

## Validity starting February 28th, 2025

Siemens products may be subject to various export control laws and regulations including the U.S. Export Administration Regulations (U.S. EAR), economic sanctions imposed by the U.S. Treasury Department, the EU export control and sanctions regime, and other applicable regimes. Siemens takes all measures necessary to comply with applicable export control laws and regulations.

Siemens classifies its products in accordance with the U.S. Export Administration Regulations (U.S. EAR), Annex I of the Regulation (EU) 2021/821 ("EU Dual-use Regulation"), and other applicable regulations.

In addition, Siemens also uses its own internal classification codes. These have the following meaning:

- ECCN = "N": Item which is "not subject to the EAR" (according to the EAR part 734) for delivery only to the country of ultimate destination and for use by the ultimate consignee or end-user(s) identified in the corresponding transaction.
- ECCN = "NA": Not considered an "item" under the EAR or an "item" not subject to the EAR.
- ECCN = "9N9999": Foreign Made Product (FMP) which is "not subject to the EAR" (according to the EAR part 734) because the applicable de minimis levels are not exceeded and the Direct Product Rules are not applicable only to the country of ultimate destination and for use by the ultimate consignee or end-user(s) identified in the corresponding transaction.
