² Founded as a limited company (*GmbH*) in 1903, Siemens-Schuckertwerke is converted to a stock corporation (*Aktiengesellschaft*) only in 1927. However, the executive body referred to as the “Managing Board” (*Vorstand*) prior to the conversion to a stock corporation is not a management board within the same meaning as for a stock corporation but rather a governing body whose chairman/chairwoman is the company’s executive director.
