

# Thailand 4.0 Communication (Industrial Security)

Protecting productivity in the digital enterprise

Valid until 31.07.20

**Security threats force you to take action** - The reliable, secure networking based on professional planning and realization using *SCALANCE*, *RUGGEDCOM* and *SIMATIC NET* network components provides the basis for all this to happen.

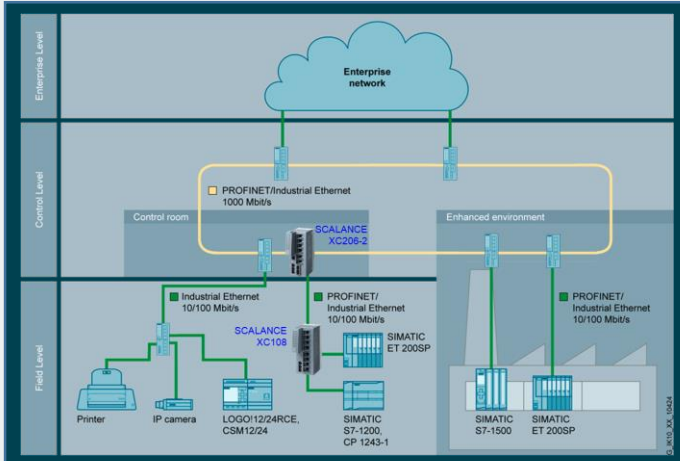

## Everything for efficient networking and data acquisition

- Industrial Ethernet** – Implement highly efficient industrial networks and bus system
- Industrial Security** – Use integrated Ethernet structure and internet technology for automation network without RISK
- PROFINET** – High performance and speed to process plants together with TCP/IP communication and real-time application
- PROFIBUS** – Greater plant availability and productivity, lower costs – with a comprehensive portfolio of components
- Industrial WLAN** – Reliable and failsafe plant-wide wireless infrastructure from simple wireless to high performance
- SIMATIC Identification Systems** – Automatic data acquisition with extensive portfolio of RFID & optical identification system

## (1) TH4.0 **CONNECT** Package

### Switches, cables and connector

- Use SIEMENS network components and improve stability and availability

#### **Bundle Content:**

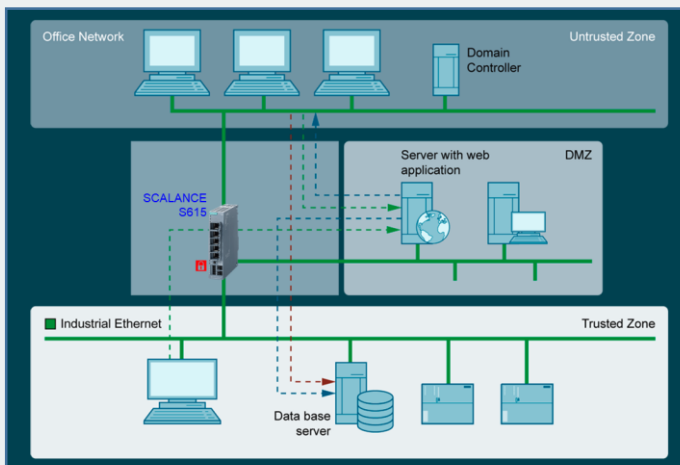

- 1x SCALANCE XC-206-2SFP
- 1x SCALANCE XC-108
- 2x SFP 1Gbit
- 1x C-Plug
- 10 units of ProfiNet Connectors (RJ45)
- 10 units of FO connector Incl. terminals

**SPECIAL OFFER**

## (2) TH4.0 **SECURE** Package

### Firewall and Professional Service

- Setup your DMZ zone with SCALANCE S and secure your Production Network

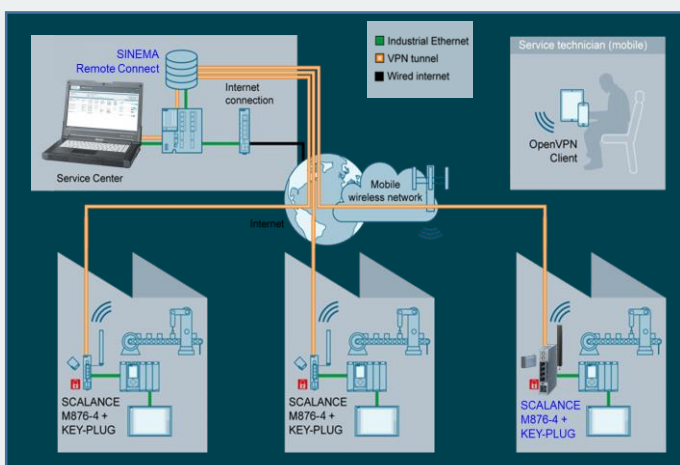

#### **Bundle Content:**

- 1x SCALANCE S 615 (Firewall)
- 1x C-Plug
- 2x RJ45 Lock
- 1 day professional services 8hrs (setup)

**SPECIAL OFFER**

## (3) TH4.0 **REMOTE** Package

### Secure Remote Connection and Access Via 4G network

#### **Bundle Content:**

- 1x SINEMA RC basic license (incl. 4x VPN & 1x Client)
- 4x SCALANCE M
- 4x Antenna
- 4x Antenna cable

**SPECIAL OFFER**
