

Industrial Networks Education Recertification (Exam Re-take)

General Information

Course Code: IEN-EXAMSWROU
Length: 1- 2 Hours

Audience

This course is for anyone who has an existing Industrial Networks Certification that is due to expire, or is currently expired, and would like to recertify.

Prerequisites

- Must have an existing Industrial Networks certificate (Certified Professional in Industrial Networks (CPIN) holder)

Profile

The in-person test is designed to allow anyone with a nearing-expiration, or expired, CPIN to come to a proctored testing site in order to re-take the exam for recertification.

There are currently six CPIN designations, thus tests, that can be taken at this Recertification class.

Please indicate which test you would like to re-take, following registration, by emailing siemensci.us@siemens.com.

Objectives

Allow current or expired CPIN holders to recertify themselves and extend their certification for another 3 years.

Topics

Recertification Options and testing times.
