

# Parking space utilization

## Scenario

### Airport parking

Airports often have limited visibility into the number of available parking spaces and their locations

## Significance

### Revenue

Parking structures offer airports another revenue stream; in addition, when passengers cannot easily find open parking, it can lead to a frustrating airport experience

## Partner

### JAPA

Smart parking solution provides insight into airport parking inventory with access to occupancy data

## Integration

### JAPA + Desigo CC

Integration between JAPA and Desigo CC gives facilities managers insight into the number of spaces open, taken, and where parking is available for passengers

## Benefits

### Passenger satisfaction

Enhance passenger satisfaction with the airport parking experience while helping increase parking revenues
