

Training – Mechatronics Technician (f/m/d)

- **Qualification:** Certified by the German Chamber of Industry and Commerce
- **Duration:** 3½ years
- **Requirement:** Based on the requirements of the individual training site
- **Siemens Training Center:** Amberg, Bad Neustadt, Berlin, Bremen, Chemnitz, Erlangen, Frankfurt, Karlsruhe, Leipzig, Munich, Regensburg,

Contents

This training program provides comprehensive theoretical knowledge on subjects such as manufacturing components using different production methods and the programming of automation systems. This knowledge is applied in the commissioning and maintenance of mechatronic systems as well as in the use of modern technologies such as IT security and robotics in order to ensure practice-oriented training.
