Overhead charging

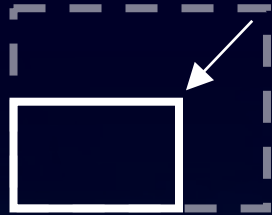

A word cloud of EV charging features on a dark blue background. The words are arranged in a circular pattern, with some larger and more prominent than others. The colors of the words range from light blue to dark blue, creating a gradient effect. The features listed include:

- Dynamic power allocation
- Detailed insights
- Certified metering
- Megawatt
- Reliability
- Small footprint
- Cable management
- High uptime
- Payment options
- Energy management
- High Power
- Redundancy
- More outlets
- Flexibility
- Low TCO
- Overhead charging
- Easy maintenance
- Preconditioning
- Plug & Charge
- Predictive maintenance

**Limited
space,
maximum
power**

**Limited footprint,
limited space claim**

**Back-back,
side-side placement**

**Long range
dispenser distance**

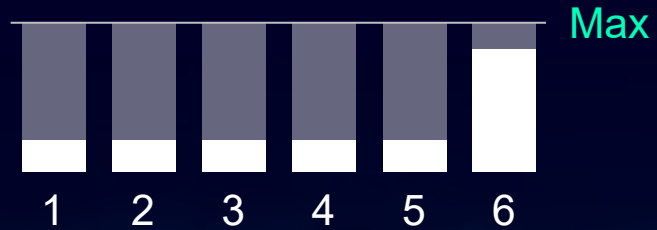

**Wide range
of power levels**

The right
power
to the right
outlet

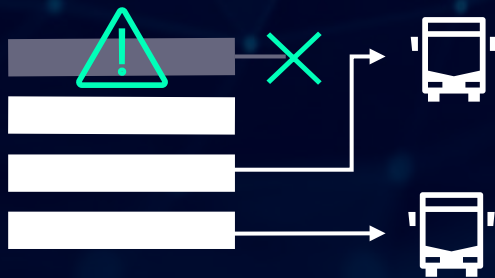

**All power to any
and all charge points**

**Optimized utilization
of installed power**

**In-system redundancy
ensures availability**

**Ultimate flexibility
in use-cases**

Charge
anywhere,
adapt
everywhere

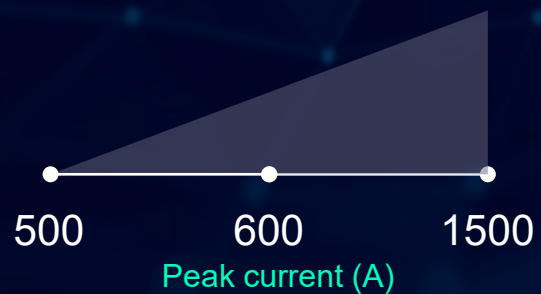

**Floor, wall
and gantry mounting**

**CCS (un)cooled,
MCS and pantograph support**

**Small size,
peak performance**

**Select options,
mix variants**

Maximum
insights,
full
control

Increase configurability

Customizable connectivity
Firmware management
Charger customization

Maximize availability

Real-time insights
Status notifications
Remote interventions

Enhance serviceability

Remote diagnostics
Event tracking & export
Remote monitoring

Enable energy optimization

Load management
Smart scheduling
Energy management
