# The Siemens Municipality Suite (Electrification)

## Power Generation / Renewables
- Grid connection s/s
- Power quality
- Electr. BoP
- Compact s/s

## Power Distribution
- Medium power transformers
- Large power transformers
- Distribution transformers
- Power-to-gas and battery solutions

## Water / Wastewater
- Outdoor systems
- AIS switchgear
- GIS switchgear

## Natural Gas Distribution
- Generator swgr
- AIS switchgear
- GIS switchgear

## District Heating / Cooling
- Medium-voltage switchgear
- Low-voltage equipment
- MCC
- Busbar systems
- Fuses
- Motor control centers (MCC)
- Air circuit breakers (ACB) and molded-case circuit breakers (MCCB)

## Street Lighting
- Low-voltage equipment
- MCC
- Busbar systems

## Transportation Infrastructure
- Power supply (turnkey) solutions
- Energy storage
- Transformers
- High-voltage switchgear
- Medium-voltage switchgear

## Product related and value added services
- Network analysis and consulting
- Installation and commissioning
- Repair, maintenance, monitoring and diagnostics
- Substation extension, refurbishment and modernization
- Service contracts, outsourcing of operation and maintenance (with or without performance KPIs)
