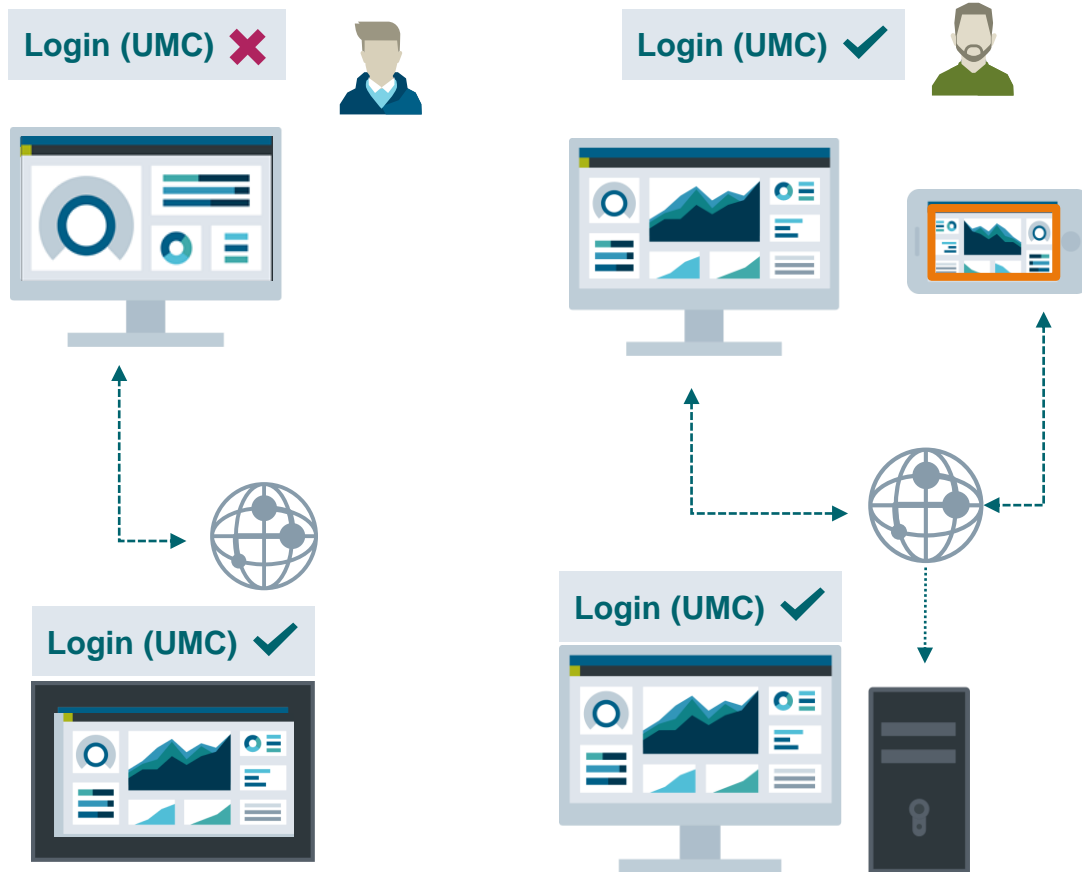

- The User Management Component (UMC) is included in the products' scope of supply
- The license model depends on the number of user accounts per UMC domain
- Up to ten user accounts can be created without a license
- Additional 100 user accounts as 365-day license
- MLFB: 6ES7823-1UE30-0YA0
- Additional 4000 user accounts as 365-day license
- MLFB: 6ES7823-1UE10-0YA0
- The licenses can be accumulated

Benefits

- First steps possible without license costs • Appropriate license for low number of user accounts
- Flexible expandability with accumulative licenses
- Flexible adjustment thanks to limited license period

Info from: Richard Witte

SIMATIC HMI Unified Comfort Panels – Starter Kits and accessories

Starter-Kit

- Device
- WinCC Unified V17 Comfort
- 1,5 m Profinet cable
- Memory Card (32 GB)
- Protective film
- Device-Managed Edge license

[Overview of Starter kits in Industry Mall](#)

Accessories

- Mounting frames for Comfort Panel compatibility
- Input tools (e.g. touch pen, mouse and keyboard)
- Storage media (e.g. USB-Stick, SD-Card)
- Protective films

Special offer for all UCP Starter-Kits (until end of the calendar year 2021)

- As of 2022, the L1-prices for the starter kits will also be adjusted (Price group remains).

SIMATIC WinCC Unified – Ordering Information – IPC Packages

SIMATIC IPC

Available for almost all SIMATIC IPCs that meet the technical requirements of SIMATIC WinCC Unified PC.

SIMATIC WinCC Unified PC

WinCC Unified PC Runtime License
+ Parameter Control
+ Logging Tags
(number depends on the RT license)

- Price discount only with concurrent order of IPC and WinCC Unified software
- Please note the technical requirements of WinCC Unified when selecting the configuration
- Further information regarding the packages can be found in SIOS (99860269)
<https://support.industry.siemens.com/cs/de/en/view/99860269>

Note : no kiosk mode possible (due to missing Windows functions in Windows 10 LTSC/ LTSC)

SIMATIC WinCC Unified Ordering Information - IPC Packages

SIMATIC WinCC Unified Promotion Packages (IPC Package)

Available with V17

| Package | Options included | Order Number |
|--|--|--------------------|
| WinCC Unified V17 PC RT 150 + 1 Client Package | Parameter Control LoggingTags (100) Client Operate (1) | 6AV2155-3DV01-7AA0 |
| WinCC Unified V17 PC RT 150 + 2 Clients Package | Parameter Control LoggingTags (100) Client Operate (2) | 6AV2155-3DW01-7AA0 |
| WinCC Unified V17 PC RT 500 + 1 Client Package | Parameter Control LoggingTags (200) Client Operate (1) | 6AV2155-1EV01-7AA0 |
| WinCC Unified V17 PC RT 500 + 2 Client Package | Parameter Control LoggingTags (200) Client Operate (2) | 6AV2155-1EW01-7AA0 |

Cannot be ordered with IPC127E, IPC227E, IPC277E, IPC327E and IPC377E !

SIMATIC WinCC Unified

Ordering Information - Promotion Packages

Available with V17

WinCC Unified PC (1k) RT

- WinCC Unified PC (1k) RT
- Parameter Control (PC)
- Logging Tags (100)
- Report Execution

6AV2155-2ES01-7AL0

WinCC Unified PC (10k) RT

- WinCC Unified PC (10k) RT
- Parameter Control (PC)
- Logging Tags (1000)
- Report Execution

6AV2155-2FS01-7AL0

WinCC Unified PC (50k) RT

- WinCC Unified PC (50k) RT
- Parameter Control (PC)
- Logging Tags (1000)
- Report Execution
- Database Option
- Client Operate (1)

6AV2155-1GS01-7AL0

Packages only available via Online Software Delivery (OSD)

SIMATIC WinCC Unified – Promotion Packages – Collaboration / Clients

Available with V17

WinCC Unified Collaboration (3x1)

- 3x WinCC Unified Collaboration

can be distributed to any HMI Unified
Comfort Panel

or
WinCC Unified PC Runtime System

6AV2155-3JR01-7LB0

WinCC Unified Client (5x1)

- 5x WinCC Unified Client Operate (1)

can be distributed to any HMI Unified
Comfort Panel

or
WinCC Unified PC Runtime System

6AV2155-1CW01-7LB0

Packages only available via Online Software Delivery (OSD)

~ 20%
discount

SIMATIC WinCC Unified – Promotion Package Plant Intelligence Options

Available with V17

WinCC Unified Plant Intelligence Optionen

- Calendar Option (Base)
- Performance Insight Option (Base)

6AV2155-1CP31-7LA0

Package only available via Online Software Delivery (OSD)

**~ 30%
discount**

Additional Information

Get started smoothly with the WinCC Unified System – Supporting Materials

Tutorial Center

Video series for an easy start with the WinCC Unified System. Learn all the things you need to get started smoothly.

Template Suite

Ready to use screen templates for PC Systems and the HMI Unified Comfort Panels in a free TIA Portal library incl. Wizard.

Switching Guideline

Everything you need know when you want to switch from an existing visualization to the WinCC Unified System
